	Marking of telecom alignment for proposal of PTCC clearance of proposed 400 KV DC (QUAD) Purnea to Bihar Sharif Transmission Line.	6/7/2012	Valid	Bharat Sanchar Nigam Limited
	Marking of Telecom Alignment for proposal of PTCC clearance proposed 400 KV D/C (Quad) Purnea - Biharsariff Transmission Line ENCIL.	11/5/2011	Valid	Bharat Sanchar Nigam Limited
11	**Energisation Clearances**			
	400 KV D/C Bongaigaon-Siliguri Transmission Line	5/11/2014	Valid	Central Electricity Authority
	400 KV D/C Quad purnea- Biharsharif Transmission Line	22/08/2013	Valid	Central Electricity Authority

11.9. ENICL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
12	**Approval under Electricity Act, 2003**			
	Approval from GOI under section 164 of Electricity Act, 2003	5/10/2011	25	Central Electricity Authority
	Approval u/s 68 of the Electricity Act, 2003 for laying overhead transmission line.	25/03/2009	Valid	Ministry of Power
	Approval u/s 61,63 & 79 of Electricity Act, 2003	13/09/2017	Valid	Central Electricity Regulatory Commission
	Approval u/s17 (3) and (4) of Electricity Act,2003	3/14/2016	Valid	Central Electricity Regulatory Commission
13	**Defence Clearance**			
	NOC for 400 KV D/C (Quad) TXN Line from purnea to Bihar Shariff by M/s. ENICL.	13/06/2013	Valid	Ministry of Defence
14	**Approval for adoption of Tariff**			
	Approval for adoption of Tariff	28/10/2010	25	Central Electricity Regulatory Commission
15	**Trial Run Certificate**			
	400 KV Binaguri-Bongoigaon	12/12/2014	Valid	Power System Operation Corporation Limited
	400 KV Purnea-Biharsarif	1/10/2013	Valid	Power System Operation Corporation Limited

11.10. GPTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	**Tree cutting and Forest Clearance**			
	Aligarh-Prithala Transmission Line in District of Palwal - Stage I	25-Jun-19	Valid	Forest Department, Government of Haryana
	Aligarh-Prithala Transmission Line in District of Palwal - Stage II	5-Aug-19	Valid	Forest Department, Government of Haryana
	Aligarh-Prithala Transmission Line in District of Palwal - Stage I	2-Nov-17	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Aligarh-Prithala Transmission Line in District of Palwal - Stage II	28-May-18	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	765KV Double Circuit Dharamjayagarh to Jabalpur Transmission Line- 09/DND/POW/2012-114	11-Apr-18	Valid	Forest Department, Government of Haryana
	Aligarh-Prithala Transmission Line (Uttar Pradesh) - Stage I	19-Mar-18	Valid	Ministry of Environment, Forests & Climate Changes, UP
	Aligarh-Prithala Transmission Line (Uttar Pradesh) - Stage II	30-Aug-18	Valid	Ministry of Environment, Forests & Climate Changes, UP
	Kadarpur-Sohna Transmission Line in District of Gurugram - Stage I	13-Aug-18	Valid	Ministry of Environment, Forests & Climate
	Kadarpur-Sohna Transmission Line in District of Gurugram - Stage II	11-Oct-18	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Kadarpur-Sohna Transmission Line in District of Gurugram - Tree Cutting Permission	28-Sep-18	Valid	Forest Department, Government of Haryana
	Neemrana-Dhanonda Transmission Line in Districts of Rewari and Mahendergarh - Stage I	16-May-17	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Neemrana-Dhanonda Transmission Line in Districts of Rewari and Mahendergarh - Stage II	12-Sep-17	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Neemrana-Dhanonda Transmission Line in Districts of Rewari and Mahendergarh - Tree Cutting Permission	27-Oct-17	Valid	Forest Department, Government of Haryana
	Neemrana-Dhanonda Transmission Line in Districts of Alwar - Stage I	26-Sep-17	Valid	Ministry of Environment, Forests & Climate Changes, Rajasthan
	Neemrana-Dhanonda Transmission Line in Districts of Alwar - Stage II	27-Jun-18	Valid	Ministry of Environment, Forests & Climate Changes, Rajasthan
	Neemrana-Dhanonda Transmission Line in Districts of Alwar - Tree Cutting Permission	17-Apr-18	valid	HoFF, Rajasthan
	Prithala-Kadarpur Transmission Line in Districts of Gurugram and Palwal - Stage I	13-Aug-18	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Prithala-Kadarpur Transmission Line in Districts of Gurugram and Palwal - Stage II	3-Oct-18	Valid	Ministry of Environment, Forests & Climate Changes, Haryana
	Prithala-Kadarpur Transmission Line in Districts of Gurugram and Palwal - Tree Cutting Permission	19-Sep-18	Valid	Forest Department, Government of Haryana
2	**Transfer of Forest Land - Compliance of The SC and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006**			
	Aligarh-Prithala Transmission Line in District of Palwal			
	- UP	22-Feb-19	Valid	Office of District Collector, Aligarh
	Neemrana-Dhanonda Transmission Line in District of Rewari	22-Nov-16	Valid	Office of District Collector, Rewari
	Neemrana-Dhanonda Transmission Line in District of Alwar	19-Apr-17	Valid	Office of District Collector, Alwar

11.10. GPTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
3	**Power & Telecommunication Coordination Committee ("PTCC") Clearance**			
	Aligarh- Prathala TL	26-Sep-18	Valid	PTCC, Government of India
	Kadarpur - Sohna TL	12-Dec-18	Valid	PTCC, Government of India
	Gurgaon - Manesar TL (LILO)	29-Jan-19	Valid	PTCC, Government of India
	Neemrana - Dhanonda TL	20-Dec-17	Valid	PTCC, Government of India
	Prithala to Kadarpur TL	28-Dec-18	Valid	PTCC, Government of India
4	**Railway Crossing**			
	400 KV D/C transmission line between railway station Asouti to Palwal on DLI-PWL section at T.P. No. 148/11 & 13	9-Aug-18	Valid	Northern Railway
	400 KV D/C OH power line track crossing at KM 119/0-2 between Kannina Khas - Gurha Khemla stations on Rewari - Sadulpur section of Bikaner division	29-Aug-17	Valid	North western railway
	Permission for starting work of 400 kv overhead power line track crossing at KM 25/0-1 between KTWS-KUND railway station in RPC section	13-Dec-17	Valid	North western railway
	NOC for crossing the DFC Railway Track/land by 400 kv DC Prithla to Kadarpur overhead Electric Transmission line of GPTL, in district Palwal, at DFC chainage 86642	19-Sep-18	Valid	Ministry of railway
	PTCC route approval : Neemrana - Dhanoda TL	1-Dec-17	Valid	North western railway
5	**Road Crossing**			
	NOC for crossing of new 400 KV D/C Twin HTLS Aligarh to Prithala Transmission line awarded to GPTL with EPE Alignment at village Sujwadi.	18-May-18	Valid	National Highway Authority of India
	Contruction of 400kv D/C Twin HTLS Aligarh -Prithala TL : Regarding issuance of NOC	24-Sep-18	Valid	Yamuna Expressway Industrial Development Authority
	Contruction of 400kv D/C Twin HTLS Kadarpur- Sohna road TL : Submission of crossing proposals	30-Jan-19	Valid	National Highway Authority of India
	Permission for crossing of 400kv D/C twin HTLS TL at km 13.230 on NH 248A, Kadarpur- Sohna road TL	10-Jan-19	Valid	Ministry of Road Transport & Highways
	Contruction of 400kv D/C Twin HTLS Neemrana - Dhanuda TL : Submission of crossing proposals	15-May-17	Valid	Public works department Haryana (Building and Roads) division Rewari
	Contruction of 400kv D/C Twin HTLS Neemrana - Dhanuda TL : Submission of crossing proposals	31-Jan-17	Valid	Haryana Public Works Department (Building & Roads) Branch
	Permission for crossing of 400kv D/C twin HTLS TL at km 53.100 on NH-2 Prithala to Kadadrpur TL	10-Jan-19	Valid	Ministry of Road Transport & Highways

11.10. GPTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
6	**Power Line Crossing**			
	Twin HLTS Aligarh- Prathala TL between Tower No.- 918-919 of existing 400 KV, D/C, Kanpur- Ballabgarh TL of Powergrid	17-Aug-17	Valid	Powergrid Corporation of India Limited
	Twin HLTS Aligarh- Prathala TL between Tower No.- 952-953 of existing 400 KV, D/C, Kanpur- Ballabgarh TL of Powergrid	22-Oct-18	Valid	Powergrid Corporation of India Limited
	Twin HLTS Aligarh- Prathala TL between Tower No.- 579-580 of existing 400 KV, D/C, Mainpuri - Ballabgarh TL of Powergrid	17-Aug-17	Valid	Powergrid Corporation of India Limited
	Kadrour - Sohna Road tl over 400 kv D/C LILO line (400 kv S/C Bhiwadi - Gurgaon & 400kv S/C Ballabgarh - Gurgaon line)	21-Sep-18	Valid	Powergrid Corporation of India Limited
	Approval for crossing 400kv D/C Neemrana -Dhanuda kine under 400kv S/C Bhiwadi-Kotputli & Bhiwadi- Hisar line-1 in LILO portion.	5-Jun-17	Valid	Powergrid Corporation of India Limited
	Approval for crossing 400kv D/C Neemrana -Dhanuda kine under 400kv D/C Neemrana- Sikar TL.	19-Jun-17	Valid	Powergrid Corporation of India Limited
	Twin HTLS Prithala to Kadarpur TL between Tower 448-449 of existing 400kv S/C, Agra- Ballabgarh TL of Powergrid	21-May-18	Valid	Powergrid Corporation of India Limited
7	**Overhead Crossing of Rajasthan Rajya Vidyut Prasaran Nigam Limited**			
	NOC regarding crossing of 400kv D/C Twinn HTLS Nemmrana- Dhanuda TL to Mandhan- Jakhrana line	5-Jun-17	Valid	Rjasthan Rajya Vidyut Prasaran Nigam Limited
	NOC regarding crossing of 132kv D/C Nemmrana- Shahjhanpur TL by proposed dead end-1 Tower to AP-1 400kv D/C Nemmrana (PGCIL) - Dhanuda (HVPNL) TL between tpwer 22-23	18-Jul-18	Valid	Rjasthan Rajya Vidyut Prasaran Nigam Limited
	NOC regarding crossing of 220kv S/C MIA - Badarpur line proposed 400kv D/C Twin HTLS Prithala to Kadarpur line between tower 125-126.	7-Mar-18	Valid	Rjasthan Rajya Vidyut Prasaran Nigam Limited
8	**Overhead Crossing Haryana Vidyut Prasaran Nigam Limited ("HVPNL") Power lines**			
	Neemrana- Dhanonda line AP44-AP45, AP46-AP47, AP47-AP48, AP48-AP49	19-Sep-17	Valid	Haryana Vidyut Prasaran Nigam Limited
	Neemrana- Dhanonda line - AP-42 & AP-43	13-Oct-17	Valid	Haryana Vidyut Prasaran Nigam Limited
	220lv D/C Samaypur -Meghpur line by proposed 400kv D/C twin HTLS Prithla - Kadarpur - Sohna Line of M/s Gurgaon Palwal TL	20-Sep-18	Valid	Haryana Vidyut Prasaran Nigam Limited
9	Load sanction of 315 KW and CD 350 applied vide A&A online no.F-42-419-365 dated	11-Jun-19	NA	Dakshin Haryana Bijli Vitran Nigam

11.10. GPTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
10	Transmission License	23-Nov-16	25	Central Electricity Authority, Ministry of Power
11	Application u/s 63 of Electricity Act, 2003 for adoption of transmission charges with respect to the transmission system established by GPTL.	6-Sep-16	Valid	Central Electricity Regulatory Commission
12	Approval under section 68 of Electricity Act, 2003	26-Nov-15	25	Central Electricity Authority, Ministry of Power
13	Approval u/s 164 of Electricty Act, 2003 for new 400 KV TL by GPTL	28-Mar-17	25	Central Electricity Authority, Ministry of Power
14	**Approval for Energisation under regulation 43 of CEA Regulations, 2010***			
	Dhanoda Substation of HVPNL	2-May-18	Valid	Central Electricity Authority, Regional Inspectorial Orgnanization (North)
	Neemrana - Dhanonda transmission line	26-Dec-18	Valid	Central Electricity Authority, Regional Inspectorial Orgnanization (North)
	GIS Substation at Prithala	31-Jul-19	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	Aligarh - Prithala Transmission line	29-Jul-19	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	GIS Substation at Kadarpur	27-Nov-19	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	Prithala - Kadarpur Transmission line	27-Nov-19	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	Kadarpur - Sohana Transmission line	9-Mar-20	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	GIS Substation at Sohana Road	9-Mar-20	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
	Provisional approval for Gurgaon - Manesar Transmission line till 30 April 2020	4-Apr-20	Valid	Central Electricity Authority, Chief Electrical Inspectorate Division
15	**Certificate of Completion of Trial Run Operation**			
	- Completion of trial run of 400KV, 125 MVAR Bus Reactor at Prithala	16-Dec-19	Valid	Power System Corporation Ltd.
	- First time charging of 400 KV Aligarh-Prithala lines	16-Dec-19	Valid	Power System Corporation Ltd.
	- Completion of trial run of 400KV, 125 MVAR Bus Reactor at Kadarpur	1-Jan-20	Valid	Power System Corporation Ltd.
	- First time charging of 400 KV Prithala-Kadarpur lines	24-Dec-19	Valid	Power System Corporation Ltd.
	- Completion of trial run of Neemrana - Dhanoda TL	24-Apr-19	Valid	Power System Corporation Ltd.
	- Completion of trial run of LILO Line	30-Mar-20	Valid	Power System Corporation Ltd.

11.10. GPTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
16	**Aviation Clearance**			
	NOC for Height Clearance - AP Line (6 different NOCs)	4-Sep-18	Valid	Airports Authority of India
	NOC for Height Clearance - KS Line (2 different NOCs)	4-Sep-18	Valid	Airports Authority of India
	NOC for Height Clearance - LILO Line	4-Sep-18	Valid	Airports Authority of India
	NOC for Height Clearance - ND Line	16-Aug-17	Valid	Airports Authority of India
	NOC for Height Clearance - PK Line (4 different NOCs)	28-Aug-18	Valid	Airports Authority of India
17	**Defence Clearance**			
	NOC for Installation/ Construction - AP Line	20-Dec-17	Valid	Ministry of Defence - Air Force Station Hindan
	NOC for Installation/ Construction - KS Line	10-Jul-18	Valid	Ministry of Defence - Air Force Station Hindan
	NOC for Installation/ Construction - Sohana LILO Line	10-Jul-18	Valid	Ministry of Defence -Air Force Station Hindan
	NOC for Installation/ Construction - ND Line	7-Dec-17	Valid	Ministry of Defence - Air Force Station Hindan
	NOC for Installation/ Construction - PK Line	29-Aug-18	Valid	Ministry of Defence - Air Force Station Hindan

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Transmission License	27-Jul-17	25	Central Electricity Regulatory Commission
2	**Transmission Service Agreement**			
	Transmission Service Agreement between NERTL & Long Term Transmission Customers	27-Dec-16	Valid	
	Transmission Service Agreement between NERTL & Central Transmission Utility	15-Nov-17	Valid	
3	Connectivity permission	22-Oct-20	Valid	Power Grid Corporation of India Limited
4	Registration of NERTL as user under NERLDC	17-Mar-20	Valid	Power System Operation Corporation Limited
5	Share Purchase Agreement between RECTPCL, NERTL and SGL 4	31-Mar-17	Valid	
6	**Approval for Adoption of Tariff**			
	Tariff Adoption Order	12-Jun-17	Valid	Central Electricity Regulatory Commission
7	**Approvals under Electricity Act, 2003**			
	Approval under section 68(1) of Electricity Act, 2003	7-Feb-17	Valid	Ministry of Power, Government of India
	Approval from GOI under section 164 of Electricity Act, 2003 - Under Gazette of India	31-Aug-18	25	Ministry of Power, Government of India
8	**Energisation Clearance**			
	Approval for Energisation of 400/132 kV P.K Bari substation under regulation 43 of CEA	16-Mar-23	Valid	Central Electricity Authority, Ministry of Power, GOI
	Approval for Energisation of 2 nos. of 132 kV line bays at AGTPP Switchyard under regulation 43 of CEA	16-Mar-23	Valid	Central Electricity Authority, Ministry of Power, GOI
	Approval for Energisation of 400/132 kV Surajmaninagar substation under regulation 43 of CEA	16-Mar-23	Valid	Central Electricity Authority, Ministry of Power, GOI
	Approval for Energisation of 2 nos. of 132 kV line bays at P.K Bari substation under regulation 43 of CEA	16-Mar-23	Valid	Central Electricity Authority, Ministry of Power, GOI
9	**Defence Clearance**			
	NOC from aviation angle for construction of 132 kV D/C Bishwanath Chariali Itanagar Transmission line and Lilo of Bishwanath Chariali to Gohpur by NERTL	29-Apr-19	Valid	Air HQ, Ministry of Defence
	NOC from aviation angle for construction of 132 kV D/C AGTPP (NEEPCO) to P.K Bari and 400 kV D/C Surajmaninagar to P.K Bari Transmission line on multi circuit towers under NERTL	22-May-19	Valid	Air HQ, Ministry of Defence
	NOC from aviation angle for construction of 400 kV D/C (Quad) Silchar Misa Transmission line by NERTL	19-Feb-19	Valid	Air HQ, Ministry of Defence

11.11. NERTL: Approval & Licenses Summary

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
11	**Power & Telecommunication Coordination Committee ("PTCC") Clearance**			
	Approval to the route of 132 kV Biswanath Chariali - Itanagar D/C transmission line	11-Nov-19	Valid	Power & Telecom Co-ordination Committee, GOI
	Approval to the route of 132 kV Lilo to Gohpur substation from Biswanath Chariali - I	11-Nov-19	Valid	Power & Telecom Co-ordination Committee, GOI
	Approval to the route of 132 kV D/C transmission line of AGTPP (NEEPCO) - P.K Bari	20-Sep-18	Valid	Power & Telecom Co-ordination Committee, GOI
	Approval to the route of 132 kV D/C Surajmaninagar - P.K Bari transmission line	13-Feb-19	Valid	Power & Telecom Co-ordination Committee, GOI
	Approval to the route of 400 KV D/C (Quad) Silchar Misa transmission line	24-Jun-19	Valid	Power & Telecom Co-ordination Committee, GOI
12	**Power Line Crossing**			
	Approval for power line crossing of 132 kV B.Chariali-Itanagar transmission line at existing 132 kV Sonabil-Gohpur D/C transmission line	28-Sep-18	Valid	Assam Electricity Grid Corporation Limited
	Approval for power line under crossing of existing 400 kV D/C Ranganadi-Biswanath Chariali transmission line in between AP 182 & 183 and AP 255 & 256	31-Dec-18	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing for construction of 132 kV D/C NEEPCO-P.K Bari transmission line	12-Sep-18	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing of up-coming 132 kV D/C NEEPCO-P.K Bari line of NERTL above existing 132 kV S/C Kumarghat-RC Nagar line of Powergrid	14-Sep-19	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing for construction of 132 kV D/C NEEPCO-P.K Bari transmission line	14-May-18	Valid	Tripura State Electricity Corporation Limited
	Approval for crossing of 400 kV D/C Surajmaninagar - P.K Bari transmission line	5-Jun-18	Valid	Tripura State Electricity Corporation Limited
	Approval of power line crossing for construction of 400 kV D/C Surajmaninagar - P.K Bari transmission line	25-Jun-18	Valid	Power Grid Corporation of India Limited
	Approval of power line crossing for construction of 132/400 kV M/C NEEPCO(AGTPP) & Surajmaninagar - P.K Bari transmission line	23-Aug-18	Valid	Tripura State Electricity Corporation Limited
	Approval of power line crossing of 132 kV S/C Ambassa-Kamalpur transmission line for construction of 132/400 kV M/C NEEPCO(AGTPP) & Surajmaninagar - P.K Bari transmission line	31-May-18	Valid	Tripura State Electricity Corporation Limited
	Confirmation regarding overhead power line crossing over existing 132 kV S/C Badarpur-Jiribam tranmission line	3-Jan-19	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing over existing 132 kV S/C Badarpur-Jiribam transmission line by proposed 400 kV D/C Silchar-Misa transmission line	27-Dec-19	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing of 400 kV D/C (Quad) Silchar-Misa transmission line with 400 kV D/C Palatana-Silchar and 400 kV D/C Silchar-Bongaigaon	22-Feb-19	Valid	North East Transmission Company Limited (NETC)

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
12	**Power Line Crossing (contd.)**			
	Approval of placement of dead end tower of proposed Silchar-Misa line at Silchar substation end and power line crossing of 400 kV D/C Silchar-Misa transmission line	11-Oct-19	Valid	Power Grid Corporation of India Limited
	Confirmation of High tension power line crossing over the existing 132 kV Haflong-Jiribam transmission line by 400 kV D/C Silchar-Misa transmission line	3-Mar-18	Valid	Power Grid Corporation of India Limited
	Approval of under power line crossing of 132 kV D/C Silchar-Hailakandi line by proposed 400 kV D/C Silchar-Misa transmission line	30-Sep-19	Valid	Power Grid Corporation of India Limited
	Approval for line crossing of 132 kV D/C Samaguri-Lanka line by 400 kV D/C Silchar-Misa transmission line	27-Sep-18	Valid	Assam Electricity Grid Corporation Limited
	Approval for overhead power line crossing of 400 kV D/C Silchar-Misa transmission line with Powergrid lines	30-Sep-19	Valid	Power Grid Corporation of India Limited
	Approval for overhead power line crossing of 400 kV D/C Silchar-Misa transmission line and Termination Arrangement at Misa substation	5-Sep-19	Valid	Power Grid Corporation of India Limited
	Approval for line crossing of 400 kV D/C Silchar-Mehleriat line of Powergrid by proposed 400 kV D/C Silchar-Misa transmission	15-Nov-19	Valid	Power Grid Corporation of India Limited
	Approval for power line crossing of 400 KV D/C Silchar-Misa line with 132 kV S/C Panchgram-Srikona Line	6-Oct-18	Valid	Assam Electricity Grid Corporation Limited
	Confirmation for construction of DD type tower of 400 kV D/C Silchar-Misa line over 132 kV S/C Jiribam-Haflong line	13-Jul-18	Valid	Power Grid Corporation of India Limited
	Approval for overhead power line crossing of 400 kV D/C Silchar-Misa transmission line with Kopili-Misa Powergrid lines	19-Dec-18	Valid	Power Grid Corporation of India Limited
	Approval of under power line crossing of 400 kV D/C Silchar-P.K Bari line by proposed 400 kV D/C Silchar-Misa transmission line	3-Oct-19	Valid	Power Grid Corporation of India Limited
	Confirmation for construction of DD type tower of 400 kV D/C Silchar-Misa line over 132 kV S/C Khandong-Haflong line	10-Jul-18	Valid	Power Grid Corporation of India Limited
	Permission for crossing 400 kV D/C Silchar-Misa transmission line	20-Aug-18	Valid	Office of Executive Engineer, P.W.D NH Division, Silchar, Government of Assam

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
13	**Road Crossing**			
	Approval for NH-15 crossing of 132 kV D/C transmission line from Biswanath Chariali to Itanagar	14-Nov-18	Valid	National Highways & Infrastructure Development Corporation Ltd.
	Permission for crossing of 132 kV D/C transmission line	4-Aug-18	Valid	Naharlagun Highway Division, Government of Arunachal Pradesh
	NOC of NH-08 (44) road crossing by 400 kV D/C Surajmaninagar-P.K Bari transmissio	28-Aug-18	Valid	Agartala National Highway Division, Government of Tripura
	NH-37, near village Hathirhat, District Cachar	20-Aug-18	Valid	Silchar National Highway Division, Government of Assam
	NH-54, Silchar to Balachera section, State of Assam	20-Mar-18	Valid	National Highway Authority of India
	NH-54, Jatinga to Harangajao section, State of Assam	17-Jul-18	Valid	National Highway Authority of India
	NOC of NH-27 for construction of 400 kV D/C Silchar-Misa transmission line	30-Oct-18	Valid	National Highway Authority of India
	NH-54, near village Bororampur, District Cachar	20-Mar-18	Valid	National Highway Authority of India
14	**Substations Approval**			
	Approval of Building Plan of 400/132 kV substation at Purbanagon, West Tripura	14-Aug-20	Valid	Agartala Municipal Corporation
	NOC for construction of Bore Well for 400 kV P.K Bari substation at Masauli	29-Nov-19	Valid	Office of Executive Engineer, Government of Tripura
	NOC for construction of Bore Well for 400 kV substation at East Naogaon (named new Surajmaninagar)	6-May-20	Valid	Office of Sub-Divisional Officer, Government of Tripura
15	**Railway Crossing**			
	Permission for OH Electrical track crossing of 132 kV D/C between Bishwanath Charali - Monabari Railway Stations	22-Aug-19	10	Northeast Frontier Railway, Rangiya Divisional office
	Agreement for erecting and maintaining an overhead power line crossing over and across railway lines entered into between NERTL and Divisional Railway Manager (Engineering) in respect of the Bishwanath Chariali to Itanagar and associated Gohpur LILO Line.	21-Aug-19	Valid	Northeast Frontier Railway, Rangiya Divisional office
	Agreement for erecting and maintaining an overhead power line crossing over and across railway lines entered into between NERTL and Divisional Railway Manager (Engineering) in respect of the Bishwanath Chariali to Itanagar and associated Gohpur LILO Line.	16-Aug-19	Valid	Northeast Frontier Railway, Rangiya Divisional office
	Permission for overhead railway track crossing between Jogendranagar - Jirania	3-Dec-18	10	Northeast Frontier Railway, Lumding Divisional office
	Agreement for above 220kV and upto 440kV transmission line overhead railway track crossing between Jogendranagar and Jirania	3-Dec-18	Valid	Northeast Frontier Railway, Lumding Divisional office

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
15	**Railway Crossing (contd.)**			
	Permission for execution of 400 kV overhead power line crossing between Jogendranagar - Jirania	3-Apr-19	Valid	Northeast Frontier Railway, Lumding Divisional office
	Agreement for erecting and maintaining an overhead power line crossing over and across railway tracks in respect of Surajmaninagar-P.K Bari transmission line	3-Apr-19	Valid	Northeast Frontier Railway, Lumding Divisional office
	Permission for overhead railway track crossing between Salchapra - Arunachal	3-Apr-19	10	Northeast Frontier Railway, Lumding Divisional office
	Agreement for above 220kV and upto 440kV transmission line overhead railway track crossing between Salchapra and Arunachal	3-Apr-19	Valid	Northeast Frontier Railway, Lumding Divisional office
	Permission for overhead railway track crossing between Ditokchera - New Harangajac	3-Apr-19	10	Northeast Frontier Railway, Lumding Divisional office
	Agreement for crossing above 220kV and upto 440kV transmission line overhead railway track crossing between Ditokchera and New Harangajao	3-Apr-19	Valid	Northeast Frontier Railway, Lumding Divisional office
	Permission for overhead railway track crossing between Abandoned Harangajao - Ditc	3-Apr-19	10	Northeast Frontier Railway, Lumding Divisional office
	Agreement for crossing above 220kV and upto 440kV transmission line overhead railway track crossing between Abandoned Harangajao and Ditokchera	3-Apr-19	Valid	Northeast Frontier Railway, Lumding Divisional office
	Permission for overhead railway track crossing between Jamunamukh - Jugijan	24-Jan-19	10	Northeast Frontier Railway, Lumding Divisional office
	Agreement for crossing above 220kV and upto 440kV transmission line overhead railway track crossing between Jamunamukh and Jugijan	23-Jan-19	Valid	Northeast Frontier Railway, Lumding Divisional office
16	**Diversion of Forest Land/ Permission for felling of trees**			
	Diversion of Forest land in favour of NERTL for construction of 132 kV D/C Neepco (AGTP) to P.K Bari (TSECL) transmission line - Stage I Clearance	12-Oct-18	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 132 kV D/C Neepco (AGTP) to P.K Bari (TSECL) transmission line - Stage II Clearance	19-Jun-19 12-Jul-19	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 132 kV D/C Biswanath Chariali to Itanagar transmission line with Lilo of one Circuit - Stage I Clearance	12-Oct-18	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 132 kV D/C Biswanath Chariali to Itanagar transmission line - Stage I Clearance	23-Sep-19	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 132 kV D/C Biswanath Chariali to Itanagar transmission line - Stage II Clearance	28-May-20	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 400 kV D/C Multi Circuit Surajmani Nagar to P.K Bari transmission line - Stage I Clearance	21-Jan-19	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 400 kV D/C Multi Circuit Surajmani Nagar to P.K Bari transmission line - Stage II Clearance	20-May-19 9-Jul-19	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 400 kV D/C Silchar to Misa transmission line - Stage I Clearance	29-Aug-18	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of NERTL for construction of 400 kV D/C Silchar to Misa transmission line a part near Misa substation - Stage I Clearance	6-Jun-19	Valid	Ministry of Environment & Forest, GOI

11.11. NERTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
16	**Diversion of Forest Land/ Permission for felling of trees (contd.)**			
	Working permission for felling of trees in favour of NERTL for construction of 132 kV D/C Biswanath Chariali to Itanagar transmission line	7-Feb-19	Valid	Environment and Forest Department, Government of Assam
	Working permission for felling of trees in favour of NERTL for construction of 132 kV D/C AGTPP (NEEPCO) to P.K Bari (TSECL) transmission line	5-Jan-19	Valid	Office of Principal Chief Conservator of Forests Tripura, Government of Tripura
	Working permission for felling of trees in favour of NERTL for construction of 400 kV D/C Multi Circuit Surajmani Nagar to P.K Bari transmission line	2-May-19	Valid	Office of Principal Chief Conservator of Forests Tripura, Government of Tripura
	Working permission for felling of trees in favour of NERTL for construction of 400 kV D/C Silchar to Misa transmission line	4-Dec-19	Valid	Office of Principal Chief Conservator of Forests and Head of Forest Force, Government of Assam
	Working permission for felling of trees in favour of NERTL for construction of 400 kV D/C Silchar to Misa transmission line	6-Oct-18	Valid	Environment and Forest Department, Government of Assam
	Working permission for felling of trees in favour of NERTL for construction of 132 kV D/C Biswanath Chariali to Itanagar transmission line	6-Nov-19	Valid	Department of Environment & Forests Itanagar, Government of Anurachal Pradesh
17	**Forest Rights Certificate**			
	Certificate issued in respect of Surajmaninagar to P.K Bari transmission line	27-Jun-18	Valid	Office of District Magistrate and Collector, West Tripura, Government of Tripura
	Certificate issued in respect of Surajmaninagar to P.K Bari transmission line	26-Jun-18	Valid	District Magistrate and Collector, Dhalai District, Jawaharnagar, Government of Tripura
	Certificate issued in respect of Surajmaninagar to P.K Bari transmission line	20-Aug-18	Valid	District Magistrate and Collector, Khowai District, Tripura, Government of Tripura
	Certificate issued in respect of Biswanath Chariali to Itanagar transmission line	13-Dec-17	Valid	Office of Deputy Commissioner, Biswanath, Government of Assam
	Certificate issued in respect of Biswanath Chariali to Itanagar transmission line	6-Aug-19	Valid	Office of the District Land Revenue and Settlement Officer, Yupia District, Government of Arunachal Pradesh
	Certificate issued in respect of NEEPCO (AGTPP) to P.K Bari transmission line	26-Jun-18	Valid	Office of District Magistrate and Collector, West Tripura, Government of Tripura
	Certificate issued in respect of Silchar to Misa transmission line	22-Nov-18	Valid	Office of Deputy Commissioner, Hojai, Sankardev Nagar, Government of Assam
	Certificate issued in respect of Silchar to Misa transmission line	23-Nov-17	Valid	Office of Deputy Commissioner, West Karbi Anglong Harmen, Government of Assam
	Certificate issued in respect of Silchar to Misa transmission line	21-Sep-17	Valid	Principal Secretary, North Cachar Hills Autonomous Council, Dima Hasao District, Haflong
	Certificate issued in respect of Silchar to Misa transmission line	17-Nov-17	Valid	Office of Deputy Commissioner, Hojai, Sankardev Nagar, Government of Assam
18	Commercial operation date related approvals for : (i) Biswanath Chariyalli (Powergrid) – Itanagar Line ; (ii) LILO of one circuit of Biswanath Chariyali (Powergrid)- Itanagar line at Gohpur (AEGCL); and (iii) Line bays at Itanagar for terminating the Biswanath Chariyalli (Powergrid) – Itanagar line of the NERTL Project.	10-May-21	Valid	Power System Operation Corporation Limited

11.12. RSTCPL: Approval & Licenses Summary

Sr. No.	Approvals	Date of issue	Validity (in years)	Issuing Authority
1	Transmission license	24-Aug-11	25	Central Electricity Regulatory Commission
2	**Transmission Service Agreement**			
	Transmission Service Agreement between RSTCPL and Long Term Transmission Customers	4-Aug-10	35	
	Transmission Service Agreement between RSTCPL and Central Transmission Utility	28-Aug-14		
3	**Energisation Clearance**			
	Approval for Energisation of 765 Kv line under regulation 43 of CEA	29-Jun-14	NA	Central Electricity Authority, Ministry of Power,GOI
4	Approval of Power Line Crossing	16-Aug-13		Executive Engineer, Major Works Division, KPTCL, Gulbarga
5	Registration of RSTCPL as user under WRLDC & SLRDC	24-Jul-14	Valid	Power System Operation Corporation Limited
6	**Approval for Adoption of Tariff**			
	Tariff Adoption Order	12-Aug-11	Valid	Central Electricity Regulatory Commission
7	**Approvals Under Electricity Act,2003**			
	Initial Electrical Inspection Report u/s 53 of the Electricity Act,2003	20-Dec-17	Valid	Central Electricity Authority, Ministry of Power,GOI
	Approval from GOI under section 164 of Electricity Act,2003 - Under Gazette of India	24-Nov-11	25	Ministry of Power, GOI
8	**Civil Aviation Clearance**			
	NOC from Aviation Authority of India to the proposed 765 Kv Raichur- Sholapur Transmission Line	27-Jun-14	Valid	Airports Authority of India
9	**Railway Crossing**			
	Inspection of 765 Kv cable crossing located between stations NGS & BOT	20-Jun-14	Valid	Senior Engineer, Central Railway,Solapur
10	**Bhima River Crossing**			
	Permission of 765 Kv Overhead Power line to cross through the Bhima River	25-Jul-13	Valid	RSTCL, CEA, New Delhi
11	**PTCC Clearance**			
	Approval to the 765 Kv Raichur- Sholapur Transmission Line	27-Aug-14	Valid	Power & Telecom Co-ordination Committee, GOI
12	**Road Crossing**			
	NOC for crossing National Highway No.218 from Jewargi Side	16-Mar-13	Valid	National Highway & Infrastructure Development Corporation Ltd.
	NOC for crossing National Highway No.218 from Gulbarga	1-Mar-13	Valid	National Highway & Infrastructure Development Corporation Ltd.

11.13. KhTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Company Registration	28-Nov-15	Valid	Ministry of Corporate Affairs
2	Transmission License	17/Nov/16	25	Central Electricity Regulatory Commission
3	Approval under section 68 of Electricity Act, 2003	2/Feb/16	Valid	Ministry of Power
4	Approval from GOI under section 164 of Electricity Act, 2003	3/Jul/17	25	Ministry of Power
5	Approval from CERC under section 17(3)	13/Jul/17	Valid	Central Electricity Regulatory Commission
6	Approval from GOI under section 164 of Electricity Act, 2003	8/Jun/22	25	CEA
7	Transmission License, pending before CERC	18/Nov/22	Valid	Central Electricity Regulatory Commission
8	**Forest Clearance**			
	Approval for 0.828 Hectare of forest land proposed to be diverted in favour of khargone transmission limited for Construction of 400 kV D/C Quad Khargone TPP-Khandwa pooling transmission line	11/Jan/17	Valid	Collector, Khargone, Madhya Pradesh
	Approval for 3.956 Hectare of forest land proposed to be diverted in favour of khargone transmission limited for Construction of 400 kV D/C Twin Khargone-Khargone TPP LILO Transmission Line	11/Jan/17	Valid	Collector, Khargone, Madhya Pradesh
	Approval for 11.866 Hectare of forest land proposed to be diverted in favour of khargone transmission limited, for construction of 765 kV D/C Hexa Khandwa-dhule Transmission line	11/Jan/17	Valid	Collector, Khargone, Madhya Pradesh
	Approval for 40.233 Hectare of forest land proposed to be diverted in favour of khargone transmission limited, for construction of 765 kV D/C Hexa Khandwa-dhule Transmission line	11/Jan/17	Valid	Collector, Khargone, Madhya Pradesh
	Approval for 72.449 Hectare of forest land proposed to be diverted in favour of khargone transmission limited, for laying 765 kV D/C hexa Khandwa - Indore Transmission line	3/Feb/17	Valid	Collector, Indore, Madhya Pradesh
	Approval for 25.571 Hectare of forest land proposed to be diverted in favour of khargone transmission limited for Construction of 765 kV D/C Hexa Khandwa- Dhule Transmission line.	24/Apr/17	Valid	Collector, Barwani, Madhya Pradesh
	Approval for Diversion of 3.956 ha Forest land for laying of 400 kV D/C twin LILO transmission line from Khargone to Khargone TPP in favour of project head, Khargone Transmission limited, Sanawad at Khrgone District of Madhya Pradesh	20/Jul/17	Valid	Ministry of Environment, Forest and Climate change
	Approval for Diversion of 0.828 ha Forest land for laying 400 kV D/C quad Khargone TPP- Khandwa Pooling Transmission Line at Forest Division- badwah in favour of project head, Khargone Transmission limited	2/Aug/17	Valid	Ministry of Environment, Forest and Climate change
	Approval for 119.689 Hectare of forest land proposed to be diverted in favour of sterlite power, khargone transmission limited, jaitapur, Khargone (Madhya Pradesh)	19/Aug/17	Valid	Collector, Dhule, Maharashtra
	Approval for diversion of 112.672 ha of forest land for laying of 765 kV D/C Khadwa / Indore Transmission line at Khargone and indore districts in favour of project head, khargone transmission Ltd.	30/Oct/17	valid	Ministry of Environment, Forest and Climate change

11.13. KhTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
9	Approval for diversion of 39.437 ha Reserved Forest land for construction of 765 kV D/C Hexa Khandwa-Dhule Transmission line in favour of Project Head, khargone Transmission Limited, Khargone& Barwani District of Madhya Pradesh.	7/Nov/17	Valid	Ministry of Environment, Forest and Climate change
	Approval for diversion of 119.689 ha of Reserved forest land in favour of Khargaon Transmission ltd, sanawad for laying of 765 kV DC Hexa Khandwa- Dhule Transmission line in dhule district in state of maharashtra	9/Feb/18	Valid	Ministry of Environment, Forest and Climate change
	Approval for 21.466 Hectare of forest land proposed to be diverted in favour of sterlite power, khargone transmission limited, jaitapur, Khargone (Madhya Pradesh)	27/Dec/19	Valid	Collector, Dhule, Maharashtra
	Approval for Additional diversion of 21.466 ha forest land for Khargone transmission Ltd required Due to Proposed Dam (Sulwade jamfal kanoli Lift irrigation Scheme) Falling in existing route alignment of 765 kV D/C Hexa Khandwa-Dhule Transmission line in dhule district, maharashtra	15/Mar/21	Valid	Ministry of Environment, Forest and Climate change
	Stage II Approval of central government under forest (Conservation) Act 1980 for proposed diversion of 3.956 ha forest land	27/Jun/21	Valid	Ministry of Environment, Forest and Climate change
10	Railway Crossing			
	Approval for crossing of 765kV D/C HEXA Khandwa - Dhule Overhead Transmission line in between station Hol - Nardana of Tapi Valley Branch Broad Gauge Electrified Double Track Line	22/May/17	Valid	Western Railway Mumbai
	Approval for crossing of 765kV D/C HEXA Khandwa - Indore Overhead Transmission line in between "station Barwah - Mukhtira Balwara of Khandwa-Ratlam-Ajmer Branch Meter Gauge Non-Electrified Single Track Line"	12/Jul/17	Valid	Western Railway Ratlam
	Approval for crossing of 765kV D/C HEXA Khandwa - Indore Overhead Transmission line in between "station Mangliya - Barlai of section Khandwa-Dewas-Ujjain Broad Meter Gauge Electrified Single Track Line"	12/Jul/17	Valid	Western Railway Ratlam
	Approval for crossing of 765 KV Hexa Khandwa-Dhule OH transmission line between STN Hol & Naradana of Tapi Valley.	12/Mar/18	Valid	Western Railway
11	Road Crossing			
	Approval of overhead crossing proposal of NH-59(A), Indore- harda, near Khudel Village (in between PWD km 9+917 for 765 kv D/C Hexa indore-betul transmission line under khargone transmission limited Madhya pradesh	9/Dec/17	Valid	National Highways Authority of India
	Approval for overhead power line crossing of NH-3, near village palasner at Km 175.638 for 765 kV D/C hexa Khandwa - Dhule transmission line - Release of Original bank Guarantee	16/Jan/19	Valid	National Highways Authority of India
	Approval for overhead crossing proposal of NH-3, Agra Bombay near khispra village (in between KM stone, 583 and 584 , CH 584+520 Mts from Agra) for 765 KV D/C hexa Khandwa indore transmission line under Khargone Transmission limited	28/Dec/19	Valid	National Highways Authority of India
	Road Crossing	27/Nov/22	Valid	Public Works Department

11.13. KhTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
12	Power Line Crossing			
	Approval for Overhead Crossing of 400 kV D/C Twin Khargone TPP - Khargone line by 765 kV D/C Khandwa-Dhule Transmission line & Earthwire Delta Arrangement	30/Jun/17	Valid	KEC International Ltd
	Approval for Over head crossing of 765 kV D/C Hexa Khandwa - Dhule Transmission line to existing 132 kV Shirpur-Dondaicha SCDC Line at LOC.no. 123-124, Near Village sakwad Tal. Shirpur Dist. Dhule .	29/Jul/17	Valid	Maharashtra State Electricity Transimission Company Ltd
	Approval for Installation of 765 kV D/C & 400 kV D/C Transmission lines through Khargone Transmission Limited under western Region System Strengthening Scheme-Overhead crossing of PGCIL existing 400 kV D/C Khandwa-Indore & 400 kV D/C Khandwa-Indore & 400 kV D/C Khandwa- Rajgarh Transmission Lines	29/Aug/17	Valid	Power Grid Corporation of india limited
	Approval for Over Head crossing of various 400/220/132 kV line of MPPTCL by proposed 765 kV D/C Hexa Khandwa-Dhule line of Khargone Transmission limited	16/Oct/17	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval For Overhead crossing of various lines of MPPTCL By proposed 765 kV D/C Hexakhandwa-Indore & Hexa Khandwa Dhule line of Khargone Transmisssion Ltd.	20/Nov/17	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval of power line crossing proposal for 765 KV D/C Hexa Khandwa-Dhule line from 765kV S/C Dhule-Aurangabad & 765 kV S/C Dhule-Vadodara line	27/Dec/17	Valid	Bhopal Dhule Transmission Company Ltd
	Approval for Over Head crossing of various 132 kV & 400kV line of MPPTCL by proposed 765 kV DCDS Hexa Zebra Khandwa-Dhule line of M/S Khargone Transmission limited	26/Feb/18	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval for overhead crossing of 132 kV Barwaha-Chhegaon tap sanawad DCDS line of MPPTCL by proposed 765 kV D/C Hexa Khandwa-dhule line of KTL	31/Oct/18	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval for Over head crossing of 132 kV Julwania-shahpura line of MPPTCL By Proposed 765 kV DCDC Hexa Zebra khandwa-Dhule line of M/S Khargone Transmission Limited	31/Oct/18	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval for crossing of 400 kV saint singhaji TPS Stage 2 pithampur PCDS line of MPPTCL (Under Construction) by proposed 400 kV Quad khargone (TPP) Khandwa line of M/S Khargone transmizssion Co ltd.	22/Jan/19	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval order for various power line crossings of MPPTCL	1/Feb/19	Valid	Madhya Pradesh Power Transmission Company Ltd.
	Approval for crossing EVH lines of MPPTCL by 400kV D/C Quad Khargone (TPP)-Khandw (Pooling) transmission line (Under construction) of M/S Khargone Transmission Co Ltd.	1/Feb/19	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval for OverHead crossing of various line of MPPTCL by proposed765 kV D/C Hexa Khandwa-Dhule line of Khargone Transmission Ltd	22/Jul/20	Valid	Madhya Pradesh Power transmission Company Ltd
	Approval for Over Head Crossing of POWERGRID's 400 KV D/C Khandwa-Indore by KTL's 765 kV D/C Hexa Khandwa-Dhule line	3/Dec/20	Valid	Power Grid Corporation of india limited

11.13. KhTL: Approval & Licenses Summary

r. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
13	Power & Telecommunication Coordination Committee ("PTCC") Clearance			
	PTCC Route Approval 765KV double circuit Khandwa-Dhule transmission line for Maharashtra Portion.	11/May/17	Valid	Power And Telecommunication Coordination Committee
	765 kV Double circuit khandwa-Dhule for Maharashtra portion	6/Nov/17	Valid	Power And Telecommunication Coordination Committee
	765 kV Double circuit khandwa-Dhule for Madhya pradesh portion	6/Nov/17	Valid	Power And Telecommunication Coordination Committee
	400 kV Double circuit LILO Khandwa - Rajgarh	6/Nov/17	Valid	Power And Telecommunication Coordination Committee
	765 kV Double circuit khandwa-Indore	30/Nov/17	Valid	Power And Telecommunication Coordination Committee
	400 kV Double circuit khargone TPP - Khandwa	30/Nov/17	Valid	Power And Telecommunication Coordination Committee
	PTCC Route Approval 765 KV Hexa Khandwa-Dhule transmission line	28/Sep/21	Valid	Power And Telecommunication Coordination Committee
	Power Telecommunication Co-ordination Committee ("PTCC") Clearance	18/Jan/24	Valid	BSNL
14	Approvals issued by the CEA, for energisation of:			
	Approval of the Government under section 68 of the Electricity Ac, 2003 for "Transmission System Strengthening in WR associated with Khargone TPP (1320 MW)"	25/Jan/16	Valid	Central Electricity Authority, Electrical Inspectorate Division
	Electronic Installation of LILO of one ckt of 400KV DC Khandwa-Rajgarh line at Khargone TPP	23/Feb/18	Valid	Central Electricity Authority, Electrical Inspectorate Division
	765 kV bays for Khandwa Pool- Dhule 765kV D/C line at Dhule 765/400kV S/s of BDTCL	31/Oct/18	Valid	Central Electricity Authority, Electrical Inspectorate Division
	765 kV D/C Khandwa Pool- Indore Transmission line of Khargone Transmission Ltd	6/Feb/20	Valid	Central Electricity Authority, Electrical Inspectorate Division
	Electronic Installations of 400kV Khargone TPP Switch yard-Khandwa Pool Transmission line in the premises of M/s Khargone Transmission Ltd	13/Mar/20	Valid	Central Electricity Authority, Electrical Inspectorate Division
	Electronic Installations of 765/400kV Khandwa Substation in the premises of M/s Khargone Transmission Ltd	26/Nov/20	Valid	Central Electricity Authority, Electrical Inspectorate Division
	765kV line reactors (80 MVAr) R, Y and B Phase and Spare reactor of KTL Bay Extension due to long outage at Dhule S/s of BDTCL	27/Nov/20	Valid	Central Electricity Authority, Electrical Inspectorate Division
	765 kV D/C Khandwa Pool- Dhule Transmission line of Khargone Transmission Ltd	4/Dec/21	Valid	Central Electricity Authority, Electrical Inspectorate Division
15	Approval for installation of 765kV D/C & 400kV D/C transmission line.	3/Aug/17	Valid	Directorate General of Signals
16	Aviation Clearance - NOC for Transmission Line	16/Oct/19	Valid	Airport Authority of India
17	Aviation Clearance	13/Sep/23	Valid	Airport Authority of India
18	Approval for Deposit of Tax for Khandwa S/S Land	26/Jul/19	Valid	Tehsildar, Khandwa
19	Approval of demolishing borewell at Khandwa	26/Dec/19	Valid	Tehsildar, Khandwa
20	Approval of Building Plan of 765/400kV substation at Mortakka Mafi Punasa	28/Aug/20	Valid	Government of Madhya Pradesh

