Our robust operations allowed us to maintain the growth momentum and keep us on track to meet the FY23 distribution guidance of ₹ 13.20 per unit.

We welcome IRDAI's move to separate the investment limits for debt securities and units issued by InvITs/REITs as well as increasing the limit for debt instruments at single InvIT/REIT level. It will enable insurance companies to widen their exposure across InvITs as well as InvITs to expand their sources of borrowings and become more competitive in the infrastructure space.

Going forward, we will continue to focus on generating superior and sustainable returns for our investors on the back of our AAA rated balance sheet, resilient operations and accretive acquisitions. We remain optimistic about the growth potential of the power sector in India on the back of supportive regulatory push and envision sizeable growth opportunities in our AUM, while ensuring stability and predictability in the platform."