11.14. JKTPL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	**Energisation approval**			
	- 400 KV D/C Jharli- Kabulpur Transmission line	6-Mar-12	Valid	Electrical Inspectorate, Haryana
	- 400 KV LILO Line Abdulapur - Bawana at S/stn. Deepalpur, Sonepat	6-Mar-12	Valid	Electrical Inspectorate, Haryana
	- 400 KV D/C Quad - Kabulpur Deepalpur Transmission Line	6-Mar-12	Valid	Electrical Inspectorate, Haryana
2	Approval under section 68 of Electricity Act, 2003	8-Sep-10	Valid	Ministry of Power
3	Approval under section 164 of the Electricity Act, 2003	9-Dec-10	25	Haryana Government, Power Department
4	**Power & Telecommunication Coordination Committee ("PTCC") Clearance**			
	Jharli-Kabulpur-Dipalpur Transmission Line	27-Jan-12	Valid	PTCC, Government of India
	Abdullapur-Bawana LILO Line	27-Jan-12	Valid	PTCC, Government of India
5	**Railway Crossing**			
	Jharali - Charkhi Dadri section Rewari - Bhiwani	7-May-15	Valid	North Western Railway
	Chuliana Kharwar - Dighal Road Rohtak - Jhajjhar section T.P.no. 6/0 - 7/0	2-May-14	Valid	Northern Railway
	Ismaila Haryana - Kharawar on SSB - ROK section T.P.no. 55/1-3	24-Apr-14	Valid	Northern Railway
	Rathdhana -Harsana Kalan on DUK section T.P.no. 36/27 & 36/29	24-Apr-14	Valid	Northern Railway
6	**Road Crossing**			
	NH-1 (New NH-44) between AP29/1 - AP30/0 at Chainage KP39 and KP 40	30-Mar-12	Valid	National Highway Authority of India
	NH-71 (New NH-352) between AP3/0 - AP3/1 Agreement Signed	5-Apr-12	Valid	National Highway Authority of India
	NH-71	14-Nov-11	Valid	National Highway Authority of India

11.14. JKTPL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
7	**Power Line Crossing**			
	LOC No. 8/13 (QD+25) - 8/14 (QD+6)	27-May-11	Valid	Bakhra Vyas praband board (Electricity section)
	400 KV D/C Quad, Jharli-Kabulpur transmission Line	22-Apr-11	Valid	Haryana Vidyut Prasaran Nigam Limited
	400 KV D/C Quad, Jharli-Kabulpur transmission Line with HVPNL 132KV/220KV Lines	6-Jul-11	Valid	Haryana Vidyut Prasaran Nigam Limited
	Crossing arrangement of KT Transco Line at location No. 27/4 (QD+9) - 27/5 (QD+18) with Transmission Line No 17 & 18 of HVPNL 132 KV Sonipat-Rai Line	22-Dec-11	Valid	Haryana Vidyut Prasaran Nigam Limited
	400 KV D/C Jhajjar-Kabulpur-Dipalpur Transmission Line location no. 10/0 (QD+25) - 11/0 (QD+25)	1-Oct-11	Valid	Power Grid Corporation of India
	400 KV D/C Bawana Bhiwani transmission Line between Tower No 111-112 by 400 KV Jharli-Kabalpur-Dipalpur D/C Transmission Line	29-Nov-11	Valid	Power Grid Corporation of India
	Ballabgarh-Charkhi-Dadri-Samaypur Dadri Charkhi Transmission Line of BBMB	3-Aug-11	Valid	Bakhra Vyas praband board (Electricity section)
	Crossing between 31A/0-32/0 and 27/7-27/8 in relation to 400 KV Jhajjar transmission Project	17-Jan-12	Valid	Bhakda Vyas vidyut Board, Chandigarh
8	**Completion Certificate - Independent Engineer**			
	Jharli-Kabulpur-Dipalpur Transmission Line	15-Jun-12	Valid	M/s.Lahmeyer International (India) Private Limited
	Abdullapur-Bawana LILO Line	15-Jun-12	Valid	M/s.Lahmeyer International (India) Private Limited
9	**Forest Clearance**			
	Diversion of 0.1560 hec. Forest Land for Jhali-Kubulpur-Debalpur Transmission Line in Bhiwani District	17-Feb-12	Valid	Ministry of Environment and Forests
	Diversion of 1.243 hec. Forest Land for Jharli-Kabulpur-Dipalpur Transmission Line in Jhajjar District	21-Feb-12	Valid	Ministry of Environment and Forests
	Diversion of 0.8840 hec. Forest Land for Jharli-Kabulpur-Dipalpur Transmission Line in Rohtak District	21-Feb-12	Valid	Ministry of Environment and Forests
	Diversion of 0.8372 hec. Forest Land for Jharli-Kabulpur-Dipalpur Transmission Line in Sonepat District	8-Feb-12	Valid	Ministry of Environment and Forests
10	Transmission License (Project Specific - For Jhajjar Power Transmission Project)	26-Oct-10	25	Haryana Electricity Regulatory Commission
11	**Labour License Under The Contract Labour (Regulation & Abolition) Act, 1970**			
	Certificate of registration	1-Apr-10	Valid	Office of Deputy Labour Commissioner & Registering Officer

11.15. PrKTCL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Transmission License	15-Sep-08	25	Central Electricity Regulatory Commission
2	**Transmission Service Agreement**			
	Transmission Service Agreement between PKTCL & Power Grid Corporation of India Ltd	24-Dec-13	Valid	
	Revenue Sharing Agreement between PKTCL & Power Grid Corporation of India Ltd	24-Dec-13	Valid	
3	Approval under section 68(1) of Electricity Act, 2003	14-Nov-08	Valid	Ministry of Power, Government of India
4	Approval from GOI under section 164 of Electricity Act, 2003 - Under Gazette of India	4-Jun-09	25	Ministry of Power, Government of India
5	Approval for Energisation under regulation 43 of CEA	30-Jun-13	Valid	Central Electricity Authority, Ministry of Power, GOI
6	Tariff Order under Section 63 of the Electricity Act for adoption of transmission charges in respect of the transmission system.	15-Jan-16	Valid	Central Electricity Regulatory Authority
7	**Defence Clearance**			
	NOC from aviation angle for construction of Transmission line by PKTCL	29-Jan-09	Valid	Air HQ, Ministry of Defence
8	**Aviation Clearance**			
	NOC for Height Clearance	15-Mar-10	Valid	Airports Authority Of India
9	**Power & Telecommunication Coordination Committee ("PTCC") Clearance**			
	Approval to the route of 2x400 KV S/C Parbati - Koldam transmission line	1-Jun-10	Valid	Power & Telecom Co-ordination Committee, GOI
	Approval to the route of 400 KV D/C Koldam - Ludhiana transmission line	30-Jul-10	Valid	Power & Telecom Co-ordination Committee, GOI
10	**Road Crossing**			
	NOC for crossings of 400 KV D/C Koldam-Ludhiana lines over NH-21	20-Aug-10	Valid	National Highway Authority of India
	NH-1, at Bilgarh, District Ludhiana	13-May-13	Valid	National Highway Authority of India
11	**Railway Crossing**			
	Bharatgarh-Kiratpur Railway Stations	6-Feb-12	Valid	Northern Railway, Ambala Divisional Office
	Jassowal-Gill Railway Stations	9-Jul-12	Valid	Northern Railway, Ambala Divisional Office
	New Morinda-Sahnewal Railway Link (Village Barwal)	14-May-13	Valid	Northern Railway, Ambala Divisional Office
	Doraha-Sahnewal Railway Stations	9-Oct-13	35	Northern Railway, Ambala Divisional Office
12	**Diversion of Forest Land/ Permission for felling of trees**			
	Diversion of Forest land in favour of PKTCL	20-Jun-12	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of PKTCL	30-Nov-12	Valid	Ministry of Environment & Forest, GOI
	Diversion of Forest land in favour of PKTCL	1-Jan-13	Valid	Ministry of Environment & Forest, GOI

11.15. PrKTCL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
13	**Power Line Crossing**			
	NOC for construction of 400 KV D/C Koldam-Ludhiana line in administrative jurisdiction	27-Jul-07	Valid	Public Works Department - Ludhiana
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 400 KV D/C Nalagarh-Jhakhari and Nalagarh-Koldam Lines	21-Nov-11	Valid	Power Grid Corporation of India Ltd
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with PSEB Lines	16-Mar-10	Valid	Punjab State Electricity Board
	Approval for power line crossing of 400 KV D/C PKTCL Ckt. I&II with 220 KV D/C ADHPL- Transmission line	18-Nov-11	Valid	A D Hydro Power Ltd.
	NOC for power line crossing of 400 KV D/C Koldam-Ludhiana with 220 KV D/C ADHPL- Transmission line	4-Jul-12	Valid	A D Hydro Power Ltd.
	Approval for shutdtown for construction of 2x400 KV S/C Parvati II-Koldam line crossing of HPSEBL Transmission line	16-Dec-11	Valid	Himachal Pradesh State Electricity Board Ltd.
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 66 KV D/C Nalagarh-Bagheri Line	1-Aug-13	Valid	Himachal Pradesh State Electricity Board Ltd.
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 132 KV Kangoo-Kunihar Line	19-May-14	Valid	Himachal Pradesh State Electricity Board Ltd.
	NOC for crossings of 2x400 KV D/C Koldam-Ludhiana lines over NH-21 at Villages Banala, Deod and Tandi	23-Mar-10	Valid	Public Works Department - Himachal Pradesh
	NOC for crossings of 400 KV D/C Koldam-Ludhiana lines over NH-88	6-May-10	Valid	Public Works Department - Himachal Pradesh
	NOC for crossings of 400 KV D/C Koldam-Ludhiana lines over NH-21	9-Aug-10	Valid	Public Works Department - Himachal Pradesh
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with PSTCL Line	3-Jan-11	Valid	Punjab State Transmission Corp Ltd.
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV D/C Sahnewal-Lalton Kalan Line	13-Sep-11	Valid	Punjab State Transmission Corp Ltd.
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV D/C Doraha-Sahnewal and Kohara-Gaunsgarh Lines	1-Jan-13	Valid	Punjab State Transmission Corp Ltd.
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV Bhakra-Ganguwal and Dehar-Ganguwal Lines	25-Mar-10	Valid	Bhakra Beas Management Board (PW), Chandigarh
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV Ganguwal-Jagadhri Line	13-Jul-11	Valid	Bhakra Beas Management Board (PW), Chandigarh
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV Ganguwal-Dhulkote Line	25-Jun-13	Valid	Bhakra Beas Management Board (PW), Chandigarh
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 220 KV Jamalpur-Sangrur Line	11-Dec-13	Valid	Bhakra Beas Management Board (PW), Chandigarh
	Approval for crossing of 400 KV D/C Koldam-Ludhiana line with 400 KV S/C Dehar Bhiwani Line	9-May-14	Valid	Bhakra Beas Management Board (PW), Chandigarh

11.16. KTL: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Transmission Service Agreement between Kallam & Renew Solar Power Private Limited	30-Sep-21	Valid	
2	Certificate of Incorporation	28-May-20	Valid	Registrar of Companies
3	Transmission Service Agreement between Kallam & Renew Solar Power Private Limited	30-Sep-21	Valid	

11.17. KTCO: Approval & Licenses Summary

Sr. No.	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Transmission License	19-Sep-24	25	Central Electricity Regulatory Commission
2	**Transmission Service Agreement**			
	Transmission Service Agreement between KTCo. & Central Transmission Utility	5-Apr-24	Valid	
3	Connectivity permission	**WIP**		Power Grid Corporation of India Limited
4	Registration of KTCo. as user under WRLDC	**WIP**		Power System Operation Corporation Limited
5	Share Purchase Agreement between RECTPCL, KTCo., IGL 1 and IGL 2	5-Apr-24	Valid	
6	**Approval for Adoption of Tariff**			
	Tariff Adoption Order	9-Aug-24	Valid	Central Electricity Regulatory Commission
7	**Approvals under Electricity Act, 2003**			
	Approval under section 68(1) of Electricity Act, 2003	16-Feb-24	Valid	Ministry of Power, Government of India
	Approval from GOI under section 164 of Electricity Act, 2003 - Under Gazette of India	6-Feb-25	25	Ministry of Power, Government of India
8	**Energisation Clearance**			
	Approval for Energisation of 4 Nos. 400 KV line bays at Kallam PS and 2 Nos 63 MVAR, 420KV Switchable Line Reactor and LR Bays of M/s. Kallam Transco Limited under regulation 45 of CEA (Measures relating to Safety and Electric Supply) Regulations, 2023.	28-Jul-25	Valid upto 27-Jul-30	Central Electricity Authority, Ministry of Power, GOI
9	**Defence Clearance**			
	NOC from aviation angle for construction of LILO of both circuits of Parli(PG) – Karjat 400kV D/C Line (Twin moose) at Kallam PS.	**WIP**		Air HQ, Ministry of Defence

11.21. KNTL: Approval & Licenses Summary

Sr. No.	License/Approval	Issuing Authority	Date of Issue	Validity
I	**General Approvals**			
1	Transmission License	Central Electricity Regulatory Commission	28-Mar-22	Valid
2	Section 68 Approval	Central Electricity Regulatory Commission	31-Jan-20	Valid
3	Section 164 Approval	Central Electricity Regulatory Commission	20-Jun-22	Valid
4	Forest Clearance	Ministry of Environment, Forest and Climate Change	02-Aug-23	Valid
II	**Railway Crossing Approvals**			
1	Technical/ Administrative approval issued in favour of KNTL in respect of the 400 KV over-head power line crossing the railway track at KM No. 98/400-500 between BNA-BNP railway stations	South Western Railway	07-Sep-22	Valid
III	**Power Line Crossing Approvals**			
1	Approval of powerline crossing between T.No 80-81 of 765kV Narendra Madhugiri Transmission line of Kudgi Transmission Limited by new 400 KV D/C (Quad) Koppal - Narendra (New) Transmission Line.	Kudgi Transmission Limited	23-Jul-22	Valid
2	Approval of the 400 KV D/C quad line crossing the following existing power lines: A. 220kV Basavana Bagevadi to ADPH DC line (T-66 & T-67); B. 220kV Basavana Bagevadi to ADPH DC line (T-34 & T-35); C. 110kV Basavana Bagevadi to Mamadapura Bagalkote DC line; D. 110kV Basavana Bagevadi to Bagalkote DC line; E. 220kV Bagalkote to Balakundi DC line; F. 110kV Ilkal to Guledagudda DC line; and G. 110kV SC Line from Kustaqi to Hanumasagar Power line.	Karnataka Power Transmission Corporation Limited	21-Sep-22	Valid
3	Approval of the 400 KV D/C quad line crossing the 110kV Hanumasagar to Hiregonnagara line in between Tower No.21 and 22.	Karnataka Power Transmission Corporation Limited	06-Dec-22	Valid
4	Approval bearing ref. no. CEE(P&C)/SET/EE(TL)/KCO-102/AEE-9/AE-05/42482/2022-23/12945-47 issued in respect of the 400 KV D/C quad line crossing the existing power lines: A. 220kV Kudagi to Nandiyal Multi Circuit line; B. 110kV Muddhebihal SC Line; and C. 110kV Rampura to Kudalasangama SC line.	Karnataka Power Transmission Corporation Limited	08-Nov-22	Valid
IV	**PTCC Route Approvals**			
1	Approval for the route of 400 KV DC line from existing 400/230 KV Narendra sub station to proposed 400 KV Kudgi sub station.	Power and Telecom Co-ordination Committee	21-Jul-15	Valid
2	Approval for the route of 400 KV D/C (quad) Koppal- Narendra (new) transmission line.	Power and Telecom Co-ordination Committee	21-Jun-23	Valid
3	Approval for the route of 400 KV D/C Koppal Narendra (new) transmission line.	Directorate General of Signals	11-Jul-22	Valid
4	Approval for the route of the 400 KV D/C Koppal Narendra (new) transmission line.	Southern Railway	30-Nov-22	Valid
5	Approval for the route of 400 KV D/C Koppal Narendra (new) transmission line.	South Western Railway	16-Jun-23	Valid

11.21. KNTL: Approval & Licenses Summary

Sr. No.	License/Approval	Issuing Authority	Date of Issue	Validity
V	**Highway Approvals**			
1	Permission for crossing of 400 KV DC quad line over NH-67 (Old NH-63).	National Highway Authority of India	28-Mar-23	Valid
2	Permission for crossing of 400 KV DC quad line over NH-50 (four laning of Bijapur - Hungund section - Old NH-13) at Chitakinakoppa village	National Highway Authority of India	13-Sep-22	Valid
3	Permission for crossing of 400 KV DC quad line over NH-50 (Four laning of Bijapur - Hungund section - Old NH-13) at Muttagi village.	National Highway Authority of India	13-Sep-22	Valid
4	Permission for overhead crossing of 400 KV DC Koppal Narendra (new) wind power transmission line at Km. 37.200 of NH-367 Bhanapur- Gaddankeri section in the State of Karnataka.	Public Works Department, Government of Karnataka	05-Jul-23	Valid
5	Permission for crossing of 400 KV DC quad Koppal Narendra (new) transmission line over at chainage 309 Kms-310 Kms of Karwar - Ilkal (SH-06) near Benachamatti Village.	Public Works Department, Government of Karnataka	30-Jun-22	Valid
6	Permission for crossing of 400 KV DC Quad Koppal Narendra (new) transmission line over at chainage 144 Kms-145 Kms of Raravi - Bellur SH-63 near Mudhol Village.	Public Works Department, Government of Karnataka	18-May-22	Valid
7	Permission for crossing of 400 KV DC Koppal Narendra (New) Transmission Line over at chainage 16.30 of Hosur Cross, Yalagur Cross, Alamatti Muddebihal SH-161 near Nidagundi Town man canal crossing and chainage 277.00 of Bharked Bilagi SH-124 Near Muttagi village.	Public Works Department, Government of Karnataka	21-May-22	Valid
8	Permission for crossing of 400 KV DC quad Koppal Narendra (new) transmission line over at chainage 85 Kms 86 Kms of Ramdurga Manavi (SH-14) near Kadoor village and chainage 23 Kms - 24 Kms of Kusthagi - Pattadkal (SH-59) near Bilagi village.	Public Works Department, Government of Karnataka	02-Jun-22	Valid
9	Permission for crossing of 400 KV DC quad line over Ch 88.80 of Surebhan Chittaragi Kudalasangam SH-133 near Chittaragi village and chainage 164.10 of Raichur Bachi SH-20 near Rakkasagi village.	Public Works Department, Government of Karnataka	28-Apr-22	Valid
10	Permission for crossing of 400 KV DC quad line over at chainage 86 Kms - 87 Kms of Sindnoor - Hemadgad (SH-30) near Gogeri Village.	Public Works Department, Government of Karnataka	21-May-22	Valid
VI	**Borewell Approval**			
1	NOC issued in favour of KNTL for extraction of groundwater from borewells at 540/2, 572/1, 572/2, 540/1, near Gram Panchayat, Yelburga taluk.	Karnataka Ground Water Authority	02-Feb-24	Valid

11.22. ISPL 1: Approval & Licenses Summary

Sr. No	Approvals and Licences	Date of Issue	Validity (in years)	Issuing Authority
1	Original and Revised commissioning certificate	15-Jun-18	Valid	APSPCL
2	Certificate of importer-exporter code	22-Feb-17	Valid	Director General of Foreign Trade, Ministry of Commerce and Industry
3	Industrial Entrepreneurship Memorandum Part 1 acknowledgement	23-Nov-16		Ministry of Commerce and Industry
4	Synchronisation certificate and Connectivity report	15-June-18	Valid	
5	Certificate from principal employer in Form V under the Contract Labour (Regulation and Abolition) Rules 1971	9-May-17		
6	Letter of intent dated issued by SECI to FRV SH XI	16-Aug-16		Solar Energy Corporation of India Limited
7	Land handing over certificate	5-May-17		APSPCL
8	Land possession certificate	5-May-17		APSPCL
9	Certificate of registration of establishment Andhra Pradesh (Issuance of Integrated Registration and Furnishing of Combined Returns under various Labour Laws by certain Establishment) Act, 2015 to FRV Farm I (now ISPL 1) for Solar Power Project	16-Sep-21	Valid	Labour Department, Government of Andhra Pradesh
10	Licence to work a factory under Factories Act 1948	19-Jun-18	Valid	Inspector of Factories
11	Approvals for evacuation and grid connectivity	05-July-17		APSPCL
12	Drawings and energisation approval from Chief Electrical Inspectorate to Governm	5-Mar-18		Directorate of Electrical Safety, Government of Andhra Pradesh
13	Registration with Southern Regional Load Despatch Centre (SRLDC)	3-Sep-18		Power System Operation Corporation of India
14	Approval of Change in Law on account of Implementation of GST Laws	7-Oct-22		Solar Energy Corporation of India Limited

11.23. ISPL 2: Approval & Licenses Summary

Sr. No	Approvals and Licences	Date of Issue	Validity (in years)	Issuing Authority
1	Commissioning certificate	29-Sep-18	Valid	APSPDCL
2	Certificate of importer-exporter code	21-Feb-17	Valid	Director General of Foreign Trade, Ministry of Commerce & Industry, GO
3	Industrial Entrepreneurship Memorandum Part 1 acknowledgement	23-Nov-16		Ministry of Commerce and Industry
4	Form V under the Contract Labour (Regulation and Abolition) Rules 1971	10-May-17		
5	Letter of intent issued by SECI to FRV SH XI	16-Aug-16		Solar Energy Corporation of India Limited
6	Land handing over certificate issued by APSPCL	13-Nov-17		APSPDCL
7	Land possession certificate issued by APSPCL	13-Nov-17		APSPDCL
8	Integrated Registration and Furnishing of Combined Returns under various Labour	16-Sep-21	Valid	Labour Department, Government of Andhra Pradesh
9	Licence to work a factory under Factories Act, 1948	3-Nov-18	Valid	Inspector of Factories
10	Chief Electrical Inspectorate drawings and energisation approval	8-Aug-18		Directorate of Electrical Safety, Government of Andhra Pradesh
11	Approvals for evacuation and grid connectivity	13-Nov-17		APSPDCL
12	Registration with Southern Regional Load Despatch Centre (SRLDC)	24-Dec-18		Power System Operation Corporation of India
13	Synchronisation certificate of ISPL 2 Project	29-Sep-18		
	Approval of Change in Law on account of Implementation of GST Laws	28-Nov-22		Solar Energy Corporation of India Limited

11.24. TNSEPL: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Consent to Establish - Air, required u/s 21 of Air Act 1981			
	5 MW Solar Power Plant	10-Aug-15	NA	Tamilnadu Pollution Control Board
	8 MW Solar Power Plant	3-Nov-15	NA	Tamilnadu Pollution Control Board
	10 MW Solar Power Plant	12-Feb-16	NA	Tamilnadu Pollution Control Board
2	Consent to Establish - Water, required u/s 25 of Water Act, 1974			
	5 MW Solar Power Plant	10-Aug-15	NA	Tamilnadu Pollution Control Board
	8 MW Solar Power Plant	3-Nov-15	NA	Tamilnadu Pollution Control Board
	10 MW Solar Power Plant	12-Feb-16	NA	Tamilnadu Pollution Control Board
3	Consent to Operate - Air, required u/s 21 of Air Act 1981			
	8 MW Solar Power Plant	15-Sep-15	NA	Tamilnadu Pollution Control Board
	10 MW Solar Power Plant	12-Feb-16	NA	Tamilnadu Pollution Control Board
4	Consent to Operate - Water, required u/s 25 of Water Act, 1974			
	8 MW Solar Power Plant	3-Nov-16	NA	Tamilnadu Pollution Control Board
	10 MW Solar Power Plant	12-Feb-16	NA	Tamilnadu Pollution Control Board
5	CEIG Safety Certificate required under Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 for energization of the electrical equipment comprising the project			
	5 MW Solar Power Plant	19-Aug-22	Expired- Renewal in process	Electrical Inspector
	8 MW Solar Power Plant	31-Aug-21	Expired- Renewal in process	Electrical Inspector
	10 MW Solar Power Plant	1-Aug-25	Valid	Electrical Inspector
6	Power Evacuation Approval for evacuation of power from the solar power plant to TANGEDCO Substation			
	5 MW Solar Power Plant	29-Aug-23	Valid	TANGEDCO
	8 MW Solar Power Plant	31-Aug-22	Valid	TANGEDCO
	10 MW Solar Power Plant	31-Jul-26	Valid	TANGEDCO
7	Commissioning Certificate (COD) for evidencing commissioning of the entire capacity of the project			
	5 MW Solar Power Plant	19-Oct-15	Valid	Superintenting Engineer, TANGEDCO
	8 MW Solar Power Plant	30-May-16	Valid	Superintenting Engineer, TANGEDCO
	10 MW Solar Power Plant	28-Dec-15	Valid	Superintenting Engineer, TANGEDCO
8	Fire License required u/s 13 of Tamil Nadu Fire Service Act 1985			
	5 MW Solar Power Plant	31-Jan-25	Valid	District Officer-Fire & Rescue Service
	8 MW Solar Power Plant	23-Apr-25	Valid	District Officer-Fire & Rescue Service
	10 MW Solar Power Plant	18-Aug-25	Valid	District Officer-Fire & Rescue Service
9	Factory License obtained under Form No.4 Registration and License to work a factory			
	5 MW Solar Power Plant	30-Nov-24	Valid	Joint Director
	8 MW Solar Power Plant	3-Jan-25	Valid	Joint Director
	10 MW Solar Power Plant	3-Jan-25	Valid	Joint Director
10	NOC from Gram Panchayat for undertaking construction on any land falling within the jurisdiction of the gram panchayat			
	5 MW Solar Power Plant	6-Jul-15	Valid	Village Panchayat
	8 MW Solar Power Plant	21-May-15	Valid	Village Panchayat
	10 MW Solar Power Plant	25-Mar-15	Valid	Village Panchayat

11.28. Solar Edge: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	CEIG Safety Certificate required under Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010			
	80 MW Solar Power Plant, Parli	11-Mar-25	Valid	Electrical Inspector
	50 MW Solar Power Plant, Muktainagar	11-Mar-25	Valid	Electrical Inspector
2	Power Evacuation Approval for evacuation of power from the solar power plant to Maharashtra State Electricity Transmission Co. Ltd. ("MSETCL") Substation			
	80 MW Solar Power Plant, Parli	29-Sep-17	Valid	MSETCL
	50 MW Solar Power Plant, Muktainagar	29-Sep-17	Valid	MSETCL
3	Commissioning Certificate (COD) for evidencing commissioning of the entire capacity of the project			
	50 MW Solar Power Plant, Parli	1-Aug-18	Valid	General Manager
	30 MW Solar Power Plant, Parli	1-Aug-18	Valid	General Manager
	50 MW Solar Power Plant, Muktainagar	1-Aug-18	Valid	General Manager
4	Factory License			
	50 MW Solar Power Plant, Parli	1-May-17	Valid	Directorate of Industrial safety & Healtl
	30 MW Solar Power Plant, Parli	2-May-17	Valid	Directorate of Industrial safety & Healtl
	50 MW Solar Power Plant, Muktainagar	3-Jun-17	Valid	Directorate of Industrial safety & Healtl
4	NOC from Gram Panchayat for undertaking construction on any land falling within the jurisdiction of the gram panchayat			
	50 MW Solar Power Plant, Parli	1-May-17	Valid	Village Panchayat
	30 MW Solar Power Plant, Parli	2-May-17	Valid	Village Panchayat
	50 MW Solar Power Plant, Muktainagar	3-Jun-17	Valid	Village Panchayat
5	Borewell/Ground water permission from Central Ground Water Authority			
	50 MW Solar Power Plant, Muktainagar	9-Feb-25	Valid	Senior Geologist
6	Fire License 80 MW Solar Power Plant, Parli	28-Aug-25	Valid	Chief Fire Officer
7	Factory License obtained to work a factory			
	50MW Solar Power Plant, Parli	12-Jul-21	Expired- Renewal in process	Joint Director
	30MW Solar Power Plant, Parli	13-Jul-21	Expired- Renewal in process	Joint Director
	50MW Solar Power Plant, Muktainagar	17-Feb-21	Valid	Joint Director
8	Registration under the Clean Development Mechanism of United Nations Framework Convention on Climate Change (if any)	13-Aug-19	Valid	NA

11.32. USUPL: Approval & Licenses Summary

USUPL

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Letter of Registration/Allotment for the allotment of 30 MW solar project in favour of Sukhbir Agro Energy Limited (the erstwhile sellers)	2-Feb-15	Valid	Uttar Pradesh New & Renewable Energy Development Agency ("UPNREDA")
2	CEIG Safety Certificate required under Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 for energization of the electrical equipment comprising the project	22-Mar-24	Valid	Chief Electrical Inspector, Government of Uttar Pradesh
3	Power Evacuation Approval for evacuation of power from the solar power plant to the 132 kV Panwari substation	10-Nov-15	Valid	Uttar Pradesh Power Transmission Corporation Limited ("UPPTCL")
4	NOC from Gram Panchayat for undertaking construction on any land falling within the jurisdiction of the gram panchayat	16-Nov-15	Valid	Village Panchayat
5	Fire license	1-Jan-23	Valid	Fire Service Department, Uttar Pradesh
6	Commissioning Certificate (COD) for evidencing commissioning of the entire capacity of the project	15-Sep-16	Valid	UPPTCL, UPNREDA and Dakshinanchal Vidyut Vitran Nigam Limited
7	Factory License	10-Sep-24	Valid	Labour Department, Uttar Pradesh

Jodhpur Project

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Power Evacuation Approval	8-Feb-13	25 Yrs or EOL	Rajasthan Rajya Vidyut Prasan Nigam Limited
2	Commissioning Certificate (COD) for evidencing commissioning of the entire capacity of the project	7-Apr-13	25 Yrs or EOL	Rajasthan Rajya Vidyut Prasan Nigam Limited
3	Fire license	27-Feb-24	Expired- Renewal in process	Uttar Pradesh Power Transmission Corporation Limited ("UPPTCL")
4	NOC from Gram Panchayat for undertaking construction on any land falling within the jurisdiction of the gram panchayat	16-Nov-15	Lifetime	Village Panchayat

11.33. Globus: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Registration of the Solar Power Project	22.08.2014	Valid	Commissioner, New & Renewable Energy, GoMP
2	Consent to Establish - Air required u/s 21 of Air Act,1981 & Water required u/s 25 of Water Act,1974	31.10.2015	NA	Madhya Pradesh Pollution Control Board
3	Consent to Operate - Air required u/s 21 of Air Act,1981 & Water required u/s 25 of Water Act,1974	31.10.2015	NA	Madhya Pradesh Pollution Control Board
4	Land Allotment in Nataram, Sitamau	11.12.2014	NA	Office, Nagar & Gram Nivesh, Neemuch
5	Approval For Electrical Installations on the 20MW Solar Power Plant	25.01.2016	Valid	Chief Electrical Inspector, Government of Madhya Pradesh
6	CEIG Connectivity Permission Transformer Bay Charging	15.01.2025	Expired- Renewal in process	Chief Electrical Inspector, Government of Madhya Pradesh
7	Commissioning Certificate for 20 MW Solar Power Project at Nataram, Tehsil Sitamau	30.01.2016	Valid	Superintending Engineer, MPPKVVCL, Mandsaur
8	Connection Agreement	14.10.2014	Valid	MPPTCL
9	Fire License	16.04.2025	Valid	Fire Cell, Ujjain Division, Madhya Pradesh

11.34. TL Patlasi: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Registration of the Solar Power Project Applied under the JNNSM Phase II Batch 1	30.07.2014	Valid	Office of Commissioner,New & Renewable Energy- GoMP
2	Approval of CCEA for setting up 750 MW of Grid Connected Solar PV Power Projects	3.10.2013	Valid	CCEA
3	Consent to Establish - Air required u/s 21 of Air Act,1981 & Water required u/s 25 of Water Act,1974	21.05.2015		Madhya Pradesh Pollution Control Board
4	Consent to Operate - Air required u/s 21 of Air Act,1981 & Water required u/s 25 of Water Act,1974	22.10.2015	NA	Madhya Pradesh Pollution Control Board
5	Approval for Land Allotment in Patlasi Tal. Sitamau	30.08.2014	NA	Forest Officer, Mandsaur
6	NOC from Gram Panchayat for undertaking construction on any land falling within the jurisdication of the gram panchayat	2.10.2014	Valid	Suryakheda Village Panchayat
7	CEIG Approval required under Electricity Authority Regulations,2010 for energization of the electrical equipment comprising the project	15.01.2025	Valid	Chief Electrical Inspector, Government of Madhya Pradesh
8	CEIG String Invertor approval	15.01.2025	Valid	Electrical Inspector, GoMP
9	Commissioning Certificate for evidencing commissioning of the entire capacity of the project	01.07.2015	Valid	Commissioner,New & Renewable Energy,GoMP
10	IEC Certificate	18.09.2014	NA	Ministry of Commerce & Industry, GOI

11.35. TL Nangla: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	NOC for Construction of 66 KV Transmission Line	03.11.2014	NA	Executive Engineer,Dept. of Rural Development & Panchayats, Bathinda
2	Feasibility Clearance for Evacuation of Power from the 4MW project to the 66KV Sub Station, Nangla Jodkian	10.04.2014	Valid	Punjab State Power Corporation Ltd.
3	Commissioning Certificate for setting up Solar Power Project of capacity 4MW at village Nangla	1.04.2015	Valid	Punjab Energy Development Agency
4	Gram Panchayat Approval for Installation of the Project on the Village Land	-	Valid	Village Sarpanch , Village Nangla
5	Importer Exporter Code Certificate	21.10.2014	Valid	Ministry of Commerce & Industry, GOI
6	CEIG Safety Certificate required under Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 for energization of the electrical equipment comprising the project	01.04.2024	Valid	Chief Electrical Inspector, Government of Punjab, Patiala
7	Implementation Agreement	18.09.2013	Valid	Punjab Energy Development Agency
8	Synchronization Permission	24.03.2015	Valid	The Chief Engineer, PSPCL, Patiala
9	Fire License	29.04.2025	Valid	Punjab Fire Services, Bhatinda

11.36. TL Gadna: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Periodical Inspection of Electrical Installation as per Regulation 30 of C.E.A Regulations 2010.	01.04.2021	5 Yrs	Electrical Inspector, Electrical Inspectorate, GOR
2	Permission of Energization of Installation under Regulation 43 of the CEA Regulations, 2010	01.05.2016	NA	Electrical Inspector, Electrical Inspectorate, GOR
3	Approval for Power Evacuation Plan for 5 MW Solar PV Power Projects in Gadna, Phalodi, Jodhpur	11.06.2012	NA	Rajasthan Renewable Energy Corporation Limited
4	Transmission Agreement	09.07.2012	25 Yrs or EOL	Rajasthan Rajya Vidyut Prasaran Nigam Limited
5	Commissioning Certificate of 5MW Solar PV Power Project under JNNSM Phase I Batch II	01.04.2013	25 Yrs or EOL	Director, Rajasthan Renewable Energy Corporation Limited
6	Approval u/s 68 of the Electricity Act,2003 for laying overhead transmission line to evacuate power from 5MW Solar Power Project in Gadhna, Phalodi, Jodhpur	06.08.2012	25 Yrs or EOL	Rajasthan Renewable Energy Corporation Limited
7	Fire License	29.02.2024	Expired- Renewal in process	Chief Fire Officer, Jodhpur

11.37. GGEL: Approval & Licenses Summary

Sr. No	Approvals	Date of Issue	Validity (in years)	Issuing Authority
1	Certificate for use of a Boiler	27.02.2025 & 05.03.2025	Valid	Rajasthan State Boiler Inspection Department
2	Consent to Operate - Air required u/s 21 of Air Act,1981	01.02.2018	Valid	Rajasthan State Pollution Control Board
3	Consent to Operate - Water required u/s 25 of Water Act,1974	01.02.2018	Valid	Rajasthan State Pollution Control Board
4	License for Storage of Liquid Nitrogen Gas in pressure vessels	29.02.2024	Valid	Ministry of Commerce & Industry , Government of India
5	Water Supply Agreement	12.08.2011	Valid	Chief Engineer, Indira Gandhi Nahar Pariyojana, GOR
6	Factory License	10.05.2023	Valid	Chief Inspector of Factories & Boilers, Rajasthan
7	Transmission Agreement	04.07.2011	Valid	Rajasthan Rajya Vidyut Prasaran Nigam Limited
8	Execution of Lease Deed of Solar Power Producers against the land allotment in Jodhpur	24.05.2011	Valid	Rajasthan Renewable Energy Corporation Limited
9	Connectivity of 132 kv Bay & Metering Equipment to interconnect the 50 MW Solar Thermal Generation Project	25.03.2013	Valid	Superintending Engineer(RDPPC) , Jodhpur Discom, Jaipur
10	Commissioning Certificate of 50 MW Solar Thermal Power Project under JNNSM Phase I Batch I	02.07.2013	Valid	Rajasthan Renewable Energy Corporation Limited
11	Certificate of Commencement of Production	19.08.2014	NA	General Manager, District Industries Centre, GOR
12	Approval u/s 68 & 164 of the Electricity Act, 2003	26.03.2012	NA	Rajasthan Rajya Vidyut Prasaran Nigam Limited
13	Periodical Inspection of Electrical Installation as per Regulation 30 of C.E.A Regulations 2010.	12.03.18	NA	Electrical Inspector, Electrical Inspectorate, GOR
14	Fire License	07.10.2024	Valid	Fire Officer, Pokhran, Rajasthan

11.38. JUPL: Approval & Licenses Summary

Sr. No	Approvals and Licences	Issuing Authority	Date of Issue	Validity
1	Grant for Stage-II Connectivity	Power Grid Corporation of India Limited	10/2/2020	25 Yrs
2	Connectivity grant for fheaconnection offer	Central Transmission Utility of India Limited	15-11-2021	25 Yrs
3	Provisional approval for Energisation	Ministry of Power	8/11/2021	25 Yrs
4	Approval for Energisation for 220kV Single Ckt Transmission Line	Ministry of Power	17-11-2021	25 Yrs
5	Approval for Energisation of Electrical Installation	Ministry of Power	8/11/2021	25 Yrs
6	Provisional Approval for Energisation	Ministry of Power	14-12-2021	25 Yrs
7	Provisional Approval for Energisation	Ministry of Power	5/12/2021	25 Yrs
8	Provisional Approval for Energisation	Ministry of Power	27-11-2021	25 Yrs
9	NOC for construction of Solar Plant	Airport Authority of India	19-01-2022	One Time
10	Approval for laying overhead lines	Central Electricity Authority	17-11-2021	25 Yrs
11	Certificate of Registration	Government of Rajasthan	10/8/2021	One Time
12	NOC from Gram Panchayat	Gram Panchayat Office, Bhaisda	4/10/2021	One Time
	NOC from Tamil Nadu SLDC	Tamil Nadu SLDC	17-12-2020	25 Yrs
13	Consent for off take power	Telangana State Power Coordination Committee	24-02-2022	25 Yrs
14	Grant for Stage-I Connectivity	Power Grid Corporation of India Limited	10/2/2020	25 Yrs
15	License to w ork a factory	Factories and Boilers Inspection Department, Rajasthan	11/1/2023	31-03-2030
16	Provisional approval for energization of electrical installations	Ministry of Power	29-05-2021	25 Yrs
17	NOC for third party sale	Solar Energy Corporation of India Ltd.	2/12/2021	25 Yrs
18	Provisional Certificate of Approval to route extra high tension power/telecom line	Bharat Sanchar Nigam Limited	3/11/2021	25 Yrs
19	Certificate of approval to route of extra high tension power/telecom line	Bharat Sanchar Nigam Limited	5/11/2022	25 Yrs
20	NOC for construction proposed	Forest Department	1/11/2021	25 Yrs
21	License to w ork a factory	Factories and Boilers Inspection Department,Rajasthan	31-01-2022	31-03-2030
22	Intimation for Grant of Stage-II Connectivity	Central Transmission Utility of India Limited	19-05-2021	25 Yrs
23	Tariff Adoption order under Section 63 of the electricity act 2003	Central Electricity Regulatory Commission	19-03-2021	25 Yrs
24	CEIG certificate	Central Electricity Authority	14-12-2021	9/9/2028
25	Approval Section 68 and Section 164	Central Electricity Authority	16-06-2021	25 Yrs

11.39. RSAPL: Approval & Licenses Summary

Sr. No.	Approvals	Issuing Authority	Date of Issue	Validity
1	PPA compliance certificate for declaration of COD of 290MW	Solar Energy Corporation of India Limited	28-03-2024	Valid
2	PPA Compliance Certificate for declaration of COD of 10MW	Solar Energy Corporation of India Limited	14-05-2024	Valid
3	Grant of 300MW long term access	Power Grid Corporation of India Limited	27-10-2020	Valid
4	Deemed GNA Connectivity Approval	Central Transmission Utility of India Limited	25-09-2023	Valid
5	Grant for Stage-I Connectivity to ISTS	Power Grid Corporation of India Limited	09-10-2020	Valid
6	Grant for Stage-II Connectivity to ISTS	Power Grid Corporation of India Limited	09-10-2020	Valid
7	Section 68 Approval	Central Electricity Authority, Ministry of Power	08-06-2022	Valid
8	Section 164 Approval	Central Electricity Authority, Ministry of Power	11-10-2023	Valid
9	PTCC Approval	Power and Telecommunication Coordination Committee (PTCC), GoI	25-11-2023	Valid
10	Forest NOC	Office of the Jaisalmer and Barmer Forest Conservator, Government of Rajasthan	11-09-2022 and 27-10-2023	Valid
11	Height Clearance NOC	Airport Authority of India ("AAI")	22-02-2024	Valid
12	Defence NOC	Indian Air Force (AIF), Ministry of Defence	21-12-2023	Valid
13	Intimation to be filed in respect of consent to establish the Project under the Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981	Rajasthan Pollution Control Board ("RPCB")	08-06-2022	Valid
14	CEIG Energisation Approval	Chief Electrical Inspectorate General	Dec 2023 to Feb 2024 for different phases commissioned	Valid
15	NRLDC Registration Certificate	Grid Controller of India Limited	27-12-2023	Valid
16	RREC Registration Certificate	Rajasthan Renewable Energy Corporation Limited	25-03-2021	Valid
17	Geology & Mining NOC	Office of the Mining Engineer Mines & Geology Department, Barmer, Government of Rajasthan	25-05-2023	Valid
18	Importer-Exporter Code	Directorate General of Foreign Trade, Ministry of Commerce and Industry, GOI	04-09-2022	Valid

11.43. Summary of Approvals applied for, but not yet received:

Sr. No.	Entity	Approvals	Remarks
1	PKTCL	No objection certificate from Director of OPS (ATS) for construction of 400 kV D/C Purulia-Ranchi Transmission Line in relation to the application made on October 15, 2016.	Not required as Purulia-Ranchi line is beyond 20 kms of Kalaikunda Airfield. The Gazette Notification SO 988 specifies an area of 20 Kms only around the ARP to be considered for restrictions.
2	PKTCL	No objection certificate from Senior Air Traffic Controller, Airforce Station for installation of Kharagpur-Chaibasa Transmission Line in relation to the application made on February 9, 2016.	Recieved on 22/09/2016
3	PKTCL	No objection certificate from Senior Air Traffic Controller, Airforce Station for construction of 400 kV Kharagpur-Chaibasa Transmission Line in relation to the application made on November 3, 2015.	Recieved on 22/09/2016
4	NRSS	NOC from the Air Headquarters for contruction of URI - Wagoora Transmission line in relation to application made by NRSS on 08 January 2018	Seller has indmnified us.It is under process as mentioned by Seller to us.
5	OGTPL	Approval pursuant to application dated 06 October 2016, for railway line crossing of the 400 kV OPGC-Jharsuguda transmission line with the non – electrified U/C railway line of IBEUL in village Negipali.	Received on 02/02/2017
6	OGTPL	Final approval for erection of Jharsuguda (Sundargarh) – Raipur transmission line electrical track crossing at AP102 and AP103 in between Dharamjaygarh & Kharsia Railway station	Provisional approval recd on 24-03-2017
7	GPTL	NOC for ground water abstraction for 400/220 KV GIS PRITHLA Substation	

Appendix 12 – Summary of Ongoing Litigations

12.1. BDTCL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
1	RoW	Pradip Rameshchandra Mundada & Others.	District Court, Dhule	**Background of the case:** Pradip Ramesh Chandra Mudara and others have filed a civil suit before the District Court, Dhule who has allowed the applicability of GR regarding the land compensation. **Current Status:** BDTCL submitted the reply. The matter is currently pending.	Amount of Rs.10,000 paid in compliance of order.
2	RoW	Gorakhbhai Laljibhai Tadvi	Sr Civil Judge, Tal: Dediapada, Dist: Narmada.	**Background of the case:** Gorakhbhai Tadvi has filed a suit along with an affidavit for compensation due to damages caused by installation of tower in the land of the plaintiff and also for construction of electric line over the land of the plaintiff. Plaintiff has claimed for INR 0.8 Million as compensation however BDTCL had paid INR 0.17 Million and hence the suit is filed for the balance INR 0.63 Million. The court had issued a notice on 8 February 2019 to summon BDTCL on 15 March 2019. **Current status**: The matter is currently pending and Next date of hearing is 25 April 2025. Will be listed in due course.	Non Quantifiable
3	RoW	Hanuman Kakasaheb Ghanwat	District and Session Court, Aurangabad	**Background of the Case :** Copy of notice is received and will be updated when copy of CMA will be available **Current Status :** Matter is currently pending. The next date of hearing is 22 April 2025.	Total compensation paid duroing construction 3,64,000. Seeks enhancement of comepnsation to Rs. 10,00,000.

12.1. BDTCL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
4	RoW	Bhagwan Devman Bhil and Devman Bhilla	District Court, Dhule	**Background of the case:** Bhagawan Devman Bhilla filed a civil suit against the State of Maharashtra and BDTCL before the Joint Civil Judge (Senior Division), Dhule (the "Judge") for declaration, compensation and interim injunction in relation to a plot of land. BDTCL has filed a counter-claim and application for interim injunction. The Judge passed an order on 23 February 2016 (the "Order"), allowing the application for interim injunction of Bhagawan Devman Bhilla and partially allowing the application for interim injunction of BDTCL. BDTCL was restrained from evicting Bhagawan Devman Bhilla and Bhagawan Devman Bhilla was restrained from causing obstruction to the State of Maharashtra. Aggrieved by this Order, BDTCL filed an appeal in the court of the District Court, Dhule pleading that the order of the Judge should be stayed since it is bad in law and fact.The appeal against the interim order filed by BDTCL is 46 of 2016. The same was allowed, Now this Appeal has been registered. **Current status:** The matter is currently pending and next date of hearing is 8 April 2025.	Non Quantifiable
5	RoW	Shailendra Champaksinh Gohil	High Court of Gujarat, Ahmedabad	**Background of the case:** Shailendra Champaksinh Gohil ("Petitioner") filed a special civil application against BDTCL & others ("Respondents") before the High Court of Gujarat, Ahmedabad challenging the notification issued under Section 164 of the Electricity Act issued by the Director, Ministry of Power, Government of India (the "Director") dated 24 January 2013 (the "Notification") claiming that the Notification was without jurisdiction and beyond the scope of the Director for the laying of overhead transmission lines of BDTCL. **Current status:** The matter is currently pending and will be listed in due course	Non Quantifiable
6	RoW	Janaksinh Jaswantsinh Gohil	High Court of Gujarat, Ahmedabad	**Background of the case:** Janaksinh Jaswantsinh Gohil ("Petitioner") filed a special civil application against BDTCL & others ("Respondents") before the High Court of Gujarat, Ahmedabad challenging the notification issued under Section 164 of the Electricity Act issued by the Director, Ministry of Power, Government of India (the "Director") dated 24 January 2013 (the "Notification") claiming that the Notification was without jurisdiction and beyond the scope of the Director for the laying of overhead transmission lines of BDTCL. **Current status:** BDTCL submitted the reply. The matter is currently pending.	Non Quantifiable

12.1. BDTCL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
7	RoW	Bhikhan Govinda Sasundre & 5 others	Bombay High Court, Aurangabad	**Background of the case:** Bhikhan Govinda Sasundre and others ("Petitioners") filed a writ petition before the Bombay High Court, Aurangabad bench (the "High Court") against the State of Maharashtra, BDTCL and the District Collector, Aurangabad claiming compensation for the alleged damage caused to their field by laying high tension power transmission line. Further, the Petitioners sought directions against the District Collector and BDTCL for non-compliance with the order dated 3 September 2013. The Bombay High Court directed BDTCL to deposit INR 0.64 Million within four weeks from 18 February 2016, which was subsequently deposited **Current status:** The matter is currently pending.	0.64
8	RoW	Kusumben Arjun Mali and others	Sub divisional Magistrate (SDM), Dhule	**Background of the case:** Kusum Arjun Mali and others (through their power of attorney) have filed a civil application against BDTCL before the Sub - Divisional Magistrate, Dhule disputing the compensation paid for their land. **Current status:** Application was filed by Mr Arjun Mali to Industries, Energy and labour dept of Govt. of Maharashtra for obtaining the price of land. Govt of Maharashtra has informed the collector of Dhule to take appropriate action based on rules and present the copy of order to Govt for information. Further BDTCL has paid a crop compensation of INR 21,600 to Mr Arjun Mali for damage due to 400KV commision	8.40

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
20	Indirect Tax Matters - Customs Act 1962	Indirect Tax Department	Commissioner of Customs	**Background of the case:** BDTCL cleared 6 bill of entries and claimed the benefit of concessional rate of 5% under the Project Import Regulations 1986 before registering the contract with the Customs House, thus violating the provisions of Regulation 4 of the Project Import Regulations. BDTCL had received a Show Cause dated 22 October 2019 requiring it to show cause as to why differential duty and interest should not be demanded on the goods imported and cleared for home consumption at concessional duty rate of 5% under the Project Import Regulations 1986 insofar as such goods have been cleared before registering the contracts with the Custom Houses. In this regard, a personal hearing notice was received by BDTCL directing it to appear before the Commissioner on 21 December 2018. BDTCL has sought an extension to file the reply to the Show Cause Notice. While BDTCL was following up with the customs Department for collation of documents required for filing reply to the SCN, an adjudication order dated 18 July 2019 was issued without giving BDTCL opportunity to be heard confirming the allegations raised by the SCN. Against the said order, BDTCL has filed an Appeal before the Commissioner (Appeals) on 22 October 2019. BDTCL also has to file an RTI with the Customs Dept. to obtain certain critical documents. The signed copy of the RTI has been received by ELP on 28 September 2020 and the same has been filed with Custom authorities on 30 September 2020. Department has responded to the RTI and provided the information sought. The hearing before the Commissioner (Appeals) was held on 02 March 2021, and detailed submissions were made during the hearing. **Current Status:** The matter has been remanded back for fresh consideration by Commissioner (Appeals) order date 22 March 2021.	12.79
21	Indirect Tax Matters - Customs Act 1962	Indirect Tax Department	Appellate Deputy Commissioner, Bhopal(MP)	**Background of the case :** Entry tax demand has been raised on entry of certain goods for which road permit (Form 49) was used in the State of MP by BDTCL. Demand has been raised relation to the goods - (a) TSE Machine brought from PKTCL, Jharkhand for storage purchases and was sent outside the State within the same AY 2016-17 by the Appellant without any consumption, use or sale. (b) Reactor 80 MVAR" brought during AY 2012-13 and thereafter sent on repair and return basis in the present AY 2016-17. **Current Status :** Assessment order dated 21.11.2019 has been issued and an appeal has been filed before the Commissioner (Appeals) on 30.12.2019 on the basis that no Entry tax is leviable on entry of goods brought on returnable basis, or those goods which were sent for repair purposes and has re-entered the State of MP post repair activities. Also, that since there was no consumption and use of the TSE equipment in the transmission business of the Company in the state of MP, no entry tax can be levied under Section 3(1) of the Entry Tax Act. The matter has been posted for hearing on 19.03.2021 vide hearing notice dated 03.03.2021. However, because of ongoing shifting activities of Department, the matter was not heard on 16.03.3021 and has been adjourned for hearing to be held on 16.04.2021. Due to the pandemic restrictions the matter didn't heard on the scheduled hearing date. Hearing was adjourned on 3rd Aug 22 and held subsequently on 23rd August 2022. Adverse Order has been received on 14th Dec 22 upholding order of assessing officer. Amnesty Scheme is awaited in MP for the assessment year in which lower value of demand to be paid and closed. 2nd appeal has been filed for this case.	1.32
22	Indirect Tax Matters - Entry Tax Act 1976	Indirect Tax Department	High Court of Madhya Pradesh	**Background of the case:** The matter is related to demand for payment of entry tax in Fiscals 2016, 2015, 2014 and 2013, which was allegedly incurred by BDTCL during the course of its business. The aggregate amount involved in the matters is INR 165.8 Million, of which INR 58.4 Million has been paid. This demand is raised vide the Assessment order and / or confirmed vide the Additional Commissioner (Appeals)'s Order. BDTCL has preferred Writ Petitions before the Hon'ble MP High Court The writ petition has been tagged along with a similar matter of M/s NTPC (LTD.) in VATA 09/2010 and is pending for hearing before the Hon'ble High Court. **Current Status:** The matters are currently pending.	165.80

12.1. BDTCL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
23	Regulatory	CERC	APTEL	**Background of the case:** In its order dated 20.09.2017, CERC approved the Commercial Operation Date (COD) of certain transmission assets developed by PGCIL under Regulation 4(3)(ii) of the CERC Tariff Regulations, 2014. Although these assets were ready, they could not be put to use because BDTCL's connected transmission lines were not yet commissioned. CERC held that the delay was on BDTCL's part and directed BDTCL to pay transmission charges for the PGCIL assets from their approved COD until BDTCL's own downstream assets became operational. Aggrieved by this order, BDTCL filed Review Petition No. 46/RP/2017, which was dismissed by CERC, reaffirming its original direction. BDTCL subsequently filed an appeal before APTEL. The associated BDTCL transmission elements include the 765 kV JB Line, 765 kV BI Line, and 765 kV BD Line. **Current Status:** Previous hearings held on multiple dates from 2.12.2019 to 29.8.2023. IA No. 1158 of 2019 dismissed as infructuous after filing of a certified copy of the impugned order. APL No. 24 of 2021 & IA No. 1159 of 2019 registry directed to verify pleadings and include in the "List of Short Matters." Next hearing initially listed on various dates from 13.01.2025 to 26.03.2025. Hearing took place on 08.07.2025: listed for hearing on 31.07.2025.Posted these matter on 08.09.2025	46.00
24	Regulatory	CERC	APTEL	**Background of the Case:** CERC, in its Order dated 25.06.2018, allowed certain Force Majeure and Change in Law claims made by BDTCL. It also directed that transmission charges for the 765 kV DV Line, for the period from 09.02.2015 to 13.06.2015 (124 days), would be borne by PGCIL. PGCIL challenged this decision by filing Review Petition No. 29/RP/2018, which was dismissed by CERC through an Order dated 15.04.2019. Aggrieved, PGCIL has filed an appeal before APTEL. **Current Status:** Previous hearings held on multiple dates from 2.12.2019 to 29.8.2023. IA No. 1158 of 2019 dismissed as infructuous after filing of a certified copy of the impugned order. APL No. 24 of 2021 & IA No. 1159 of 2019 registry directed to verify pleadings and include in the "List of Short Matters." Next hearing initially listed on various dates from 13.01.2025 to 26.03.2025. Matter is reserved for judgment	139.00

25	RoW	Janaksinh Jaswantsinh Gohil	High Court of Gujarat, Ahmedabad	**Background of the case:** Janaksinh Jaswantsinh Gohil has separately filed a special civil applications against the Union of India, Ministry of Power, BDTCL and Office of the District Collector, Bharuch before the High Court of Gujarat, Ahmedabad (the "High Court") alleging that the name of their village 'Moriana' was not mentioned in the notification dated 24 January 2013 (the "Notification"). BDTCL appealed against the interim order before the High Court. The appeal was allowed and High Court directed BDTCL to pay compensation of INR 0.14 Million to the petitioner. **Current status:** For Final arguments, currently pending. No interim relief granted by court.The matter was disposed off on 6 February 2023.	0.14
26	RoW	Pravinsinh Jaswantsinh Gohil	High Court of Gujarat, Ahmedabad	**Background of the case:** Pravinsinh Jaswantsinh Gohil ("Petitioner") filed a special civil application against BDTCL & others ("Respondents") before the High Court of Gujarat, Ahmedabad challenging the notification issued under Section 164 of the Electricity Act issued by the Director, Ministry of Power, Government of India (the "Director") dated 24 January 2013 (the "Notification") claiming that the Notification was without jurisdiction and beyond the scope of the Director for the laying of overhead transmission lines of BDTCL. **Current status:** For Final arguments, currently pending. No interim relief granted by court.The matter was disposed off on 6 February 2023.	Non Quantifiable
27	RoW	Bhagavan Devman Bhil & Others. Vs. State Of Maharashtra	District Court, Dhule	**Background of the case:** BDTCL filed an case in the court of the District Court, Dhule against the Order vide 46 of 2016. Bhagawan Devman Bhilla filed a civil suit against the State of Maharashtra and BDTCL before the Joint Civil Judge (Senior Division), Dhule (the "Judge") for declaration, compensation and interim injunction in relation to a plot of land. BDTCL has filed a counter-claim and application for interim injunction. The Judge passed an order on 23 February 2016 (the "Order"), allowing the application for interim injunction of Bhagawan Devman Bhilla and partially allowing the application for interim injunction of BDTCL. As per the interim order, (a) BDTCL was restrained from evicting Bhagawan Devman Bhilla without following due procedure under law until final disposal, (b) Bhagawan Devman Bhilla was restrained from causing obstruction to the possession of BDTCL till final decision, and (c) prayer of BDTCL to construct compound wall (to join the two different parcels of land and make it one contiguous land) is rejected until final disposal of matter. **Current Status:** For Final arguments, currently pending. No interim relief granted by court.The matter was disposed off on 22 February 2022.	Non Quantifiable
28	RoW	Bhagwan Devamn Bhil and Devman Bhilla	District Court, Dhule	**Background of the case:** BDTCL filed an appeal in the court of the District Court, Dhule against the Order 174 of 2017. BDTCL filed this case against Bhagwan Devamn Bhil for encroachment on land owned by BDTCL. On request of authorities, this land was split into two with a passage of way given to general public to use. There were boundary walls created to safeguard the land. BDTCL wanted to create a boundary wall to unify these split parcels of land as well but Court disallowed it pursuant to Interim Order dated 23-02-2016 (in Petition no 86 of 2015). There were boundary walls adjacent to these split parcels of land. Bhagwan Devamm Bhil and family have encroached upon one part of the vacant land (possession of which was granted to BDTCL) and are also conducting farming there. Accordingly, BDTCL has filed a Petition BDTCL filed an appeal in the Court of the District Court, Dhule against the Order 174 of 2017. **Current Status:** The matter to be taken up for filing appeal. The matter was disposed off on 18 July 2023.	Amount paid in compliance of said order. [In Regular Civil Suit No.86/2015 the learned Jt. CJSD, Dhule, vide Order dated 23.02.2016, directed BDTCL to pay Rs.1,000/- to the respondents No1. to 3]

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
1	RoW	Mr. Bhujbal Patel & others (Bhujbal Vs. Union of India Through Secretory Energy Electricity Ministry Government of India New Delhi)	District & Sessions Court, Sagar, Madhya Pradesh	**Background of the Case:** Bhujbal Patel and others (the "Petitioners") filed a civil application against the Union of India before the District Magistrate, Sagar, Madhya Pradesh (the "District Magistrate"), under the Telegraph Act, 1885, alleging that they suffered damage due to the construction of the high voltage transmission line by JTCL. The Petitioners claimed compensation of INR 14.35 Million. They filed a writ Petition before the High Court of Madhya Pradesh, Jabalpur Bench (the "High Court"), alleging that JTCL was using their land, without consent and thereby depriving them of their right. The High Court issued an order dated 23.06.2014 in favour of JTCL (the "Order") and directed the Petitioners to seek recourse under Section 16 of the Telegraph Act, 1885. Thereafter, the Petitioners approached the Sub - Divisional Magistrate, Sagar. The High Court stated the Petitioners suppressed material facts and dismissed the Petition. Aggrieved, the Petitioners filed a civil application against the Union of India before the District Magistrate, under the Telegraph Act, 1885, alleging that they suffered damage due to the construction of the high voltage transmission line by JTCL and claimed compensation of INR 14.35 Million. **Current Status:** In Both these Cases reply has been filed by our Lawyer & The petitioner's (Mr Bhujbal Patel & Mr Jagmohan Patel) have submitted their court fees i.e. Rs 1,50,000/- + Rs 1,50,000/- = Rs 3,00,000/- for both compensation cases & Issues have been framed. Cheif examination closed. Next Steps to be taken is the cross examination hearing of interim application.	14.35
2	RoW	Mr. Jagmohan Patel & Others	District & Sessions Court, Sagar, Madhya Pradesh	**Background of the Case:** Jagmohan Patel (the "Applicant") filed an application against the Union of India, JTCL and others, before the District Magistrate, Sagar, Madhya Pradesh, under the Telegraph Act, 1885, alleging that he suffered damage due to the construction of high voltage transmission lines by JTCL. He claimed compensation of INR 9.28 Million. The District Judge, District Court, Sagar also issued a show cause notice dated 25 August 2016, requiring the Applicant to appear before it at the designated time. JTCL has filed its reply. The Applicant has filed another Petition before the District Magistrate, Sagar, Madhya Pradesh against the Union of India and others for payment of compensation amount of INR 0.69 Million for loss caused to the Applicant due to construction of high voltage transmission line by JTCL. **Current Status:** In Both these Cases reply has been filed by our Lawyer & The petitioner's (Mr Bhujbal Patel & Mr Jagmohan Patel) have submitted their court fees i.e. Rs 1,50,000/- + Rs 1,50,000/- = Rs 3,00,000/- for both compensation cases & Issues have been framed. Cheif examination closed. Next Steps to be taken is the cross examination hearing of interim application.	9.97
3	RoW	The State of Madhya Pradesh	High Court of Madhya Pradesh, Jabalpur	**Background of the Case:** The District Collector, Mandala has Suo moto started inquiry in the case filed by Imrat Singh and others against JTCL and has passed an order dated 3 April 2018 directing JTCL to pay a compensation amount of INR 5.95 Million to 95 land owners without considering the reply and documents submitted by JTCL. JTCL has filed in appeal before the High Court of Madhya Pradesh at Jabalpur. JTCL has challenged the DM Mandla order. Case Pending .Partial stay order has been granted by HC Jabalpur. **Current Status:** Collector's order for compensation: INR 59 lakhs. JTCL already paid around 15 lakhs as per our calculation. JTCL challenged DM Mandla order. Partial stay order has been granted by HC Jabalpur. Matter is pending and the case is not listed for hearing.	4.4

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
4	RoW	Sanjay Jain and Others	High Court of Madhya Pradesh, Bench at Jabalpur	**Background of the Case:** Sanjay Jain and others (the "Petitioners") filed a writ Petition before the High Court of Madhya Pradesh, Jabalpur Bench (the "High Court") against the State of Madhya Pradesh and others (the "Respondents") alleging that the land is being utilized for construction of transmission line towers without acquiring the land in accordance with the law. The High Court, by its order date 31.12.2012 ordered that the status quo with respect to the property in question should be maintained till the land is not acquired by the Respondents for the construction of towers and ordered that compensation be paid to the Petitioners. The High Court, by an order dated 8.07.2014 (the "Order") disposed off the said matter along with the direction that along with the certified copy of the Order, the Petitioner may prefer a representation raising his grievances which to be adjudicated by a competent authority within a month. Till the decision by the said authority, the interim order shall remain in operation. JTCL got the stay vacated. In compliance to High Court order, Sanjay Jain filed its claim before District Collector (DC) Damoh. In the matter, DC Damoh vide order dated 28.08.2014 disposed the said matter. The Petitioner had now filed the present W.P against the said order of the DC. In December 2014, the W.P filed by Sanjay jain is being dismissed by Madhya Pradesh and directed JTCL to work and to grant compensation of INR 14,924. However, petitioner refused to take said compensation and filed instant petition but JTCL denies all allegations as levelled in the instant petition. **Current Status:** The matter is currently pending and the case is not listed yet.	11.83
5	RoW	Lalchand Agarwal	Supreme Court of India	**Background of the Case:** Lalchand Agrawal filed a writ Petition against the Union of India before the High Court of Madhya Pradesh, (the "High Court") challenging the erection of a tower on his land by JTCL, alleging that his village was not mentioned in the notification dated 12.07.2013 under which JTCL was authorized to erect towers, and further alleging that no notice was provided and no compensation was paid. The High Court rejected the claim of Lalchand Agrawal. Aggrieved, Lalchand Agrawal has filed a civil appeal before the Supreme Court of India. JTCL has filed its reply. Now, Mr. Lalchand Agrawal, has filed a Civil Appeal No. 8987 of 2015 before Supreme Court against judgement of the High Court of Madhya Pradesh dated 13.04.2015 in favour of JTCL. **Current Status:** Reply has been filed and Next date of hearing is to be announced.	Not Quantifiable
6	RoW	Suo Moto Public Interest Litigation	CJ, High Court of Chhattisgarh	**Background of the Case:** The Chief Justice, High Court of Chhattisgarh took a suo moto cognizance on a newspaper clipping published in Dainik Bhaskar Bilaspur dated 27.04.2024 regarding "High tension line causing electric field on the land in 8 to 10 villages of Bilaspur District, farming halted in thousand acres, villagers compelled to wear long boot". **Current Status of the Case:** Chief Electrical Inspector has been made party to the case,who now need to submit their reply. Central Electricity Authority(CEA) conducted its activity, prepared and submitted Report along with the parameters and standards taken under consideration.	Not Quantifiable

7	Regulatory	CERC and PGCIL	APTEL	**Background of the Case:** CERC in its Order dated 02.09.2022 in Tariff Petition No. 261/TT/2015 filed by PGCIL directed that : - JTCL is liable to pay transmission charges from 5.10.2014 to 30.6.2015 to PGCIL for its Asset-1: 765 kV line bay and 240 MVAR Switchable Line Reactor at Jabalpur Pooling Sub-station for 765 kV S/C Jabalpur - Bina Circuit-III (IPTC). - JTCL is liable to pay transmission charges from 13.11.2014 to 30.6.2015 to PGCIL for its Asset-2: 765 kV line bay and 240 MVAR line reactor(nonswitch-able) at Bina Substation for 765 kV S/C Jabalpur-Bina Circuit-III (IPTC). Aggrieved by the order JTCL has filed an appeal with APTEL challenging the order issued by CERC. **Current Status:** Matter has been included in the 'List of Finals' i.e ready to be heard .Next Date of Hearing is awaited.	173.74
8	Indirect Tax Matters	Indirect Tax Department	High Court, Jabalpur, Madhya Pradesh	**Background of the case:** Four entry tax demands amounting to a total of INR 138.75 Mn were raised on JTCL for goods imported into Madhya Pradesh during the construction phase. The payments pertain to FY 2013, 2014, 2015 and 2016. It was contended by the SPV that the entry tax should not be levied because the goods were purchased prior to the commencement of the business and not in the course of business. **Current Status**: The matters are currently pending adjudication. Writ petitions have been filed before the Hon'ble MP High Court and the matters have tagged NTPC's case (VATA 09/2010) wherein it was held that no entry tax is payable on the purchases made during the construction phase.	138.75
9	Indirect Tax Matters	Indirect Tax Department	Sales Tax Tribunal	**Background of the case:** Indirect tax matters involving JTCL are in relation to demand for payment of entry tax for FY 2014-15, which was allegedly incurred by JTCL during the course of its business. The aggregate amount involved in the matters is INR 40.50 Million. JTCL had filed an appeal against the Order before the Commissioner (Appeals) on 22 October 2018. The Appeal was admitted by the Hon'ble Commissioner (Appeals) and it was requested that the matter be kept in abeyance till the time finality is obtained in the matters for previous Assessment Years. However, the Additional Commissioner did not accept further request for adjournment and passed his order dated 21 November 2019 (received by JTCL on 05 December 2019) upholding the duty demand on the basis of the Tribunal order for the past period. Simultaneously, a garnishee notice had also been issued by the Jurisdictional Deputy Commissioner at Bilaspur to PGCIL directing them to make payment of the balance tax amount of INR 34.42 Million outstanding as at that date. JTCL has immediately filed a letter dated 06 January 2019 to the Deputy Commissioner with a copy to the Commissioner stating that any such recovery before expiry of 30 days from the date of communication of order is completely out of place and illegal. JTCL has thereafter filed an Appeal before the Tribunal to challenge the order of the Additional Commissioner and also made pre-deposit in this regard. Pursuant to appeal filing, the PGCIL recovery notice has been withdrawn. The matter will be heard in the Tribunal in due course. **Current Status:** The matter is currently pending adjudication.	40.50

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
10	Indirect Tax Matters	Indirect Tax Department	High Court, Bilaspur, Chhattisgarh	**Background of the case**: Demand has been raised on account of non-payment of entry tax on entry of goods purchased into the State by the Company during setting up of transmission lines basis that Entry tax is not applicable when the goods are procurement during construction phase i.e. before commencement of business of transmission of electricity in the State. Entry tax demand has been raised vide Assessment Order dated 29 Feb 2020. JTPL has applied for the certified copy of order in the month of October, 2020 and received the same in the same month on 14 October 2020. However, as per the Department record the Assessment Order has been delivered to the Company on 03 June 2020. In this regard, JTPL has filed a writ petition against the Order before the High Court (instead of appeal before the Commissioner (Appeals) along with a prayer to stay the recovery of the entire amount. The Hon'ble Chhattisgarh High Court has disposed of the said writ petition vide its order dated 12 January 2021. In terms of the said order, JTPL has been directed to file an Appeal before the Commissioner Appeal along with requisite pre deposit. Also, it has been directed that the Commissioner (Appeals) has to keep the matter in abeyance, till the time the previous matters before the High Court on the same issue attains finality. **Current Status**: JTPL has filed the appeal before the Commissioner (Appeals) on 12.02.2021.	21.36
11	Indirect Tax Matters	Indirect Tax Department	High Court, Bilaspur, Chhattisgarh	**Background of the case:** Two indirect tax matters involving JTCL are pending before the High Court of Chhattisgarh in relation to demand for payment of entry tax, which was allegedly incurred by JTCL during the course of its business. The aggregate amount involved in the matters is INR 51.55 Million. Having heard learned counsel for the parties, the court is prima facie satisfied that the order dated 27 June 2018 rejecting to refer the questions of law raised in the reference application filed before the Tribunal suffers from irrationality and illegality. The impugned order dated 27 June 2018 passed by the Commercial Tax Tribunal, Raipur is set aside. The Tax Case is allowed. The Tribunal is directed to state the case and refer the same for consideration to the High Court. The Learned Tribunal has referred the substantial questions of law for consideration of the High Court in abeyance of the directions of the Hon'ble Court in its order dated 7th January 2019. The matter was listed for hearing on 13.12.2019 before the Bilaspur High Court wherein Senior Adv. Mr. Kavin Gulati along with ELP, travelled to represent the matter. When the matter reached for hearing, the Department Advocate requested for adjournment in the matter stating that name of the Advocate General/Standing Counsel has not been shown in the cause list. The Bench has accordingly noted submission and directed the Registry for an explanation in writing, counter signed by the supervising official that why the name has not been stated. Accordingly, the matter has been posted for hearing on 20.01.2020 and 25.02.2020 when adjournment has been sought due to unavailability of Senior Advocate, Mr. Kavin Gulati. **Current Status**: The matter was last listed for hearing on 23.03.2020, on which due to Covid-19 lockdown, matter was not heard and thereafter the matter has not been listed for hearing till date.	51.55
12	Direct Tax Matters	Income Tax Department	CIT (A)	**Background of the case:** Assessing Officer (AO) initiated penalty proceedings section 274 read with section 270A of the Act vide notice dated 21/01/2020 on account of under-reporting of income basis the additions under section 14A of the Act. In response to the penalty proceedings, the application under section 270AA was filed before AO wherein the JTCL vide application dated 16-Mar-22, has made request for grant of immunity (or to grant stay of demand) since all the conditions provided under section 270AA was completely satisfied by the JTCL and aforesaid penalty order is erroneous and need to be rectified. The reply of the JTCL has not been considered and penalty order has been passed under section 270A of the Act, wherein 50% penalty has been imposed on account of under reporting of income. Aggrieved with the penalty order, the JTCL has preferred an appeal before Commissioner of Income-tax Appeals. **Current Status:** The matter is currently pending.	0.23

12.2. JTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
13	Regulatory	MBPMPL, JTCL & Other LTTCs of JTCL	CERC	**Background of the Case:** PGCIL filed Petition No. 261/TT/2015 before CERC for determination of transmission tariff for line bays and reactors related to JTCL's JB and JD transmission lines under the Tariff Regulations, 2014. CERC, via Order dated 27.05.2016, held that transmission charges during the mismatch period (i.e., COD of Asset-I: 05.10.2014 to 01.07.2015 and Asset-II: 13.11.2014 to 01.07.2015) would be billed to the LTTCs of JTCL. Accordingly, PGCIL initiated bilateral billing and issued a Notice of Regulation of Power to MBPMPL due to non-payment of ₹2.87 crore. **Current Status:** MBPMPL challenged the billing by filing Petition No. 232/MP/2018 and later filed Review Petition No. 35/RP/2018 against the 2016 Order. CERC, on 28.01.2020, disposed of the review and reopened Petition 261/TT/2015 only to reconsider the levy of bilateral billing. The matter has since been disposed.	100.2

12.3. RTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Regulatory	NPCIL	Supreme court	**Background of the Case:** CERC, in its Order dated 21.09.2016 in Petition No. 43/MP/2016, directed NPCIL to pay transmission charges for the period from 01.03.2016 to 16.11.2016. Aggrieved, NPCIL filed Appeal No. 332 of 2016 before APTEL, which upheld CERC's order on 18.01.2019 and directed payment. NPCIL subsequently filed a Civil Appeal before the Supreme Court against APTEL's judgment. **Current Status:** The previous hearing held on 9.5.2019, 15.7.2019 & 17.3.2021, 12.02.2024. During Last hearing on 21.08.2024, the court directed to list the matter before the Hon'ble Court on 04.12.2024. Notice Issued. Clubbed alongwith Patran Appeal pending before the Supreme Court. Reply of RTCL to NPCIL appeal already filed.	280.00
2	IDT-Entry Tax	Commercial Tax Department (2 separate cases)	MP - High court - Jabalpur MP	**Background of the case:** Period from - FY 14-15 & FY15-16 The Commercial Tax Department, Government of Madhya Pradesh sent a notice of demand of Entry Tax on RTCL for payment of entry tax of INR 9.43 Million and penalty of INR 3.72 Million. As per the Entry Tax Act,1976 dealer is liable to pay Entry tax during the course of business. However, RTCL is in the opinion that since the business is in construction phase, entry tax is not payable. Further, RTCL filed a writ petition (3759/2017) in the Madhya Pradesh High Court in which conditional stay was granted by the court on 7 March 2017. As per the order, RTCL needs to deposit 50% of the amount. **Current Status:** Entry tax demand of INR 13.30 Million for RAPP Transmission Company Limited ('RTCL') pertains to demands under the Entry tax act read with Madhya Pradesh Vat Act, 2002 for payment of entry tax upon completion of assessment by tax authorities for the year 2014-15 & 2015-16. RTCL has appealed against the demand before High Court, Jabalpur (Madhya Pradesh). The management, including its tax advisors, believe that it's position will likely be upheld in the appellate process. No expense has been accrued in the consolidated financial statements for the tax demands raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the financial position and results of the operations of RTCL. RTCL has deposited INR 4.72 Million with the tax authorities against the said demands to comply the order of Hon'ble High court of the Madhya Pradesh. The Hon'ble High Court has accepted the plea of RTCL and has given stay on entire demand after deposit of specified amount till the disposal of case. The writ petition has been tagged along with a similar matter of M/s NTPC (LTD.) in VATA 09/2010 and is pending for hearing before the Hon'ble High Court.	13.30

12.6. NRSS: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	RoW	Abdul Ahad Khan	Sub Judge Pattan	**Background of the case:** Abdul Ahad Khan (Petitioner) the owner of the land and permanent resident of J&K, has filed the suit for damage for losses and damages of his said plot of land. Petitioner claimed that the opposite party has not adopted the procedure laid down under JK Land Acquisition Act and without providing any kind of compensation. The court dismissed the suit on the basis that the defendant is not a local of the state and hence cannot acquire the land. Court passed interim direction that no compensation be released in the name of defendants as of now. Written statement filed. PNC was conducted and amount was deposited. **Current Status:** Pending for framing of issues. PNC was conducted and amount was deposited. For issues in main and For arguments in stay appl. An application has been filed to put on record documents to be produced pertaining to acquisition process before the court. Awaiting AD	0.64
2	RoW	Girdhari Lal	Principal District Judge, Jammu	**Background of the case:** Girdhari Lal ("Plantiff") has filed suit to release the payment for foundation work done for TATA against Tower No. 224, 223 and Tower no.199 along with payment of interest @ 12% from the date it was delayed. Plaintiff is claiming that he has done foundation work for TATA but payment has not been received in his favour. Written Statement filled. **Current Status:** Summons issued to rest of the defendants. Suit for Mandatory injunction is at Service stage.	1.15
3	RoW	Ashwani Kumar	High Court of Jammu and Kashmir	**Background of the case:** Ashwani Kumar has filed the writ petition for quashing the installation of electric towers on land at Khasra No. 328, situated at Gazipur, Tehsil R.S. Pura, Jammu and for fixing the towers no. 34 and 35 in accordance with the original alignment as transmission line has not been laid as per original route alignment. **Current Status:** Court has passed interim direction that no tower to be erected over the land of the petitioner without following the provisions of Land Acquisition Act. The said land is not acquired as the land was not required for tower installation and thus completed the installation at some other land. Reply to be filed. Last Opportunity given Accordingly the matter will be disposed off. Summons issued to rest of the defendents.	1.15
4	RoW	Nirmal Kumari	Principal District Judge, Jammu, Jammu and Kashmir	**Background of the case:** Nirmal Kumari - Owner is claiming that she has not been given proper land compensation amount for her land for acquisition. Written Statement filled on the ground that plaintiff has already received crop/tree compensation and rest of the PNC amount has been deposited with the concerned authority. Plaintiff, meanwhile, filed one contempt application thereby alleging that defendants have tried to execute some work over the land. Pending for arguments in stay application and objections in contempt application. **Current Status:** Pending for arguments in stay application and objections in contempt application. Stage - Preliminary Statement in suit for injunction. Stage - Further Order in the stay.	0.10

12.6. NRSS: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
9	RoW	Raja Muzaffar Bhat	Jammu & Kashmir Human Rights Commission, Srinagar	**Background of the case:** The complainant (Raja Muzaffar Bhat) has alleged that 40,000 forest tress and other fruit and non fruit bearing trees have been cut in last two years. People have been put to several health hazards. People living near to line have not been compensated adequately and have been put to risk of several health issues. He has also given one list of people who have not been compensated properly. In his prayer, he is asking for status report from different departments, especially, forest dept and why FAC is giving directions for cutting of trees every year. People nearer to line must be compensated adequately rehabilitated at some other places. Reply has been filed. **Current Status:** The matter is currently pending as Jammu and Kashmir State Human Rights Commission, Srinagar, has been dissolved due to abrogation of article 370. Thus the matter will be listed post re constitution of the commission.	0.30
10	RoW	Nazarat Khan	Additional Special Mobile Magistrate, Thannamandi. Jammu and Kashmire , District Rajouri	**Background of the case:** Nazarat Khan ("Plaintiff") has filed a suit for mandatory injunction commanding NRSS to restore the original position of the residential house in actual physical possession of the plaintiff, constructed on the land owned by the plaintiff which was disturbed by the installation of the transmission lines. Alternately, NRSS can adjust the claim of the plaintiff in respect of the residential house and pay for the compensation and damages to the plaintiff for the loss caused to the plaintiff by the act of the defendant. Plaintiff has not been given any compensation. He is claiming that he has also filed an application before concerned SDM also. Appearance caused on last date. To file reply. No interim relief granted. **Current Status:** Reply is filled. The matter is still pending. Next date of hearing is not notified.	Non Quantifiable
11	RoW	Shakeel Ahmad Bhat	Principal District Judge, Budgam	**Background of the case:-** This pertains to land and tree compensation. Shakeel Ahmed Bhat has filed a suit before the DJ, Budgam against the State of JK, DC Budgam, Tehsildar Khansahib, and NRSS (Def 4 5 6) seeking a grant of a decree of declaration that he is entitled to compensation with consequential relief of perpetual/mandatory injunction directing the Defendants to make payment of compensation. He claims that the construction of TL in the suit property (orchard) has rendered it useless, and he has lost significant income because of the same. Plaintiff claims that they asked the def. to initiate land acquisition proceedings, but they have not done the same, thereby denying compensation to the plaintiff. Prayer - declare that plaintiff is entitled to compensation for his land; and his loss of income due to usufructs from the land. We have been informed that land acquisition proceedings were initiated and 13 Marlas 31 sq. ft. of land was acquired from the family including Shakeel Ahmad, the plaintiff herein. Land Compensation has been duly paid per the documents attached (check for sale deed). It appears that a similar case was earlier instituted by another family member, which was subsequently withdrawn in terms of the undertaking given by the plaintiff and his family members (check the earlier case, the order disposing of it in view of the settlement). Additionally, crop compensation for the area where stringing has been done has also been paid. Another compensation for ROW is pending, for which he has already approached the Sarpanch Committee. Compensation for ROW has been offered in installments. He is unwilling to accept the compensation amount of 2 lacs in installments and wants it in one go. **Current Status:-** Written statement filled on 9/9/2021.	Non Quantifiable

12	RoW	Mohammad Akram Lone	High Court of J&K, Srinagar	**Background of the case:-** The landowner are claiming land and tree including the land of the Muqboosq Ahil Islam Kachwari and accordingly assess and make payment to the petitioner's in accordance with provisions of applicable laws and rules as their land has become useless. **Current Status:-** Matter has been dismissed as withdrawn on 17.03.2025.	Non Quantifiable
13	RoW	Naresh Sharad	High Court of Punjab and Haryana, Chandigarh	**Background of the case:-** Writ Petition filed for payment of damages caused to due setting up of the transmission project. As confirmed by the AM Team, the transmission line belongs to NRSS. (However, NRSS has not been made a party to the case.) The Adv. is observing the case. **Current Status:-** Reply filed by Respondent No. 1 and Respondent No. 4 on 3.3.2022. Next date of hearing is 29 April 2025.	Non Quantifiable
14	RoW	Md. Ramzan Wami	Court of Munsiff, Tangmarg	**Background of the case:-** Suit for perpetual and mandatory injunction filed by landowner for stay on demolition of his dwelling house. By order dated 14 March 2022, the Court of Munsiff, Tangmarg directed to maintain status quo and required the Respondent to file the WS. **Current Status:-** On 4 April 2022, the Adv. appeared on behalf of NRSS and sought time to file the Vakalatnama. Vakalatnama filed on 18 April 22. Next date of hearing is 24 March 2025.	Non Quantifiable
15	RoW	Union of India & Border Roads Organization	High Court of Jammu and Kashmir	**Background of the case:-** Writ Petition filed for stay on the road construction/widening project by Border Road Organization (BRO) from Buflihaz to Rajouri. The unauthorized construction/widening by BRO adversely impacted the transmission line due to change in the topography of the area and caused immense damage to the tower at Location 286 of the transmission line. Stay granted by Order dated 27.05.2022. On routine patrolling undertaken by NRSS officials, it was observed that BRO resumed its construction activities in violation of the stay order. Owing to which NRSS has now filed this Contempt Petition against BRO. **Current Status:-** Vide Order dated 26.12.2022, the Court granted the repondent four weeks time to file statement of facts/compliance report. For orders after notice. NRSS is considering writing letters to the SDM and DM informing them of the violation of order dated 27.05.2022, and filing a complaint with local Police Station, seeking their assistance in the matter.	216.10

17	RoW	Mushtaq Amad Dar	Principal District Judge, Budgam	**Background of the case:-** Mushtaq Ahmad Dar & Others are alleging that the due procedure for acquiring the land was not followed while setting up tower and corridor on their land. Further, alleging that appropriate compensation is also not paid. **Current status:-** Summons received. Copy of the Plaint received. Appearance caused on 15 July 2022. Written statement to be filed. Next date of hearing is 15th April 2025.	Non Quantifiable
18	RoW	Ghulam Mohammad Bhatt	The Munsiff Court, Tangmarg J&K, District Baramulla	**Background of the case:-** Ghulam Mohammad Bhatt vide the Suit prays for a grant of decree for mandatory injunction and prays that the Court direct payment of compensation for his land ROW of Samba-Amargarh TL. **Current status:-** Admitted no interim relief granted and line commissioned long back. For Appearance and to file WS. Next date of hearing is not notified.	Non Quantifiable
19	RoW	Mohammad Sultan Sheikh	Principal District Judge, Budgam	**Background of the case:-** Mushtaq Ahmed Khanday & others filed a suit for decree for declaration and mandatory injunction before the PDJ, Budgam. They allege in the suit that the laying of the transmission line has caused deterioration of land and damage of crops. Further contending that they have not been paid due compensation for crops. They pray in their suit for a declaratory decree declaring that they are entitled for compensation, mandatory injunction directing NRSS to pay compensation and any other decree deemed fit by the Court. **Current status:-** Written Statement filed. Next date of hearing is 15th April 2025.	Non Quantifiable
20	RoW	Shri Bhagwan	High Court of Jammu and Kashmir	**Background of the case:-** The landowner had filed a Petition before the Additional District Judge, Charkhi Dadri, contending that NRSS initiated the construction activity of laying down a 400 kV transmission line over his agricultural land (Killa No.29). He contended that he did not receive any compensation till date and sought compensation of Rs. 1 Lakh towards damage to crops, physical and mental agony and danger to human and cattle life in the future. Misrepresentation was made before the District Court stating that the Parties have reached a settlement and that NRSS agreed to pay the landowner an amount as compensation. The Petition was thereby disposed off on 21.12.2022 against NRSS and hence the present appeal. **Current Status:-** Next date of hearing is 21 April 2025.	Non Quantifiable

12.6. NRSS: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
21	RoW	Zeeshan Fida	High Court of Jammu and Kashmir	**Background of the case:-** Pursuant to an application filed under Section 156(3) of CrPC, titled Mohd. Kabir Vs Tata Starlight Company India Private Limited, the Munsiff Court Thanamandi passed an Order dated 10.12.2022 directing that an FIR be registered and investigations be carried out.In terms of the aforementioned Order, SHO, Thanamandi Police Station registered an FIR ON 14.12.2022 for commission of offences under Section 336 and 337 of IPC. The SHO is seeking to implicate and file a charge sheet in the said FIR against the Petitioner. The Petitioner vide the present petition seeks to challenge the legality and validity of the FIR. The FIR is challenged on the following grounds: 1. Petition was not named as an accused in the FIR and has no concern with the company named in the FIR. 2. NRSS has security systems in place to avoid mishaps. No incidents of fault or tripping was reported in the data base between September 2022 to December 2022. No investigation was undertaken by the SHO in this regard. 3. No determination of liability has been carried by the SHO. 4. No investigation has been carried out to rule out the possibility of electrocution due to the fault of the transmission line of PDD running adjacent to NRSS's transmission line. **Current Status:-** Next date of hearing is 07 March 2025.	Non Quantifiable
22	RoW	Mohammad Abdullah Sofi	Principal District Judge, Budgam-Civil, Jammu and Kashmir	**Background of the case:-** It is the contention of the plaintiff that the defendant leased a premises from the plaintiff vide a lease deed. The defendant is thereafter alleged to have approached the plaintiff to take lease the plaintiff's land for installing towers on a condition that a separate lease agreement will be entered between the parties. It is alleged that the defendant has occupied the land since August 2015 and the towers were installed in 2016 without payment of lease. The plaintiff has filed the present petition to claim arrears of Rs. 5.28 Million. Current Status:- Vakalatnama filed. Next date of hearing is 19 March 2025.	5.28
23	Direct Tax Matters	AO	CIT(A)	**Background of the case:** Disallowance u/s 14A on MF dividend income by applying new and old Rule 8D for FY2016-17. The AO has made an addition of Rs. 38.1 lakh fir FY17-18 under section 14A read with Rule 8D under normal provisions as well as under MAT provisions. The AO has not allowed deduction under section 80IA on such addition under normal provisions. Also, demand of Rs. 7.95 lakh is arising pursuant to addition under MAT. **Current Status:** NRSS has filed an appeal before the CIT(A) and a request for stay of demand.	0.80
24	Indirect Tax Matters		Sales Tax Officer	**Background of the case:** The Company had undertaken movement of goods on returnable basis wherein the Company had issued a returnable gate pass on July 16, 2024. The subject goods were mentioned in the e-way bill, however, owing to an inadvertent error, incorrect vehicle number was mentioned in the e-way bill. **Current Status:** Appeal is being filed, hearing scheduled on 09-05-2025	1.44

12.6. NRSS: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
31	Regulatory	NRPC	CERC	**Background:-** NRSS has filed this petition seeking directions to NRPC to certify the availability for the months of January 2022 and February 2022 by excluding the outage of transmission line from 20 January 2022 and 08 February 2022 from the total time of operation of Transmission Line for the respective months. Earlier NRPC had disallowed the outage period for modifying the 400 kV D/C Sambha - Amargarh Transmission Line under the project for above period. The outage was taken to remove Loc. No. 286 of the Transmission Line which got impacted due to uniformed construction work of road expansion carried out by BRO. NRSS has filed this petition in accordance to provisions provided in Appendix II - Clause 5 (i) of CERC Tariff Regulation 2019. **Current Status:-** Hearing on 23.07.2024: Appellant requested permission to re-serve notice to unserved Respondents and two weeks to file an affidavit of proof of service. Notice issued for both the main Appeal and IA, returnable on 08.08.2024. Dasti notice allowed. Hearing on 20.08.2024: Application to change the name and address of the 13th Respondent allowed. Amended memo of parties to be filed within one week, and fresh notice issued. Matter posted for 24.09.2024, then rescheduled to 30.09.2024. Hearing on 30.09.2024: Notices served to all Respondents. 4th Respondent given two weeks to file a reply to the IA for interim relief. Matter posted for 22.10.2024, 18.11.2024, 29.11.2024, and listed for hearing on 06.01.2025. Hearing on 23.01.2025: Appellant's Counsel sought to withdraw the IA in light of CEA's instructions dated 14.01.2025, with liberty to approach CERC for relief. IA dismissed as withdrawn. A letter was submitted to NRPC on 18.02.2025 seeking deemed availability per SOP dated 14.01.2025 issued by CEA.	NA
				Submitted letter to NRPC seeking deemed availability in view of SOP dated 14.01.2025 issued by CEA on 18.02.2025. Hearing took place on 17.04.2025: Mr. Pradeep Misra (for the 24th Respondent) and Mr. Sachin Dubey (for the 18th & 19th Respondents) submit that their clients do not wish to file a reply; their submission is noted. Mr. Chetanya Puri (for the Appellant) seeks one week to file proof of cost payment; time granted. Counsel state that pleadings are otherwise complete. Registry to verify and re-list the appeal under 'Short Matters' accordingly. NRPC, via letter dated 22.04.2025, directed the Petitioner to approach this Hon'ble Commission for deemed availability for the Outage Period as per the SOP dated 14.01.2025, based on the liberty granted by the Hon'ble Tribunal in its Order dated 23.01.2025. Accordingly, Petition is filed on 02.05.2025 seeking urgent directions to NRPC to grant deemed availability for the SA Line during its outage from 20.01.2022 to 08.02.2022, in view of the CEA's SOP dated 14.01.2025. Hearing took place on 29.05.2025: Mr. Shri Venkatesh, learned counsel for the Appellant, submitted that the rejoinder to the fourth Respondent's reply has been filed. Both sides confirmed that pleadings are complete. The Registry shall verify and list the appeal in the Finals, to be taken up in due course.

12.7. OGPTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending before	Details of the case	Amount Involved (INR Million)
4	RoW: Removal of Illegal / Unauthorized construction	APL Apollo Building Private Limited	ADJ Bhatapara	**Background of the Case:** M/s APL Apollo Building Pvt Limited started construction of a wall under and near OGPTL's Transmission Line and Towers in the Right Of Way (corridor) of Jharsuguda (Sundargarh) – Raipur pool 765 KV D/C line. This construction could prove to be extremely dangerous and would hinder in the maintenance and servicing of the line. Therefore, an application to the SDM, Simga under S. 133, CrPC and S. 68(5) EA, 2003 for an injunction seeking the removal and permanent stoppage of such construction work of a compound wall by M/s APL Apollo Building Pvt Limited, which is in progress in the line ROW (corridor) of Jharsuguda (Sundargarh) – Raipur pool 765 KV D/C line of Odisha Generation Phase II Transmission Limited.If the construction of the wall is allowed to be finished, such wall will prove dangerous and may very well be responsible for any accident and may lead to loss of nature, property and life. Furthermore, this wall is and will be a hindrance for maintenance and repair of the towers and lines. Hence this application. A Subsequent Early Hearing application has been filed on 20.01.2021 for immediate action, since the wall is nearing completion. Early hearing application was heard on 25.01.2021, and the date was fixed to be 29.01.2021. SDM passed an order in July 24 for removal of construction. Now APollo has gone into revision against the order of SDM **Current Status:** On 05.02.2021, APL Apollo filed a reply. The same, since it was not signed by the party, and only by the advocate, was not accepted by the SDM. Now matter fixed for hearing of that issue on 17.02.2021. Favourable Order passed by SDM on 17.02.2021 ordering APL Apollo to immediately stop the ongoing construction, and permanently remove the already constructed wall by 03.03.2021. On 06.03.2021, Apollo asked for time to remove construction. Time granted by SDM. Next date set for 12.03.2021, by then, compliance of order should be done. Submission made by OGPTL asking for SDM to take steps as Apollo has not removed nor stopped construction. To be decided on 15.03.2021 - Reserved for Orders. disposed off on 31.07.2024. Revision filed by Apollo and fixed for arguments.	Non Quantifiable
5	RoW: Payment of Compensation	Jeevan Das Jogi & Others	High Court of Chhattisgarh at Bilaspur	**Background of the Case:** Applicant No. 1 is the owner of land bearing Khasra No. 7/03 and Applicant No. 2 is the owner of land bearing Khasra No. 34/4, situated at village Jaroud, Simga, District- Balodabazar-Bhatapara. The Applicants contend that they were not provided any compensation after installation of towers on their lands. Writ Petition 721/2018 was filed before the High Court which was dismissed directing the Applicants to file an application before the appropriate authority. Therafter, the Applicants filed Revenue Case No. Ba/121/2017-2018 (present Application) for grant of compensation before Collector, Bhatapara-Balodabazar, who transferred the same before Sub-Divisional Magistrate. The Applicants in 2023, filed Writ Petition 884/2023 seeking intervention of the High Court for receipt of compensation and speedy disposal of the present Application. The Writ Petition was disposed off with a direction to resolve the present Application at the earliest. SDM calculated the compensation ignoring the rule of 85/15 % and passed direction that compensation be released based on 100%. The said order of SDM has been challanged by OGPTL before the collector. Now the owner Jeevan dass has gone before the high court with a plea that the compensation as decided bu SDM is not being released by OGPTL. **Current Status:** reply to be filed by OGPTL	Non Quantifiable

12.7. OGPTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending before	Details of the case	Amount Involved (INR Million)
6	Regulatory	CERC & Ors.	APTEL	**Background of the Case:** CERC in its Order dated 14.02.2019 in Petition No. 59/TT/2018 determined the tariff for PGCIL's assets viz. Asset-I: LILO of both Circuit of 400 kV D/C Rourkela-Raigrah (02nd Line) along with 04 Nos of 400 kV Line bays at Jharsuguda (Sundargarh) Substation; Asset-II: Split Bus arrangement at 400 kV Bus at Jharsuguda (Sundargarh) Substation and Asset-III: 02 Nos of 400 kV Line bays for termination of OPGC (IB TPS) - Jharsuguda 400 kV D/C line (under TBCB) at Jharsuguda (Sundargarh). In the said Order, CERC held that the transmission charges from 23.11.2017 to till COD of the generating station shall be borne by OPGC and shall be recovered on monthly basis. Aggrived by this Order of CERC, OPGC filed an appeal before APTEL. **Current Status:** Previous hearings were held on various dates from 7.1.2020 to 28.7.2023. The matter was last heard on 07.09.2022 and 28.7.2023. The court directed the appeal and IAs to be included in the "List of Finals of Court – I". Key points: -IA No. 1100 of 2021 was withdrawn with liberty to file a separate IA. -IA No. 771 of 2019: APTEL directed the 2nd Respondent to keep the bank guarantee alive during the appeal. -IA No. 152 of 2021: Dismissed as infructuous since Respondent-3 did not wish to file a reply. -IA. No. 230 of 2019: Directed to be re-included in the list of finals. Next hearing schedule is awaited.	NIL. No adverse financial impact on OGPTL.
7	Regulatory	CERC & Ors.	APTEL	**Background of the Case:** The Appeal filed by OGPTL challenging order dated 28.08.2022 (“Impugned Order”) passed by Ld. Central Electricity Regulatory Commission (“Respondent Commission/Ld. CERC”) in Petition No. 182/MP/2020 [Odisha Generation Phase II Transmission Ltd. v. West Bengal State Electricity Distribution Company Ltd. & Ors.]. Appeal has been filed challenging limited findings of Ld. CERC rejecting OGPTL’s claim viz: (a) Force Majeure claim for OPGC - Jharsuguda (Sundergarh) 400 kV D/C Line (“OJ Line”) and (b) Change in law claim for Jharsuguda (Sundergarh)-Raipur Pool 765 kV D/C Line (“JR Line”). **Current Status:** Previous hearings were held on 3.1.2023, 1.2.2023, 21.2.2023, 17.3.2023, 5.4.2023, 10.4.2023, 18.4.2023, and 29.8.2023. During the last hearing on 29.8.2023, in IA No. 1354 of 2023, the Court disposed of the IA and noted delays in filing pleadings. The Court directed Respondents 3 and 4 to pay Rs. 25,000 to CTU within 3 weeks and file proof of payment within 1 week thereafter. In A. No. 390 of 2023, the appellant's counsel stated they do not wish to file a rejoinder to R-9's reply. The Court directed the registry to verify pleadings and, if complete, include the appeal in the 'List of Finals'. The next hearing schedule is awaited.	NA

12.7. OGPTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending before	Details of the case	Amount Involved (INR Million)
9	RoW: Compensation Enhancement	Ramesh Kumar Soni	High Court of Chhattisgarh	**Background of the Case:** OGPTL approached the SDM-Simga for long pending tree removal issue (126 Nos) under the transmission line corridor span in between 37/8 to 37A/0 of JR line. The SDM instructed OGPTL to issue a DD as per the amount calculated during FY21-22 and OGPTL submitted a DD of Rs. 1,57,840. On a request by the landowner's lawyer, the SDM issued a letter for revaluation of compensation based on the latest actual tree girth. According to the valuation done by the Forest Department, the compensation amounted to Rs. 2,57,367. OGPTL submitted a DD of the difference amount of Rs. 99,527. Thereafter, the landowner's lawyer requested the SDM for computation of compensation as per the new tree rate list in FY-21-22. The request was accepted by the SDM and requested valuation as per new tree rate list. The land owner issued a demand notice dated 01.11.2023 to OGPTL stating that an amount of Rs. 3,27,412 was computed as compensation for trees and that OGPTL has paid an amount of Rs. 2,57,367 as compensation. Vide the demand notice, Ramesh Kumar Soni demanded that an arrears of Rs. 70,045 be paid in furtherance to the computed compensation. **Current Status:** Reply has been filed.	0.07(Amount of INR 2.57 lakh is already deposited out of total amount involved of INR 3.27 lakh)

12.9. GPTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	RoW	Raghuveer Singh	Civil Judge (Senior Division) Aligarh	**Background of the case:** Raghuvir Singh filed a suit along with an affidavit on 29/05/2018 against Chief Manager of GPTL and Chair Person Central Electricity Authority for permanent prohibitory injunction of installation of tower in the land of the plaintiff and also for construction of electric line over and under the land of the plaintiff. The plaintiff had also filed an application for grant of temporary injunction till the disposal of the suit for prohibitory injunction. The application for grant of temporary injunction was dismissed by the court on 18/08/2018 against which the plaintiff has filed a miscellaneous civil appeal no. 80/2018 of which final adjudication is pending before Hon'ble District Judge, Aligarh. Plaintiff has also filed an amendment dated 31/01/2019 claiming that the GPTL has installed and erected the tower and transmission line over the land forcibly and illegally and seeking a mandatory injunction to remove the tower and transmission line installed. However, GPTL in its Additional Written Statement claimed that there was no stay granted by the Appellate Court and during the pendency of the appeal it was within its lawful right to erect the tower and transmission line. Also that the plaintiff is not entitled to a decree for mandatory injunction. The Company also prayed that the removal of tower and transmission line will lead to disruption of power to the beneficiaries. In reply to this statement, the plaintiff has filed additional rejoinder affidavit claiming that the claims made by GPTL in the Additional Written Statement are false. The suit has been filed for INR 1 million and also an additional amount of INR 25,000 per month for loss of business and occupation for a year. RoW- demanding compensation. Plaintiff being co-owner (with Ram Singh, also defendant no. II) and in joint possession of the land (0.384 hectare out of Khasra No. 7 K, Min. situated at village Kamalpur, Pargana - Tappal, Tehsil - Khair, District Aligarh) has filed the suit for permanent prohibitory injunction and an application under Order 39 rule 1 & 2 read with Sec. 151 of CPC for temporary injunction. **Current Status:** The matter is currently pending. The reply is filed and is at disposal of applications stage while the next date of hearing is to be announced.	1.6
2	RoW	Chattar Singh	Additional Civil Judge (Senior Division), Kanina	**Background of the case:** Chattar Singh (the plaintiff) filed a suit for permanent injunction in the office of ACJ, Kanina, to the effect that GPTL & others (the defendants) are permanently restrained from laying down power line through any portion of plaintiff's fields. The plaintiff claimed that the erection of the proposed transmission lines would cause him immense loss in terms of endangering himself and his livestock, in addition to making his land uncultivable, which cannot be compensated in monetary terms. GPTL filed a reply dismissing the grounds of the above mentioned suit. The plaintiff was awarded compensation for loss to crops caused due to stringing and erection work. **Current Status:** The matter is currently pending and the reply is filed.Next hearing date is scheduled on 14 July 2025.	Non Quantifiable

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
3	RoW	Ishwar Singh	Additional Civil Judge (Senior Division), Sohna	**Background of the case:** Ishwar Singh (the plaintiff) filed a suit for declaration to the effect that the sale deed effected between Ishwar Singh and GPTL (the defendant) regarding the land in question, is illegal and void-ab-initio, alleging that insufficient compensation of INR 55.63 Million had been granted and he is entitled to recover additional compensation of INR 15.07 Million from GPTL, plus interest @18% from 19 April 2018. Also suit filed for ad-interim/ permanent injunction to the effect that defendant is restrained from interfering in the possession of plaintiff's land, from raising any construction over plaintiff's land and from further selling and alienating the land to anyone else. Further prayed that if plaintiff failed to prove possession in the court and if defendant succeeds in forceful possession of the plaintiff's land, then the court direct the defendant to hand over the possession of land to the plaintiff. The plaintiff's second application for appointment of revenue officer to collect evidence was dismissed. Thereafter, hearing was set for admission and denial of facts & documents and for framing of issues. Issues were framed and case is set for evidence. **Current Status:** The matter is currently pending while the reply has been filed and issues have been framed.Next date of hearing is scheduled on 17.05.2025.	15.07
4	RoW	Taawun Trust	ACJ, Civil Judge Senior Division, Palwal	**Background of the case:** Taawun Trust (the plaintiff) filed a suit for ad-interim/ permanent injunction to the effect that defendants are restrained from installation of any electricity towers or pulling any heavy electric lines over any portion of plaintiff's land. Also, restraining them from changing the nature and utility of the land in any other manner and directing GPTL to change the route of the electric line. Written statement filed by GPTL dismissing the grounds of plaintiff's suit. An application for permission to issue directions to defendants to supply documents concerned to the present suit was filed. **Current Status:** The matter is currently pending and the reply is filed.Next date of hearing is scheduled on 26 May 2025. 12.9. GPTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
5	RoW	Bhagirath Singh	Civil Judge Gurugram	**Background of the case:** Bhagirath Singh, the Plaintiff is aggrieved by the defendants act of laying transmission lines in the agricultural fields of the Plaintiff without necessary permission from the concerned department and Town Planner. Summons were issued to appear on 11.02.2022. The Summons were forwarded by the SPTL Team- actions initiated by IGT Team. Ministry of Power was Respondent No. 2 - By order dated 8.3.22, Ministry of Power has been deleted from the array of parties based on submissions made by Ministry of Power. **Current status:** Memo of Appearance to be submitted by Advocate on 11.02.2022. Vakalatnama filed. Written Statement filed on 12.05.2022. The next hearing date is scheduled on 22 May 2025.	Non Quantifiable
6	RoW	Dharam Singh	Civil Judge Gurugram	**Background of the case:** Dharam Singh and Jagdish Chand (Plaintiffs) had filed an application for ad-interim injuction to the Civil Judge. The Plaintiffs are the owners of the land where GPTL wants to install transmission tower for the Power Grid Project in the passage of the plaintiff's property. The plaintiff's have claimed that due to the action of GPTL, the land of the plaintiff's shall become useless and virtually be of no value. They would also suffer irreparable loss and damage which cannot be compensated in terms of money. GPTL via its written statement claimed that the Company is only installing electricity transmission lines on and above the suit land as per its alignment and transmission scheme and as per the procedures laid down in relevant laws. The plaintiff is only entitled for compensation in accordance with the provisions of the Electricity Act, 2003 read with Telegraph Act,1885 and such compensation is payable only once the power for laying down transmission lines has been exercised and damage, if any, is sustained by the person concerned. After hearing the plea of both the parties, Civil Judge dismissed the application of the plaintiff's for ad-interim injuction vide an impugned order. Being aggrieved by the order, the plaintiff's filed an appeal to the higher authority. The Additional District Judge came to the conclusion that the lower Court did not commit any error by dismissing the application of interim injunction and the said order is upheld and the appeal is dismissed. **Current Status:** The matter is currently pending while the reply has been filed and issues have been framed.Next hearing is scheduled on 17 May 2025. 14	RoW	TATA Projects Limited	Arbitral Tribunal	**Background of the case :** SPGVL was appointed as the EPC contractor of the NER Project.SPGVL appointed TPL as the sub-contractor for certain parts of supply and erection works of the Project. During operation of the Project NER encountered various incidents of failure and malfunctioning of the Insulators designed, manufactured, and supplied by Deccan Enterprises Limited to TPL which were handled/installed at the Projects by TPL.The defect liability period was still subsisting, and as such TPL was in material breach of its obligation by not keeping the PBGs valid. NER requested TPL to fulfil its contractual obligation and thereby extend the validity of PBGs. NER issued a claim notice in respect of the Bank Guarantees to Canara Bank thereby invoking/encashing the PBGs and calling upon Canara Bank to pay Rs. 43,45,02,363, for the material breach committed by TPL. Thereafter, TPL renewed the PBGs. The inaction and failure on part of the Petitioner to rectify the defective insulators constrained NER to issue letter dated 21.08.2023 for invocation of the PBGs. On 07.09.2023, TPL issued a notice under Section 21 of the Arbitration and Conciliation Act, 1996 against NER for invoking arbitration proceedings under the agreements executed between the parties. **Current Status:** Cross-examination of RW-2 has been concluded. Cross-examination of RW-1 will be continued on 17.04.2025.	434.50 along with interest 18% p.a and a further sum of 3.3 Million and additional bank charges.

APTEL	**Background of the case:** The Appeal challenges the CERC's order dated 19.05.2024 in Petition No. 134/MP/2021 imposing transmission charges for delays and alleged mismatch periods in the NER-II Transmission Project, citing uncontrollable delays and incorrect deemed COD determinations for project elements. PGCIL argues that the charges were wrongly levied. **Current Status:** Registry to verify if the pleadings are complete and then include the appeal in the List of Finals, to be taken up from there in its turn.	1,272
27	Regulatory	TATA Projects Limited Vs NER	High Court of Delhi	**Background of the case :** Pursuant to the en-cashment of the PBGs, TPL filed the Petition under Section 9 of the Arbitration and Conciliation Act, 1996 before the High Court of Delhi seeking to restrain the NER from utilizing the encashed PBGs amount and in the alternative seeking direction for NER to deposit the amount so encashed with the Hon'ble Court. The Petition was heard on 24.08.2023 and no stay was granted against NER. NER filed its reply to the Petition on 01.11.2023. **Current Status:** The petition was disposed of with liberty to file an appropriate application before the arbitral tribunal under Section 17 of the Arbitration and Conciliation Act, 1996. The petition was disposed off on 20.11.2023.	Non Quantifiable
28	RoW	Shri Bir Chandra Debbarma	District Judge, Agartala, Tripura West	**Background of the case:** The land owner is having a dwelling hut under the transmission line and the same has to be removed in compliance of the directions by the district collector but the landowner is objecting the same and has come before the district Court for appropriate orders. The landowner had filed a case before the Civil Judge Court, Junior Division, West Tripura, Agartala which was disposed off on 28.1.22 (without any liability being attached to NER). The land owner has now, filed an appeal. **Current Status:** Summons issued on (23.3.22) for appearance on 16.4.22. Matter Disposed Off on 22.08.2022	Non Quantifiable
29	Regulatory	LTTCs	CERC	**Background of the case:** Petition filed for approval of Force Majeure and Change in Law. Force Majeure and Change in Law events resulted in time and cost overrun for the project for which relief is sought under TSA for compensatory tariff and extension of SCOD. PGCIL has challenged the deemed commissioning of the project on account of non availability of Spare ICT placed at SurajmaniNagar ISTS S/s. **Current Status:** Matter disposed of vide order dated 19.05.2024.	1,272

12.11. KhTL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	RoW	Makka Jaidev Patil	District court,Dhule	**Background of The Case:** The Petitioner filed the Petition before District Judge, Dhule seeking land and crop compensation. Thereafter, an indemnity bond was signed by Maka Jaydev Patil and KTL with regards to compensation to the tune of INR 0.5 million and same was mentioned before SDM, Dhule. Basis the foregoing, the Petitioner will be filing a withdrawal application before the District Judge, Dhule. On the Petition being withdrawn, the DD amounting to INR 0.5 million shall be deposited before the SDM, Dhule and compensation amount shall be released. **Current Status:** Basis the foregoing, the Petitioner will be filing a withdrawal application before the District Judge, Dhule. The landower filed a withdrawal application in light of the amount paid.	Non Quantifiable
2	RoW	Jamsingh Bamanke	High Court of Madhya Pradesh, Bench at Indore	**Background of The Case:** The Petitioner owns agricultural land in Khargone. KTL excavated the said land and constructed an electricity transmission tower on it for setting up Khandwa-Dhule TL. This occupied a substantial portion of the land. The debris of construction material and waste material prevented the Petitioner from cultivating the land and accessing it as the entrance had been blocked. Petitioner sent legal notice dated October 21, 2020 to KTL requesting for compensation due to the said construction on his land but did not receive any response. The Petitioner filed the writ petition on the grounds (i) KTL is obligated under Telegraph Act to pay compensation (ii) Inaction on the part of KTL to pay compensation is unjust and illegal and contrary to provisions of Telegraph Act. The Petitioner sought relief to (i) issue direction to KTL to pay compensation for the damage caused (ii) direct KTL to remove encroachment by removing the debris and waste material from the land (iii) direct KTL to pay cost of petition (iv) interim relief by way of direction to KTL to remove encroachment by removing the debris and waste material from the land. **Current Status:** Pending	Non Quantifiable
3	RoW	STATE OF MADHYA PRADESH AND ORS	HIGH COURT OF MADHYA PRADESH BENCH AT INDORE	**Background of The Case:** The present petition is being preferred against the inaction on the part of the Respondent No 1 and Respondent No. 2 in not adhering to the safety rules and regulations under The Electricity Act, 2003, CEA Technical Regulations 2022, Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2023 and inaction of the part of Respondent authorities from preventing the Respondent No. 3 from illegally carrying out construction activity below the 765 kV D/C Transmission line. **Current Status:** writ filed. Interim stay granted by court to stop the ongoing construction.	Non Quantifiable
4	RoW	Sumanbhai Dilip Patil	Jt civil Judge SD & Addl CJM, Dhule	**Background of The Case:** Owner is claiming that certain trees were cut down but no compensation was made to him in respect. **Current Status:** to cause appearance and to file reply.	26.64

12.12. JKTPL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
17	Regulatory	HERC & HVPNL	APTEL	**Background of the case**: JKTPL has claimed payment of full unitary charges wrongly deducted by HVPNL by wrongly computing availability of the transmission system capacity for the months of February and March 2016 due to force majeure events. JKTPL has prayed for refund of the wrongful deduction of INR 3,54,59,700 unitary charges plus claim of interest payable to JKTPL by HVPNL, for the months of February and March 2016. HERC vide order dated 21 May 2018 held that Non Availability due to Force Majeure events will not be considered as availability for the purpose of determining the monthly unitary charges payable to JKTPL. Further, Force Majeure Costs under Article 34.7.2 (b) is not admissible, being not sought in the Petition and otherwise also not admissible by virtue of the combined reading of Article 32.1 read with Article 48.1 of the Agreement. Aggrieved by Order of HERC, JKTPL filed an appeal before APTEL. **Current Status:** The matter to be included in the list of finals. The next hearing schedule is awaited.	35.45
18	Regulatory	HERC & HVPNL	APTEL	**Background of the Case**: Petition was filed against HVNPL in the HERC towards wrong deduction of INR 77,30,583 on account of alleged delayed repair time, INR 56,64,363 on account of incorrect methodology adopted and INR 62,90,283 contrary to the provisions of the TSA. HVPNL had issued a notice asking reason for not deducting the penalty (on RMU) on annualized unitary charges basis and JKTPL immediately moved a stay application and simultaneously filed Petition before HERC challenging the said notice. HERC dismissed this Petition vide order dated 4 April 2019. HVPNL has imposed a penalty of INR 545.80 Lakhs and the dispute in the computation of RMU is on the following issues: (a) interpretation of Article 21.3.1 of the TSA and forced outage limited until which no penalty will be imposed; (b) interpretation of Article 21.3.2 of the TSA and the quantum of penalty to be imposed for exceeding the forced outage limit. **Current Status:** The Court directed to List this Appeal along with Appeal No.220 of 2018 and 204 of 2019 for hearing on 05.11.2020. The last hearing was held on 10.08.2022. The matter is to be included in the list of finals.	54.58
19	Regulatory	HERC & HVPNL	APTEL	**Background of the Case**: HVPNL had granted 120 days to JKTPL as repair time of ICT against the 30 days provided in TSA but had deducted penalty on the delayed period (exceeding 30 days). The HERC passed a order dated 4 April 2019 granting relief on repair time of ICT up to 120 days and dismissed the remaining issues. HVPNL has filed an appeal before APTEL against the order of the HERC and sought for stay of the HERC order dated 4 April 2019 and has not repaid any amount to JKTPL. JKTPL has filed its reply dated 27 August 2019 against the appeal filed by HVPNL before APTEL, denying the contentions of HVPNL and seeking that the appeal filed by HVPNL be dismissed and that the amount deducted by HVPNL be refunded to JKTPL with interest within a period of 15 days. **Current Status:** The matter was last heard on 10.08.2022 and is to be included in the list of finals.	7.73
20	Regulatory	HVPNL	Arbitration at Delhi	**Background of the Case**: The Company has raised a claim of INR 62,00,00,000, inter alia on account of wrongful deduction of liquidated damages; claim for reimbursement of supply cost incurred for laying extra length; claim for reimbursement for erection cost incurred for laying extra length; design charges for gantry; claim for non-adherence of conditions precedent as set forth under article 4.2 due to default under Article 4.1.2 (d) of the TSA; claim for non-adherence of condition precedent; compensation for breach of contract, etc. **Current Status:** Next hearing date awaited.	620.00

12.12. JKTPL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
21	RoW	Sanjeet Singh Vs. Xen, TS Division (HVPNL Panipat), HVPNL & JKTPL	Civil Judge (Senior Division) Sonipat	**Background of the case:** The Plaintiff to the suit runs a Dhaba on a land falling in the revenue estate of Rai. The National Highway No.44 (NH-44) is situated on the west side of the Plaintiff's land. A transmission line is crossing the NH-44 in the opposite direction of the Plaintiff's property. Further a fly-over crossing NH-334-B has been constructed across NH-44 so much so, that at the point of crossing of NH-44, the transmission line has lost its required height clearance between TL-167 and TL-168. The Plaintiff contends that the defendants plan to relocate existing TL-166 and TL-167 and further install a new tower between TL-165 and TL-168 in the southern side of NH-334-B. The Plaintiff claims that such a plan of action will cost the Plaintiff his business. The Plaintiff has prayed to the Court to grant a decree of permanent injunction restraining the defendants from executing its plan of action. The Plaintiff prays that the defendants first provide the Plaintiff with a vacant land after removing pole T-166 before further executing their plan of action for maintaining required clearance. **Current Status:** The last hearing was held on 12 March 2025 and the case was disposed off in the same.	Non Quantifiable
22	Direct Tax Matters	Income Tax Department	CIT(A)	**Background of the case:** There is short grant of TDS credit by CPC on account of the difference in actual revenue of JKTPL from its customer as appearing in Form 26AS (which has been duly offered to tax by JKTPL in its tax return) and the amount of income credited to P&L Account as per IND AS method of accounting. Consequentially, CPC has charged interest u/s 234A/ 234B/ 234C. **Current Status:** Pursuant to rectification order passed by the AO, the said has been deleted. Also, in the recently passed assessment order, the demand has been deleted.	Non Quantifiable
23	RoW	Ashoka University and Ors	High Court of Punjab and Haryana	**Background of the case:** The Petition is filed against an alleged disobedience of the Order dated 02.03.2023 in CWP No. 4309/2023. The Petitioners in their Petition contend that the National Highway Authority of India and its contractor continued with the construction of pylons for altering the high tention lines over the property of the Petitioner in contravention of the Order dated 02.03.2023. **Current Status:** The case is disposed off on 31.01.24	Non Quantifiable

12.13. PrKTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	RoW - Civil Suit with prohibitory injunction	Moti Ram	Civil Judge, District Court, Kullu Now transferred to Civil Judge, Sub Division Court, Banjar	**Background of the case:** Mr. Moti Ram appealed that a mandatory injunction directing the defendant to demolish the pillars of transmission line tower structure from the suit land. A decree of recovery of INR 0.04 million by way of damages caused to the retaining wall which was damaged during construction of tower foundation and a decree of mense profit of Rs 1,000/month was also filed. PrKTCL Submitted that it is a transmission licensee duly approved by CERC and has been empowered with Telegraph Authority u/s 164 of Indian Electricity Act, 2003 to place and maintain power line over and along/ across any immovable property. Also, the land where the transmission tower is installed is not a possession of Mr. Moti Ram but owned by Mr. Dabe Ram and sufficient compensation has been given by PrKTCL to Mr. Dabe Ram. It also submitted that no retaining wall was damaged during construction. **Current Status:** Case is currently pending adjudication and fixed for consideration 19.04.2025	0.10
2	RoW - Civil Suit for Recovery	M/s Ram Syal Hydro Power Limited	Civil Judge, Sub Division Court, Banjar	**Background of the case:** M/s Ram Syal Hydro Power Limited filed a recovery suit in Kullu District court on 15th July 2016. The Appellant has sought a recovery of INR 0.15 million along with interest @ 12% on account of shifting of 33 kv line alleging non-return of usable transmission materials. Though PrKTCL handed over the dismantled materials (obtained only in scarp condition), it denied any conractual obligation to return such poles and transmission accessories in this case. The dispute centers around the plaintiff's claim that valuable assets were witheld, whereas the defendant maintains that all recoverable material was returned as a goodwill gesture and no further liability exists. **Current Status:** Case is fixed for For Defendant's Evidence 19.04.2025	0.15
3	RoW litigation	Munsi Ram	Civil Judge Sonior Division Mandi	Details of the case are awaited from the Management.	Non Quantifiable
4	RoW litigation	Kali Ram	High Court, Shimla	**Background of the Case:** The plaintiff, Kali Ram, filed an appeal under Sections 16(3) and (4) of the Telegraph Act, 1885, challenging the order of the District Magistrate, Mandi, dated 21.06.2016. The appeal seeks enhancement of compensation to ₹20,92,913/- for damages allegedly caused during transmission line installation by PrKTCL. The defendant submitted that an amount of ₹3,48,144/- has already been paid, and the District Magistrate had dismissed the original claim by the plaintiff stating that adequate compensation had been provided. **Current Status:** The matter is currently pending before the appropriate authority for objections/reply. The next date of hearing has not yet been scheduled.	0.20
5	Regulatory	NTPC	APTEL	**Background of the Case:** Legal disputes are ongoing between PrKTCL and NTPC, primarily centered around delays in the COD of transmission lines due to alleged non-readiness of NTPC's Koldam switchyard. CERC in its orders dated 19.12.2016 and 16.01.2017, held NTPC accountable for the delay in the COD of two transmission lines—Koldam–Ludhiana and Banala–Koldam. In Tariff Petition No. 384/TT/2014, PrKTCL sought annual transmission charges for Prabati-II to Koldam line, which was partially allowed. Both parties filed review petitions (10/RP/2017 by PrKTCL and 16/RP/2017 by NTPC). Consequently, CERC accepted the claimed dates of charging as the effective COD, making PrKTCL eligible to recover 100% transmission charges from those dates. PrKTCL accordingly raised tariff invoices on NTPC through the Central Transmission Utility (CTU). NTPC challenged these CERC Orders (Review Petitions and Final Tariff Order) before the APTEL, also seeking stay on payment. **Current Status:** The matter has undergone multiple hearings before APTEL. The appeals have been included in the 'List of Finals', with the next hearing date awaited.	**To Receive from NTPC** - INR 153.71 Mn + interest* (As per the billing done on NTPC) **To Pay to benef. -** INR 132.32 Mn + interest* (As per bill raised on NTPC) **Interest that has been billed is based on prevalent CERC regulations. Final treatment shall be based on final orders received as well as the prevailing CERC regulations.*

12.13. PrKTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
6	Regulatory	NHPC	APTEL	**Background of the Case:** The Central Electricity Regulatory Commission (CERC) issued a tariff order in Petition No. 91/TT/2012 on 26.05.2015, approving transmission charges for PGCIL assets associated with the PrKTCL transmission scheme. Subsequently, NHPC and PGCIL filed Review Petitions (Nos. 25/RP/2015 and 19/RP/2015), which led to reopening of the matter. CERC, in its revised order dated 21.07.2016, directed NHPC to bear transmission charges for the period from 01.08.2013 to 23.03.2014. NHPC contested the liability on grounds of idle charging and filed appeals before APTEL. Given that PrKTCL's transmission elements were part of the integrated transmission system under dispute, it was made a party to the proceedings. Following APTEL's direction in its judgment dated 16.07.2018, CERC reopened and merged PrKTCL's Petition No. 156/TT/2015 with PGCIL's Petition No. 91/TT/2012 and issued a revised order on 05.02.2020. NHPC has appealed the final order before APTEL. During the hearing on 01.10.2020, NHPC agreed to pay ₹74.78 crore as the principal amount, subject to restitution with interest if the appeal succeeds. The matter is currently pending final adjudication before APTEL. **Current Status:** The matters have been included in the 'List of Finals' and are currently pending for final adjudication.	25.70
7	Regulatory	LTTCs	CERC	**Background of the Case:** PrKTCL filed a petition before CERC under Regulation 86 of the CERC (Conduct of Business) Regulations, 1999, along with the applicable tariff regulations of 2014 and 2019. The petition sought: (i) Approval of truing-up of transmission tariff for the 2014–19 tariff period and (ii) Determination of transmission tariff for the 2019–24 tariff period for transmission line elements associated with its Parbati–Koldam Transmission Project. **Current Status:** The outcome will impact the applicable transmission charges recoverable by PrKTCL under long-term transmission agreements for the respective tariff periods. Final orders are awaited. The matter is reserved for order on 16.07.2024.	**Approval of proposed capital cost -** INR ~9450 Mn (as on 31.03.2024) **Refund of tariff amount** - INR 460.8 Mn (as on 30.09.2021), after considering the impact of re-financing, along with interest of INR ~9 Crore
8	Regulatory	CERC & Ors.	APTEL	**Background of the Case:** PrKTCL filed an appeal before APTEL challenging the findings of the CERC in (i) Order dated 09.02.2021 in Petition No. 156/TT/2015 and (ii) Review Order dated 07.09.2022 in RP No. 03/RP/2022. In these orders, CERC denied PrKTCL's request for approval of the COD for the transmission elements *Parbati II–LILO Banala* and *Parbati II–LILO Parbati III* as 30.06.2015—the date on which the assets were ready for charging. Instead, CERC approved the COD as 03.11.2015, corresponding to the date when actual power flow commenced through the assets. PrKTCL has sought recognition of the earlier COD to enable recovery of transmission charges for the readiness period, contending that all commissioning activities had been completed by 30.06.2015. **Current Status:** The matter has been included in the 'List of Finals' and is pending before the APTEL for final adjudication.	25.70
9	RoW - Civil Suit	Pohlo Ram	High Court, Shimla	**Background of the case:** Mr. Pohlo Ram filed a suit under section 226 and 227 of constitution of India for realignment of the transmission line. That Stay order against DM Mandi order under Section 16 of Indian Telegraph Act dated 5th June 2013 may be granted. PrKTCL submitted that it has carried out work in strict accordance with the law. No date of hearing has been listed since July 2017. **Current Status**: Case is currently not listed for hearing	Non Quantifiable

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
10	RoW - Civil (RSA)	HPSEBL (Appellant) Bhim Singh (Respondent)	High Court, Shimla	**Background of the case**: HPSEBL has filed this second appeal before the High Court, Shimla against the Order of the First Appellate Court (ADJ, Mandi) dated 30.08.2019 which confirmed the Order of the Subdivision Court, Gohar where the Civil Judge addressed the issues on compensation and decreed the suit for a sum of INR 0.75 million with interest @7.5% p.a. against HPSEBL & directed HPSEBL to pay the same to the Legal Representatives of the deceased Champa Devi, who died of electrocution on 27.06.2014 because of negligence on the part of HPSEBL, and not on PrKTCL, as has been claimed by HPSEBL in their arguments. Claim is not against PrKTCL. However, claim is uncertain as plaint copy not received. PrKTCL is a proforma defendant. **Current Status**: Case was disposed on 23rd July 2021. However, on 26 October 2021 it got reopened. Case was last heard on 23rd December 2022. Next Date of hearing is not notified.	Non Quantifiable
11	RoW - Criminal Suit	Khub Ram	Civil Judge, Sub Division Court, Gohar	**Background of the case:** Mr. Khub Ram and 23 others filed an application for registration of FIR against PrKTCL officials with allegation of forcibly construction of line and illegal cutting of trees, etc. FIR was registered against PrKTCL officials vide order dated 24th June 2019 under section 156(3) of CRPC. Police Station at Gohar has already recorded the statements of Company officials and applicants. Further action has been delayed due to COVID-19 lockdown. PrKTCL has submitted the relevant documents to Sub Division Court, Gohar. **Current Status**: Investigation completed and further proceedings held up due to COVID-19.	Non Quantifiable
12	RoW - Criminal Suit	Jagat Ram	ACJM, Sundarnagar, District Mandi	**Background of the case**: Mr. Jagat Ram has filed an application for registration of FIR u/s 156(3) of CRPC against State of HP but the application converted to section 202 of CRPC vide order dated 13th August 2019. PrKTCL is not a party in this case so far. **Current Status:** Case is fixed for consideration for 01.05.2025	Non Quantifiable
13	RoW - Civil Suit	Bhim Singh/ Chetru/ Jiva Nand/ Jassa Ram/ Bhoop Singh/ Labh Singh	Court of Civil Judge, Chachiot, Gohar, Mandi	**Background of the case:** Plaintiffs (Bhim Singh/Chetru/Jiva Nand/Jassa Ram/Bali Ram/Bhoop Singh/Khub Ram) appeal and application under Section 39(1&2) of CPC. That defendant must execute the lease agreement or monthly rent or acquire the suit land. That defendant must be restrained from passing electricity through the transmission line structures until the defendant executed the monthly rent agreement. PrKTCL submitted that it is a transmission licensee duly approved by CERC and has been empowered with Telegraph Authority u/s 164 of Indian Electricity Act, 2003. It is empowered to place and maintain power line over and along over across any immovable property. Plaintiff appealed that a temporary injunction under Rule 39 (1&2) of CPC may be granted restraining the respondent from passing electricity through the transmission line structure. PrKTCL submitted that the Plaintiff is not entitled for any relief which will affect the defendant irreparably which would also amount to a great loss to the public at large. **Current Status:** The matters are currently pending and fixed for reply/consideration at specific dates.	Non Quantifiable
14	RoW - Civil Suit with prohibitory injunction	Jagta /Koli Ram	Civil Judge, Sub District Court, Gohar	**Background of the case:** Plaintiff's (Jagta /Koli Ram) appeal and application under Section 39(1&2) of CPC. That defendant must execute the lease agreement or monthly rent or acquire the suit land and they must be restrained from passing electricity through the transmission line structures until the defendant executed the monthly rent agreement. PrKTCL submitted that it is a transmission licensee duly approved by CERC and has been empowered with Telegraph Authority u/s 164 of Indian Electricity Act, 2003. It is empowered to place and maintain power line over and along over across any immovable property. Plaintiff appealed that a temporary injunction under Rule 39 (1&2) of CPC may be granted restraining the respondent from passing electricity through the transmission line structure. PrKTCL submitted that the Plaintiff is not entitled for any relief which will affect the defendant irreparably which would also amount to a great loss to the public at large. (There are 20 separate cases with similar background). **Current Status:** The matters are currently pending and fixed for reply/consideration at specific dates.	Non Quantifiable

PrKTCL has submitted the necessary documents to Police Station, Nalagarh. **Current Status**: Presently, the Investigation is under progress	Non Quantifiable
22	RoW - Civil Suit (Revision)	Mr. Rupinder Pal Singh	High Court, Chandigarh	**Background of the case:** PrKTCL has filed a revision petition . PrKTCL submitted that it has carried out construction as per the approval received under Section 164 of Electricity Act 2003. As per the provision 10(D) of Telegraph Act 1885 user agency not required to purchase land. Conditions considered by ADJ., District Court while awarding land compensation to the plaintiff i.e. 'MOP letter on methodology of payment of land compensation' dated 15th October 2015 has not been adopted by the State of Punjab. Delayed filing of enhancement demand for crop and trees compensation. Consideration taken and documents submitted (MOP letter dated 15th October 2015) for claiming land compensation are beyond pleading. Reply is yet to be filed by Respondent (Rupinder Pal Singh). **Current Status:** The next date of hearing is yet to be fixed by the High Court. Arguments for the case were last heard by the Court on 05.04.2024.	1.36
23	RoW - Civil Suit (Revision)	Hardev Singh	High Court, Chandigarh	**Background of the case**: Mr. Hardev Singh has filed a petition under the provisions of the Telegraph Act for compensation for land and enhancement of crop and trees compensation. Plaintiff has claimed that he is entitled for a compensation of for land and trees. PrKTCL submitted that the suit is not maintainable before this court as according to Section 16.3 of Telegraph Act, 1885, District Court is competent to determine compensation. Also, PrKTCL duly paid compensation towards damaged crop and felled trees. Plaintiff has claimed in it's petition has claimed that Transmission Tower has been installed on his land situated at Ropar. It is claimed that Poplar Trees have been cut and removed by respondent and Payment made by Respondent has been received by Plaintiff under protest but land compensation has not been provided by the Respondent. The compensation paid is not acceptable to the petitioner. Further, the petitioner claimed that he cannot plant trees and do any construction, install tubewell, etc. at the location. PrKTCL submitted that the Poplar Trees were cut and taken in possession by the Plaintiff and not by PrKTCL. Compensation amount for affected crop was received in 3 phases by the Plaintiff without any protest (Compensation amount was determined after taking the rates as determined by the Government Department). It was clarified that the land was not acquired and only the right to access was acquired for carrying out necessary work. PrKTCL has filed revision in the High Court of Punjab and Haryana at Chandigarh on 27th July 2020 against award passed by District Court, Rupanagar vide order dated 29th March 2019. PrKTCL filed a revision petition that it carried out construction as per the approval received under Section 164 of Electricity Act, 2003. As per provision 10(d) of Telegraph Act 1885, user agency is not required to purchase land. **Current Status:** The next date of hearing is 11.03.2025.	1.36

24	RoW - Civil Suit	Viswanath	High Court, Shimla	**Background of the case**: Mr. Viswanath has filed a lawsuit before Shimla High Court on 24th November 2016. As per the applicant, he doesn't have any means of livelihood other than the Land on which tower installation has been done. Hence, he has sought a compensation of INR 100 Mn. The applicant also wrote his grievance to M.P. Anurag Thakur on letter dated 9th September 2015. PrKTCL is a co-respondent in this writ petition along with State of HP and Union of India. High Court Shimla issued notices to all respondents for appearance on 27th December 2016. The compensation of amount INR 0.35 million made as per the provisions of Telegraph Act has been submitted. Case is not listed from the date of 8th May 2017. **Current Status**: The matter is currently not listed for hearing.	100.00
25	RoW - Civil Suit	Ravinder Singh	District & Sessions Court, Rupnagar	**Background of the case:** Ravinder Singh filed an execution petition for getting a compensation amount of INR 0.64 Mn which had been decided by ADJ,court against Tela/1/2015. **Current Status:** The case was fixed for further order on 19.07.2025.	Non Quantifiable
26	RoW - Civil Suit	Ravinder Singh	High Court, Chandigarh	**Background of the case**: The Chandigarh High Court, vide order dated 19.02.2020, sent the matter back to the learned Additional District Judge,Ropar for re-consideration. In compliance with the order of the High Court, the Additional District Judge,Ropar disposed off the matter on 14.10.2021 in favor of Plaintiff. This Civil Revision Petition is filed by PrKTCL against awarded passed by the ADJ court of Rs.6,42,072- based on following points: 1. EX Forest Officer, Sh. Balwinder Singh prepared a report with regards to poplar trees. The report was not a part of the petition filed by Petitioner. 2. The Court did not explain the rationale for awarding compensation for diminishing value of land as under the telegraph act the Company does not acquire any land. **Current Status:** The High Court vide Order dated 01.11.2022 granted a stay on payment of the enhanced compensation to the Respondent (Ravinder Singh). The case was fixed for arguments on 15.01.2025, following which, no further date of hearing was fixed by the High Court.	Non Quantifiable
27	RoW - Civil Suit	Prem Lal	High Court, Chandigarh	**Background of the case:** Execution Petition filed by Petitioner (Prem Lal) towards award of Rs. 07,97,845/- passed by Additional Distt Counterpart against Case no: CM No:6845 of 2013 & Tele Act 04 of 2021 on 14.10.2021. Petition CM/6845/2013 filed under provisions of Telegraph Act(1885) Section 16(3) and 10 of Electricity(Supply Act) for compensation for land and enhancement of crop and trees compensation. Case disposed on 14.10.21. Filed Petition by the Plaintiff has been allowed. Execution Petition filed by Plaintiff. **Current Status:** The matter is listed for consideration on 17.03.2025.	0.80

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
32	Criminal	A K Sharma & Others Vs. State of HP & Others	Supreme Court of India	**Background of the case:** Respondents lodged complaints at the local police station and subsequently filed Case No. 207/2 of 2015 under Section 156(3) CrPC, seeking direction for FIR registration. FIR No. 183/2015 was registered on 23.07.2015 under multiple IPC sections (including criminal breach of trust, cheating, forgery, dacoity, criminal conspiracy), along with provisions under the Environment Protection Act and Indian Forest Act. The villagers alleged that PrKTCL (and associated individuals or parties) were involved in illegal encroachment and construction, criminal conspiracy and forgery, environmental violations, and wrongful damage or trespass on forest land. Petitioners, including PrKTCL officials, challenged the FIR in Cr.MMO No. 337/2015 before the Himachal Pradesh High Court. **Current Status:** The Supreme Court last heard the matter on 10.12.2020 and directed listing post-service of notice. Tentative next hearing was scheduled for 19.01.2021. Investigation remains pending, with the State supporting the High Court's directive for further probe.	Non Quantifiable
33	Criminal	Satish Seth & Others Vs. State of HP & Others	Supreme Court of India	**Background of the case:** Respondents filed a complaint (Case No. 336/2 of 2015) before the Junior Division Magistrate, Bilaspur under Section 156(3) of the CrPC, seeking registration of an FIR against the petitioners (including PrKTCL). The FIR No. 210/2015 was registered on 21.12.2015 under multiple sections of the IPC, Environment (Protection) Act, and Indian Forest Act. The complaint includes allegations of conspiracy, fraud, impersonation, environmental violations, and criminal misconduct. **Current Status:** Petitioners approached the Himachal Pradesh High Court (Cr. MMO No. 33 of 2016) seeking quashing of the FIR. The High Court, vide order dated 16.05.2019, upheld the Magistrate's decision and directed that a thorough police investigation be conducted. Petitioners have now approached the Supreme Court of India challenging the HC order. The last hearing was on 10.12.2020, and the next hearing is tentatively scheduled for 19.01.2021.	Non Quantifiable
34	RoW - Civil Suit	Tulsi Ram	Civil Judge District Judge Bilaspur	**Background of the case**: Mr. Tulsi Ram had filed a suit CS 16/2017 of mandatory injunction against PKTCL on 22.06.2018 , which was disposed /settled in Lok Adalat on 30.11.2019. Now, the petitioner has filed a separate suit 02/2020 u/s 16 (3) of Indian Telegraph Act claiming tree and fruit compensation to the tune of INR 0.5 million. PKTCL had received summon to appear in court on 08.12.2020 and on the same day vakalatnama /Power of attorney submitted in court. The Power of Attorney was submitted on the same day. The defendant stated that the present application is not bonafide, as the dispute of compensation has already been decided by the Lok Adalat vide order dated 30.11.2019. Also stated in the reply that the suit is time barred, and not maintainable and the plaintiff/applicant has not valued the suit appropriately for the purposes of court fees. **Current Status**: The case is fixed for For Petitioner's Evidence 12.03.2025.	0.50

12.13. PrKTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
35	RoW litigation	Goverdhan vs PKTCL	District and Sesions Court, Kullu	**Background of the Case:** The plaintiff sought a prohibitory injunction against PrKTCL to stop construction of a transmission tower over their land, citing the presence of walnut trees and potential danger during crop harvesting. PrKTCL, empowered as a transmission licensee under Section 164 of the Electricity Act, 2003, asserted its statutory authority to install lines and assured no hindrance to the plaintiff's use of land and construction as per technical requirements. **Current Status:** The Civil Judge, Kullu dismissed the injunction on 26.11.2013. The case was ultimately dismissed on 12.09.2024, affirming PrKTCL's right to proceed with transmission works without impeding the plaintiff's land usage.	Non-Quantifiable
36	RoW litigation	Ram Chander	Civil Judge, Sub Division Court, Gohar	**Background of the Case:** The plaintiff filed an appeal and an application under Order 39 Rules 1 & 2 of the Civil Procedure Code (CPC) seeking a temporary injunction against PrKTCL from transmitting electricity through an overhead transmission line. The plaintiff alleged that the line passes dangerously close to their residential house, causing electric induction and violating mandatory safety clearance norms. It was further claimed that PrKTCL erected the towers without acquiring the land or executing any valid lease agreement, thereby endangering lives and property. **Current Status:** PrKTCL submitted that it holds requisite safety clearances as per the Indian Electricity Rules and is duly empowered under Section 164 of the Electricity Act, 2003, with authority to install transmission infrastructure without land acquisition. Emphasizing public interest, the company opposed the injunction. The application under Order 39 Rules 1 & 2 CPC was dismissed by the court on 28.08.2017.	Non-Quantifiable
37	RoW litigation	Karam Singh, Bali Ram, Khub Ram	Civil Judge, Sub Division Court, Gohar	**Background of the Case:** The plaintiff sought mandatory and prohibitory injunctions against PrKTCL, demanding execution of a lease or rent agreement for alleged unauthorized use of their land for constructing transmission towers. The plaintiff also sought demolition of structures and to restrain electricity flow unless such agreement was executed, claiming the land had become unutilizable and unsafe. **Current Status:** PrKTCL asserted its statutory authority under Section 164 of the Electricity Act, 2003 and denied any obligation to acquire or lease land. Further PKTCL held that it has constructed the line in compliance with the provisions of Indian Telegraph Act & Indian Electricity Act,2003 and the relief which the plaintiff seeks is against public interest and will affect the defendant irreparably. The matter with respect to Karam Singh was finally disposed of on 27.08.2024. The matter with respect to Bali Ram was finally disposed of on 26.10.2024. The matter with respect to Khub Ram was finally disposed of on 27.08.2024.	Non-Quantifiable

12.13. PrKTCL: Summary of Ongoing Litigations

Sr. No.	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
38	RoW - Civil Suit	Roop Laal/Ranjeet	Civil Judge, District Court, Bilaspur	**Background of the case:** Plaintiff (Roop Laal/Ranjeet) filed a Civil Suit u/s 37/38 of the Specific Relief Act to restrain PrKTCL from Tower line construction activities, passing current through line and tree cutting. That PrKTCL has done forcible construction, threatening, not taking prior permission/serving notice and No compensation assessment by forest and District Administration before installing the line and also not followed proper procedure. PrKTCL submitted it's reply to the written statement of the petitioner. It also submitted that it is conferred with Telegraph Authority powers, hence it is empowered as transmission licensee to lay towers by paying the crop compensation with respect to the duly laid down process. After all proceedings and hearing the main suit was disposed off on 26th Feb 2018. The plaintiff registered application for restoration on 23 April 2018 U/O 9 Rule 9 CPC. PrKTCL submitted it's reply to the restoration. **Current Status:** Roop Lal's application was disposed off on 12.04.2024. Ranjeet's application was disposed off on 29.04.2024.	Non-Quantifiable
39	RoW - Civil Suit	Amarnath	Civil Judge, District Court, Ropar	**Background of the case:** Mr. Amarnath has filed a petition under the provisions of the Telegraph Act for compensation for land and enhancement of crop and trees compensation. Plaintiff has claimed that he is entitled for a compensation for land, trees and for wheat crop. PrKTCL submitted that the suit is not maintainable before this court as according to Section 16.3 of Telegraph Act, 1885, District Court is competent to determine compensation. Also, PrKTCL duly paid compensation towards damaged crop. Plaintiff has claimed in its petition that Transmission Tower has been installed on his land situated at Ropar. It is claimed that Poplar Trees have been cut and removed by respondent and wheat crop has been totally damaged in the land. Payment made by Respondent has been received by Plaintiff under protest but land compensation has not been provided by the Respondent. The compensation paid is not acceptable to the petitioner. Further, the petitioner claimed that he cannot plant trees and do any construction, install tubewell, etc. at the location. PrKTCL submitted that the Poplar Trees were cut and taken in possession by the Plaintiff and not by PrKTCL. The same is reflected in valuation form jointly signed by petitioner and PrKTCL. Compensation amount for affected crop was received in 3 phases by the Plaintiff without any protest (Compensation amount was determined after taking the rates as determined by the Government Department). It was clarified that the land was not acquired and only the right to access was acquired for carrying out necessary work. After hearing the matter AD, District Court, Rupnagar vide order dated 18th Feb 2020 awarded compensation of INR 0.8 million in favour of the petitioner. (Case no. Tele/1/2016). The case was directed back to the district court by the high court as per the order dated 25th April 2022. **Current Status:** The matter was disposed off on 04.12.2024	Non-Quantifiable

12.17. ISPL 1: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Regulatory	PSEPL	Supreme Court	Background of the case: Appeal filed by TNEPDCL challenging APTEL's Judgment dated 15.09.2022 allowing payment of carrying cost and O&M expenses towards Change in Law relief in Solar PPAs which do not have a restitution clause. While ISPL I & II are not parties to these proceedings, CERC while granting GST Change in Law relief has held that relief towards Carrying Cost and O&M expenses will be as per Supreme Court's decision in this Civil Appeal. Accordingly, decision in this case will affect ISPL I&II's change in law compensation. Current Status: Caveat of ISPL I & II has been filed before Supreme Court.	Non Quantifiable
2	Direct Tax	Income Tax Department	AO	Background of the case: Recharacterization of CCDs as equity and consequent disallowance of interest on CCDs so recharacterized as equity. A rectification application has been filed with the jurisdictional Assessing Officer (AO) seeking exclusion of interest on such CCDs—disallowed by the learned AO—from the computation of disallowance under section 94B of the Income-tax Act. Upon giving effect to the rectification, the resultant demand is expected to become nil. Current Status: Penalty abeyance letter filed with AO	45.12

12.18. ISPL 2: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Direct Tax	Income Tax Department	AO	Background of the case: Addition of Rs 10,79,941 not adjusted against the brought forward unabsorbed depreciation. The said demand is erroneous as the addition accepted by the Assessee in 143(1) intimation is to be adjusted against the unabsorbed depreciation Current Status: ISPL 2 has filed rectification application with AO for deleting the said demand.	0.29
2	Regulatory	Pool Participants (253 Nos.)	CERC	Background of the case: Specific Directives for payment of DSM Charges. NLDC has observed default and irregularity in payment of DSM Charges by Pool participants. Hence, aggrieved by this, NLDC/POSOCO filed Petition before CERC seeking specific directives as under: (a) Directing all defaulting Respondents to pay weekly DSM Charges regularly within 10 days from issue of bills (b) Directing all Respondents to open LC (c) To empower RLDCs to initiate regulatory measures to deal with persistent default in payment of regulatory charges (d) To allow RLDC to regulate /to restrict scheduling of defaulting entities in a graded manner Current status: The next hearing in the matter is yet to be scheduled. Petition not related to Logged in user.	Non Quantifiable
3	Regulatory	SECI	CERC	Background of the case: Petition filed under GST Change in Law provisions of PPA (2 cases combined), seeking claim towards introduction of GST as CIL event, the claimed amount is Rs. 7.96 Cr plus the carrying cost till date of actual payment. Petition has been registered by CERC on 9.12.2022. The petitioner has impleaded the end beneficiaries on 14.3.2023. The matter listed for hearing on 21.3.2023. The commission directed to issue notice on the aspect of limitation as preliminary issue. The Respondents were directed to file their response on the aspect of limitation within three weeks with copy to the Petitioner who may file its rejoinder thereof within three weeks thereafter. Current status: CERC disposed of petition on 11.01.2024 and allowed CIL compensation, along with carrying cost.	160.80

12.19. TNSEPL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Regulatory	National Solar Energy Federation of India (NSEF on behalf of TNSPEPL, UMD, Terralight Kanji and Terralight Rajapalayam)	Principal Bench of Madras High Court	Background of the Case: TNERC's Order dated 25 March 2019 Certain back down instructions were issued by the SLDC to UMD, TKSPL, TN Solar and TRSPL (VRET Assets) and no compensation for deemed generation compensation was paid by the SLDC or TANGEDCO (Tamil Nadu Electricity Board) for the period corresponding to the backed down generation. Such backdown instructions by SLDC were challenged by the NSEFI on behalf of solar power generators, including VRET Assets before the TNERC. The TNERC, vide its order dated 25 March 2019, held that while the SLDC should not resort to back down instructions without recording specific reasons. However, since the underlying PPAs did not contain any provision in relation to payment of any compensation for deemed generation, no deemed generation can be granted. NSEFI's Appeal before the APTEL [Appeal 197/2019] Challenging the TNERC's order, NSEFI filed an appeal before the APTEL, seeking: (i) a direction to the respondents (TANGEDCO, SLDC, TANTRANSCO and MNRE) to stop issuing backing down instructions to solar power plants and implement 'must run' status on all solar power plants under regulation 5.2 of the Grid Code; and (ii) a direction to consider deemed generation benefits to the solar power plants for the loss of generation due to backing down instructions of the respondents under regulation 2(q), TNERC (Terms and Conditions for Determination of Tariff) Regulations, 2015. APTEL's Order dated 2 August 2021 The APTEL, in its order dated 2 August 2021, held that compensation for deemed generation should be paid for any curtailment / backdown ordered other than for grid security reasons (even in the absence of an underlying provision in the PPAs executed by the solar power generators). Current Status: The petition has been admitted and replies to the writ petition has been filed by TNERC and Tamil Nadu SLDC. Rejoinder on behalf of SPVs have been filed.	Not Quantifiable
2	Regulatory	TNERC, TNSLDC TNGDCL and the State of Tamil Nadu	Principal Bench of Madras High Court	Background of the Case: The writ petition has been filed on the grounds that the TN F&S Regulations are arbitrary and hence are violative of Article 14, inter alia, due to the following: (a) the TN F&S Regulations seek to treat the renewable energy projects (like wind and solar) at par with conventional thermal power stations, which is arbitrary, since it is not possible for renewable energy projects to give accurate projections on how the weather condition will impact their generation at a given point of time of day; (b) the TN F&S Regulations have sought to fix the absolute error band at (+ / -10% (ten percent)) which is a much narrower and tightened error band compared to forecasting and scheduling regulations in other similarly placed renewable energy rich states as well as the Forum of Regulators (FOR) Model Regulations (at + / - 15% (fifteen percent)); and (c) the TN F&S Regulations do not include provisions pertaining to aggregation of generation schedules among pooling substations at the state level, which would provide appropriate treatment of impact on grid and apply reasonable penalties. Current Status: The petition has been admitted and replies to the writ petition has been filed by TNERC and Tamil Nadu SLDC. Rejoinder on behalf of SPVs have been filed.	Not Quantifiable

Current Status: Aggrieved by the addition, the Assessee filed an appeal with the CIT(A).	2.22

12.21. TL Kanji: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the Case	Amount Involved (INR Million)
1	RoW	Teralight Kanji Solar Pvt. Ltd. Executive Representative Rohit Kumar	Assistant Inspector General, Stamp	**Background of the case:** As part of the acquisition of the Lalitpur project by way of a slump sale on a going concern basis, Jakson Power Private Limited (JPPL) and TL Kanji executed and registered a sale deed for transfer of the immovable property forming part of the Jakson Project. At the time of execution on 22 August 2022, JPPL paid the requisite stamp duty. However, subsequently, the government authorities have initiated legal proceedings against TL Kanji for paying deficit stamp duty on the sale deed, on various grounds including that the solar modules and generators installed on the project land were not considered while calculating and paying the stamp duty. As per the terms of the business transfer agreement executed with JPPL, it was JPPL's obligation to pay the adequate stamp duty on the sale deed and keep TL Kanji indemnified for any loss arising out of JPPL's breach of its obligation. Accordingly, the TL Kanji has notified JPPL of the same and JPPL is controlling the defence of this matter in terms of the BTA. **Current Status:** The matter was last heard on 11.11.2023 for agruments but was not heard due to paucity of time. Matter was listed for argumentson 3rd February, 2024, but no movement was recorded on that particular day.	Not Quantifiable
2	RoW	Aruna and 19 Others	District & Session Court, Tiruvannamal	**Background of the case:** A Legal Summon from District & Session Court, Tiruvannamal was received on March 12, 2021, in a civil claim matter filed by a family member of seller of the land parcel claiming his rights over 3.0 acres of land in Survey No. 7/1 at 30 MW Tiruvannamali site of the Company. **Current Status:** Vakalathnama has been submitted to session court to empower Mr. Murali, Advocate and the reply has been filed. On 30.10.2023, Plaintiff filed a memo to bring the legal representative of Defendant No.8 on record. Memo has been recorded. Steps for filing amendment petition to be initiated before the next date of hearing.	Not Quantifiable

12.22. TL Raj: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	RoW	SPICCPL	Madras High Court	Background of the case: SPICCPL has filed a writ petition before the Madras High Court challenging the correctness and legality of (a) the final findings issued by the Directorate General of Trade Remedies ("DGTR") dated July 16, 2018 and recommendations on levy of safe guard duty on imports; and (b) the notification dated July 30, 2018, issued by the Ministry of Finance levying safe guard duty on solar cells and modules consequent to the final findings report as stated at point (a) above. An interim application was filed by SPICCPL seeking an order of the Madras High Court for removal of safe guard duty on the goods imported vide bill of entry dated August 2, 2018 and clear the same on a provisional basis without insistence of payment of such duty. The Madras High Court relied on the order passed by the High Court at Orissa dated July 23, 2018 and issued a stay in the final findings report issued by the Directorate General of Trade Remedies and SPICCPL was directed to execute a bond for release of imported goods in possession of the authorised officer. Since the matter has been filed by SPICCL, the matter is not expected to impact the operations of the company. Additionally there is an unlimited indemnity (in terms of amounts) against SP for any loss suffered on account of SGD. Current Status: We understand from the Shapoorji team that Madras High Court has vacated the DGTR Order and thereafter there has been no-update on the matter.	Non Quantifiable

12.23. Solar Edge: Summary of Ongoing Litigations

r. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Regulatory	Maharashtra Electricity Regulatory Commission and Others.	High Court of Bombay	Background of the Case: Solar Edge has filed a writ petition dated December 15, 2020 before the Bombay High Court against the MERC and others challenging the MERC (Forecasting, Scheduling and Deviation Settlement for Solar and Wind Generation) Regulations, 2018 ("Maharashtra F&S Regulations") on grounds including, (i) the Maharashtra F&S Regulations being arbitrary, onerous in nature and hence violative of Article 14 of the Constitution of India, (ii) the charges levied on the renewables project having no nexus to the objective of grid security, leading to unjust charges being sought from the renewables energy generators. MERC has issued a suo moto notification to suspend the application of state periphery charges and have established a commission to consider the representation by various renewable IPP. However, overall DSM is continued to be charged and paid by the company. Current Status: A group of new petitions raising similar issues were listed before the same bench, and MERC's counsel requested that the current matter be heard along with these petitions on 11.01.2024. On 07.02.2024, MERC informed the court that it was in the process of finalizing draft amendments to the challenged regulations. Although the matter was later scheduled for 06.03.2024 and 27.03.2024, it was not heard on those dates and was rescheduled for 07.01.2025. On that date, MERC was directed to file its reply affidavits within two weeks, with the next hearing fixed for 11.02.2025. At the hearing on 11.02.2025, the deadline to file rejoinders in W.P. Nos. 5153, 5150, 5121, 5102, and 5171 of 2024 was extended to 25.02.2025. The court also granted permission to amend and implead MSEDCL in W.P. Nos. 5211 of 2024 and 73 of 2025, with amendments to be completed within one week. Reverification was waived, and the matter was listed next for hearing on 25.02.2025.	Not Quantifiable
2	RoW	The State of Maharashtra and Others	High Court of Bombay, at Aurangabad	Background of the Case: Solar Edge had bought a parcel of land (admeasuring 3 hectare and 33 ar ~8.5 acres) situated at Gut No 541, Village Hartale, Muktainagar and currently a part of the solar project is operational on this parcel. The company has been informed on 10th June of a claim by an heir of an earlier land owner (Mr. Magare heir of Mr. Lalsingh Patil) over the parcel and an award by Maharashtra Revenue Tribunal granted in favour of the heir. Under the Indemnity provisions of the Amended and Restated Securities Subscription and Purchase Agreement executed with SP Group for acquisition of Solar Edge, SP group has indicated that they will not be managing this claim. Accordingly, based on legal advice, Solar Edge has filed a writ petition before High Court at Aurangabad to challenge the award. Current Status: The order by Tehsildar has been stayed by the High Court and currently the matter is ongoing before the court. Vide Order dated 24.07.2023, the Court stated that the interim relief granted shall continue till the next date of hearing. Adjournment was sought by the other party on the last date of hearing. Matter to be argued on the next date of hearing.Matter was listed for heaing on 19.12.2023, interim relief granted is continued. Matter to be listed after Christmas vacations. Next date of hearing not notified. Matter could not be heard on 14.02.2024. Interim relief granted is continued. Matter listed for hearing on 22.04.2024	Not Quantifiable

8	Direct Tax	Direct Tax Department	Tax AO	Background of the Case: Addition was made of INR 1.20 Cr under section 56(2)(x) of the Income tax Act, 1961('Act'). The addition is being made for acquisition of immovable property at value lower than its Stamp Duty Value ('SDV') where the difference between such SDV and consideration exceeds INR 50,000 and 5% of the consideration. Current Status: The Company has filed an appeal against the Assessment Order on 31st May 2021. The company has now opted to settle the said appeal under the VSV scheme, 2024. The company has filed Form 1.	Not Quantifiable
9	RoW	Dayaram Patil, Solar Edge Power and Energy Private Limited and others	Civil Judge, Junior Division at Muktainagar	Background of the Case: Solar Edge has been impleaded in June in a claim by Ms. Surekha Patil in connection with Ghat No.169 (01H20) used for Muktainagar project. The said parcel was bought by Solar Edge from Mr Jeevan Ram Patel. Ms. Surekha Patil has filed a case against Mr. Jeevan Ram Patel stating that she has not sold the land to Mr Jeevan Ram Patel rather, the land was given as a security for loan taken. Current Status: The Plaintiff and its Advocate were not present before the Court on the last date of hearing 01.01.2024. Matter is listed for hearing on 16.02.2024, for orders.The Plaintiff and its Advocate were not present before the Court on the last date of hearing 06.02.2024. Matter is listed for hearing on 13.03.2024, for orders. Due to no movement as on 13.03.2024, the case got dismissed in default on 9.9.2024.	Not Quantifiable

1	Criminal Suit	Ramesh Lal	PS Sankda	Background of the case: Criminal- FIR Lodged u/s 351(4) BNS Current Status: Investigation is on.	Non Quantifiable
2	Direct Tax	Direct Tax Department	Tax AO	Background of the Case: A rectification application has been filed with the jurisdictional Assessing Officer (AO) by TL Charanka primarily on the ground that the deduction under Section 80-IA was not considered while computing the income during the reassessment proceedings. This oversight has led to an inflated tax demand, along with a consequential levy of interest. Current Status: Following the rectification, the outstanding demand is expected to become negligible. Continuous follow-ups are being made with the AO and the concerned inspector to expedite the disposal of the application.	4.70

12.25. TL Tinwari: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Direct Tax	Direct Tax Department	Tax AO	Background of the case: Received notice under Sections 142(2)(a) of the Income Tax Act, 1961 where the tax officer raised a demand of INR 9,73,860 as per order. However, as per Company computation and as per discussion with tax authority, payment of INR 3,50,000 was made. Current Status: Revised rectified order awaited.	0.97
2	Direct Tax	Direct Tax Department	Tax AO	Background of the case: The order issued under Section 143(3) of the Income Tac Act, 1961 is clean wherein Returned Income has been accepted as Assessed Income. Also, the demand notice and the computation sheet reflect no addition made to the Returned Income. However, despite the above, a demand has been raised against the Assessee which is erroneous in nature and liable to be deleted. Current Status: The Assessee has raised multiple grievances which are still unresolved by the Centralised Processing Centre (CPC) of the department.	3.55
3	Direct Tax	Direct Tax Department	Tax AO	Background of the case: The demand pertains due to delayed filing of form 10CCB which could lead to denial of deduction Section 80-IA of the Income Tax Act, 1961. Current Status: Form 10CCB is filed on 13-Jan-23. Appeal has been filed against the order on 9th Feb 2023.	6.51

12.26. PLG: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Direct Tax	Direct Tax Department	Tax AO	Background of the Case: Company (PLG) had delayed in the payment of TDS during the relevant financial years of 2012-13 and 2013-14. The said TDS was paid along with interest. The tax officer has issued Show cause notice for Prosecution. Current Status: TDS default along with interest is paid off and accordingly no demand appears as outstanding on traces portal. However, considering TDS Prosecution proceedings are currently ongoing, any comment on likelihood of demand is premature at this stage.	Not Quantifiable
2	Regulatory	Gujarat Electricity Regulatory Commission	Supreme Court of India	Background of the Case: GERC's tariff order dated 29 January 2010 set tariffs for solar power projects at INR 15 per unit for the first 12 years and INR 5 per unit for the next 13 years, based on a capital cost of INR 16.50 crores per MW. This applied to projects commissioned by 28 January 2012. GUVNL filed a petition to revise this tariff, arguing that actual project costs were lower due to duty exemptions. GERC dismissed the petition on 8 August 2013 as not maintainable. GUVNL appealed to APTEL, which upheld GERC's decision in August 2014. GUVNL then filed a civil appeal (C.A. No. 010301/014) against APTEL's order on 27 October 2014. The Supreme Court has not stayed APTEL's order. External counsel (Trilegal) opined that the chances of an adverse order are very limited, so no indemnity was sought from the seller. Current Status: The matter is currently pending before Supreme Court and has not been listed since 2017. Matter admitted on 29.02.2024. (During the diligence, external counsel (Trilegal) had opined the chances of an adverse order are very limited and accordingly no indemnity of any form has been sought from the seller.) The notice has been issued in the appeals. The appeals have been admitted for final hearing. Listed for hearing on 18.12.2024. However, as per the Supreme Court website, the captioned Civil Appeal is now tentatively listed on 10.02.2025.	Not Quantifiable

12.27. USUPL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Civil	Motilal & Another	Revenue Court, Mahoba, Uttar Pradesh	Background of the case: USUPL received summons in the captioned matter in relation to a land dispute under the Uttar Pradesh Consolidation of Holdings Act, 1953 read with Uttar Pradesh Consolidation of Holdings Rules, 1954. The Plaintiff has certain issues with respect to Gata/khasra nos. 67 and 150 which are under the ownership of USUPL. Further details of the matter are not available as the copy of the Plaint has not been made available to USUPL. Current Status: USUPL has appointed an Advocate in the captioned matter. The Vakalatnama and a preliminary submission shall be filed before the Revenue Court.	Not Quantifiable
2	Civil	Mithu vs Gyasi	Consolidation Officer, Mahoba, District Mahoba	Background of the case: Consolidation Officer had passed an Order dated 18.10.2022 in Computerised Case No. 202254074866011357 titled as Mitthu vs. Gayasi, wherein the Consolidation Officer's Order dated 27.09.2018 and Order dated 20.04.1987 were dismissed, and the land in question was registered in the name of the alleged original account holders, namely, Mithu S/o Pratap, Motilal S/o Rampyare, and Sehzade S/o Pratap, residents of Village Chilli. That the Hon'ble Court, vide its order dated 12.04.2024, has allowed the limitation and set aside the order dated 18.10.2022 passed by the Consolidation Officer. This recent development has a direct and significant impact on the rights and interests of USUPL which has duly registered deed in its name pertaining to the subject land under dispute, necessitating its inclusion as a party to the ongoing proceedings.Application filed by USUPL under section 151 read with order 1 rule 10 of the code of civil procedure, 1908 seeking direction to implead “universal saur urja private limited” as defendant no. 2. Current Status: application allowed and USUPL impleaded as party def.	Not Quantifiable

12.27. USUPL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
3	Regulatory	Direct Tax	Comissioner of Income Tax (A)	Background of the Case: 1. The company has offered interest income on Foreign Depository Receipts (FDRs) to tax under the head 'Business income' on the contention that the investment was required to be made due to requirements of the bank for obtaining a loan. Therefore, the company has set off its business losses against such interest income. 2. In the scrutiny assessment, the AO disregarded the Assessee's contention on interest income and considered the same under the head 'IFOS'. Further, the AO has also not granted business loss under the contention that the business of the Assessee has not commenced and hence, the same is a capital expenditure. 3. Also, the AO disregarded assessee's contention regarding cash payment made in violation of provision of section 40A(3) and made addition of Rs. 10L. Current Status: Appeal pending before the CIT(A). The company had opted for VSV - Form 4 is filed.	0.31
4	Regulatory	Indirect Tax	Office of Deputy Commissioner of State Tax	Background of the Case: The total ITC as reflected in GSTR-2A was shown correctly in GSTR-9 as Ineligible credit and company did not claim any ITC during the said year. Howerver, the AO raised notice on it to ask for ITC reversal of the same. Also, USUPL has correctly deposited the tax on the RCM liability of FY 2018-19 in GSTR-3B April-19. Further, please note that the same liability raised by AO which was duly paid with interest. (The same also shown under Table-10 of GSTR-9 of FY 2018-19). Despite that, the AO again raised a demand for the same liability, even though it was already paid and disclosed. Current Status: Appeal is being filed, awaiting for hearing.	5.83

12.30. GGEL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
1	Regulatory	Rajasthan State Electricity Regulatory Commission and Others	Supreme Court	Background of the case: As per the PPA agreement the company is required to meet the annual MSO requirement of 98.550 Mn kWh and maintain CUF at 24.5% and 26.5% for a consecutive period months during the contract year.In the event such obligations are not met, NVVN shall be entitled to a compensation equal to compensation payable by DISCOM's for not meeting their renewable purchase obligation (subject to a minimum of 25% of the tariff). The company has not been able to meet the requirements as the DNI has been lower than the assumed DNI at the time of bidding. The company has filed a petitition before CERC requesting an increase in tariff from INR 12.20 per kWh to inr 15.00 per kWh claiming that the lower DNI has resulted due to Force Majeure and the company should be given relief. The CERC ruled that the shortfall cannot be considered as a force Majeure event and increase in tariff cannot be granted. Also the NVVN needs demonstrate the amount payable for failure to meet RPO obligation The order has been challenged in front of APTEL seeking increase in tariff and it has been also challenged by NVVN to set aside the portion requiring them to demonstrate the RPO shortfall. Current Status: As an interim relief, Supreme Court has stayed the APTEL order. The amount of LD imposed by NVVN has been now refunded. No further LD is being imposed. Matter is pending for hearing.	Not Quantifiable
2	Regulatory	NTPC Vidyut Vyapar Nigam Limited (NVVN) and Ors.	CERC	Background of the case: APTEL in order dated 26.07.2022 observed that FERV was a business risk, taken by the Generators as the Solar Thermal Technology along with equipment was required to be imported which cannot be considered as normal business risk and held such an unnatural business risk is akin to Force Majeure. Therefore, APTEL allowed the appeal and held all events to be Force Majeure Events and the matter was remanded back to CERC to frame suitable mechanism for the purpose of appropriate compensation.This matter was re-listed before CERC in terms of APTEL's directions in judgment dated 26.07.2022 referred above. Current Status: Matter was last listed on 06.10.2022, wherein liberty was granted to complete the pleadings, and it was directed that the Petition shall be listed after mentioning by the Parties.	Not Quantifiable

12.30. GGEL: Summary of Ongoing Litigations

Sr. No	Matter	Against	Pending Before	Details of the case	Amount Involved (INR Million)
3	Regulatory	Rajasthan State Electricity Regulatory Commission and Others	APTEL	Background of the case: Multiple developers in Rajasthan had filed writ petitions in the Rajasthan High Court challenging the constitutional validity of the RERC (Forecasting, Scheduling, Deviation Settlement and Related Matters of Solar and Wind Generation Sources) Regulations, 2017 (DSM Regulations) notified by the RERC. While the Rajasthan High Court in its judgment dated 29 May 2019 upheld the constitutional validity of the DSM Regulations, it noted that certain issues raised in connection with the DSM Regulations were technical in nature, and therefore, it recommended that the petitioners approach the RERC with their grievances regarding the technical aspects of the DSM Regulations.Thereafter, the Company filed a petition (Petition No. 1406 of 2018) before the RERC. The RERC clubbed the petitions filed by the Company and other developers in the said matter and disposed of the same through an order dated 27 September 2019 .The Company in its petition raised concerns in relation to the implementation of the DSM Regulations. Thereafter, the Company has preferred an appeal against the RERC Order in APTEL on the following grounds: (i) the definition of 'available capacity' in the DSM Regulations (which forms the basis for calculation of deviation charges) contemplates only solar PV projects, and not solar thermal projects and, therefore the DSM Regulations should not apply to the Project; and (ii) the aggregation of scheduling should take place at the state level and there should be virtual pooling for the purposes of deviation settlement. Current Status: Matter has been dismissed as withdrawn	Not Quantifiable

2	RoW Litigation	Renew Solar Energy	Civil	Background of the case: SDM Pohran. Current Status: The matter is currently pending.	Not Quantifiable
3	Regulatory	NRLDC	CERC	Background of the case: The Petition has been filed by NRLDC under Section 79 of the Electricity Act 2003,dealing with non-desirable performance of ISTS connected RE Generating Stations during fault events leading to major generation loss and frequency dip and other associated matters. It seeks directions from the Hon'ble Commission regarding the adoption of preventive measures to avoid recurrence of grid events leading to renewable energy generation loss, system instability, and non-compliance with the CEA Regulations, 2007 and amendment thereof. Current Status: Hearing took place on 21.01.2025: The Petitioner filed the Petition seeking directions for ISTS-connected RE Plants to comply with LVRT and HVRT requirements under the CEA Regulations, 2007, as amended. Despite multiple communications and meetings, 15 RE Plants have not complied, leading to generation loss and frequency dip. The Petitioner highlighted non-compliant events and cited Regulation 12(3) of the CEA Regulations, which allows disconnection of non-compliant users. The Commission directed the Petitioner to implead NRPC and submit a revised memo of parties, issue notices to respondents, and provide specific compliance details on affidavit within five weeks. The CTUIL was also directed to submit compliance status and actions taken within four weeks. The Petition will be listed for hearing on 10.9.2025	Not Quantifiable

12.32. RSAPL: Summary of Ongoing Litigations

Sr. No.	Petitioner	Respondent	Pending Before	Details of Case	Amount Involved
1	RSAPL	Solar Energy Corporation of India Ltd. (SECI) and Ors.	CERC	**Background:**The CEA issued updated technical standards for grid-connected renewable energy projects which included new requirements for reactive power capability and design temperature. These changes, outlined in the Working Group Report (2022), imposed additional costs for compliance, including new equipment like inverters and capacitor banks. Such new requirements were not part of the original bidding documents and resulted in unforeseen additional costs. As these changes qualify as a "Change in Law" under the PPA, the petitioner is filed a petition in September 2024 seeking compensation for such Change in Law events. **Current Status:**The CERC admitted the petitions, issued notices to the respondents, and directed the petitioners to provide various affidavits within specified timelines, including details on commercial operation status, financial implications of Change in Law events, and compliance with technical standards. To which both SECI and RSAPL had filed its reply and the necessary affidavits. The matter was listed for hearing on 29.04.2025 and the final order is currently awaited.	
2	RSAPL	Solar Energy Corporation of India Ltd. (SECI) and Ors.	CERC	**Background:**Ministry of Finance vide notification dated September 30, 2021, has notified 12% rate of GST on solar PV modules and other renewable energy equipment with effect from October 01, 2021. This rate has been increased from 5% (on the date of submission of the bid) to 12%. The parties to the PPAs have agreed that any changes in GST rates post-June 22, 2020, which affect project costs, will be treated as Change in Law events. Further, Supreme Court's Order dated 19.04.2021 mandated conversion of overhead power lines to underground lines and installation of bird diverters in habitats of the Great Indian Bustard and Lesser Florican in Rajasthan and Gujarat, increasing setup costs and requiring additional authorizations. As these changes qualify as a "Change in Law" under the PPA, the petitioner is filed a petition in December 2024 seeking compensation for such Change in Law events. **Current Status:**CERC issued its notice dated 19.02.2025, wherein the respondents were directed to file its reply within 6 weeks and RSAPL to file its rejoinder within 4 weeks thereafter. The matter will be listed on 05.06.2025.	INR 0.12 per unit

Not quantifiable
4	RSPPL and Ors.	Central Transmission Utility of India Ltd. & Ors.	Delhi High Court	**Background:** As per Regulation 13(3) of CERC (Sharing of Inter State Transmission Charges and Losses) Regulations 2020 (hereinafter referred to as "Sharing Regulations") yearly transmission charges shall be paid by the generating station only after the associated transmission system (ATS) has achieved COD. Further the Sharing Regulations defines 'COD of the ATS' as the COD of the last transmission element of the ATS. However as on date all the transmission elements of the ATS are not ready and therefore the Petitioner (i.e. RSAPL) is not entitled to be charged any such transmission charges till then. In the light of above a writ petition was filed in Delhi High Court for setting aside the invoices raised by Central Transmission Utility of India Ltd. (CTUIL) for transmission charges from Dec'23 to March'24. **Current Status:** Following disposal of the Delhi High Court matter CERC proceedings in petition No. 216/MP/2024 have resumed. In the hearing held on 18.03.2025 RSUPL and CTUIL were directed to file affidavits regarding power evacuation and deemed GNA status respectively. The next hearing is scheduled for 13.05.2025	INR 191.24 Mn

Independent Auditor’s Review Report on the Unaudited Interim Condensed Consolidated Financial Statements of the Trust as at and for the half year ended September 30, 2025

The Board of Directors
Indigrid Investment Managers Limited [as Investment Manager of IndiGrid Infrastructure Trust (formerly known as India Grid Trust)]

We have reviewed the accompanying Unaudited Interim Condensed Consolidated Financial Statements of IndiGrid Infrastructure Trust (“the InvIT”), and its subsidiaries (referred to as “the Group”) comprising of the unaudited interim condensed consolidated balance sheet as at September 30, 2025, the related unaudited interim condensed consolidated statement of profit and loss, including other comprehensive income, the unaudited interim condensed consolidated cash flow statement, the unaudited interim condensed consolidated statement of changes in unit holders’ equity and the unaudited Statement of Net Distributable Cash Flows (‘NDCFs’) of the InvIT, and each of its subsidiaries for the half year ended September 30, 2025 and condensed notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as “the Unaudited Interim Condensed Consolidated Financial Statements”) attached herewith, being prepared by Indigrid Investment Managers Limited (the “Investment Manager”).

These Unaudited Interim Condensed Consolidated Financial Statements have been prepared solely in connection with raising of fund in accordance with Chapter 7 on ‘Guidelines for preferential issue and institutional placement of units by listed InvITs’ of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, as amended from time to time (“SEBI Institutional Placement Guidelines”) and InvIT Regulations.

Management’s Responsibility for the Interim condensed Financial Statements
The Unaudited Interim Condensed Consolidated Financial Statements, which are the responsibility of the Investment Manager and has been approved by the Board of Directors of the Investment Manager, have been prepared in accordance with the requirements of Indian Accounting Standard 34 (referred to as “Ind AS 34”), specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder (“InvIT Regulations”), other accounting principles generally accepted in India and read with InvIT Regulations. Our responsibility is to express a conclusion on the Unaudited Interim Condensed Consolidated Financial Statements based on our review.

Scope of review
We conducted our review of the Unaudited Interim Condensed Consolidated Financial Statements in accordance with the Standard on Review Engagements (SRE) 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Unaudited Interim Condensed Consolidated Financial Statements are free of material misstatement. A review of interim financial information consists of making inquiries, primarily of Investment Manager personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

The Unaudited Interim Condensed Consolidated Financial Statements includes the following entities:

1. Indigrid Limited
2. Indigrid 1 Limited
3. Indigrid 2 Private Limited
4. Patran Transmission Company Private Limited
5. Bhopal Dhule Transmission Company Limited

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the Unaudited Interim Condensed Consolidated Financial Statements are not prepared, in all material respect, in accordance with the requirements of Ind AS 34, specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to InvIT Regulations, other accounting principles generally accepted in India and read with InvIT Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Emphasis Of Matter

We draw attention to Note 14(a)(iii) of the Unaudited Interim Condensed Consolidated Financial Statements which describes the presentation/ classification of “Unit Capital” as “Equity” instead of the applicable requirements of Ind AS 32- Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

Other Matter – Restriction of use

This report on the Unaudited Interim Condensed Consolidated Financial Statements has been issued solely in connection with the purpose specified in paragraph above and its intended use and should not be used or referred or distributed for any other purpose.

Note:

1. Opening balance of other equity (retained earnings) is regrouped to comply with requirements under amendment to Chapter 4 of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, to disclose distribution in the nature of repayment of Unit Capital as a separate line item on the face of the balance sheet.

2. The distributions made by the Trust to its unitholders are classified into (i) capital repayment, and (ii) distribution in the nature of income (including interest, dividend, or other income), in proportion to the corresponding loan repayments and income received by the Trust from the SPVs and income generated at the Trust level.

3. The distribution reported is based on the amounts distributed during the reporting period. Hence any amount pertaining to the reporting period but distributed subsequently shall be included in the corresponding period in which it has been actually distributed.

4. IPTL and DPTL has issued Compulsory Redeemable Preference Shares (CRPS) of Rs 10 per shares to Tecno Electric and Engineering Company Limited with dividend rate of 0.1% during the year. The same has been bifurcated into equity component and financial liability in accordance with Ind AS 32 - Financial Instruments: Presentation. The amount represent the equity component of the CRPS. The CRPS shares rank ahead of the equity shares of these Company in the event of a liquidation. Refer note 17 for terms and conditions pertaining to CRPS.

The accompanying notes are an integral part of the interim condensed consolidated financial statements.

Fair values of subsidiaries/SPVs are calculated based on their independent fair value done by experts appointed by the Group. The fair value of all these revenue-generating assets is determined using Discounted Cash Flow (DCF) method. The Group holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74%, TSESPL in which it holds 66% and KBPL in which it holds 99.996% and balance is accounted for as non-controlling interest in the financial statements.

Project-wise reconciliation statement showing adjustments made to the valuation arrived at by the independent valuer to compute the fair value of assets presented in the 'Statement of Net Assets at Fair Value'.

(i). Other adjustments represents cash and cash equivalents, other bank balances, bank deposits, investments in mutual funds, external borrowings and interest thereon, fair value attributable to minority interest and net assets of the Trust and intermediate HoldCo and project manager as they are not considered as a part of enterprise value in the valuation report

(ii) During the quarter ended March 31, 2025, the Trust transferred 51% of its equity shares in Jaisalmer Urja VI Private Limited (formerly Renew Solar Urja Private Limited) ("JUPL") to Indigrid 2 Private Limited("IGL2"). Pursuant to an Inter-se Agreement between the Indigrid Infrastructure Trust ("Trust"), Enerica Regrid Infra 1 Private Limited ("ERIPL") and IGL2, 26% of the equity shares of JUPL were subsequently transferred to ERIPL. Based on the terms of the Inter-se Agreement, the Group concluded that it continued to retain 100% of the beneficial and economic interest in JUPL.

During the current reporting period, IGL2 repurchased the aforesaid 26% equity shares of JUPL from ERIPL at the same consideration as the original transfer, supported by a fair valuation report.

(iii) IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025.

(iv) During the current period, the Trust acquired (a) 49% of the paid-up equity capital of ReNew Surya Aayan Private Limited ("RSAPL") from ReNew Solar Power Private Limited pursuant to a Share Purchase Agreement ("SPA") dated 06 June 2025, and (b) 100% of the paid-up equity capital of Koppal-Narendra Transmission Limited ("KNTL") with effect from 24 June 2025 from ReNew Solar Power Private Limited and KNI India AS pursuant to an SPA dated 06 June 2025. In respect of RSAPL, the Trust has finalised the purchase consideration for acquisition of the entire stake and has entered into a binding agreement to acquire the remaining 51% equity from the seller. Based on the rights available to the Trust under the SPA, the Trust holds beneficial interest in RSAPL.

As per the terms of the SPA, the final purchase consideration for both acquisitions will be determined based on the audited financial statements as of the cut-off date. Accordingly, the accounting for both acquisitions has been performed on a provisional basis, as the purchase consideration is yet to be finalised, in compliance with the requirements of Ind AS 103 – Business Combinations. Further, the acquisitions has been accounted as asset acquisition as per Ind AS 103 - Business Combination.

Further, as part of an internal restructuring, the Trust transferred its 49% shareholding in RSAPL and 100% shareholding in KNTL to IGL2 to optimise IndiGrid's asset structure. Pursuant to this restructuring, the Trust continues to remain the beneficial owner of the remaining 51% shareholding in RSAPL.

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	For the half year ended 30 September 2025 (Unaudited)	For the half year ended 30 September 2024 (Unaudited)
Total comprehensive income (As per the statement of profit and loss)	1,236.49	2,290.86
Add/ (Less): other changes in fair value not recognized in total comprehensive income	9,064.08	14,776.43
Total Return	**10,300.57**	**17,067.29**

Notes:

1. Fair value of assets as at 30 September 2025 and as at 30 September 2024 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 32.

(All amounts in Rs. million unless otherwise stated)

ADDITIONAL DISCLOSURES AS REQUIRED BY PARAGRAPH 6 OF CHAPTER 4 TO THE MASTER CIRCULAR NO. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 AS AMENDED INCLUDING ANY GUIDELINES AND CIRCULARS ISSUED THEREUNDER ("SEBI CIRCULARS")

1.1 Statement of Net Distributable Cash Flows (NDCFs) of Indigrid Infrastructure Trust (Formerly known as India Grid Trust)

Description	For the half year ended 30 September 2025	For the half year ended 30 September 2024
Cash flow from operating activities as per Statement of Cash Flow	(121.69)	(504.99)
(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework **(refer note 1)**	13,813.93	13,496.13
(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments on a cash receipt basis)	253.27	195.76
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations	-	-
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to re invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	-	-
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust	(7,614.06)	(7,071.04)
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or funds raised through issuance of units)		
(-) Any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or **(refer note 3)**	42.50	(473.55)
(-) Any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years	(3.11)	(5.12)
NDCF (refer note 4)	**6,370.84**	**5,637.19**

IndiGrid Infrastructure Trust (Formerly known as India Grid Trust)
Notes to Interim Condensed Consolidated Financial Statements for the period ended 30 September 2025
(All amounts in Rs. million unless otherwise stated)

Notes:

1. The following amounts has been included / excluded from the above -
A. This includes Rs. 633.77 million (net) received from SPV after the 30 September 2025 but before the board meeting date i.e. 11 November 2025.
B. This excludes Rs. 185.99 million (net) received from the SPV after 31 March 2025 but pertains to previous year.
C. This doesn't include loan given to SPV (RSAPL and KNTL) amounting to Rs 19,628.87 million given to repay external loan of SPV as the same is refinanced at the Trust level and such proceeds from refinancing have been transferred by the Trust to the SPV for such debt repayment.
D. This doesn't include loan given to SPV (JUPL) amounting to Rs 9,784.08 million given to repay external loan of SPV as the same is refinanced at the Trust level and such proceeds from refinancing have been transferred by the Trust to the SPV for such debt repayment.
E. This doesn't include loan given to SPVs that are under construction stage amounting to Rs 6,356.82 million given to fund the capital expenditure in the project.

2. In the current period, the Trust had transferred 49% of paid up equity capital of RSAPL and 100% paid up equity capital of KNTL at the carrying value at which it is acquired to IGL2 (within the Group). As the proceeds from this transaction is reinvested / proposed to be reinvested in accordance with InvIT Regulations, no cash inflow is considered as part of NDCF.

3. The amount represents the actual reserve created or released during the period. In accordance with Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, reserves created out of debt funds at the time of availing debt as per the the terms of debt agreement shall not be reduced from April 1, 2025 onwards, accordingly said reserve is not reduced from the current period ownwards.

4. As per the master circular SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, details of NDCF distributable is as below -

Description	**For the half year ended 30 September 2025**	**For the half year ended 30 September 2024**
NDCF of Trust (A)	6,370.84	5,637.19
(+) NDCF of Holdco & SPV's (B)	13,933.82	14,174.12
(-) Amount distributed by Holdco & SPV's (C)	(13,813.93)	(13,496.13)
Amount Of NDCF Distributable D=(A+B-C)*	**6,490.73**	**6,315.18**

*In accordance with the SEBI circular no. Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, 90% distribution under regulation 18(6) needs to be computed by taking together the 10% retention done at SPV, HoldCo and Trust level. Accordingly, the Trust has ensured the same. In the Quarter Ended 30 September 2025, the Trust has distributed Rs 0.22 per unit out of the 10% retention done for the earlier periods at Trust level.

Further, Trust along with its SPVs has ensured that the minimum 90% distribution of NDCF is met on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations.

(All amounts in Rs. million unless otherwise stated)

1.2 Statement of Net Distributable Cash Flows (NDCFs) of underlying Holdcos and SPVs

I IndiGrid Limited ("IGL") (Holdco and Project manager)

Description	For the half year ended 30 September 2025	For the half year ended 30 September 2024
Cash flow from operating activities as per Statement of Cash Flow	18.16	(78.78)
Cash Flows received from SPV's which represent distributions of NDCF computed as per relevant framework	-	-
Treasury income / income from investing activities (interest income received from FD, tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. (on receipt basis)	4.76	6.47
Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations	0.03	0.06
Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to re invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	-	-
Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss Account and any shareholder debt / loan from Trust	(10.24)	(10.17)
Debt repayment (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt, in any form or equity raise as well as repayment of any shareholder debt / loan from Trust)	-	-
Any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations;	-	-
Any capital expenditure on existing assets owned / leased by the SPV or Holdco, to the extent not funded by debt / equity or from reserves created in the earlier years	(35.93)	(48.16)
NDCF	**(23.22)**	**(130.58)**

(All amounts in Rs. million unless otherwise stated)

II Bhopal Dhule Transmission Company Limited ("BDTCL") (SPV)

Description	For the half year ended 30 September 2025	For the half year ended 30 September 2024
Cash flow from operating activities as per Statement of Cash Flow	874.87	869.26
Cash Flows received from SPV's which represent distributions of NDCF computed as per relevant framework	-	-
Treasury income / income from investing activities (interest income received from FD, tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. (on receipt basis)	6.96	9.63
Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations	-	-

1. Group information

The interim condensed consolidated financial statements comprise financial statements of Indigrid Infrastructure Trust ("the Trust" or "IndiGrid" or "Parent") and its subsidiaries (collectively, the Group) for the half year ended September 30, 2025. IndiGrid is an irrevocable trust settled by Sterlite Power Transmission Limited (Erstwhile sponsor) on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/ renewable energy assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at September 30, 2025, IndiGrid has special purpose vehicles ("SPVs") which are transmission infrastructure projects operates either on Build, Own, Operate and Maintain ('BOOM') or Build, Own and Operate (BOO) or Design, Build, Finance, Operate and Transfer ('DBFOT') or on Build, Own, Operate and Transfer ("BOOT"). IndiGrid also has project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain ('BOOM') basis. In addition, IndiGrid also has project entities which are involved in the storage and delivery of electricity through its Battery Energy Storage Systems (BESS).

Nature of Trust's subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Underlying holding company ("HoldCo")
2	IndiGrid 1 Limited	IGL1	NA	Underlying holding company ("HoldCo")

47	ReNew Surya Aayan Private Limited	RSAPL	BOOM	Solar Asset

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra- 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 19 January 2026.

2. Material Accounting Policies

2.1 Basis of preparation

The Interim Condensed Consolidated Financial Statements (the "Financial Statements") of IndiGrid Infrastructure Trust ("the InvIT"), and its subsidiaries (referred to as "the Group") comprising of the interim condensed consolidated balance sheet as at September 30, 2025, the related interim condensed consolidated statement of profit and loss, including other comprehensive income, the interim condensed consolidated statement of cash flow, the interim condensed consolidated statement of changes in unit holders' equity and the Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT, and each of its subsidiaries for the half year ended September 30, 2025 and condensed notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information prepared in accordance with the requirements of Indian Accounting Standards (Ind AS) 34 "Interim Financial Reporting" (referred to as "Ind AS 34"), specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations"), other accounting principles generally accepted in India and read InvIT Regulations.

These Financial Statements have been prepared on accrual basis and under the historical cost convention except certain financial assets and liabilities measured at amortized cost and fair value.

The Group has prepared the Financial Statements on the basis that it will continue to operate as a going concern.

The Interim Condensed Consolidated Financial Statements are presented in Indian Rupees Millions and all values are rounded off to the nearest thousand, except when otherwise indicated. Amounts less than `5,000 have been presented as "0".

These Financial Statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Trust's Annual Financial Statements as at 31 March 2025.

These Financial Statements have been prepared by the Investment Manager in accordance with the requirements of the InvIT Regulations. These statements are intended for inclusion in the Placement Document ("PD") prepared by the Investment Manager in connection with the proposed qualified institutional placement of units of the Trust. Consequently, these Financial Statements may not be appropriate for any other use.

2.2 Summary of material accounting policies

The Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of these financial statements are consistent with those of Annual Financial Statements as at 31 March 2025. There has been no change in the material accounting policies in the interim period except for items disclosed below:

Applicability of Division II of Schedule III to the Companies Act, 2013

As per SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, the financial statements shall be prepared as per Division II of Schedule III of the Companies Act, 2013, with the exceptions and modifications as mentioned in the said circular.

New and amended standards

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

(i) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

Amendments to paragraphs 69 to 76 of Ind AS 1 Presentation of Financial Statements specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement

- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendment does not have any impact on the Group's financial statements.

(ii) Supplier Finance Arrangements - Amendments to Ind AS 7 and Ind AS 107

Amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendment does not have any impact on the Group's financial statements.

(iii) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12

Amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and

- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

  The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after 1 April 2025, but not for any interim periods ending on or before 31 March 2026.

  The amendments does not have any impact on the Group's financial statements.

There are certain consequential amendments to other Ind ASs, but these does not have any material impact on the Group's financial statements.

Standards notified but not yet effective

The new and amended standards that are notified but not yet effective, up to the date of issuance of the financial statements are disclosed below. The Group will adopt these new and amended standards, when they become effective.

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

A requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. This amendment will be applicable from annual reporting periods beginning on or after the 1 April 2026.

Note 4: Right of use asset

The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.

The Group has also taken leasehold land which has lease term of 25-99 years from the commercial operation date (COD) in relation to which the group is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities. The lease liability has been measured by using the incremental borrowing rate.

Impairment of Goodwill

Goodwill arises on business combination of Virescent Renewable Energy Trust (VRET) along with it's 15 SPV's. After acquisition, VRET got dissolved and the following SPV's became part of the group to which goodwill is assigned as a result of such business combination:

TN Solar Power Energy Private Limited (TSPEPL)
Universal Mine Developers And Service Providers Private Limited (UMDSPPL)
Terralight Kanji Solar Private Limited (TKSPL)
Terralight Rajapalayam Solar Private Limited (TRSPL)
Solar Edge Power And Energy Private Limited (SEPEPL)
PLG Photovoltaic Private Limited (PPPL)
Universal Saur Urja Private Limited (USUPL)
Terralight Solar Energy Tinwari Private Limited (TSETPL)
Terralight Solar Energy Charanka Private Limited (TSECPL)
Terralight Solar Energy Nangla Private Limited (TSENPL)
Terralight Solar Energy Patlasi Private Limited (TSEPPL)
Globus Steel And Power Private Limited (GSPPL)
Terralight Solar Energy Gadna Private Limited (TSEGPV)
Godawari Green Energy Private Limited (GGEPL)
Terralight Solar Energy Sitamau Ss Private Limited (TSESPL)

In accordance with Ind AS 36 - Impairment of Assets, the Group performed impairment testing of Goodwill assigned to each Cash Generating Unit (CGU) as at 30 September 2025 and 31 March 2025 applying value in use approach across all the CGUs i.e. using cash flow projections based on financial budgets covering contracted power sale agreements with procurers (25 years) considering a discount rate mentioned below. The Group has used financial projections for 25 years as the tariff rates are fixed as per the Power Purchase Agreements (PPAs).

Based on the results of the Goodwill impairment test, the estimated value in use in all CGUs were higher than their respective carrying amount and accordingly no provision of impairment of goodwill is warranted. Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the Goodwill.

Key assumptions used for value in use calculations and sensitivity to changes in assumptions.

Assumption	Sensitivity to change
Weighted Average Cost of Capital % (WACC) Pre tax (discount rate)	7.29% to 7.99%
Plant Load Factor	Plant load factor(PLF) is estimated for each CGU based on past trend of PLF and expected PLF in future years.

The Group has performed sensitivity analysis around the base assumptions and have concluded that no reasonable changes in key assumptions would cause the recoverable amount of the subsidiaries to be less than the carrying value.

(All amounts in Rs. million unless otherwise stated)

As at 31 March 2025	**834.56**	**83,322.54**
Issued during the period	-	-
Issue expenses	-	-
As at 30 September 2025	**834.56**	**83,322.54**

Notes:

i) On 07 October 2024, the Group issued 50.88 million units to eligible investors on a preferential basis at a unit price of Rs. 136.43 per unit to raise Rs 6,942.21 million.
ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 - Financial Instruments: Presentation.
iii). Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as "Equity", which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Group has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

b. Terms/rights attached to units
The Group has only one class of units. Each unit represents an undivided beneficial interest in the Group. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Group at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Group declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Group Deed and the Investment Management Agreement.

IndiGrid Infrastructure Trust (Formerly known as India Grid Trust)

Nature and purpose of Reserves

(i) Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Consolidated Statement of Profit and Loss.

(ii) The cash flow hedge reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. The cumulative gain or loss arising on hedging instruments that are accumulated under cash flow hedge reserve will be later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

(iii) IPTL and DPTL has issued Compulsory Redeemable Preference Shares (CRPS) of Rs 10 per shares to Tecno Electric and Engineering Company Limited with dividend rate of 0.1% during the year. The same has been bifurcated into equity component and financial liability in accordance with Ind AS 32 - Financial Instruments: Presentation. The amount represent the equity component of the CRPS. The CRPS shares rank ahead of the equity shares of these Company in the event of a liquidation. Refer note 17 for terms and conditions pertaining to CRPS.

Note:
1. Opening balance of other equity (retained earnings) is regrouped to comply with requirements under amendment to Chapter 4 of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, to disclose distribution in the nature of repayment of Unit Capital as a separate line item on the face of the balance sheet.

2. The distributions made by the Trust to its unitholders are classified into (i) capital repayment, and (ii) distribution in the nature of income (including interest, dividend, or other income), in proportion to the corresponding loan repayments and income received by the Trust from the SPVs and income generated at the Trust level.

3. The distribution reported is based on the amounts distributed during the reporting period. Hence any amount pertaining to the reporting period but distributed subsequently shall be included in the corresponding period in which it has been actually distributed.

(All amounts in Rs. million unless otherwise stated)

Group has issued optionally convertible debenture (OCD) which shall be converted for variable number of shares upon conversion/ redemption date. The OCD's has been classified as "Financial Liability" in line with the requirements of Ind AS-32 - Financial Instruments: Presentation. The OCD's do not carry any voting right. These OCDs contain a liability component along with an embedded derivative option. Based on the fair valuation performed in accordance with Ind AS 109, the embedded derivative has been assessed to carry no value. Accordingly, the entire instrument has been classified as a financial liability.

Note (D): Foreign Currency Loan from Financial Institution:
Secured by pari passu first charge on all the present and future immovable properties (through mortgage/assignment), hypothecation of (all the present and future) current assets ,movable assets, book debt, operating cashflows, receivables, commissions, revenue of what so ever nature, all bank accounts and all intangibles assets, assignment of all rights, title, interests, benefits, claims etc. of project documents and insurance contracts of JUPL. The loan carried an interest rate of 7% p.a. and the same has been fully repaid during the current period.

Note (E): Liability component of compound financial instrument:

DPTL and IPTL has issued Compulsory Redeemable Preference Shares (CRPS) at a face value of Rs. 10 with dividend rate of 0.1% during the year. The same has been accounted into equity component and financial liability in accordance with Ind AS 32 : Financial Instruments: Presentation. Financial liability has been measured at Fair value using an effective interest rate of 7.85% per annum to reflect the market interest rate. The presentation of liability and equity portion of these shares is explained in summary of material accounting policies. CRPS are redeemable on Commercial Operation Date (COD) plus 3 months or scheduled COD, whichever is later. Scheduled date of commissioning is for DPTL is 08 May 2026 and for IPTL is 08 September 2026.

Note (F): Loan availed by KBPL

Global Energy Alliance for People and Planet (GEAPP) LLC has granted a loan at a concessional rate of 1% p.a for financing project costs which has been measured at Fair value using an effective interest rate of 7.28%-7.95% per annum to reflect the market interest rate in accordance with Ind AS 20- Accounting for Government Grants and Disclosure of Government Assistance. The difference between the fair value of the loan and the proceeds received, representing a government grant in the nature of a financing benefit, has been accounted for as a capital grant and deducted from the carrying value of the Service Concession Asset. The loan is repayable over a period of 12 years, commencing 21 months from the date of commissioning 01 April 2025.

Secured by pari passu first charge on all the present and future immovable properties (through mortgage/assignment), hypothecation of (all the present and future) current assets, movable assets, all bank accounts and all intangibles assets, assignment of all rights, title, interests, benefits, claims etc. of project documents of KBPL.

Note (G): Non-Convertible debentures (NCDs) issued by KNTL
KNI has subscribed to the NCDs carrying a concessional interest rate of 1% per annum for financing project-related costs. In accordance with Ind AS 109 – Financial Instruments, the NCDs have been initially recognised at fair value, determined using a market-based effective interest rate of 7.07% per annum.
The difference between the fair value of the NCDs and the proceeds received has been accounted for in accordance with the requirements of Ind AS 109. The NCDs has been received in multiple tranches and is subsequently measured at amortised cost using the effective interest rate method.
Repayment of the NCDs will commence on 5 December 2025 and the maximum tenure of the facility extends up to June 2054.
The KNI NCDs shall rank junior to any other indebtedness availed (including but not limited to any debt infused by IndiGrid Infrastructure Trust and or its Affiliates) by the Company and shall rank pari passu with the New OCDs issued by the Company without preference, or priority inter se.

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
24.1 Interest & Mutual Fund Income		
Interest on income tax refund	0.01	0.21
Interest on others	9.89	15.18
Income from investment in mutual funds	241.80	336.68
Interest income on investment in bank deposits	249.96	265.17
	501.66	**617.24**
24.2 Other non-operating income		
Sale of scrap	15.81	4.10
Liabilities no long required written back	-	3.42
Gain on Foreign Exchange Fluctuations	21.77	-
Income from shifting of Transmission line	72.79	47.77
Deferred income on VGF	13.20	8.82
Insurance claim recovery	24.51	16.55
Miscellaneous income^	56.32	22.50
	204.40	**103.16**
Total	**706.06**	**720.40**

^Miscellaneous income includes carrying cost compensation, GST claim received and other income.

Note 25: Employee Benefit Expenses

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
Salaries, wages and bonus	314.40	272.41
Contribution to provident fund	13.21	10.60
Long term incentive plan	3.03	10.68
Gratuity expense	4.86	3.97
Staff welfare expenses	21.51	16.60
Total	**357.01**	**314.26**

Note 26: Investment management fees

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
Investment management fees (refer note 34)	457.36	320.44
Total	**457.36**	**320.44**

Note:

Investment management fees
Pursuant to the Investment Management Agreement dated 13 June 2023 (as amended), Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower and acquisition fees amounting to 0.5% of Enterprise Value of new assets / SPVs / businesses acquired, subject to achieving Distribution Per Unit (DPU) guidance. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager. The Investment management fee for period ended 30 September 2025 was higher due to the inclusion of acquisition fees at 0.5% of the enterprise value of KNTL and RSAPL acquired during the period.

Project management fees
Under the Project Implementation and Management Agreement, the Project Manager is responsible for the operation and maintenance of all project SPVs and is entitled to a fee of 7% of the gross expenditure incurred by each SPV, except for Jhajjar KT Transco Private Limited ("JKTPL"), for which a fixed annual fee of ₹80.5 million, subject to an annual escalation of 5%, is charged.

Indigrid Limited ("IGL") serves as the Project Manager for all SPVs in the Power Transmission and Power Generation segments, while Enerica Infra 1 Private Limited ("ENR1") acts as the Project Manager for all SPVs in the BESS segment. The project management fees paid by the respective SPVs to IGL or ENR1 are eliminated upon consolidation. The methodology for computing project management fees remains unchanged

Note 27: Other expenses

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
Power and fuel	50.16	39.65
Rent	12.22	7.31
Rates and taxes	82.92	80.28
Vehicle hire charges	26.37	22.36
Director Sitting Fee (Refer note 34)	3.26	5.68
Bay Charges	59.48	54.68
Advertisement expenses	-	0.12
Right of way charges	4.40	11.23
Security charges	30.59	28.16
Legal and professional fees	73.66	82.10
Annual listing fee	7.60	14.27
Rating fee	17.81	17.16
Valuation expenses	10.12	6.36
Trustee fee	3.33	10.61
Loss on sale of Property, plant and equipments	119.71	-
Payment to auditors		
- Statutory audit fees	14.98	14.80
- Tax audit fees	1.69	1.66
- Other services (including certification)	-	0.41
Miscellaneous expenses	88.60	121.61
Total	**606.90**	**518.45**

Note 28: Finance Costs

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
Interest on debts and borrowings measured at amortised cost	8,003.63	7,579.33
Other bank and finance charges	8.23	8.10
Unwinding of discount on provisions	5.25	4.20
Interest expense on lease liabilities	32.43	20.93
Total	**8,049.54**	**7,612.56**

Note 29: Depreciation and amortization expense

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
Depreciation of property, plant and equipments	5,190.87	5,020.59
Depreciation on Right of use assets	26.87	29.71
Amortization of intangible assets	443.36	441.51
Total	**5,661.10**	**5,491.81**

Note 30: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the period attributable to owners of the parent by the weighted average number of units outstanding during the period.

Diluted EPU amounts are calculated by dividing the profit for the period attributable to owners of the parent by the weighted average number of units outstanding during the period plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
A. Including Regulatory deferral income/expense		
a. Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	1,154.96	2,297.93
b. Weighted average number of units in calculating basic and diluted EPU (No. in million)*	834.56	783.67
Earnings Per Unit:		
Basic and Diluted (a/b)	1.38	2.93
B. Excluding Regulatory deferral income/expense		
a. Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	1,158.87	2,297.86
b. Weighted average number of units in calculating basic and diluted EPU (No. in million)*	834.56	783.67
Earnings Per Unit:		
Basic and Diluted (a/b)	1.39	2.93

The group doesn't have any outstanding dilutive potential instruments.

*Weighted average number of unit takes into account the effect of change in unit capital arising due to fresh issue of units during the period.

Note 31: Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements
In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

i. Applicability of Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers
The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 / 35 years in case of Transmission Assets. It also operates as a Solar Power Developer in case of Solar Assets and is engaged in storage and delivery of electricity through its Battery Energy Storage Systems (BESS). Generally, the subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff-based bidding process to Build, Own, Operate and Maintain ("BOOM") / Build, Own and Operate ("BOO") the transmission infrastructure for a period of 25 / 35 years or have entered into Power Purchase Agreements ("PPA") with various National or Regional Intermediaries which are designated by the Government, for development of solar power project, generation and sale of solar power with a contractual period of 25 years at a fixed tariff or have entered into Battery Energy Storage Purchase Agreement (BESPA) with National or Regional Intermediaries which are designated by the Government to Build, Own and Operate ("BOO") BESS with a contractual period of 12 years at a fixed tariff.

The Management is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee or solar power developer or BESS Operator to obtain various approvals under the regulatory framework to conduct its operations both during the period of the TSA / PPA / BESPA as well as at the end of the license period or expiry date of PPA / BESPA. In the view of management, generally the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission / solar infrastructure / battery projects at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D is not applicable to the Group for all solar assets, transmission and battery assets operating under BOOM / BOO model.

The Group holds Jhajjar KT Transco Private Limited, Dhule Power Transmission Limited, Ishanagar Power Transmission Limited, Kallam Transco Limited and Ratle Kiru Power Transmission Limited which operates on a Design, build, finance, operate and transfer ("DBFOT") / Build, own, operate and transfer (BOOT) basis. The companies construct, operate and maintain the power transmission system including sub-station to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor. The Group also holds Kilokari Bess Transmission Limited which operates on BOOT basis for deployment of a 20 MW/ 40 MWh BESS at Kilokari Substation for storage and delivery of electricity in accordance with the agreement entered into with the grantor.

Under Appendix D to Ind AS 115, these arrangements are considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets". Accordingly, the Group is of the view that Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers is applicable to this infrastructure asset.

ii. Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

iii. Assessment of control over subsidiary

On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 49% of the equity share capital of NER, GPTL, KhTL and RSAPL and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that the Group shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition.

On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 74% of the equity share capital of ENR1 and have entered into a definitive agreement to buy the balance 26% of the equity share at a later date. The consideration for the entire 100% of the value has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that the Group shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition.

iv. Classification of Optionally Convertible Debentures (OCDs)
GBPL, RBPL and RKTPL have issued OCDs that include three exit options for the holder—non-conversion redemption, conversion into shares of the SPV and swap into units of the Trust.
Management has applied significant judgement in determining the option that a rational investor is expected to exercise. Based on the valuation performed for conversion into shares of the SPV option, which derived the equity value on the redemption date by considering the project's enterprise value, adjustments for outstanding loans under the Securityholders' Agreement and allocation of equity value among investors—Option of non-conversion redemption provides the highest redemption value.
Further, for swap into units of the Trust option, even if this option is triggered, the contractual lock-in overrides the exit right, making this option non-executable at present. As conversion and swap options do not offer any incremental economic benefit over the redemption value under redemption option the embedded conversion option has been assessed to have nil fair value, resulting in the entire OCD being classified as a financial liability.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value (refer note 32 and 33).

In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets) and investment in non convertible debentures of ERIPL and ENR3 (valued at FVTPL), the Group engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar / battery projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of assets other than financial assets
Non-current assets of the Group primarily comprise of property, plant & equipment, goodwill and service concession recievable.

The provision for impairment/(reversal) of impairment of assets other than financial assets is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount has been computed by external independent valuation experts based on value in use calculation for the underlying transmission / solar projects of SPV's (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Group tests impairment on the amounts invested in the respective subsidiaries of Group. In case of goodwill, the carrying value of goodwill is compared with the fair value of the CGU to which it pertains. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 32.

(c) Useful life of Property, plant and equipment and intangibles
The management estimates the useful life and residual value of property, plant and equipment and other intangible assets based on technical estimates. These assumptions are reviewed at each reporting date.

(d) Contingencies
Refer Note 36 - Recognition and measurement of provision and contingencies, key assumptions about the likelihood and magnitude of an outflow of resources.

(e) Leases - Estimating the incremental borrowing rate
The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

(f) Taxes
Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(g) Provision for decommissioning
As part of the identification and measurement of assets and liabilities, the Group has recognised a provision for decommissioning obligations associated with solar plant owned by JUPL and RSAPL. In determining the fair value of the provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the plant from the site in order to remediate the environmental damage caused and the expected timing of those costs. In estimating the expected cost, the Group takes into account changes in environmental legislation and regulations that may impact the process for dismantling and removing the plant.

The carrying amount of the provision as at 30 September 2025 was Rs 167.43 million (31 March 2025: Rs. 121.83 million). The Group estimates that the costs would be realised in 35 years' time upon the expiration of the project life and calculates the provision using the DCF method based on the following assumptions:

JUPL:
- Estimated cost per MW at the end of Project life – Rs. 40,86,584
- Discount rate – 7.38%

RSAPL:
- Estimated cost per MW at the end of Project life – Rs. 26,31,931
- Discount rate – 6.98%"

Note 32: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	30 September 2025	31 March 2025	30 September 2025	31 March 2025
Financial assets at amortized cost				
Trade receivables	7,351.07	7,139.14	7,351.07	7,139.14
Cash & cash equivalent	1,920.88	1,052.62	1,920.88	1,052.62
Other bank balance	4,216.98	4,037.38	4,216.98	4,037.38
Other financial assets	7,760.77	7,585.43	7,760.77	7,585.43
Investement in non current debentures of ERIPL (Class B)	-	103.03	-	103.03
Financial assets at Fair Value through P&L				
Investments in mutual funds	11,563.61	17,611.78	11,563.61	17,611.78
Investement in non current debentures of ERIPL (Class A)	-	1,286.43	-	1,286.43
Investement in non current debentures of ERIPL (Class B)	188.03	-	188.03	-
Investement in non current debentures of ENR3 (Class C)	136.00	-	136.00	-
Financial assets at Fair Value through OCI				
Foreign exchange forward contracts	46.13	1,276.22	46.13	1,276.22
Total	**33,183.47**	**40,092.03**	**33,183.47**	**40,092.03**
Financial liabilities at amortized cost				
Borrowings	2,19,639.70	2,00,461.26	2,19,639.70	2,00,461.26
Trade payables	1,212.46	706.66	1,212.46	706.66
Lease Liabilities	719.27	464.26	719.27	464.26
Other financial liabilities	3,486.11	4,925.62	3,486.11	4,925.62
Financial liabilities at Fair Value				
Derivative instruments	-	92.27	-	92.27
Total	**2,25,057.54**	**2,06,650.07**	**2,25,057.54**	**2,06,650.07**

The management assessed that cash and cash equivalents, other bank balance, trade payables, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Group is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of portfolio assets and investment in Class B and Class C for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 30 September 2025 and 31 March 2025 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs. in million)

Significant unobservable inputs	Valuation technique	Input for 30 September 2025	Input for 31 March 2025	Sensitivity of input to the fair value	Increase /(decrease) in fair value 30 September 2025	31 March 2025
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.16% to 7.99%	7.28% to 8.36%	+ 0.5%	(14,731.00)	(13,921.00)
				- 0.5%	16,543.00	14,909.00
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(338.28)	(1,245.78)
				- 2%	303.22	1,175.85
Inflation rate		Revenue(Esclable): 5.00%	Revenue(Esclable): 5.00%	+ 1%	(351.18)	(2,995.71)
		Expenses: 1.94% to 5.18%	Expenses: 1.94% to 5.18%	- 1%	350.89	2,611.87
Investement in non current debentures of ERIPL (Class A)	DCF Method					
WACC		-	8.09%	+ 0.5%	-	(140.12)
				- 0.5%	-	149.36
Tax rate (normal tax and MAT)		-	Normal Tax - 25.168%	+ 2%	-	(20.08)
				- 2%	-	19.29
Inflation rate		-	Expenses: 2.70%	+ 1%	-	(48.58)
				- 1%	-	42.49
Investement in non current debentures of ERIPL (Class B)	DCF Method					
WACC		10.46%	-	+ 0.5%	(10.24)	-
				- 0.5%	10.96	-
Investement in non current debentures of ERIPL (Class C)	DCF Method					
WACC		9.52%	-	+ 0.5%	(1.85)	-
				- 0.5%	1.88	-

Note 33: Fair value hierarchy

The management has assessed that the financial assets and financial liabilities as at period end other than above are reasonable approximations of their fair values.

(Rs. in million)

Quantitative disclosures fair value measurement hierarchy for assets as at 30 September 2025 and 31 March 2025	Date of valuation	Fair value measurement using: Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	30 September 2025	-	-	3,04,709.46
	31 March 2025	-	-	2,77,756.74

There have been no transfers among Level 1, Level 2 and Level 3.

Note 34: Related party disclosures

I. List of related parties as per the requirements of Ind AS 24 - Related Party Disclosures

(a) Entity with significant influence over the Trust

Esoteric II Pte. Ltd (EPL) - Inducted Sponsor of IndiGrid
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)

Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

II. Entity with common director and its subsidiaries

Enerica Regrid Infra Private Limited
Enerica Infra 3 Private Limited (Subsidiary of Enerica Regrid Infra Private Limited)

III. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid

Esoteric II Pte. Ltd (EPL) - Inducted Sponsor
Indigrid Limited (IGL) - Project Manager of IndiGrid (for all SPV's except for BESS Project)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid
Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Ltd is Promoter)
Enerica Infra 1 Private Limited - Project Manager of BESS Project

(b) Promoters of the parties to IndiGrid specified in (a) above

KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL
KKR Asia Pacific Infrastructure Investors SCSp ("Asia Infra II Main Fund")- Luxembourg
Electron IM Pte. Ltd. - Promoter of IIML (Parent with 100% holding of IIML)
Twin Star Overseas Limited - Promoter of SPTL (SPTL is declassified as sponsor wef 06 July 2023)
Axis Bank Limited - Promoter of ATSL
Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Directors of the parties to IndiGrid specified in (a) above

Directors of IIML:

Harsh Shah
Tarun Kataria
Ashok Sethi
Hardik Shah
Jayashree Vaidhyanthan
Ami Momaya (Till 24 July 2025)
Vaibhav Vaidya (From 24 July 2025)

Key Managerial Personnel ("KMP") of IIML:

Harsh Shah (Managing Director)
Navin Sharma (CFO) (till 15 May 2025)
Meghana Pandit (CFO) (from 15 May 2025)
Urmil Shah (Company Secretary)

Directors of ATSL:
Deepa Rath
Sumit Bali (from 16 January 2024)
Prashant Joshi (from 16 January 2024)
Rajesh Kumar Dahiya
Ganesh Sankaran
Arun Mehta (from 03 May 2024)
Pramod Kumar Nagpal (from 03 May 2024)

Directors of Esoteric II Pte. Ltd.:
Tang Jin Rong
Goh Ping Hao (Lucas Goh)
Madhura Narawane (till 04 April 2025)

Relative of directors mentioned above:
Sonakshi Agarwal

Relative of sponsor mentioned above:
Terra Asia Holdings II Pte. Ltd. ("Terra")

Directors of Enerica Regrid Infra Private Limited:
Harsh Shah

IV. The transactions with related parties during the period are as follows:- **(Rs. in million)**

Particulars	Relation	30 September 2025	30 September 2024
1. Distribution to unit holders			
Indigrid Investment Managers Limited	Investment manager of IndiGrid	4.48	4.04
Esoteric II Pte. Ltd	Sponsor/Entity with significant	81.42	1,211.08
Harsh Shah	Whole time director of Investment Manager	1.30	0.45
Meghana Pandit		0.51	-
Navin Sharma	KMP	-	0.07
Urmil Shah	KMP	0.07	0.04
2. Trustee fee			
Axis Trustee Services Limited (ATSL)	Trustee	-	2.36
3. Investment Management Fees			
Indigrid Investment Managers Limited	Investment manager of IndiGrid	457.36	320.44
4. Directors sitting fees			
Prabhakar singh	Independent Director	1.10	2.80
Rahul Asthana	Independent Director	1.10	2.70
Prasad Paranjape	Independent Director	1.06	-
5. Interest on Term loans			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	32.91	502.53
6. Term Loan repaid			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	2,103.40	12,243.75
7. Net Bank Deposit - created / (redeemed)			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	(715.29)	(148.37)
8. Interest Income on Bank Deposit			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	54.63	83.09
9. Subscription of Non Convertible debentures			
Enerica Regrid Infra Private Limited	Entity with common director	85.00	-
Enerica Infra 3 Private Limited	Entity with common director	136.00	-
10. Amount paid for purchase of shares of JUPL			
Enerica Regrid Infra Private Limited	Entity with common director	(1,286.43)	-
11. Acquisition of shares of ENR1			
Enerica Regrid Infra Private Limited	Entity with common director	0.10	-
12. Redemption of Non Convertible debentures (Class A NCD)			
Enerica Regrid Infra Private Limited	Entity with common director	1,286.43	-

V. The outstanding balances of related parties are as follows:- **(Rs. in million)**

Particulars	Relation	30 September 2025	31 March 2025
1. Investment Manager fees payable			
Indigrid Investment Managers Limited (IIML)	Investment manager of IndiGrid	290.88	141.77
2. Outstanding Term Loan			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	718.75	906.25
3. Outstanding Bank Deposit			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	1,812.02	2,028.89
4. Interest Accrued on Bank Deposit			
Axis Bank Limited	Promoter of Axis Trustee Services Limited	52.84	70.65
5. Outstanding Non-convertible debentures (NCD)			
Enerica Regrid Infra Private Limited	Entity with common director	188.03	1,389.46
Enerica Infra 3 Private Ltd. (ENR 3)	Entity with common director	137.73	-
6. Other receivables from Indigrid Investment Managers Limited	Investment manager of IndiGrid	-	11.63
7. Other Financial liability			
Enerica Regrid Infra Private Limited	Entity with common director	-	1,286.43

Terms and conditions

i) Trustee fee
Trustee fee is paid to Axis Trustee Services Limited. The amount billed for the service was agreed based on mutual negotiation between parties.

ii) Investment Management Fees
For terms and condition related to Investment Management Fees refer note 26.

iii) Transaction with Axis Bank Limited
The Group has banking relationships with Axis Bank Limited, which is a related party. All transactions with the bank have been conducted in the ordinary course of business and at arm's length.

iv). Subscription of Non Convertible debentures - Enerica Regrid Infra Private Limited & Enerica Infra 3 Private Limited
For terms and condition related to subsription of NCD (refer note 7).

v). Purchase of shares of JUPL
The Group has made investment in subsidiaries at a fair value in compliance with InVIT regulations. Necessary approvals were obtained as per applicable laws.

Note 35: Capital and other Commitments

(a) The Group has entered into transmission services agreement (TSA) with long term transmission customers pursuant to which the Group has to transmit power of contracted capacity and ensure minimum availability of transmission line over the period of the TSA. The TSA contains provision for disincentives and penalties in case of certain defaults.

(b) The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. In addition, the Group also holds certain land leases related to solar assets, which have variable lease term and lock in periods.

(c) The Group has entered into Power Purchase Agreement ('PPA') with various DISCOM's for solar entities, where the respective solar entity is required to sell power at a pre-fixed tariff rates agreed as per PPA for an agreed period.

(d) The Group has entered into an Implementation and Support Agreement with Andhra Pradesh Solar Power Corporation Private Limited (APSPCL). Annual O&M charges are payable for the period of 25 years from the commercial operation date to APSPCL.

(e) KTL was awarded additional contract for augmentation of transformers transformation capacity by 2x500MVA, 400/220Kv ICTs along with 220 Kv bays for RE interconnection in December, 2022. KTL had entered into contract with KEC International for construction of this project. During the current financial year, 2x500MVA, 400/220Kv ICTs have been capitalized in January, 2025 and remaining project for 220 Kv bays for RE interconnection is expected to be completed by March 2026.

(f) Trust has executed definitive agreement dated August 25, 2025 for acquisition of Battery Energy Storage System (BESS) project i.e. Setting up of 187.5 MW/750 MWh Standalone Battery Energy Storage Systems (BESS) in Uttar Pradesh with Viability Gap Funding under Tariff-Based Competitive Bidding ("the Project") post one year from achieving Commercial Operation Date ("COD") along with Special Purpose Vehicle (SPV) i.e. Enerica Infra 3 Private Limited from Enerica ReGrid Infra Private Limited (EnerGrid) in one or more tranches in line with the terms of the definitive agreements and Battery Energy Storage Purchase Agreement ("BESPA") and subject to compliance with InvIT Regulations.

(g) The consortium of IGL2 and IGL1 has received the Letter(s) of Intent ("LOI") dated 29 December 2023, from REC Power Development and Consultancy Limited for following 2 transmission project(s) - "Transmission scheme for evacuation of power from Dhule 2 GW REZ" and "Western Region Expansion Scheme XXXIII (WRES-XXXIII): Part C". The projects will be constructed over a period of 18 months. Ishanagar Power Transmission Limited and Dhule Power Transmission Limited has been acquired on 09 February 2024 for this project. Projects are under construction and expected to be completed by June 2026.

IndiGrid, IGL 1, IGL 2, IPTL, and DPTL have also signed definitive agreements with Techno Electric and Engineering Company Limited ("Techno") to co-develop the projects by investing for minority equity and undertaking entire execution on Lumpsum Turnkey (LSTK) basis.

(h) IGL2 has acquired Kallam Transco Limited ("KTCO") from REC Power Development and Consultancy Limited on 05 April 2024. KTCO was incorporated on 15 September 2023 for the construction of i) LILO of both circuits of Parli(M) Karjat(M)/Lonikand-II (M) 400 kV D/c line (twin moose) at Kallam PS ii) 400 kV line bays (AIS) – 4 Nos. (for Kallam PS end) iii) 63 MVAR, 420 kV switchable line reactor including Switching equipment - 2 Nos. (at Kallam end). The project is currently under construction expected to be completed by December 2025.

(i) IGL2 has received the Letter of Intent (LOI) / Letter of Award (LOA) dated 13 March 2024, from Gujarat Urja Vikas Nigam Limited ("GUVNL") for Setting up of 180 MW / 360 MWh Battery Energy Storage Systems in Gujarat for "on Demand" usage under Tariff-based Competitive under Bidding Build Own Operate ("BOO") model. The project is currently under construction expected to be completed by March 2026. Gujarat BESS Private Limited has been incorporated on 24 April 2024 for this project.

(j) IGL2 has received the Letter of Intent (LOI) / Letter of Award (LOA) dated 22 November 2024, from NTPC Vidyut Vyapar Nigam Limited ("NVVNL") for Setting up of a 250 MW / 500 MWh Standalone Battery Energy Storage System in Rajasthan for "on Demand" usage under Tariff-based Competitive under Bidding Build Own Operate ("BOO") model. The project is currently under construction expected to be completed by July 2026. Rajasthan BESS Private Limited has been incorporated on 03 December 2024 for this project.

(k) The Trust has partnered with BII and Norfund to create a platform "EnerGrid" which will bid and develop greenfield Transmission and standalone Battery Energy Storage systems (BESS) projects in India. The Trust has committed to invest Rs. 8,500 Million (approx.) in the platform.

(l) IGL2 has received the Letter of Intent ("LOI") dated February 28, 2025, from REC Power Development and Consultancy Limited to establish Inter-State transmission system for "Transmission scheme for evacuation of power from Ratle HEP (850 MW) & Kiru HEP (624 MW): Part-A" on Build, Own, Operate and Transfer (BOOT) basis. Ratle Kiru Power Transmission Limited has been aquired from REC on 24 March 2025. The project is currently under construction expected to be completed by March 2027.

(m) The Group has partnered with India's renewable energy infrastructure, IFC to have partnered to develop a 180MW/360 MWh standalone battery energy storage system project in Gujarat. The project is designed to play a key role in supporting the state's clean energy goals by enhancing grid stability and ensuring reliable power is available during peak demand.

(n) The Trust has executed the binding agreements with Techno Electric & Engineering Company Limited ("Techno"), for the acquisition of NERES XVI Power Transmission Limited ("Project"), in one or more tranches, post the Project achieving Commercial Operation Date ("COD") at an enterprise value not exceeding Rs. 4,600 million, subject to closing adjustments on acquisition date, in accordance with Transmission Service Agreement ("TSA") along with the lock-in restrictions therein.

Note 36: Contingent liability

Particulars	30 September 2025	31 March 2025
Claim against the group not acknowledged as debt		
- Entry tax demand (refer note A)	432.59	432.59
- Sales Tax Demand (refer note B)	28.26	27.94
- Income tax demand	7.79	7.79
- Land Dispute Matters (refer note C)	4.00	-
- Other Demands (including GST demands and ROW Claims) (refer note D)	323.28	323.28
Total	**795.92**	**791.60**

A. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. Out of the total demand Rs. 138.75 million (31 March 2025: Rs. 138.75 million) pertains to Jabalpur Transmission Company Limited ('JTCL'), Rs. 165.80 million (31 March 2025: Rs. 165.80 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') and Rs. 13.30 million (31 March 2025: Rs. 13.30 million) pertains to RAPP Transmission Company Limited ('RTCL') which is pending with High Court, Jabalpur.

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. The total demand Rs. 1.33 million (31 March 2025: Rs. 1.33 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') which is pending with Commissioner (Appeals).

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Chhattisgarh. The total demand Rs. 113.41 million (31 March 2025: Rs. 113.41 million) pertains to Jabalpur Transmission Company Limited ('JTCL') out of which Rs. 51.55 million (31 March 2025: Rs. 51.55 million) is pending with the Chhattisgarh High Court, Rs. 40.50 million (31 March 2025: Rs. 40.50 million) is pending with Chairman Chhattisgarh Commercial tax Tribunal, Raipur (C.G.) and Rs. 21.36 million (31 March 2025: Rs. 21.36 million) the notice for assessment has been received in the month of October 2020 for which the Group has applied for a certified copy of the Assessment Order on 29 October 2020 and is still awaiting a copy of the same.

B. The details of sales tax demand of Rs. 28.26 million (31 March 2025: Rs. 27.94 million) is as below -

Key Dispute	Forum where dispute is pending	Name of Statute	Entity	30 September 2025	31 March 2025
Demand of CST due to non-availability of C forms.	Assistant Commissioner,. DVAT	Delhi VAT Act, 2004	IGL	17.99	17.99
Difference in GSTR 9 and GSTR 9C in taxability	Office of Deputy Commissioner of State Tax	Central Goods and Services Tax Act, 2017	USUPL	5.83	5.83
Part B of E-way bill not generated	SGST Officer	Central Goods and Services Tax Act, 2017	NRSS	1.77	1.45
Penalty has been livied for non-filing/late filing of Quarterly returns, Annual return, Audit report	Commissioner	Bihar VAT Act, 2005	ENICL	0.89	0.89
Tax and interest has been imposed for non-submission of F-Form. Penalty has been livied for non-filing/late filing of Quarterly returns, Annual return, Audit report	Commissioner	Bihar VAT Act, 2005	ENICL	0.19	0.19
Under declaration of output tax in reconciliation of GSTR-01 with GSTR-09	Office of Asst. Commissioner of State Tax	Central Goods and Services Tax Act, 2017	JKTPL	1.59	1.59
Total				**28.26**	**27.94**

C. Land dispute related matters pertains to newly acquired entities RSAPL and KNTL.

D. Other Demands (including GST demands and ROW Claims) includes an amount of Rs. 110.61 million (31 March 2025: Rs. 110.61 million) for claims from farmers for additional Right of Way (RoW) compensation made against one of the subsidiaries. Further it includes an amount of Rs. 212.67 million (31 March 2025: 212.67 million) for claims from one of the erstwhile EPC contract vendor against two of the subsidiaries.

The Group has not provided for disputed liabilities disclosed above arising from entry tax demands which are pending with different authorities mentioned above for its decision. The Group is contesting the demands and the Group management, including its legal advisors, believe that its position will likely be upheld in the appellate process. No liability has been accrued in the consolidated financial statements for the demands raised. The Group management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Group's financial position.

Others

The total contingent liability (except ROW claim of Rs. 110.62 million and GST claim of Rs. 212.66 million against ISPL 1 and ISPL 2, GST claim of Rs. 8.87 million and Income tax claim of Rs. 7.79 million) is recoverable as per share purchase agreement from Selling Shareholders. If GST demand of Rs. 212.66 million becomes payable, it would be eligible for additional tariff as per the PPA with regulatory authorities.

Note 37: Segment reporting

The activities of the IndiGrid Group includes owning, operating, and managing power transmission networks, solar assets and battery storage assets. Given the nature of the Group's diversified operations and in accordance with the guidelines set forth in Ind AS - 108 - "Operating Segments," management has identified three distinct reportable business segments as "Power Transmission segment", "Power generation segment" and "Power storage segment". Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. Power transmission segment includes entities in the business of transmitting power through transmission towers. Power storage segment includes entities in the business of storing power in batteries. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM). Board of Directors has been identified as CODM.

Particulars	30 September 2025	30 September 2024

1. During the quarter ended March 31, 2025, the Trust transferred 51% of its equity shares in Jaisalmer Urja VI Private Limited (formerly Renew Solar Urja Private Limited) ("JUPL") to IGL2. Pursuant to an Inter-se Agreement between the Trust, ERIPL and IGL2, 26% of the equity shares of JUPL were subsequently transferred to Enerica Regrid Infra Private Limited ("ERIPL"). Based on the terms of the Inter-se Agreement, the Group concluded that it continued to retain 100% of the beneficial and economic interest in JUPL.
During the current reporting period, IGL2 repurchased the aforesaid 26% equity shares of JUPL from ERIPL at the same consideration as the original transfer, supported by a fair valuation report.

2. IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025.

3. During the previous year, the trust is alloted 0.453 million shares of GPTL on 27 December 2024 at a price of Rs. 220.38 per share aggregating to Rs. 99.94 million. The share were issued at fair value.

4. On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Trust has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Trust thereby giving 100% beneficial ownership of these SPV in the hands of the Trust.

Additionally the Trust has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Trust shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Trust as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Trust has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

5. During the previous year, the Trust has entered into an settlement agreement with Sterlite Power Transmission Limited (SPTL) and Sterlite Grid 5 Limited (SGL 5) (Sterlite Power Group) to settle outstanding balances related to payables for projects acquired by the Indigrid Group, as part of the acquisition of ENICL, NRSS, NER, BDTCL, GPTL, OGPTL and KhTL. Basis the settlement agreement the Trust have reversed net liability payable towards projects acquired in earlier years of Rs. 742 million in aggregate and the same is reduced from investments in respective subsidiaries/holdco of the Trust.

6. During the previous year, favourable "Change in Law" orders were received by GPTL, NER, and KhTL, resulting in an increase in revenue for these entities. As per the terms of the Share Purchase Agreements entered into by IndiGrid for the acquisition of these SPVs, such "Change in Law" benefits are contractually reimbursable to the erstwhile sellers. Accordingly, the Trust has recognised a corresponding liability and adjusted the carrying value of investments in the respective SPVs.

7. During the current period, the Trust acquired (a) 49% of the paid-up equity capital of ReNew Surya Aayan Private Limited ("RSAPL") from ReNew Solar Power Private Limited pursuant to a Share Purchase Agreement ("SPA") dated 06 June 2025, and (b) 100% of the paid-up equity capital of Koppal-Narendra Transmission Limited ("KNTL") with effect from 24 June 2025 from ReNew Solar Power Private Limited and KNI India AS pursuant to an SPA dated 06 June 2025. In respect of RSAPL, the Trust has finalised the purchase consideration for acquisition of the entire stake and has entered into a binding agreement to acquire the remaining 51% equity from the seller. Based on the rights available to the Trust under the SPA, the Trust holds beneficial interest in RSAPL.

As per the terms of the SPA, the final purchase consideration for both acquisitions will be determined based on the audited financial statements as of the cut-off date. Accordingly, the accounting for both acquisitions has been performed on a provisional basis, as the purchase consideration is yet to be finalised, in compliance with the requirements of Ind AS 103 – Business Combinations. Further, the acquisitions has been accounted as asset acquisition as per Ind AS 103 - Business Combination.

Further, as part of an internal restructuring, the Trust transferred its 49% shareholding in RSAPL and 100% shareholding in KNTL to IGL2 to optimise IndiGrid's asset structure. Pursuant to this restructuring, the Trust continues to remain the beneficial owner of the remaining 51% shareholding in RSAPL.

8. Pursuant to the Share Purchase and Shareholders' Agreement ("SPSA") dated May 19, 2025, entered into between IndiGrid 2 Private Limited ("IGL2") and Enerica ReGrid Infra Private Limited ("ERIPL"), IGL2 acquired 74% of the equity share capital of Enerica Infra 1 Private Limited ("ENR1") on May 20, 2025. As per the terms of the SPSA, IGL2 has entered into a binding agreement to acquire the remaining 26% shareholding within 3 years from the agreement date, payment for which has already been made in advance and accordingly the Group holds 100% beneficial interest basis SPSA.

Additional information of net assets and share in profit or loss contributed by various entities as required under Schedule III of the Companies Act, 2013.

Independent Auditor's Review Report on the Unaudited Interim Condensed Standalone Financial Statements of the Trust as at and for the half year ended September 30, 2025

The Board of Directors
Indigrid Investment Managers Limited [as Investment Manager of IndiGrid Infrastructure Trust, (formerly known as India Grid Trust)]

We have reviewed the accompanying Unaudited Interim Condensed Standalone Financial Statements of IndiGrid Infrastructure Trust ("the InvIT"), comprising of the unaudited interim condensed standalone balance sheet as at September 30, 2025, the related unaudited interim condensed standalone statement of profit and loss, including other comprehensive income, the unaudited interim condensed standalone cash flow statement, the unaudited interim condensed standalone statement of changes in unit holders' equity and the unaudited Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT for the half year ended September 30, 2025 and condensed notes to the standalone financial statements, including a summary of material accounting policy and other explanatory information (hereinafter referred to as "Unaudited Interim Condensed Standalone Financial Statements") attached herewith, being prepared by Indigrid Investment Managers Limited (the "Investment Manager").

These Unaudited Interim Condensed Standalone Financial Statements has been prepared solely in connection with raising of fund in accordance with Chapter 7 on 'Guidelines for preferential issue and institutional placement of units by listed InvITs' of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, as amended from time to time ("SEBI Institutional Placement Guidelines") and the InvIT Regulations.

Management's Responsibility for the Interim condensed Financial Statements

The Unaudited Interim Condensed Standalone Financial Statements, which are the responsibility of the Investment Manager and has been approved by the Board of Directors of the Investment Manager, have been prepared in accordance with the requirements of Indian Accounting Standard 34 (referred to as "Ind AS 34"), specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations"), other accounting principles generally accepted in India and read with InvIT Regulations. Our responsibility is to express a conclusion on the Unaudited Interim Condensed Standalone Financial Statements based on our review.

Scope of review

We conducted our review of the Unaudited Interim Condensed Standalone Financial Statements in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Unaudited Interim Condensed Standalone Financial Statements are free of material misstatement. A review of interim financial information consists of making inquiries, primarily of Investment Manager personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the Unaudited Interim Condensed Standalone Financial Statements are not prepared in all material respects in accordance with the requirements of Ind AS 34, specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to InvIT Regulations, other accounting principles generally accepted in India and read with InvIT Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Emphasis Of Matter

We draw attention to Note 12(A)(iii) of the Unaudited Interim Condensed Standalone Financial Statements which describes the presentation/ classification of “Unit Capital” as “Equity” instead of the applicable requirements of Ind AS 32- Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

Other Matter – Restriction of use

This report on the Unaudited Interim Condensed Separate Financial Statements has been issued solely in connection with the purpose specified in paragraph above and its intended use and should not be used or referred or distributed for any other purpose.

Note:

1. Opening balance of other equity (retained earnings) is regrouped to comply with requirements under amendment to Chapter 4 of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, to disclose distribution in the nature of repayment of Unit Capital as a standalone line item on the face of the balance sheet.

2. The distributions made by the Trust to its unitholders are classified into (i) capital repayment, and (ii) distribution in the nature of income (including interest, dividend, or other income), in proportion to the corresponding loan repayments and income received by the Trust from the SPVs and income generated at the Trust level.

3. The distribution reported is based on the amounts distributed during the reporting period. Hence any amount pertaining to the reporting period but distributed subsequently shall be included in the corresponding period in which it has been actually distributed.

The accompanying notes form an integral part of interim condensed standalone financial statements.

Disclosures Pursuant To SEBI Circulars
(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 as amended)

A. STATEMENT OF NET ASSETS AT FAIR VALUE AS AT

Rs. in million

Particulars	**30 September 2025 (Unaudited)**		**31 March 2025 (Audited)**	
	Book value	**Fair value**	**Book value**	**Fair value**
(A) Total Assets	3,04,211.96	3,40,006.62	2,76,461.64	3,09,004.78
(B) Total Liabilities	2,16,160.37	2,16,160.37	1,88,736.02	1,88,736.02
(C) Net Assets (A-B)	88,051.59	1,23,846.25	87,725.62	1,20,268.76
(D) No. of Units	834.56	834.56	834.56	834.56
(E) NAV per unit (C/D)	105.51	148.40	105.12	144.11

Fair values of subsidiaries/SPVs are calculated based on their independent fair values done by experts appointed by the Trust. The fair value of all these revenue-generating assets is determined using discounted cash flows method. The Trust holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74%, TSESPL in which it holds 66% and KBPL in which it holds 99.996%.

Project-wise reconciliation statement showing adjustments made to the valuation arrived at by the independent valuer to compute the fair value of assets presented in the 'Statement of Net Assets at Fair Value'.

Total	**2,95,562.24**	**13,442.54**	**3,09,004.78**

Notes:

(i). Other adjustments represents cash and cash equivalents, other bank balances, bank deposits, investments in mutual funds, external borrowings and interest thereon, fair value attributable to minority interest and net assets of the Trust and intermediate HoldCo as they are not considered in the valuation report.

(ii) IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025 and as a result the same are indirectly held by Trust.

(iii) During the quarter ended March 31, 2025, the Trust transferred 51% of its equity shares in Jaisalmer Urja VI Private Limited (formerly Renew Solar Urja Private Limited) ("JUPL") to IGL2. Pursuant to an Inter-se Agreement between the Trust,Enerica Regrid Infra Private Limited ("ERIPL") and IGL2, 26% of the equity shares of JUPL were subsequently transferred to ERIPL. Based on the terms of the Inter-se Agreement and the principles of Ind AS 115, the Group concluded that it continued to retain 100% of the beneficial and economic interest in JUPL.

During the current reporting period, IGL2 repurchased the aforesaid 26% equity shares of JUPL from ERIPL at the same consideration as the original transfer, supported by a fair valuation report.

(iv) During the current period, the Trust acquired (a) 49% of the paid-up equity capital of ReNew Surya Aayan Private Limited ("RSAPL") from ReNew Solar Power Private Limited pursuant to a Share Purchase Agreement ("SPA") dated 06 June 2025, and (b) 100% of the paid-up equity capital of Koppal-Narendra Transmission Limited ("KNTL") with effect from 24 June 2025 from ReNew Solar Power Private Limited and KNI India AS pursuant to an SPA dated 06 June 2025. In respect of RSAPL, the Trust has finalised the purchase consideration for acquisition of the entire stake and has entered into a binding agreement to acquire the remaining 51% equity from the seller. Based on the rights available to the Trust under the SPA, the Trust holds beneficial interest in RSAPL.

As per the terms of the SPA, the final purchase consideration for both acquisitions will be determined based on the audited financial statements as of the cut-off date. Accordingly, the accounting for both acquisitions has been performed on a provisional basis, as the purchase consideration is yet to be finalised, in compliance with the requirements of Ind AS 103 – Business Combinations.

Further, as part of an internal restructuring, the Trust transferred its 49% shareholding in RSAPL and 100% shareholding in KNTL to IGL2 to optimise IndiGrid's asset structure. Pursuant to this restructuring, the Trust continues to remain the beneficial owner of the remaining 51% shareholding in RSAPL.

(All amounts in Rs. million unless otherwise stated)

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	For the Half Year ended 30 September 2025 (Unaudited)	For the Half Year ended 30 September 2024 (Unaudited)
Total comprehensive income (as per the statement of profit and loss)	7,085.89	7,601.76
Add/ (Less): other changes in fair value not recognized in total comprehensive income	3,251.52	9,403.30
Total Return	**10,337.41**	**17,005.06**

Notes:
1. Fair Value of the asset as at 30 September 2025, 30 September 2024 and 31 March 2025 and other changes in fair value are based on the fair valuation report issued by the independent valuer appointed under InvIT regulations.

2. Sensitivity analysis and other related disclosure with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 26A.

Disclosures pursuant to SEBI Circulars

(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 as amended)

A) Statement of Net Distributable Cash Flows (NDCFs) of Indigrid Infrastructure Trust (formerly known as India Grid Trust)

Description	For the Half Year Ended 30 September 2025 (Unaudited)	For the Half Year Ended 30 September 2024 (Unaudited)
Cash flow from operating activities as per Cash Flow Statement	(121.69)	(504.99)
(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework (refer note 1)	13,813.93	13,496.13
(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)	253.27	195.76
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/Holdcos or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations (refer note 2)	-	-
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs/ Hold cos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	-	-
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust	(7,614.06)	(7,071.04)
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or funds raised through issuance of units)	-	-
(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or (refer note 3)	42.50	(473.55)
(-) any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years	(3.11)	(5.12)
NDCF (refer note 4)	**6,370.84**	**5,637.19**

Notes:

1. The following amounts has been included / excluded from the above -

A. This includes Rs. 633.77 million (net) received from SPV after the 30 September 2025 but before the board meeting date i.e. 11 November 2025.
B. This excludes Rs. 185.99 million (net) received from the SPV after 31 March 2025 but pertains to previous year.
C. This doesn't include loan given to SPV (RSAPL and KNTL) amounting to Rs 19,628.87 million given to repay external loan of SPV as the same is refinanced at the Trust level and such proceeds from refinancing have been transferred by the Trust to the SPV for such debt repayment.
D. This doesn't include loan given to SPV (JUPL) amounting to Rs 9,784.08 million given to repay external loan of SPV as the same is refinanced at the Trust level and such proceeds from refinancing have been transferred by the Trust to the SPV for such debt repayment.
E. This doesn't include loan given to SPVs that are under construction stage amounting to Rs 6,356.82 million given to fund the capital expenditure in the project.

2. In the current period, the Trust had transferred 49% of paid up equity capital of RSAPL and 100% paid up equity capital of KNTL at the carrying value at which it is acquired to IGL2 (within the Group). As the proceeds from this transaction is reinvested / proposed to be reinvested in accordance with InvIT Regulations, no cash inflow is considered as part of NDCF.

3. The amount represents the actual reserve created or released during the period. In accordance with Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, reserves created from debt funds at the time of availing financing shall not be reduced from April 1, 2025 onwards; accordingly said reserve have been excluded from the current year's reserve movement

4. As per the master circular SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, details of NDCF distributable is as below -

Particulars	For the Half Year Ended 30 September 2025	For the Half Year Ended 30 September 2024
NDCF of Trust (A)	6,370.84	5,637.19
(+) NDCF of Holdco & SPV's (B)	13,933.82	14,185.76
(-) Amount distributed by Holdco & SPV's (C)	(13,813.93)	(13,496.13)
Amount Of NDCF Distributable D=(A+B-C) *	**6,490.73**	**6,326.82**

*In accordance with the SEBI circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, 90% distribution under regulation 18(6) needs to be computed by taking together the 10% retention done at SPV and Trust level. Accordingly, the Trust has ensured the same. In half year ended 30 September 2025, the Trust has distributed Rs 0.22 per unit (30 September 2024: Nil) out of 10% retention done for earlier periods at Trust level.

Further, Trust along with its SPVs has ensured that the minimum 90% distribution of NDCF is met on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations.

1. Trust information

Indigrid Infrastructure Trust (Formerly Known As India Grid Trust) ("the Trust" or "IndiGrid") is an irrevocable trust settled by Sterlite Power Transmission Limited (the "Sponsor") on 21 October 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on 28 November 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/battery in India with the objective of producing stable and sustainable distributions to unitholders.

As at 30 September, 2025, IndiGrid has special purpose vehicles ("SPVs") which are into transmission infrastructure, generation of electricity through Solar projects and into storage and delivery of electricity through Battery Energy Storage Systems.

Nature of Trust's subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Underlying holding company ("HoldCo")
2	IndiGrid 1 Limited	IGL1	NA	Underlying holding company ("HoldCo")

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra - 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 19 January 2026.

2. Material Accounting Policies

2.1 Basis of preparation

These interim condensed standalone financial statements (the "Financial Statements") are the standalone financial statements of the Trust and comprise of the Balance Sheet as at September 30, 2025, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flow and the Statement of Changes in Unit Holders' Equity for the period then ended, the Statement of Net Assets at fair value as at 30 September 2025, the Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') for the period then ended and a summary of material accounting policies and other explanatory notes in accordance with Indian Accounting Standards (Ind AS) 34 "Interim Financial Reporting" (referred to as "Ind AS 34"), specified under Companies (Indian Accounting Standard) Rules, 2015 (as amended), to the extent not contrary to SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations"), other accounting principles generally accepted in India and read with InvIT Regulations.

Thees Financial Statements have been prepared on accrual basis and under the historical cost convention except certain financial assets and liabilities measured at amortized cost and fair value for accounting policy regarding financial instruments).

The Financial Statements are presented in Indian Rupees Millions and all values are rounded off to the nearest thousand, except when otherwise indicated. Amounts less than `5,000 have been presented as "0".

These Financial Statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Trust's Annual Financial Statements as at 31 March 2025.

These Financial Statements have been prepared by the Investment Manager in accordance with the requirements of the InvIT Regulations. These statements are intended for inclusion in the Placement Document ("PD") prepared by the Investment Manager in connection with the proposed qualified institutional placement of units of the Trust. Consequently, these Financial Statements may not be appropriate for any other use.

2.2 Summary of material accounting policies

These Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies adopted in the preparation of these Financial Statements are consistent with those of Annual Financial Statements as at 31 March 2025. There has been no change in the material accounting policies in the interim period except for the below:

Applicability of Division II of Schedule III to the Companies Act, 2013

As per SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated July 11, 2025, the financial statements shall be prepared as per Division II of Schedule III of the Companies Act, 2013, with the exceptions and modifications as mentioned in the said circular.

New and amended standards

The Trust applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2025. The Trust has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

(i) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

Amendments to paragraphs 69 to 76 of Ind AS 1 *Presentation of Financial Statements* specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendment does not have any impact on the Trust's financial statements.

(ii) Supplier Finance Arrangements - Amendments to Ind AS 7 and Ind AS 107

Amendments to Ind AS 7 *Statement of Cash Flows* and Ind AS 107 *Financial Instruments: Disclosures* clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendment does not have any impact on the Trust's financial statements.

(iii) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12

Amendments to Ind AS 12 *Income Taxes* in response to the OECD's BEPS Pillar Two rules include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after 1 April 2025, but not for any interim periods ending on or before 31 March 2026.

The amendments does not have any impact on the Trust's financial statements.

There are certain consequential amendments to other Ind ASs but these does not have any material impact on the Trust's financial statements.

Standards notified but not yet effective

The new and amended standards that are notified but not yet effective, up to the date of issuance of the financial statements are disclosed below. The Trust will adopt these new and amended standards, when they become effective.

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants – Amendments to Ind AS 1

A requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. This amendment will be applicable from annual reporting periods beginning on or after the 1 April 2026.

1. During the quarter ended March 31, 2025, the Trust transferred 51% of its equity shares in Jaisalmer Urja VI Private Limited (formerly Renew Solar Urja Private Limited) ("JUPL") to IGL2. Pursuant to an Inter-se Agreement between the Trust, ERIPL and IGL2, 26% of the equity shares of JUPL were subsequently transferred to Enerica Regrid Infra Private Limited ("ERIPL"). Based on the terms of the Inter-se Agreement and the principles of Ind AS 115, the Group concluded that it continued to retain 100% of the beneficial and economic interest in JUPL.
During the current reporting period, IGL2 repurchased the aforesaid 26% equity shares of JUPL from ERIPL at the same consideration as the original transfer, supported by a fair valuation report.

2. IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025 and as a result the same are indirectly held by Trust.

3. During the previous year, the trust is alloted 0.453 million shares of GPTL on 27 December 2024 at a price of Rs. 220.38 per share aggregating to Rs. 99.94 million. The share were issued at fair value.

4. On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Trust has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Trust thereby giving 100% beneficial ownership of these SPV in the hands of the Trust.

Additionally the Trust has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Trust shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Trust as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Trust has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

5. During the previous year, the Trust has entered into an settlement agreement with Sterlite Power Transmission Limited (SPTL) and Sterlite Grid 5 Limited (SGL 5) (Sterlite Power Group) to settle outstanding balances related to payables for projects acquired by the Indigrid Group, as part of the acquisition of ENICL, NRSS, NER, BDTCL, GPTL, OGPTL and KhTL. Basis the settlement agreement the Trust have reversed net liability payable towards projects acquired in earlier years of Rs. 742 million in aggregate and the same is reduced from investments in respective subsidiaries/holdco of the Trust.

6. During the previous year, favourable "Change in Law" orders were received by GPTL, NER, and KhTL, resulting in an increase in revenue for these entities. As per the terms of the Share Purchase Agreements entered into by IndiGrid for the acquisition of these SPVs, such "Change in Law" benefits are contractually reimbursable to the erstwhile sellers. Accordingly, the Trust has recognised a corresponding liability and adjusted the carrying value of investments in the respective SPVs.

7. During the current period, the Trust acquired (a) 49% of the paid-up equity capital of ReNew Surya Aayan Private Limited ("RSAPL") from ReNew Solar Power Private Limited pursuant to a Share Purchase Agreement ("SPA") dated XX January 2025, and (b) 100% of the paid-up equity capital of Koppal-Narendra Transmission Limited ("KNTL") with effect from 24 June 2025 from ReNew Solar Power Private Limited and KNI India AS pursuant to an SPA dated 07 June 2025. In respect of RSAPL, the Trust has finalised the purchase consideration for acquisition of the entire stake and has entered into a binding agreement to acquire the remaining 51% equity from the seller. Based on the rights available to the Trust under the SPA, the Trust holds beneficial interest in RSAPL.

As per the terms of the SPA, the final purchase consideration for both acquisitions will be determined based on the audited financial statements as of the cut-off date. Accordingly, the accounting for both acquisitions has been performed on a provisional basis, as the purchase consideration is yet to be finalised, in compliance with the requirements of Ind AS 103 – Business Combinations.

Further, as part of an internal restructuring, the Trust transferred its 49% shareholding in RSAPL and 100% shareholding in KNTL to IGL2 to optimise IndiGrid's asset structure. Pursuant to this restructuring, the Trust continues to remain the beneficial owner of the remaining 51% shareholding in RSAPL.

8. Pursuant to the Share Purchase and Shareholders' Agreement ("SPSA") dated May 19, 2025, entered into between IndiGrid 2 Private Limited ("IGL2") and Enerica ReGrid Infra Private Limited ("ERIPL"), IGL2 acquired 74% of the equity share capital of Enerica Infra 1 Private Limited ("ENR1") on May 20, 2025. As per the terms of the SPSA, IGL2 has entered into a binding agreement to acquire the remaining 26% shareholding within 3 years from the agreement date, payment for which has already been made in advance and accordingly the Group holds 100% beneficial interest basis SPA.

Impairment

The Trust has made assessment of recoverability of the investments in / loans given to various subsidiaries including step down subsidiaries and based on such assessment, an impairment loss has been provided and the same is shown as Impairment of investment in subsidiaries in standalone statement of profit and loss for the year ended 31 March 2025 , period ended 30 September 2025 and period ended 30 September 2024. The impairment loss arose in these investements due to diminishion of cash flow due to age of the asset. Refer note 25 for estimate and assumption used for doing fair valuation of investment in subsidiaries including step down subsidiaries. Following is the list of subsidiaries including step down subsidiaries on which impairment provision is made during the period:

* Class A Non-convertible debentures (NCD) of face value of Rs. 10 each issued by Enerica Regrid Infra Private Limited are unsecured with a tenure of 20 years from the date of allotment. Interest will be accrued and payable @ 19% p.a after 5 year of allotment. As per the terms of NCD and Ind AS 109, the Class A NCDs are recognized at Fair Value Through Profit and Loss (FVTPL). Class A NCDs are redeemed during the period.

^ Class B Non-convertible debentures (NCD) of face value of Rs. 10 each issued by Enerica Regrid Infra Private Limited are unsecured with a tenure of 20 years from the date of allotment. Interest shall be accrued and become due and payable upon availability of cash flow for payment in the Company at the end of the Financial Year after discharging operational liabilities unless the Board decides to invest the surplus cashflow in future investment. If the Class B Interest is not accrued due to unavailability of cash flow till the end of the tenure of the Class B NCDs or redemption of the Class B NCDs, whichever is earlier, the Class B Interest will get accrued from and become due and payable on the date of expiry of the tenure of the Class B NCDs or redemption of the Class B NCDs, whichever is earlier. As per the terms of NCD and Ind AS 109, the Class B NCDs are recognized at Fair Value Through Profit and Loss (FVTPL).

Class C Non-convertible debentures (NCD) of face value of Rs. 10 each is issued by Enerica Infra 3 Private Limited and are unsecured with a tenure upto 16th January, 2031. The NCDs will carry interest, determined on the basis of a transfer pricing, benchmarking study carried out by the Company subject to adjustments (if any). The interest shall be cumulative and shall accrue and become due and payable 5 (five) days prior to the Redemption Date. As per the terms of NCD and Ind AS 109, the Class C is recognized at Fair Value Through Profit and Loss (FVTPL).

$ Optionally Convertible Debentures (OCDs) of face value of Rs. 10 each issued by KNTL are unsecured with a tenure of 30 years from the date of allotment. The OCDs will carry simple interest @ 11.5% p.a. payable on semi-annual basis. As per the terms of OCDs and Ind AS 109, the OCDs are recognised at Amortised Cost Method (ACM).

As at 31 March 2025	**834.56**	**83,322.54**
Units issued during the period	-	-
Issue expenses	-	-
As at 30 September 2025	**834.56**	**83,322.54**

Note:

i) On 07 October 2024, the Trust issued 50.88 million units to eligible investors on a preferential basis at a unit price of Rs. 136.43 per unit to raise Rs. 6,942.21 million.

ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

iii) Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as "Equity", which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Trust has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

b. Terms/rights attached to units
The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Trust declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	30 September 2025		31 March 2025	
	(Nos. in million)	% holding	(Nos. in million)	% holding
Government of Singapore	140.21	16.80%	140.18	16.80%
Larsen And Toubro Limited	-	0.00%	49.19	5.89%

d. The Trust has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Trust has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

(All amounts in Rs. million unless otherwise stated)

Nature and purpose of reserve:
Retained earnings are the profits/(loss) that the Trust has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders.

Notes:
1. Opening balance of other equity (retained earnings) is regrouped to comply with requirements under amendment to Chapter 4 of SEBI master circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025, to disclose distribution in the nature of repayment of Unit Capital as a standalone line item on the face of the balance sheet.

2. The distributions made by the Trust to its unitholders are classified into (i) capital repayment, and (ii) distribution in the nature of income (including interest, dividend, or other income), in proportion to the corresponding loan repayments and income received by the Trust from the SPVs and income generated at the Trust level.

3. The distribution reported is based on the amounts distributed during the reporting period. Hence any amount pertaining to the reporting period but distributed subsequently shall be included in the corresponding period in which it has been actually distributed.

Note 15: Long term borrowings (carried at amortised cost)

** Interest rate has been reset from 7.11% to 7.65% with effect from 14th March 2025

The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 17 July 2025, "ICRA AAA/Stable" from ICRA on 17 June 2025 and "IND AAA/Stable" from India Ratings on 03 June 2025.

(B) Term loan from bank

The Indian rupee term loan from bank carries interest at the rate of 6.85% to 7.90% p.a. (EIR 7.43% to 8.46%) [31 Mar 2025 : 7.03% to 8.25% p.a. (EIR 7.07% to 8.85%)]. Loan amount installments are repayable as per the payment schedule ranging over 5 and 15 years from the date of disbursement. The term loan is secured by

(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) First pari-passu pledge over the equity share capital of specified SPVs as per the financing agreements.
(iv) Exclusive charge on the ISRA/DSRA accounts created for respective facility.

Financial covenants

Loans from bank and non convertible debentures contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed by banks on availability of audited accounts of the Trust periodically. For the period ended 30 September 2025 and 31 March 2025, the Trust has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, where applicable.

The Trust has not utilised borrowings taken from banks and financial institutions for purpose other than for which it was taken.

The Trust has not defaulted in repayment of any loan and interest payable.

(All amounts in Rs. million unless otherwise stated)

Interest income on loans given to subsidiaries (refer note 27)	14,600.50	13,529.81
Finance income on non-convertible debentures issued by subsidiary on EIR basis	135.51	125.72
Total	**14,736.01**	**13,655.53**

Note 19: Other income

	30 September 2025 (Unaudited)	30 September 2024 (Unaudited)
19.1 Interest & Mutual Fund Income		
Income from investment in mutual funds	77.74	55.30
Interest income on investment in bank deposits	110.53	172.63
Interest Income from NCDs	1.03	-
19.2 Dividend Income		
Dividend income from subsidiaries	232.40	264.05
Total	**421.70**	**491.98**

Note 20: Investment management fees

	For the Half Year Ended 30 September 2025 (Unaudited)	For the Half Year Ended 30 September 2024 (Unaudited)
Investment management fees (refer note 27)	134.83	3.74
Total	**134.83**	**3.74**

Pursuant to the Investment Management Agreement dated 13 June 2023 (as amended), Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower and acquisition fees amounting to 0.5% of Enterprise Value of new assets / SPVs / businesses acquired, subject to achieving Distribution Per Unit (DPU) guidance. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager. The Investment management fee for current period is higher due to the inclusion of acquisition fees at 0.5% of the enterprise value of KNTL and RSAPL acquired during the period.

Note 21: Other expenses

	For the Half Year Ended 30 September 2025 (Unaudited)	For the Half Year Ended 30 September 2024 (Unaudited)
Rates and taxes	4.44	5.54
Annual listing fees	7.60	14.27
Legal and professional fees	32.61	18.38
Rating fees	17.81	17.16
Valuation Expenses	10.12	6.04
Payment to auditors (including taxes)	6.50	7.36
Miscellaneous expenses	12.20	6.59
Total	**91.28**	**75.34**

Payment to auditors	**For the Half Year Ended 30 September 2025 (Unaudited)**	**For the Half Year Ended 30 September 2024 (Unaudited)**
As auditor (including taxes):		
Statutory audit fees	6.34	7.20
In other capacities:		
Certification fees	0.16	0.16
Total	**6.50**	**7.36**

Note 22: Finance Cost

	For the Half Year Ended 30 September 2025 (Unaudited)	**For the Half Year Ended 30 September 2024 (Unaudited)**
Interest on debt and borrowings measured at amortised cost	7,552.40	7,121.54
Other bank and finance charges	6.33	1.54
Total	**7,558.73**	**7,123.08**

Note 23: Depreciation and amortization expense

	For the Half Year Ended 30 September 2025 (Unaudited)	**For the Half Year Ended 30 September 2024 (Unaudited)**
Depreciation of property,plant and equipments	0.02	0.08
Amortisation of intangible assets	6.90	6.70
Total	**6.92**	**6.78**

Note 24: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the period attributable to unit holders by the weighted average number of units outstanding during the period.

Diluted EPU amounts are calculated by dividing the profit for the period attributable to unit holders by the weighted average number of units outstanding during the period plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	**30 September 2025 (Unaudited)**	**30 September 2024 (Unaudited)**
(A) Profit after tax for calculating basic and diluted EPU (Rs. in million)	7,085.89	7,601.76
(B) Weighted average number of units in calculating basic and diluted EPU (No. in million)	834.56	783.67
Earnings Per Unit:		
Basic and Diluted (Rupees/unit) (A/B)	8.49	9.70

The Trust doesn't have any outstanding dilutive potential instruments.

Note 25: Significant accounting judgements, estimates and assumptions

The preparation of the Trust's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements
In the process of applying the Trust's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

(a) Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value.
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets) and investment in non convertible debentures of ERIPL and ENR3 (valued at FVTPL), the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of non-current assets
Non-current assets of the Trust primarily comprise of investments in subsidiaries and investments in NCDs of ERIPL and ENR3.

The provision for impairment/(reversal) of impairment of investments in subsidiaries is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Trust tests impairment on the amounts invested in the respective subsidiary companies.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 26A.

(c) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Trust establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Note 26A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Trust's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Rs. in million

Particulars	Carrying value		Fair value	
	30 September 2025	31 March 2025	30 September 2025	31 March 2025
Financial assets at Amortized cost				
Cash & cash equivalent	370.29	271.21	370.29	271.21
Other bank balance	987.14	1,454.65	987.14	1,454.65
Investment in subsidiaries(including loan to subsidiaries)	2,82,514.90	2,48,327.53	3,18,309.56	2,80,870.67
Investments in non convertible debentures of ERIPL (Class B)	-	103.03	-	103.03
Other financial assets	16,348.51	13,532.28	16,348.51	13,532.28
Financial assets at Fair Value through profit and loss				
Investments in mutual funds	3,495.32	11,338.56	3,495.32	11,338.56
Investments in non convertible debentures of ERIPL (Class A and Class B)	188.03	1,286.43	197.00	1,286.43
Investments in non convertible debentures of ENR3 (Class C)	136.00	-	139.44	-
Total	**3,04,040.19**	**2,76,313.69**	**3,39,847.26**	**3,08,856.83**
Financial liabilities at amortized cost				
Borrowings	2,15,370.13	1,87,676.18	2,15,370.13	1,87,676.18
Trade payables	176.15	70.10	176.15	70.10
Other financial liabilities	574.24	970.22	574.24	970.22
Total	**2,16,120.52**	**1,88,716.50**	**2,16,120.52**	**1,88,716.50**

The management assessed that cash and cash equivalents, other bank balance, trade payables, borrowings ,non-current financial Investment, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Trust has made investment in subsidiaries which are Intermediate Holdcos and Special Purpose Vehicle entities (SPV's) through equity shares, preference shares, compulsory-convertible debentures (CCD's), non-convertible debentures (NCD's) and have also provided unsecured loans to all the Holdcos including subsidiaries. The Trust is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2025/102 dated 11 July 2025 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 30 September 2025 and 31 March 2025 are as shown below

Description of significant unobservable inputs to valuation:

Rs. in million

Significant unobservable inputs	Valuation technique	Input for 30 September 2025	Input for 31 March 2025	Sensitivity of input to the fair value	Increase /(decrease) in fair value	
					30 September 2025	31 March 2025
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.16% to 7.99%	7.28% to 8.36%	+ 0.5%	(14,731.00)	(13,921.00)
				- 0.5%	16,543.00	14,909.00
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(338.28)	(1,245.78)
				- 2%	303.22	1,175.85
Inflation rate		Revenue(Esclable):5%	Revenue(Esclable):5%	+ 1%	(351.18)	(2,995.71)
		Expenses: 1.94% to 5.18%	Expenses: 1.94% to 5.18%	- 1%	350.89	2,611.87
Investment in Non convertible debentures of ERIPL (Class A)	DCF Method					
WACC		NA	8.09%	+ 0.5%	-	(140.12)
				- 0.5%	-	149.36
Tax rate (normal tax and MAT)		NA	Normal Tax - 25.168%	+ 2%	-	(20.08)
				- 2%	-	19.29
Inflation rate		NA	Expenses: 2.70%	+ 1%	-	(48.58)
				- 1%	-	42.49
Investement in non current debentures of ERIPL (Class B)	DCF Method					
WACC		10.46%	-	+ 0.5%	(10.24)	-
				- 0.5%	10.96	-
Investement in non current debentures of ERIPL (Class C)	DCF Method					
WACC		9.52%	-	+ 0.5%	(1.85)	-
				- 0.5%	1.88	-

Note 26B: Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Trust's assets and liabilities:

Rs. in million

Quantitative disclosures fair value measurement hierarchy for assets as at 30 September 2025 and 31 March 2025	**Date of valuation**	**Fair value measurement using**		
		Quoted prices in active markets (Level 1)	**Significant observable inputs (Level 2)**	**Significant unobservable inputs (Level 3)**
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	30 September 2025	-	-	3,18,309.56
	31 March 2025	-	-	2,80,870.67
Investments in mutual funds	30 September 2025	-	3,495.32	-
	31 March 2025	-	11,338.56	-
Investment in NCD	30 September 2025	-	-	324.03
	31 March 2025	-	-	1,286.43

There have been no transfers among Level 1, Level 2 and Level 3.

For estimates and judgements, refer note 25.

Note 27: Related party disclosures

Enerica Infra 1 Private Limited (ENR1) (from 20 May 2025)

(b) Other related parties under Ind AS-24 with whom transactions have taken place during the period

Entities with significant influence over the Trust

Esoteric II Pte. Ltd - Sponsor (EPL)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

INDIGRID INFRASTRUCTURE TRUST (FORMERLY KNOWN AS INDIA GRID TRUST)
Notes to Interim Condensed Standalone Financial Statements for the period ended 30 September 2025
(All amounts in Rs. million unless otherwise stated)

II. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid

Esoteric II Pte. Ltd (EPL) - Inducted Sponsor
Indigrid Limited (IGL) - Project Manager of IndiGrid (for all SPV's except for BESS Project)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid
Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Ltd is Promoter)
Enerica Infra 1 Private Limited - Project Manager of BESS Project

(b) Promoters of the parties to IndiGrid specified in (a) above

KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL
Electron IM Pte. Ltd. - Promoter of IIML (Parent with 100% holding of IIML)
KKR Asia Pacific Infrastructure Investors SCSp ("Asia Infra II Main Fund")-Luxembourg
Axis Bank Limited - Promoter of ATSL
Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Entities with common director and its subsidiaries

Enerica Regrid Infra Private Limited (ERIPL)
Enerica Infra 3 Private Limited (ENR3)

(d) Directors of the parties to IndiGrid specified in (a) above

Directors of IIML:

Harsh Shah (Managing Director)
Tarun Kataria
Ashok Sethi
Hardik Shah
Jayashree Vaidhyanthan
Ami Momaya (Till 24 July 2025)
Vaibhav Vaidya (From 24 July 2025)

Key Managerial Personnel of IIML:

Harsh Shah (Managing Director)
Navin Sharma (CFO) (till 15 May 2025)
Meghana Pandit (CFO) (from 15 May 2025)
Urmil Shah (Company Secretary)

Directors of ATSL:

Deepa Rath
Sumit Bali (from 16 January 2024)
Prashant Joshi (from 16 January 2024)
Rajesh Kumar Dahiya
Ganesh Sankaran
Arun Mehta (from 03 May 2024)
Pramod Kumar Nagpal (from 03 May 2024)

Directors of Esoteric II Pte. Ltd.:

Tang Jin Rong (Dong Jinrong)
Madhura Narawane (Till 04 April 2025)
Goh Ping Hao (Lucas Goh)

Relative of directors mentioned above:

Sonakshi Agarwal

Directors of Enerica Regrid Infra Private Limited:

Harsh Shah

Relative of sponsor mentioned above:

Terra Asia Holdings II Pte. Ltd. ("Terra")

Terms and conditions

i. Loans given to related parties
Loans given to SPVs including Holdco are for principal business activities and can be utlized as per the terms and conditions of the loan agreement. Interest is charged at arms length rate and is as per ordinary course of the business. For interest rate charged on the loan given to related parties refer note 7. For the period ended 30 September 2025, the Trust has not recorded any impairment on loans and interest due from related parties (31 March 2025: Nil).

ii. Trustee fee
Trustee fee is paid to Axis Trustee Services Limited. The amount billed for the service was agreed based on mutual negotiation between parties.

iii. Investment Management Fees
For terms and condition related to Investment Management Fees refer note 20.

iv. Transaction with Axis Bank Limited
The Trust has banking relationships with Axis Bank Limited, which is a related party. All transactions with the bank have been conducted in the ordinary course of business and at arm's length.

v. Sale and Purchase of Investment in Subsidiaries
The Trust has undertaken sale and purchase of subsidiaries with related parties during the period. These transactions were carried out at fair value and in compliance with applicable InvIT regulations.

vi. Investment in Subsidiaries and HoldCo.
The Trust has made investment in subsidiaries at a fair value in compliance with InVIT regulations. Necessary approvals were obtained as per applicable laws.

vii. Subscription of Non Convertible debentures - Enerica Regrid Infra Private Limited
For terms and condition related to subsription of NCD refer note 6.

(All amounts in Rs. million unless otherwise stated)

Note 28: Capital and other Commitments

(a) The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited. Cost of the acquisition will be finalized on the date of acquisition.

(b) The Trust has partnered with BII and Norfund to create a platform "EnerGrid" which will bid and develop greenfield Transmission and standalone Battery Energy Storage systems (BESS) projects in India. The Trust has committed to invest Rs. 8,500 Mn (approx.) in the platform.

(c) The Trust has partnered with India's renewable energy infrastructure, IFC to have partnered to develop a 180MW/360 MWh standalone battery energy storage system project in Gujarat. The project is designed to play a key role in supporting the state's clean energy goals by enhancing grid stability and ensuring reliable power is available during peak demand.

(d) The Trust has executed the binding agreements with Techno Electric & Engineering Company Limited ("Techno"), for the acquisition of NERES XVI Power Transmission Limited ("Project"), in one or more tranches, post the Project achieving Commercial Operation Date ("COD") at an enterprise value not exceeding Rs 4,600 million, subject to closing adjustments on acquisition date, in accordance with Transmission Service Agreement ("TSA") along with the lock-in restrictions therein.

(e) Trust has executed definitive agreement dated August 25, 2025 for acquisition of Battery Energy Storage System (BESS) project i.e. Setting up of 187.5 MW/750 MWh Standalone Battery Energy Storage Systems (BESS) in Uttar Pradesh with Viability Gap Funding under Tariff-Based Competitive Bidding ("the Project") post one year from achieving Commercial Operation Date ("COD") along with Special Purpose Vehicle (SPV) i.e. Enerica Infra 3 Private Limited from Enerica ReGrid Infra Private Limited (EnerGrid) in one or more tranches in line with the terms of the definitive agreements and Battery Energy Storage Purchase Agreement ("BESPA") and subject to compliance with InvIT Regulations.

Note 29: Contingent liability

The Trust has no contingent liabilities to be reported (31 March 2025: Nil).

Note 30: Segment reporting

The disclosures under Ind AS 108 - Operating Segments have been included in the Consolidated Financial Statements and accordingly, not included in these financial statements.

Revenue from operations consists of interest income amounting to Rs. 5,056.02 million (31 March 2025: Rs. 5,221.48 million) which accounts for more than 10% from a single subsidiary.

Geographic information
Non-current operating assets:

Particulars	30 September 2025	31 March 2025
India	48.27	52.56
Outside India	-	-
Total	**48.27**	**52.56**

Non-current assets for this purpose consist of property, plant and equipment and intangible assets.

The below table discloses a breakup of the investments across all sub-sectors i.e. Power Transmission, Power Generation, Power Storage and Unallocable showing investments in fair value and book value for each sub-sector together with the percentage thereof in relation to the total investment.

Sub Sector Investments (Fair Value*)

Particulars	As at 30 September 2025		As at 31 March 2025	
	In Percentage	**In Amount***	**In Percentage**	**In Amount***
Power Transmission	74.95%	2,49,516.57	82.11%	2,39,625.31
Power Generation	23.33%	77,651.31	18.02%	52,576.76
Power Storage	1.62%	5,402.11	0.16%	455.64
Unallocable#	0.10%	336.92	(0.29%)	(835.40)
Total	**100%**	**3,32,906.91**	**100%**	**2,91,822.31**

* The amount in the above table represents the fair values of subsidiaries/SPVs calculated based on their independent fair valuation done by experts appointed by the Trust in accordance with SEBI regulations.
# Unallocable pertains to fair values associated to intermediate holding companies (HoldCos) namely IGL, IGL1 and IGL2.

Sub Sector Investments (Book Value)**

Particulars	As at 30 September 2025		As at 31 March 2025	
	In Percentage	**In Amount**	**In Percentage**	**In Amount**
Power Transmission	63.24%	1,93,959.32	69.59%	1,86,903.76
Power Generation	18.74%	57,483.94	12.51%	33,608.36
Power Storage	1.73%	5,303.33	0.18%	490.00
Unallocable##	16.28%	49,944.67	17.72%	47,583.41
Total	**100%**	**3,06,691.25**	**100%**	**2,68,585.53**

**Book value is computed excluding the provision for impairment.
Unallocable pertains to book values associated to investments in HoldCos. These HoldCos have further invested in various SPVs operating in transmission, solar and battery sectors. The book values of these intermediate investments have not been further disaggregated by sub-sector.

Note 32: Subsequent event

(i) On November 11, 2025, the Trust has issued 2,59,82,092 Units on preferential basis to the eligible allottees for cash at a price of Rs. 168.77 per unit aggregating to Rs. 4385 millions in accordance with InvIT regulations.

(ii) On November 11, 2025, the Board of Directors of the Investment Manager approved a distribution of Rs. 4.00 per unit (out of which Rs 0.7465 per unit pertains towards capital repayment) for the period 01 July 2025 to 30 September 2025 to be paid within 5 working days from the record date.

(All amounts in Rs. million unless otherwise stated)

Note 33: Ratio Analysis and its Elements

Ratio	Numerator	Denominator	30 September 2025	30 September 2024	% change	Reason for variance
Current ratio	Current Assets	Current Liabilities	1.11	0.63	77%	On account of increase in current assets due to increase in investment in unquoted mutual funds and bank deposits with remaining maturity of less than 12 months
Debt- Equity Ratio	Total Debt	Shareholder's Equity	2.45	2.23	10%	NA*
Debt Service Coverage ratio	Earnings for debt service = Net profit after taxes + Non-cash operating expenses + Interest Cost	Debt service = Interest & Lease Payments + Principal Repayments	0.43	0.49	-13%	NA*
Return on Equity ratio	Net Profits after taxes	Average Shareholder's Equity	8.06%	9.39%	-14%	NA*
Net Capital Turnover Ratio	Net sales = Total sales - sales return	Working capital = Current assets – Current liabilities	6.94	(2.04)	440%	On account of increase in current assets due to increase in investment in unquoted mutual funds and bank deposits with remaining maturity of less than 12 months
Net Profit ratio	Net Profit after Tax	Net sales = Total sales - sales return	48.1%	55.7%	-14%	NA*
Return on Capital Employed	Earnings before interest and taxes	Capital Employed = Tangible Net Worth + Total Debt + Deferred Tax Liability	4.8%	5.5%	-13%	NA*
Return on Investment	Interest (Finance Income)	Investment	2.99%	5.89%	-49%	On account of decrease in return on mutual fund

* As per Schedule III, reason for variance are provided only for those ratios where % Change is more than 25%.

The ratios have been computed based on the Balance Sheet as at September 30, 2024, which does not form part of these condensed financial statements.

Note 34: Other Information

(i) The Trust does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(ii) The Trust does not have any transactions with Companies struck off
(iii) The Trust have not traded or invested in cryptocurrency or Virtual Currency during the period.
(iv) During the year, the Trust has advanced/loaned funds to certain entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that such Intermediaries shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Trust ("Ultimate Beneficiaries"), the details of which are as below:

Name of Intermediary	Relationship with the Trust	Nature and purpose of Transaction	Date of Loan infusion	Amount Advanced/Loaned (Rs.)	Date of investment by Intermediary	Amount invested (Rs.)
Indigrid 2 Private Limited (IGL2)	Subsidiary	Loan infused for acquisition of RSAPL and KNTL	27 June 2025	57,45,00,000.00	27 June 2025	57,45,00,000.00
Indigrid 2 Private Limited (IGL2)	Subsidiary	Loan infused for acquisition of JUPL	25 August 2025	1,28,64,31,580.00	25 August 2025	1,28,64,31,580.00

The relevant provision of the Companies Act has been complied with for such transaction and the transactions are not violative of the Prevention of Money-Laundering Act, 2002.

(v) The Trust has not received any fund from any persons or entities, including foreign entities (funding party) with the understanding (whether recorded in writing or otherwise) that the Trust shall:
(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or
(b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries
(vi) The Trust does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.
(vii) The Trust has not been declared as a wilful defaulter by any bank or financial institution or other lender.
(viii) There is no charge or satisfaction of charge which is yet to be registed with ROC beyond statutory period.

INDEPENDENT AUDITOR'S REPORT
To the Unit Holders of IndiGrid Infrastructure Trust (formerly known as India Grid Trust)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of IndiGrid Infrastructure Trust (formerly known as India Grid Trust) (hereinafter referred to as "the InvIT"), and its subsidiaries (referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2025, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Unit Holders' Equity for the year then ended, the consolidated Statement of Net Assets at Fair Value as at March 31, 2025, the consolidated Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCF') of the InvIT, and each of its Subsidiaries for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 , as amended including any guidelines and circulars issued thereunder (together referred as the "InvIT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) including InvIT Regulations, of the consolidated state of affairs of the Group, as at March 31, 2025, its consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in unit holder's funds for the year ended March 31, 2025, its consolidated net assets at fair value as at March 31, 2025, its consolidated total returns at fair value and the net distributable cash flows of the InvIT and each of its subsidiaries for the year ended March 31, 2025.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis Of Matter

We draw attention to Note 15(e) of the Consolidated Financial Statement which describes the presentation / classification of "Unit Capital" as "Equity" instead of the applicable requirements of Ind AS 32 - Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td colspan="2"><u>Non applicability of Appendix D 'Service Concession Arrangements' of Ind AS 115 'Revenue from contracts with customers'</u>
(as described in Note 33 of the consolidated financial statements)</td></tr>
<tr><td>The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 / 35 years in case of Transmission Assets. It also operates as a Solar Power Developer in case of Solar Assets and is engaged in storage and delivery of electricity through its Battery Energy Storage Systems (BESS). Generally, the subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff-based bidding process to Build, Own, Operate and Maintain ("BOOM") / Build, Own and Operate ("BOO") the transmission infrastructure for a period of 25 / 35 years or have entered into Power Purchase Agreements ("PPA") with various National or Regional Intermediaries which are designated by the Government, for development of solar power project, generation and sale of solar power with a contractual period of 25 years at a fixed tariff or have entered into Battery Energy Storage Purchase Agreement (BESPA) with National or Regional Intermediaries which are designated by the Government to Build, Own and Operate ("BOO") BESS with a contractual period of 12 years at a fixed tariff.

The Management of Investment Manager ("the management") is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee or</td><td>Our audit procedures included, among others, the following:
We obtained and read the TSAs / Tariff orders / PPAs / BESPAs to understand roles and responsibilities of the grantor.
We read and evaluated the TSAs / Tariff orders / PPAs / BESPAs to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise.
We discussed with the management regarding the extent of grantor's involvement in the transmission / solar / battery assets and grantor's intention not to control the significant residual interest through ownership, beneficial entitlement or otherwise.
We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.</td></tr>
</table>

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td>solar power developer or BESS Operator to obtain various approvals under the regulatory framework to conduct its operations both during the period of the TSA / PPA / BESPA as well as at the end of the license period or expiry date of PPA / BESPA. In the view of management, generally the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission / solar infrastructure / battery projects at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D is not applicable to the Group for all solar assets, transmission and battery assets operating under BOOM / BOO model.

Considering the judgement involved in determining the grantor's involvement and whether the grantor controls, through ownership, beneficial entitlement or otherwise, and any significant residual interest in the transmission / solar infrastructure / battery projects at the end of the term of the arrangement, this is considered as a key audit matter.</td><td></td></tr>
<tr><td colspan="2"><u>Key judgements and estimates used in the application of Appendix D 'Service Concession Arrangements' of Ind AS 115 'Revenue from contracts with customers' in subsidiary of the InVIT, which performs on Design, Build, Finance, Operate and Transfer (DBFOT) / Build Own Operate and Transfer ("BOOT") basis</u>
(as described in Note 33 of the consolidated financial statements)</td></tr>
<tr><td>Subsidiaries identified in Note 33 acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 / 35 years issued by relevant Regulatory Authority has entered into TSA through a tariff-based bidding process to DBFOT / BOOT the transmission infrastructure for a period of 25 / 35 years.

The identified BESS subsidiaries also operate for the storage and delivery of electricity under Battery Energy Storage System Agreement (BESSA) for a tenure of 12 years. These contracts are awarded at a fixed tariff on BOOT basis by national or regional intermediaries designated by the Government.

The Group constructs Transmission infrastructure / Battery systems and operates and maintains such infrastructure / systems for a specified period of time. The infrastructure / systems constructed by the Group is not recorded as property, plant and equipment of the Group because the TSA / BESSA does not transfer to the concessionaire the right to control the use of public services infrastructure / systems after the end of the Contract. The group only</td><td>Our audit procedures included, among others, the following:

• We evaluated terms of the TSA / BESSA to understand roles and responsibilities of the grantor.

• We performed test check on the base data and supporting documents for basis of key assumptions and estimates used by the management.

• We read and evaluated the TSA / BESSA to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise.

• We evaluated the management's assessment process for applicability of Appendix D of Ind AS 115 for transmission projects / battery systems based on the terms of the agreement and</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
has the right to operate the infrastructure/systems for the provision of public services on behalf of the grantor, as provided in the contract. And accordingly, under the terms of the TSA / BESSA, the Group only acts as a service provider. Hence this arrangement is accounted for under Appendix D – 'Service Concession Arrangements' to Ind AS 115 – 'Revenue from contracts with customer'. The Group has classified the concession arrangements under financial asset model since the operator has an unconditional contractual right to receive cash or other financial assets from or at the direction of the grantor for the services. Accordingly, the above matter was determined to be a key audit matter in our audit of the consolidated financial statements.	tested the judgements / estimates relating to future cash flows over the concession period, and discounting rate used to discount expected cash flows for the purpose of recording service concession receivables. • We tested the arithmetical accuracy of the service concession models. • We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.
<u>Impairment of Property, plant and equipment, Service concession receivables and Goodwill</u> *(as described in Note 3,5, 8 and 33 of the consolidated financial statements)*	
The Group owns and operates various power transmission assets, solar generation assets and battery systems. The carrying value of the power transmission assets, solar generation assets and battery systems as at March 31, 2025 are included under property, plant and equipment and service concession receivables. In accordance with Ind AS 36 and Ind AS 109, at each reporting period end, management assesses the existence of impairment indicators of property, plant and equipment and service concession receivables. In case of existence of impairment indicators, property, plant and equipment and service concession receivables balances are subjected to impairment test. Further, goodwill recognized in a business combination is to be allocated to the acquirer's cash-generating units ("CGU's") expected to benefit from the synergies of the combination and should be tested for impairment annually. The processes and methodologies for assessing and determining the fair value for the purpose of impairment testing is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's TSA / PPA / BESPA / BESSA, debt	Our audit procedures included, among others, the following: • We obtained an understanding of the Group's process on assessment of impairment of property, plant and equipment, service concession receivables and goodwill, the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report of the Group's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in impairment testing and to test the assumptions. • We performed test check that the tariff revenues considered in the respective valuation models are in agreement with TSAs / Tariff orders / PPAs / BESPAs / BESSAs.

<table>

• We tested completeness, arithmetical accuracy and validity of the data used in the calculations.

• We have read and assessed the disclosures included in the notes to the consolidated financial statements.</td></tr>
<tr><td colspan="2">Assessment of control over subsidiary
(as described in Note 33 of the consolidated financial statements)</td></tr>
<tr><td>The Group has entered into a definitive Share Purchase Agreement (SPA) with the selling shareholders for the acquisition of 100% ownership in the entities outlined in Note 33 of the financial statements. However, due to certain contractual limitations present in the TSA established between the regulatory authority and the entities, the complete transfer of share capital to the Group is not effected at the time of executing the SPA.

Based on the contractual terms in the SPA with selling shareholders, the Group has following rights:
• Right to receive all distributions and dividends declared, paid or made, such that Group shall receive full legal and beneficial ownership and all rights thereto;

• Right to nominate majority of directors on the Board of directors;

• Right to direct the Selling shareholders to vote according to its instructions in the AGM / EGM or any other meeting of shareholders;

• The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Considering the requirements under Ind AS 110, the Group has assessed whether it controls the entities based on the above rights under the Agreement. Accordingly, the Group has consolidated the entities identified in Note 33 to the financial statement as a 100% subsidiary from the date of acquisition.</td><td>Our audit procedures included, among others, the following:
• We obtained and read the SPA with the selling shareholder for acquisition of equity stake.

• We obtained understanding of management’s assessment of whether the Group controls the said entity acquired.

• We read and understood the Group’s accounting policy for consolidation.

• We discussed with management the contractual terms and rights available to the Group pursuant to the agreement.

• We read and evaluated the requirements for consolidation of entity under Ind AS 110.

• We read and assessed the disclosures included in the consolidated financial statements.</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
Considering the judgment required in assessing whether the Group controls these subsidiaries where control exist is considered as a key audit matter.	
<u>Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations</u> *(as described in Note 33 of the consolidated financial statements)*	
The Group is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been carried out by the independent valuer appointed by the Group. For the purpose of the above, fair value is determined by forecasting and discounting future cash flows. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's TSAs / PPAs / BESPAs / BESSAs, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	Our audit procedures included, among others the following: • We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value. • We discussed with the management and obtained an understanding of the Group's policy on the assessment of fair value and the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained understating of the Group's process for preparation of statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation reports of the Group's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We evaluated Group's independent valuation expert's methodology, assumptions and estimates used in the calculations. • We have engaged our valuation specialists as well to evaluate the appropriateness of valuation methodology applied in calculation of fair value of assets including the assumption used in valuation.

Key audit matters	How our audit addressed the key audit matter
	• We performed test check that the tariff revenues considered in the respective valuation models are in agreement with TSAs / Tariff orders / PPAs / BESPAs / BESSAs. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • We read and assessed the disclosures included in the notes to the consolidated financial statements.

Other Information

The Management of IndiGrid Investment Managers Limited (the “Investment Manager”) is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor’s report thereon. The Annual report is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance.

Responsibilities of Management for the Consolidated Financial Statements

The Investment Manager is responsible for the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and the consolidated movement of the unit holder’s funds for the year ended March 31, 2025, consolidated net assets at fair value as at March 31, 2025, the consolidated total returns at fair value of the InvIT and the net distributable cash flows of the InvIT and each of its subsidiaries in accordance with the requirements of InvIT Regulations; the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, (as amended) and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal controls, that were operating effectively, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Investment Manager, as aforesaid.

In preparing the consolidated financial statements, the Investment Manager and the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Investment Manager either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Investment Manager and Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

We communicate with those charged with governance of the InvIT and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries we report, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Consolidated Balance Sheet and the Consolidated Statement of Profit and Loss are in agreement with the books of account;

(c) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

Disclosures Pursuant To SEBI Circulars
(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024)

A. STATEMENT OF NET ASSETS AT FAIR VALUE AS AT

(Rs. in million)

Particulars	31 March 2025		31 March 2024	
	Book value	Fair value	Book value	Fair value
A. Assets	264,269.10	333,565.19	257,571.46	309,533.93
B. Liabilities (at book value)	211,682.23	211,682.23	203,728.93	203,728.93
C. Net Assets (A-B)	52,586.87	121,882.96	53,842.53	105,805.00
D. Non-Controlling Interest	955.97	1,614.17	937.73	1,461.84
E. Net assets attributable to Indigrid (C-D)	51,630.90	120,268.79	52,904.80	104,343.16
F. Number of units	834.56	834.56	783.67	783.67
E. NAV (E/F)	61.87	144.11	67.51	133.15

Fair values of subsidiaries/SPVs are calculated based on their independent fair value done by experts appointed by the Group. The fair value of all these revenue-generating assets is determined using Discounted Cash Flow (DCF) method. The Group holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74%, TSESPL in which it holds 66%, KBPL in which it holds 95% and RSUPL in which it holds 74% and balance is accounted for as non-controlling interest in the financial statements.

Project wise breakup of fair value of assets as at 31 March 2025 and 31 March 2024 **(Rs. in million)**

Total assets	**333,565.19**	**309,533.93**

1. In the previous year, the Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution.

Refer note 48 for further details.

1A. Further during the previous year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid (refer note 5), in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of investment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TSESPL from GSPPL, TSEPPL from GSPPL, and TSETPL from TSECPL, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

2. The Group has incorporated Kilokari BESS Private Limited with effect from 06 November 2023.

3. The Group has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024.

4. During the previos year, the Trust acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 (“SPA”). The Trust has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.

Further as part of internal restructuring, the Trust has transferred 49% holding of RSUPL to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. As a result of this internal restructring, the Trust has the beneficial owner for remaining 51% shares of RSUPL.

Further, during the March 2025 quarter, the Trust has invested in the NCD’s of Enerica Regrid Infra Private Limited (ERIPL) and have also entered into an interse agreement to transfer 26% of equity shares of RSUPL to ERIPL, in order to enable ERIPL to utilise credentials of RSUPL for bidding for new projects. In accordance with the terms of the interse agreement, terms of the NCD’s subscribed by the Trust and as per Ind AS 115, the Trust has concluded that it owns 100% of beneficial and economical interest in RSUPL.

5. IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025 and as a result the same are indirectly held by Trust.

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	31 March 2025	31 March 2024
Total comprehensive income (as per the statement of profit and loss)	3,914.93	2,938.77
Add/ (Less): other changes in fair value not recognized in total comprehensive income	17,333.62	9,380.51
Total Return	**21,248.55**	**12,319.28**

Notes:

1. Fair value of assets as at 31 March 2025 and as at 31 March 2024 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 34.

ADDITIONAL DISCLOSURES AS REQUIRED BY PARAGRAPH 6 OF CHAPTER 4 TO THE MASTER CIRCULAR NO. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 AS AMENDED INCLUDING ANY GUIDELINES AND CIRCULARS ISSUED THEREUNDER ("SEBI CIRCULARS")

Statement of Net Distributable Cash Flows (NDCFs) of Indigrid Infrastructure Trust (Formerly known as India Grid Trust)

Description	Year ended 31-Mar-25 Audited
Cash flow from operating activities as per Cash Flow Statement	(700.37)
(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework **(refer note 2)**	24,692.76
(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments.)	416.78
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations	
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to re invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust	(13,941.29)
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or funds raised through issuance of units)	
(-) Any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or **(refer note 3)**	(694.55)
(-) Any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years	(7.98)
NDCF (refer note 4)	**9,765.35**

Notes:

1. In accordance with the SEBI circular no SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, the framework for computation of Net Distributable cash flows ("NDCF") is revised at Trust level for the year ended 31 March 2025. Accordingly, NDCF for these periods has been calculated and presented in accordance with the new framework. NDCF for the periods for on or before 31 March 2024, has been calculated and presented as per the earlier framework and has been disclosed / reproduced in **Annexure I to the consolidated financial statement** .

2. This includes Rs. 185.99 million received from SPV after the 31 March 2025 but before the board meeting date i.e. 15 May 2025.

3. This represents reserve actually created during the period.

4. As per the master circular SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, details of NDCF distributable is as below -

Description	Year ended
	31-Mar-25
	Audited
NDCF of Trust (A)	9,765.35
(+) NDCF of Holdco & SPV's (B)	28,927.92
(-) Amount distributed by Holdco & SPV's (C)	(24,692.76)
Amount Of NDCF Distributable D=(A+B-C)	**14,000.51**

In accordance with the SEBI circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, 90% distribution under regulation 18(6) needs to be computed by taking together the 10% retention done at SPV level and Trust level. Accordingly, the Trust has ensured the same.

Further, Trust along with its SPVs has ensured that the minimum 90% distribution of NDCF is met on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations.

Statement of Net Distributable Cash Flows (NDCFs) of underlying Holdcos and SPVs

In accordance with the SEBI circular no SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 , the framework for computation of Net Distributable cash flows ("NDCF") is revised at intermediate Holdco and SPV level for the year ended 31 March 2025. Accordingly, NDCF for these periods has been calculated and presented in accordance with the new framework. NDCF for the periods for on or before 31 March 2024, has been calculated and presented as per the earlier framework and has been disclosed / reproduced in **Annexure I to the consolidated financial statements** .

Indigrid Infrastructure Trust (formerly known as India Grid Trust)
Notes to Consolidated Financial Statements for the year ended 31 March 2025

1. Group information

The Consolidated financial statements comprise financial statements of Indigrid Infrastructure Trust ("the Trust" or "IndiGrid" or "Parent") and its subsidiaries (collectively, the Group) for the year ended March 31, 2025. IndiGrid is an irrevocable trust settled by Sterlite Power Transmission Limited (Erstwhile sponsor) on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/ renewable energy assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at 31 March, 2025, IndiGrid has special purpose vehicles ("SPVs") which are transmission infrastructure projects operates either on Build, Own, Operate and Maintain ('BOOM') or Build, Own and Operate (BOO) or Design, Build, Finance, Operate and Transfer ('DBFOT') or on Build, Own, Operate and Transfer ("BOOT"). IndiGrid also has project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain ('BOOM') basis. In addition, IndiGrid also has project entities which are involved in the storage and delivery of electricity through its Battery Energy Storage Systems (BESS).

Nature of Trust's subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Underlying holding company ("HoldCo")
2	IndiGrid 1 Limited	IGL1	NA	Underlying holding company ("HoldCo")
3	IndiGrid 2 Limited	IGL2	NA	Underlying holding company ("HoldCo")
4	Bhopal Dhule Transmission Company Limited	BDTCL	BOOM	Transmission asset
5	Jabalpur Transmission Company Limited	JTCL	BOOM	Transmission asset
6	RAPP Transmission Company Limited	RTCL	BOOM	Transmission asset
7	Purulia & Kharagpur Transmission Company Limited	PKTCL	BOOM	Transmission asset
8	Maheshwaram Transmission Limited	MTL	BOOM	Transmission asset
9	Patran Transmission Company Limited	PTCL	BOOM	Transmission asset
10	NRSS XXIX Transmission Limited	NRSS	BOOM	Transmission asset
11	Odisha Generation Phase-II Transmission Limited	OGPTL	BOOM	Transmission asset
12	East-North Interconnection Company Limited	ENICL	BOOM	Transmission asset
13	Gurgaon-Palwal Transmission Limited	GPTL	BOOM	Transmission asset
14	Parbati Koldam Transmission Company Limited	PrKTCL	BOOM	Transmission asset
15	NER II Transmission Limited	NER II	BOOM	Transmission asset
16	Kallam Transmission Limited	KTL	BOOM	Transmission asset
17	Raichur Solapur Transmission Company Private Limited	RSTCPL	BOOM	Transmission asset
18	Khargone Transmission Limited	KhTL	BOOM	Transmission asset
19	Jhajjar KT Transco Private Limited	JKTPL	DBFOT	Transmission asset

20	Dhule Power Transmission Limited	DPTL	BOOT	Transmission asset
21	Isha Nagar Power Transmission Limited	IPTL	BOOT	Transmission asset
22	IndiGrid Solar – I (AP) Private Limited	ISPL1	BOOM	Solar asset
23	IndiGrid Solar – II (AP) Private Limited	ISPL2	BOOM	Solar asset
24	TN Solar Power Energy Private Limited	TSPEPL	BOOM	Solar asset
25	Universal Mine Developers and Service Providers Private Limited	UMDSPPL	BOOM	Solar asset
26	Terralight Kanji Solar Private Limited	TKSPL	BOOM	Solar asset
27	Terralight Rajapalayam Solar Private Limited	TRSPL	BOOM	Solar asset
28	Solar Edge Power and Energy Private Limited	SEPEPL	BOOM	Solar asset
29	PLG Photovoltaic Private Limited	PPPL	BOOM	Solar asset
30	Universal Saur Urja Private Limited	USUPL	BOOM	Solar asset
31	Terralight Solar Energy Tinwari Private Limited	TSETPL	BOOM	Solar asset
32	Terralight Solar Energy Charanka Private Limited	TSECPL	BOOM	Solar asset
33	Terralight Solar Energy Nangla Private Limited	TSENPL	BOOM	Solar asset
34	Terralight Solar Energy Patlasi Private Limited	TSEPPL	BOOM	Solar asset
35	Globus Steel and Power Private Limited	GSPPL	BOOM	Solar asset
36	Terralight Solar Energy Gadna Private Limited	TSEGPV	BOOM	Solar asset
37	Godawari Green Energy Private Limited	GGEPL	BOOM	Solar asset
38	Terralight Solar Energy SitamauSS Private Limited	TSESPL	BOOM	Solar asset
39	Renew Solar Urja Private Limited	RSUPL	BOOM	Solar asset
40	Kilokari BESS Private Limited	KBPL	BOOT	Battery energy storage systems
41	Kallam Transco Limited	KTCO	BOOT	Transmission asset
42	Gujarat BESS Private Limited	GBPL	BOOM	Battery energy storage systems
43	Rajasthan BESS Private Limited	RBPL	BOOM	Battery energy storage systems
44	Ratle Kiru Power Transmission Limited	KRPTL	BOOT	Transmission asset

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra- 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 24 May 2025.

2. Material Accounting Policies

2.1 Basis of preparation

The Consolidated financial statements comprise of the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Unit Holders' Equity for the year then ended, the Consolidated Statement of Net Assets at fair value as at March 31, 2025 and the Consolidated Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') of the Trust, the underlying holding company ("HoldCo") and each of its subsidiaries for the year then ended and a summary of material accounting policies and other explanatory notes prepared in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended), read with Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended including any guidelines and circulars issued thereunder (the "InvIT Regulations").

The consolidated financial statements have been prepared on accrual basis and under the historical cost convention except certain financial assets and liabilities measured at amortized cost and fair value (Refer Note no. 2.3 (o) for accounting policy regarding financial instruments).

The Group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

These financial statements for the year ended March 31, 2025 have been prepared in accordance with Ind AS, except presentation/ classification of unit capital which is made in accordance with the InvIT Regulations as more fully described in Note 15(e) to the financial statements.

The Consolidated financial statements are presented in Indian Rupees Millions, except when otherwise indicated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Trust and its subsidiaries as at March 31, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent, i.e., year ended on 31 March.

Consolidation procedure:

(a). Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

(b). Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(c). Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 *Income Taxes* applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the unit holders of the Trust and to the non-controlling interests (if any), even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the equity attributable to shareholders of the Company. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis.

2.3 Summary of material accounting policies

The following is the summary of material accounting policies applied by the Group in preparing its consolidated financial statements:

a) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received, with the exception of the costs of issuing debt or equity securities that are recognised in accordance with Ind AS 32 and Ind AS 109.

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts of the Company's financial statements. No adjustments are made to reflect fair values or recognise any new assets or liabilities. The components of equity of the acquired companies are added to the same components within the Company's equity.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs. Generally, when a group of infrastructure (transmission/ solar or renewable) SPVs with varied risks and returns are acquired and the Group is unable to meet the optional concentration test as per Ind AS 103, the Group concludes that the acquisition is a business combination.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

► Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

► Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.

► When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

When the acquisition of an asset or group of assets does not constitute a business, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the individual identified assets and liabilities acquired based upon their relative fair values and no goodwill or deferred tax is recognised.

When the Group acquires operational transmission and Solar Project SPVs, the purchase consideration primarily pertains to the fair value of the transmission and Solar assets and the Group meets the conditions of optional concentration test, the Group generally concludes that the acquisition is not a business and the same is accounted for as an acquisition of group of assets and liabilities . Such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements (TSAs) for 35/ 25 years and fixed tariff rate per unit under power purchase agreement ('PPA') for 25 years. The only key activity for these SPVs is the maintenance of the transmission assets and project assets which is outsourced to third parties and partially done in house. There are few employees in these entities and no other significant processes are performed for earning tariff revenues. Based on evaluation of the above fact pattern vis-a-vis the guidance on definition of business under Ind AS and also keeping in view the relevant guidance on similar fact pattern available under accounting standards applicable in other jurisdictions, the management has classified the acquisition of such transmission/ solar SPVs as asset acquisitions.

b) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group has identified twelve months as its operating cycle.

c) Foreign currencies

The Group's consolidated financial statements are presented in INR, which is its functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group does not have any foreign operation.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

d) Fair value measurement

The Group measures financial instruments such as mutual funds at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

In estimating the fair value of transmission assets/projects, the Group engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be re-measured or reassessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement and hierarchy (Note 34 & 35)
- Disclosures for valuation methods, significant estimates and assumptions (Note 34 & 35)
- Financial instruments (including those carried at amortised cost) (Note 34 & 35)

e) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer.

Power transmission services

Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs for periods of 35/25 years. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs. The Group's performance obligation under the TSAs is to provide power transmission services. The performance obligation is satisfied over time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. Accordingly, the revenue from power transmission services is recognised over time based on the transmission asset availabilities and the tariff charges approved under the respective CERC tariff orders and includes unbilled revenues accrued up to the end of the accounting period. The payment is generally due within 60 days upon receipt of monthly invoice by the customer.

Solar Business – Electricity generation

Revenue from contracts with customers comprises of revenue arrangement is based on long term PPA with its customers which includes SECI and other DISCOMs. As per the PPA, the Group's performance obligation is to supply solar power at a rate specified in the PPA. Revenue is recognised over time for each period based on the volume of solar power supplied to the Customer as per the terms stated in the PPA at the metering point of the Customer. Estimates used in the revenue recognition as mentioned above are re-assessed periodically and are adjusted if required.

Battery Energy Storage System

Revenue from Battery Energy Storage Systems is recognized in accordance with Ind AS 115 Revenue from Contracts with Customers. Under the terms of such arrangements, the SPV is entitled to receive fixed monthly annuity payments over a specified contract period. These payments cover consideration for construction, financing, and operation and maintenance services. The SPV is obligated to ensure a minimum annual dispatchable energy, with any shortfall resulting in reduced availability and corresponding deductions.

Regulatory Assets and revenue:

The group determines revenue gap for the period (i.e shortfall in actual returns over assured returns) based on the principles laid down under the CERC regulations and tariff orders issued by CERC. In respect of such revenue gaps, appropriate adjustments, have been made for the respective periods on a conservative basis in accordance with accounting policies and the requirement of Ind AS 114, "regulatory deferral accounts" read with guidance note on Accounting for rate regulated activities issued by Institute of Chartered Accountants of India. ("ICAI").

Service Concession Arrangements:

Appendix D "Service concession arrangements" of IND AS 115 applies to service concession arrangements, which can be defined as contracts under which the grantor transfers to a concession holder the right to deliver public services that give access to main public facilities for a specified period of time in return of managing the infrastructure used to deliver those public services.

More specifically, it applies to public to private service concession arrangements if the grantor:

- Controls or regulates what services the operators must provide with the infrastructure, to whom it must provide them, and at what price; and
- Controls through ownership or otherwise any significant residual interest in the infrastructure at the end of the term of the arrangement.

The SPVs operating on BOOT/DBFOT model have the right to receive fixed annuity payments from the grantor during the concession period and have adopted the 'Financial Asset Model'.

Accounting under the "Financial Asset Model" involves extensive use of estimates. The Group has allocated the contract revenues into distinct individual performance obligations i.e. construction, operation, and maintenance based on their relative stand-alone selling prices, which are derived as per amounts estimated by the management of the subsidiary on actual/estimated cost to be incurred.

Accordingly, annuity payment receivable has been classified as a "Financial asset" at the inception of the concession period at fair value. The future annuity payments have been bifurcated towards construction services and unearned finance income based on the effective interest rate model.

Change in Law

Revenue for change In Law is accounted when legal claims are approved and there is certainty for its realization.

Contract balances

Trade Receivables

A receivable is recognized if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (o) Financial instruments – initial recognition and subsequent measurement.

f) Interest income/Dividend income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Income from dividend on investments is accrued in the year in which it is declared, whereby the Group's right of payment has been established.

g) Taxation

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary

differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales/value added/goods and service taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/value added/goods and service taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

h) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Refer to significant accounting judgements, estimates and assumptions (Note 33) and provisions (Note 21) for further information about the recorded decommissioning provision.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the construction costs to the extent the expenditure can be attributable to construction activity or is incidental there to.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life (Schedule II#)
Leasehold land	Lease Period*	30
Buildings (substation)	22-25	30

Asset Category	Useful Life considered	Useful life (Schedule II#)
Substations	25-35	40
Transmission lines	25-35	40
Plant and machinery	2-5	15
Solar Power Plants	25	40
Data Processing Equipments	3-5	3-6
Furniture and Fittings	5-7.5	10
Office equipment's	4-5	3
Vehicles	8	8
Roads	10	10

Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies.
*Leasehold improvements are depreciated over the useful life of the asset or the lease period, whichever is lower

The Group, based on technical assessments made by technical experts and management estimates, depreciates buildings (substation), solar panel and certain items of plant and equipment, data processing equipment, furniture and fittings, office equipment and vehicles over estimated useful lives which are different from the useful lives prescribed in Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment and any significant part Initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

i) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years. Customer contracts are amortized on straight line basis over the life of the respective project/ contract.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

The amortisation period and the amortisation method are reviewed at least at each period end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

k) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Office Premises 5-9 years
- Land 25-99 years

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (l) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option).

The Group applies the low-value asset recognition exemption on a lease-by-lease basis, if the lease qualifies as leases of low-value assets, with a value when new of up to Rs. 0.10 million. In making this assessment, the Group also factors below key aspects:

- The assessment is conducted on an absolute basis and is independent of the size, nature, or circumstances of the lessee.
- The assessment is based on the value of the asset when new, regardless of the asset's age at the time of the lease.
- The lessee can benefit from the use of the underlying asset either independently or in combination with other readily available resources, and the asset is not highly dependent on or interrelated with other assets.

If the asset is subleased or expected to be subleased, the head lease does not qualify as a lease of a low-value asset.

Based on the above criteria, the Group has classified leases of office equipment as leases of low value assets.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

l) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations, including impairment on inventories are recognised in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than it's carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill will not reversed in future periods.

m) Inventories

Inventories are valued at the lower of cost and net realisable value.

Cost of stores and spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

n) Provisions and Contingent Liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

Contingent liability is-

(a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or

(b) a present obligation that arises from past events but is not recognized because

-it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or

-the amount of the obligation cannot be measured with sufficient reliability.

The Group does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.
The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (d) Revenue from contracts with customers.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the statement of profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method. The Group does not have any financial assets which are subsequently measured at FVTOCI.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

For trade receivables, considering the nature of business, the Group does not foresee any credit risk on its trade which may cause an impairment. Also, the Group does not have any history of impairment of trade.

For recognition of impairment loss on other financial assets and risk exposure, the group determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly 12-month Expected Credit Loss (ECL) is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 -month ECL.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Financial liabilities at amortised cost (Loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised Classification	Accounting Treatment
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to statement of profit or loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p) Service Concession Arrangements (SCA)

Service Concession Arrangements (SCA) refers to an arrangement between the grantor (a public sector entity) and the operator (a private sector entity) to provide services that give the public access to major economic and social facilities utilising private sector funds and expertise.

With respect to SCA, revenue and costs are allocated between those relating to construction services and those relating to operation and maintenance services, and accounted for separately. The infrastructure used in a concession are classified as an intangible asset or a financial asset, depending on the nature of the payment entitlements under the SCA. When the Company has an unconditional right to receive cash or another financial asset from or at the direction of the grantor, such right is recognised as a financial asset and is subsequently measured at amortised cost. When the demand risk is with the Group and it has right to charge the user for use of facility, the right is recognised as an intangible asset and is subsequently measured at cost less accumulated amortisation and impairment losses. The intangible assets are amortised over a period of service concession arrangements.

SCA for the Group are in nature of financial assets considering an unconditional right to receive cash or another financial asset from or at the direction of the grantor

q) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, , the hedged item, the nature of the risk being hedged, and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is 'an economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

(i) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the Effective portion of cash flow hedges, while any ineffective portion is recognised immediately in the statement of profit and loss. The Effective portion of cash flow hedges is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The Group uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments.

The amounts accumulated in OCI are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognised in OCI for the period. This also applies where the hedged forecast transaction of a non-financial asset or non-financial liability subsequently becomes a firm commitment for which fair value hedge accounting is applied.

For any other cash flow hedges, the amount accumulated in OCI is reclassified to profit or loss as reclassification adjustment in the same period or periods during which the hedged cash flows affect profit or loss.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in OCI must remain in accumulated OCI if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to profit or loss as a reclassification adjustment. After discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated OCI must be accounted for depending on the nature of the underlying transaction as described above.

r) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group's cash management.

s) Cash distribution to unit holders

The Group recognises a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders' equity.

t) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

u) Operating segments

An operating segment is a component of the Group that engages in business activities from which it earns revenues and incurs expenses. All operating segments' operating results are reviewed regularly by the Group's Chief Operating Decision Maker ('CODM'), to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Earnings before interest, tax, depreciation and amortisation ('EBITDA') is the key metric reported to the CODM for the purposes of assessment of the segment results.

v) Statement of net assets at fair value

The disclosure of Statement of Net Assets at Fair value comprises of the fair values of the SPV held and the intermediate Holding Company as well as book values of the total liabilities and other assets of the Group. The fair value of the SPVs and intermediate Holding Company are reviewed periodically at each reporting date by the independent property valuer taking into consideration market conditions existing at the reporting date, and other generally accepted market practices. The independent valuer is leading independent appraiser with a recognised and relevant professional qualification and experience.

v) Equity vs. financial liability classification

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs. The Group classifies a financial instrument issued by it as equity instrument only if below conditions are met:

- The instrument includes no contractual obligation to deliver cash or another financial asset to another entity. Nor it includes any obligation to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the issuer.
- If the instrument will, or may, be settled in the Group's own equity instruments, it is non-derivative instrument that includes no contractual obligation for the Group to deliver a variable number of its own equity instruments. If the instrument is derivative, then it should be settled only by the Group exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

All other instruments are classified as financial liability and accounted for using the accounting policy applicable to the Financial Liabilities.

2.4 New and amended standards

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

i. Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Group's financial statements as the Group has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

ii. Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have any impact on the Group's financial statements.

(i) On transition to Ind AS, the SPVs of the Trust has elected to continue with the carrying value of all Property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of Property, plant and equipment.

(ii) Property, plant and equipment and capital work in progress are subject to pari passu first charge to lenders for term loans as disclosed in Note 17.

(iii) Title deeds of all immovable properties are held in the name of Group except title deeds of ISPL-1 and ISPL-2 are held in its erstwhile name.

(iv) The group has not revalued its property, plant and equipment during the year.

Note 4: Right of use asset

The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.

The Group has also taken leasehold land which has lease term of 25-99 years from the commercial operation date (COD) in relation to which the group is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities. The lease liability has been measured by using the incremental borrowing rate.

*The Group has accounted the acquisition of VRET as business acquisition in accordance with Ind AS 103 - Business Combination based on valuation done by independent valuer in the consolidated financial statement for year ended 31 March 2024. Goodwill and customer contracts has been identified as a result of fair valuation of assets and liabilities on the date of acquisition as per IND AS 103. Refer note 48 for further details.

Impairment of Goodwill

Goodwill arises on business combination of Virescent Renewable Energy Trust (VRET) along with it's 15 SPV's. After acquisition, VRET got dissolved and the following SPV's became part of the group to which goodwill is assigned as a result of such business combination:

TN Solar Power Energy Private Limited (TSPEPL)
Universal Mine Developers And Service Providers Private Limited (UMDSPPL)
Terralight Kanji Solar Private Limited (TKSPL)
Terralight Rajapalayam Solar Private Limited (TRSPL)
Solar Edge Power And Energy Private Limited (SEPEPL)
PLG Photovoltaic Private Limited (PPPL)
Universal Saur Urja Private Limited (USUPL)
Terralight Solar Energy Tinwari Private Limited (TSETPL)
Terralight Solar Energy Charanka Private Limited (TSECPL)
Terralight Solar Energy Nangla Private Limited (TSENPL)
Terralight Solar Energy Patlasi Private Limited (TSEPPL)
Globus Steel And Power Private Limited (GSPPL)
Terralight Solar Energy Gadna Private Limited (TSEGPV)
Godawari Green Energy Private Limited (GGEPL)
Terralight Solar Energy Sitamau Ss Private Limited (TSESPL)

In accordance with Ind AS 36 - Impairment of Assets, the Group performed impairment testing of Goodwill assigned to each Cash Generating Unit (CGU) as at 31 March 2025 and 31 March 2024 applying value in use approach across all the CGUs i.e. using cash flow projections based on financial budgets covering contracted power sale agreements with procurers (25 years) considering a discount rate mentioned below. The Group has used financial projections for 25 years as the tariff rates are fixed as per the Power Purchase Agreements (PPAs).

Based on the results of the Goodwill impairment test, the estimated value in use in all CGUs were higher than their respective carrying amount and accordingly no provision of impairment of goodwill is warranted. Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the Goodwill.

Key assumptions used for value in use calculations and sensitivity to changes in assumptions.

Assumption	Sensitivity to change
Weighted Average Cost of Capital % (WACC) Pre tax (discount rate)	7.30% to 8.35%
Plant Load Factor	Plant load factor(PLF) is estimated for each CGU based on past trend of PLF and expected PLF in future years.

Growth rates are used to extrapolate cash flows.

The Group has performed sensitivity analysis around the base assumptions and have concluded that no reasonable changes in key assumptions would cause the recoverable amount of the subsidiaries to be less than the carrying value.

(All amounts in Rs. million unless otherwise stated)

Note 6: Capital work-in-progress (CWIP)

	31 March 2025	31 March 2024

There are no project whose completion is overdue or has exceeded its cost compared to its original plan during the current and previous year. Also, there is no project which has been suspended during the current & previous year.

Capitalised borrowing costs
The Group started the construction of new transmission and BESS projects. For details, refer 37.

The amount of borrowing costs capitalised during the year ended 31 March 2025 was Rs. 64.97 million (31 March 2024: Rs. 218.29 million). The rate used to determine the amount of borrowing costs eligible for capitalisation was 7.5% (31 March 2024: 7.5%), which is the effective interest rate of the specific borrowing.

(i) Neither trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person, nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member within the Group.

(ii) Trade Receivables includes Rs. 710.61 million (31 March 2024 - Rs 710.61 million) billed on NTPC for the period from the readiness of the Transmission Lines to the date of actual Power Flow. As per the order issued by the CERC, tariff for this is period was to be paid by NTPC. NTPC has filed appeal with the Appellate Tribunal of Electricity against the order of the CERC. NTPC has also filed an stay application against the bill raised by the Group. APTEL has admitted the stay application and asked no coercieve action should be taken place till the hearing of the said application.

Further, the Group has provided amount payable to beneficiaries corresponding to the above recoverable amount and according to the prevailing practice the amount shall be paid as and when the same is realised from NTPC. Interest recoverable/payable on these amounts shall be accounted for on actuality in view of uncertainty involved.

(iii) Trade receivables are non-interest bearing and are generally due on invoicing / billing.

See Note 43 on credit risk of trade receivables, which explains how the Group manages and measures credit quality of trade receivables that are neither past due nor impaired.

Note 13: Cash and cash equivalents (carried at amortized cost)

	31 March 2025	31 March 2024
Balance with banks		
- in current accounts	778.78	1,835.03
- Bank deposit with original maturity of less than 3 months #	273.84	488.72
Total	**1,052.62**	**2,323.75**

2. Rs. 14.08 million (31 March 2024 : Rs. 21.72 million) held as lien by bank against bank guarantees
3. Rs. 0.08 million (31 March 2024: Rs. 0.08 million) pledged with Sales Tax Department.

Note 15: Unit Capital

a. Reconciliation of the units outstanding at the beginning and at the end of the reporting period	**Number of units (In million)**	**Amount (Rs. in million)**
Balance as at 01 April 2023	700.18	65,903.15
Issued during the year (refer note i below)	83.49	10,727.05
Issue expenses (refer note ii below)	-	(176.12)
As at 31 March 2024	**783.67**	**76,454.08**
Issued during the year (refer note i below)	50.88	6,942.21
Issue expenses (refer note ii below)	-	(73.75)
As at 31 March 2025	**834.56**	**83,322.54**

Note:
i) A. On 21 September 2023, the Group issued 30.80 million units to eligible investors on a preferential basis at a unit price of Rs. 131 per unit to raise Rs 4,035.00 million.
B. On 06 December, 2023, the Group issued 52.69 million units to institutional investors at a unit price of RS. 127 per unit to raise 6,692.05 million.
C. On 07 October 2024, the Group issued 50.88 million units to eligible investors on a preferential basis at a unit price of Rs. 136.43 per unit to raise Rs 6,942.22 million.
ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 - Financial Instruments: Presentation.

b. Terms/rights attached to units
The Group has only one class of units. Each unit represents an undivided beneficial interest in the Group. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Group at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Group declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Group Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	**31 March 2025**		**31 March 2024**	
	Number of units (in million)	**% holding**	**Number of units (in million)**	**% holding**
Esoteric II Pte. Limited	10.05	1.20%	165.90	21.17%
Government of Singapore	140.18	16.80%	140.18	17.89%
Larsen And Toubro Limited	49.19	5.89%	46.04	5.87%

d. The Group has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Group has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

e. Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as "Equity", which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Group has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

(All amounts in Rs. million unless otherwise stated)

Nature and purpose of Reserves

(i) Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Consolidated Statement of Profit and Loss.

(ii) IPTL and DPTL has issued Compulsory Redeemable Preference Shares (CRPS) to Tecno Electric and Engineering Company Limited with dividend rate of 0.1% during the year. The same has been bifurcated into equity component and financial liability in accordance with Ind AS 32 - Financial Instruments: Presentation. The above amount represents the equity portion of the CRPS.

(iii) The Group uses hedging instruments as part of its management of foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Group uses foreign currency forward contracts and foreign currency option contracts. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amounts recognised in the cash flow hedging reserve is reclassified to the statement of profit or loss when the hedged item affects profit or loss (example: interest payments).

(i) Represents new secured non-convertible debentures that have been issued by the Group during the year ended 31 March 2025.
(ii) During the year ended 31 March 2025 the Group has taken new Indian rupee loan from banks of Rs. 21,850 million (31 March 2024: Rs. 8,500 million).
(iii) Represents Non-convertible debentures issued to Shapoorji Pallonji Solar Holdings Private Limited by TN Solar Power Energy Private Limited, Universal Mine developers Private Limited and Terralight Kanji Solar Private Limited. The NCDs are redeemable based on realization of disallowance w.r.t Capacity Utilization Factor (CUF) made by the Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO). These NCD's were acquired as part of acquisition of VRET.
(iv) This has been repaid during the current period.
(v) This loan was acquired as part of acquisition of RSUPL
(vi)The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 08 April 2025, "ICRA AAA/Stable" from ICRA on 18 March 2025 and "IND AAA/Stable" from India Ratings on 20 January 2025.

Financial covenants

(a) Loans from bank, debt securities contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed on availability of audited accounts periodically by the banks.
(b) For the financial year ended 31 March 2025, the Group has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, wherever applicable.
(c) The Group has not utilised borrowings taken from banks and financial institutions for purpose other than for which it was taken.
(d) The Group has not defaulted on any loan payable.

Note (A): Non-convertible debentures referred above are secured to the extent of:
(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledge of 73% over the equity share capital of PrKTCL, 65% over equity share capital of TSESPL.
(iv) first and exclusive charge on the ISRA/DSRA accounts created for the issue.

(All amounts in Rs. million unless otherwise stated)

Total					**1,066.97**	**111.83**

Group has issued optionally convertible debenture (OCD) which shall be converted for variable number of shares upon conversion/ redemption date. The OCD's has been classified as "Financial Liability" in line with the requirements of Ind AS-32 - Financial Instruments: Presentation. The OCD's do not carry any voting right.

Note (D): Foreign Currency Loan from Financial Institution:
Secured by pari passu first charge on all the present and future immovable properties (through mortgage/assignment), hypothecation of (all the present and future) current assets ,movable assets, book debt, operating cashflows, receivables, commissions, revenue of what so ever nature, all bank accounts and all intangibles assets, assignment of all rights, title, interests, benefits, claims etc. of project documents and insurance contracts of RSUPL. The loan carries an interest rate of 7% p.a. with last loan installment payable in September, 2025.

Note (E): Liability component of compound financial instrument:

DPTL and IPTL has issued Compulsory Redeemable Preference Shares (CRPS) at a face value of Rs. 10 with dividend rate of 0.1% during the year. The same has been accounted into equity component and financial liability in accordance with Ind AS 32 : Financial Instruments: Presentation. Financial liability has been measured at Fair value using an effective interest rate of 7.85% per annum to reflect the market interest rate. The presentation of liability and equity portion of these shares is explained in summary of material accounting policies. CRPS are redeemable on Commercial Operation Date (COD) plus 3 months or scheduled COD, whichever is later. Scheduled date of commissioning is 08 April 2026.

Note (F): Loan availed by KBPL
Global Energy Alliance for People and Planet (GEAPP) LLC has granted a loan at a concessional rate of 1% p.a for financing project costs which has been measured at Fair value using an effective interest rate of 7.95% per annum to reflect the market interest rate in accordance with Ind AS 20- Accounting for Government Grants and Disclosure of Government Assistance. The difference between the fair value of the loan and the proceeds received, representing a government grant in the nature of a financing benefit, has been accounted for as a capital grant and deducted from the carrying value of the Service Concession Asset. The loan is repayable over a period of 12 years, commencing 21 months from the scheduled date of commissioning 01 April 2025.

Secured by pari passu first charge on all the present and future immovable properties (through mortgage/assignment), hypothecation of (all the present and future) current assets, movable assets, all bank accounts and all intangibles assets, assignment of all rights, title, interests, benefits, claims etc. of project documents of KBPL.

OCI section		
Deferred tax related to items recognised in OCI during in the year:		
Net (gain)/loss on revaluation of Effective portion of Cash Flow Hedges	(32.32)	(9.50)
Net loss/(gain) on remeasurements of defined benefit plans	(0.15)	(0.07)
Deferred tax charged to OCI	**(32.47)**	**(9.57)**

Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate for 31 March 2025 and 31 March 2024:	**31 March 2025**	**31 March 2024**
Accounting profit before income tax	4,442.21	3,150.20
At India's statutory income tax rate of 25.17% (31 March 2024: 25.17%)	1,118.10	792.91
Impact of exemption u/s 10(23FC) of the Income Tax Act, 1961 available to the Trust	(4,882.12)	(4,073.61)
Tax not recognized due to brought forward losses (refer note (ii) below)	4,101.20	3,465.30
Adjustment of tax relating to earlier periods	-	0.81
At the effective income tax rate	**337.18**	**185.40**
Income tax expense reported in the statement of profit and loss	**337.18**	**185.40**

(i) As at 31 March 2025, based on the expected future profitability of the SPVs, the management has recognised deferred tax assets on the unabsorbed tax depreciation carried forward only to the extent of deferred tax liability.

(ii) The Group has Rs. 44,523.69 million (31 March 2024 : Rs. 32,782.29 million) of tax losses / unabsorbed depreciation carried forward on which deferred tax asset has not been recognised. If the Group was able to recognise all unrecognised deferred tax assets, profit after tax would have increased and equity would have increased by Rs. 11,254.23 million (31 March 2024: Rs. 8,250.65 million). Majority of these business losses will expire ranging from FY 2025-26 to FY 2032-33. The Group also have unabsorbed depreciation which can be carried forward indefinitely.

Further, for the calculation of deferred tax assets/liabilities, the Group has not considered tax holiday available under the Income Tax Act for some of the project SPVs for the computation of deferred tax assets/liabilities. The management based on estimated cash flow workings for these project, believes that since there will be losses in the initial years of these project, no benefit under the Income tax Act would accrue to these projects in respect of the tax holiday. Management will re-assess this position at each balance sheet date.

Note 24: Revenue from contracts with customers

	31 March 2025	**31 March 2024**
Note 24.1: Disaggregated revenue information		
Type of service		
Power transmission services (refer note A below)	24,205.46	24,051.59
Revenue from sale of electricitiy (solar) (refer note B below)	7,749.43	4,313.40
Revenue from construction service (refer note C below)	745.65	-
Other Operating Revenue		
Finance Income from Service Concession Agreement	175.83	274.56
Total	**32,876.37**	**28,639.55**
Location		
India	32,876.37	28,639.55
Outside India	-	-
Total	**32,876.37**	**28,639.55**
Timing of revenue recognition		
Services transferred over time	32,876.37	28,639.55
Total	**32,876.37**	**28,639.55**

(A) Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs. The TSAs are executed for a period of 35 / 25 years and have fixed tariff charges as approved by Central Electricity Regulatory Commission (CERC) (except some escalable portion and some incentives/penalties relating to transmission assets availabilities). Under the TSAs, the Group's performance obligation is to provide power transmission services. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs failing which could result in certain disincentives/penalties. The performance obligation is satisfied over-time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. The payment is generally due within 60 days upon receipt of monthly invoice by the customer. The Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the Point of Connection (PoC) mechanism, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility (i.e. Power Grid Corporation of India Limited) from LTTCs are disbursed pro-rata to all Transmission Service Providers from the pool in proportion of the respective billed amount.

(B) Revenue from sale of solar power generated is recognised on accrual basis (net of deviations as per the Deviation Settlement Mechanism) on the basis of the billings as per the long term Power Purchase Agreement with various DISCOMS and includes unbilled revenues accrued upto the end of the accounting period.

(C) Revenue from construction service is recognised in accordance with appendix D of the Ind AS 115 where the total revenue is bifurcated into two performance obligations namely, revenue from construction service and revenue from transmission services.

Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures since the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date.

(All amounts in Rs. million unless otherwise stated)

Note 24.2: Reconciliation of the amount of revenue recognised in the statement of profit and loss with the contracted price

	31 March 2025	31 March 2024
Revenue as per contracted price	32,141.09	27,465.42
Adjustments:		
Incentives earned for higher asset availabilities	742.48	794.07
Rebates and surcharges as per the terms of agreement	(183.03)	105.50
Finance Income from Service Concession Agreement	175.83	274.56
Total revenue from contracts with customers	**32,876.37**	**28,639.55**

Kallam Transco Limited [note c (ii)]	6.35	-
Total revenue from contracts with customers	**32,876.37**	**28,639.55**

a. In the current financial year, the Group has acquired Ratle Kiru Power Transmission Limited, Gujarat BESS Private Limited and Rajasthan BESS Private Limited. However, these entities are currently under construction and hence no renvenue has been recognised.

b. In the previous financial year, The Group has acquired VRET group consisting of 15 SPVs, and ReNew Solar Urja Power Limited. The revenue mentioned in comparative period above relates to post acquisition period only.

c. Income from service concession

(i). Jhajjar KT Transco Private Limited has entered into a Transmission Service Agreement (TSA) with Haryana Vidyut Prasaran Nigam Limited (HVPNL) for obtaining exclusive right to construct, operate and maintain the transmission lines on design, build, finance, operate and transfer (DBFOT) basis for a specified period (concession period of 35 years) commencing from the date of grant of the Transmission License and receive monthly determinable annuity payments. The agreement provides an option for extension of the concession period.

The SPV is currently in the operation and maintenance phase of the agreement. Upon completion of concession period or on termination of agreement, transmission lines will vest with the grantor free and clear of all encumbrances.

In terms of Ind AS 115 Revenue From Contracts, cost of construction of transmission lines has been recognized as a part of financial assets under the head service concession receivable. The annuity payments received under the agreement are considered as consideration for construction, interest and operation and maintenance services and are recognised in line with the satisfaction of related performance obligations.

(ii). Dhule Power Transmission Limited, Ishanagar Power Transmission Limited, Kallam Transco Limited and Ratle Kiru Power Trasmission Limited has entered into a Transmission Service Agreement (TSA) with Central Transmission Utility of India (CTUIL) (Nodal Agency) for obtaining exclusive right to construct, operate and maintain the transmission lines on Build, Own, Operate and Transfer (BOOT) basis for a concession period (35 years) commencing from the Commercial Operation Date (COD) of the Transmission License and receive monthly determinable annuity payments based on actual availability. The agreement provides an option for extension of the concession period after taking approvals from the CERC. Upon expiry of concession period or on termination of agreement, transmission lines will vest with the CTUIL or its successors or any agency decided by the Central Government free and clear of all encumbrances. The future annuity payments receivable under the agreement will be considered as consideration for construction, interest and operation and maintenance services and will be applied in line with the satisfaction of related performance obligations. In accordance with Ind AS 115 Revenue From Contracts, the SPVs have performance obligations relating to the construction and maintenance of transmission lines under a service concession arrangement.

As at March 31, 2025, the transmission lines in DPTL, IPTL and RKPTL are under construction; however, as no significant construction milestones have been achieved no revenue has been recognised towards the construction obligation in line with Ind AS 115 Revenue From Contracts.

The transmission lines in KTCO are under construction and have achieved a partial milestone; accordingly, construction revenue has been recognized based on the stage of milestone achieved.

(All amounts in Rs. million unless otherwise stated)

(iii). Kilokari BESS Private Limited has entered into a Battery Energy Storage System Agreement (BESSA) with BSES Rajdhani Power Limited (BSPL) for deployment of a 20 MW/ 40 MWh Battery Energy Storage System (BESS) at Kilokari Substation on a Build, Own, Operate and Transfer (BOOT) basis for a concession period of 12 years. Under the terms of the BESSA, Company will receive fixed monthly annuity payments and is obligated to maintain a minimum dispatchable energy annually. Any shortfall in such minimum energy will be treated as reduced availability, resulting in corresponding charges.

At the end of the concession period, KBPL is required to demonstrate an operational residue capacity of at least 70% of the project capacity and transfer the project to BSPL, free of encumbrances. Failure to do so would entitle BSPL to recover costs through a competitive bidding process, secured by a performance bank guarantee.

The future annuity payments comprise consideration towards construction, interest, and operations & maintenance services, and are recognised in accordance with Ind AS 115 Revenue From Contracts based on the satisfaction of performance obligations.

As at March 31, 2025, Construction phase is 100% completed and accordingly construction revenue has been recognized as per Ind AS 115 Revenue From Contracts.

d. Parbati Koldam Transmission Company Limited had filed tariff petition in FY 2021-22 for truing up of the tariff for period 2014-19 and revised petition of tariff for period 2019-24 with CERC for its approval. However these petition are yet to be disposed off by CERC. Hence, the Group has been recognizing the revenue for the year ended 31 March 2025 and 31 March 2024 basis the filed petition order for 2019-24.

e. In March 2025, Group has recognized revenue for new transmission project (KTL Extention) for which commercial operation date has been achieved during the year.

Note 25: Other finance income

	31 March 2025	31 March 2024
Interest on income tax refund	9.27	33.02
Interest on others*	27.26	20.23
Total	**36.53**	**53.25**

*Interest on others includes notional interest on non-current trade receivables

Note 26: Other Income

	31 March 2025	31 March 2024
Sale of scrap	6.00	44.94
Liabilities no long required written back	24.24	11.37
Reimbursements received	-	6.98
Income from shifting of Transmission line	42.33	66.78
Deferred income on VGF	17.68	23.63
Insurance claim recovery	40.11	36.83
Miscellaneous income*	179.99	28.82
Total	**310.35**	**219.35**

*Miscellaneous income includes carrying cost compensation, interest income on security deposit, GST claim received and other income.

Note 27: Employee Benefit Expenses

	31 March 2025	31 March 2024
Salaries, wages and bonus	559.98	1,002.23
Contribution to provident fund	22.28	14.83
Long term incentive plan (refer note 46)	21.21	14.87
Gratuity expense (refer note 45)	8.61	7.93
Staff welfare expenses	38.34	35.72
Total	**650.42**	**1,075.58**

Note 28: Investment management fees

	31 March 2025	31 March 2024
Investment management fees (refer note 36)	627.47	974.39
Total	**627.47**	**974.39**

Note:
For IGT and all SPV's except Parbati Koldam Company Transmission Limited
Pursuant to the Investment Management Agreement dated 13 June 2023 as amended, Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager.

Further, during the prevoius year, the Group obtained approval from the board of directors and audit committee in a meeting dated 12 May 2023 and unitholders in the extraordinary general meeting dated 06 June 2023, to revise the investment management agreement to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly acquisition fee amounting to Rs. Nil (31 March 2024 : Rs. 437.55 million) has been accounted in the books.

For Parbati Koldam Company Transmission Limited (SPV)
Pursuant to the Investment Management Agreement dated 02 March 2021 as amended, Investment Manager is entitled to fees @ 1.00% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of the Company, per annum. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

Note 29: Other expenses

	31 March 2025	31 March 2024
Power and fuel	82.45	64.56
Rent	16.56	23.10
Rates and taxes	171.99	291.87
Vehicle hire charges	46.54	49.27
Director Sitting Fee (Refer note 36)	9.00	7.80
Bay Charges	120.25	85.60
Advertisement expenses	1.16	-
Right of way charges	17.72	20.40
Corporate social responsibility	26.26	12.24
Miscellaneous expenses*	310.97	201.90
Total	**802.90**	**756.74**

*Miscellaneous expenses majorly includes outsourced mapower charges, IT expenses, Boarding and travelling expense and other miscellanous expenses.

Note 30: Finance Costs

	31 March 2025	31 March 2024
Interest on debts and borrowings measured at amortised cost	14,833.78	12,981.11
Other bank and finance charges	62.38	81.40
Unwinding of discount on provisions	8.37	0.79
Interest expense on lease liabilities (refer note 4)	42.49	13.24
Total	**14,947.02**	**13,076.54**

Note 31: Depreciation and amortization expense

	31 March 2025	31 March 2024
Depreciation of property, plant and equipments (refer note 3)	10,056.84	8,813.43
Depreciation on Right of use assets (refer note 4)	46.01	23.68
Amortization of intangible assets (refer note 5)	904.52	557.61
Total	**11,007.37**	**9,394.72**

Note 32: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to owners of the parent by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to owners of the parent by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	**31 March 2025**	**31 March 2024**
A. Including Regulatory deferral income/expense		
Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	3,983.90	2,853.70
Weighted average number of units in calculating basic and diluted EPU (No. in million)*	808.21	732.98
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	4.93	3.89
B. Excluding Regulatory deferral income/expense		
Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	3,986.27	2,853.84
Weighted average number of units in calculating basic and diluted EPU (No. in million)*	808.21	732.98
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	4.93	3.89

The group doesn't have any outstanding dilutive potential instruments.

*Weighted average number of unit takes into account the effect of change in unit capital arising due to fresh issue of units during the year.

Note 33: Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to Group's exposure to risk and uncertainities includes:
- Capital management note 44
- Financial risk management activities and policies note 43
- Sensitivity analysis note 43

Judgements
In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

i. Applicability of Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers
The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 / 35 years in case of Transmission Assets. It also operates as a Solar Power Developer in case of Solar Assets and is engaged in storage and delivery of electricity through its Battery Energy Storage Systems (BESS). Generally, the subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff-based bidding process to Build, Own, Operate and Maintain ("BOOM") / Build, Own and Operate ("BOO") the transmission infrastructure for a period of 25 / 35 years or have entered into Power Purchase Agreements ("PPA") with various National or Regional Intermediaries which are designated by the Government, for development of solar power project, generation and sale of solar power with a contractual period of 25 years at a fixed tariff or have entered into Battery Energy Storage Purchase Agreement (BESPA) with National or Regional Intermediaries which are designated by the Government to Build, Own and Operate ("BOO") BESS with a contractual period of 12 years at a fixed tariff.

The Management is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee or solar power developer or BESS Operator to obtain various approvals under the regulatory framework to conduct its operations both during the period of the TSA / PPA / BESPA as well as at the end of the license period or expiry date of PPA / BESPA. In the view of management, generally the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission / solar infrastructure / battery projects at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D is not applicable to the Group for all solar assets, transmission and battery assets operating under BOOM / BOO model.

The Group holds Jhajjar KT Transco Private Limited, Dhule Power Transmission Limited, Ishanagar Power Transmission Limited, Kallam Transco Limited and Ratle Kiru Power Transmission Limited which operates on a Design, build, finance, operate and transfer ("DBFOT") / Build, own, operate and transfer (BOOT) basis. The companies construct, operate and maintain the power transmission system including sub-station to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor. The Group also holds Kilokari Bess Transmission Limited which operates on BOOT basis for deployment of a 20 MW/ 40 MWh BESS at Kilokari Substation for storage and delivery of electricity in accordance with the agreement entered into with the grantor.

Under Appendix D to Ind AS 115, these arrangements are considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets". Accordingly, the Group is of the view that Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers is applicable to this infrastructure asset.

ii. Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

iii. Assessment of control over subsidiary

On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 49% of the equity share capital of NER, GPTL and KhTL and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that the Group shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value (refer note 34 and 35).

In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Group engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar / battery projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of assets other than financial assets
Non-current assets of the Group primarily comprise of property, plant & equpiment, goodwill and service concession recievable.

The provision for impairment/(reversal) of impairment of assets other than financial assets is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount has been computed by external independent valuation experts based on value in use calculation for the underlying transmission / solar projects of SPV's (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Group tests impairment on the amounts invested in the respective subsidiaries of Group. In case of goodwill, the carrying value of goodwill is compared with the fair value of the CGU to which it pertains. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 34.

(c) Useful life of Property, plant and equipment and intangibles
The management estimates the useful life and residual value of property, plant and equipment and other intangible assets based on technical estimates. These assumptions are reviewed at each reporting date.

(d) Contingencies
Refer Note 39 - Recognition and measurement of provision and contingencies, key assumptions about the likelihood and magnitude of an outflow of resources.

(e) Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

(f) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(g) Provision for decommissioning

As part of the identification and measurement of assets and liabilities, the Group has recognised a provision for decommissioning obligations associated with solar plant owned by RSUPL. In determining the fair value of the provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the plant from the site in order to remediate the environmental damage caused and the expected timing of those costs. In estimating the expected cost, the Group takes into account changes in environmental legislation and regulations that may impact the process for dismantling and removing the plant.

The carrying amount of the provision as at 31 March 2025 was Rs 121.83 million (31 March 2024: Rs. 113.47 million). The Group estimates that the costs would be realised in 35 years' time upon the expiration of the project life and calculates the provision using the DCF method based on the following assumptions:

- Estimated cost per MW at the end of Project life – Rs. 40,86,584
- Discount rate – 7.38%

Note 34: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	31 March 2025	31 March 2024	31 March 2025	31 March 2024
Financial assets at amortized cost				
Trade receivables	7,139.14	8,233.69	7,139.14	8,233.69

Total	**206,650.07**	**198,558.10**	**206,650.07**	**198,558.10**

The management assessed that cash and cash equivalents, other bank balance, trade payables, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Group is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2025 and 31 March 2024 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs. in million)

Significant unobservable inputs	Valuation technique	Input for 31 March 2025	Input for 31 March 2024	Sensitivity of input to the fair value	Increase /(decrease) in fair value	
					31 March 2025	31 March 2024
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.28% to 8.36%	7.70% to 8.69%	+ 0.5%	(13,921.00)	(12,470.98)
				- 0.5%	14,909.00	13,683.44
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(1,245.78)	(1,203.11)
				- 2%	1,175.85	1,169.59
Inflation rate		Revenue(Esclable): 5.00% Expenses: 1.94% to 5.18%	Revenue(Esclable): 5.00% Expenses: 2.00% to 4.77%	+ 1%	(2,995.71)	(3,346.82)
				- 1%	2,611.87	2,773.85
Investement in non current debentures of ERIPL (Class A)						
WACC		8.09%	-	+ 0.5%	(140.12)	-
				- 0.5%	149.36	-
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	-	+ 2%	(20.08)	-
				- 2%	19.29	-
Inflation rate		Revenue(Esclable): 5.00% Expenses: 2.70%	-	+ 1%	(48.58)	-
				- 1%	42.49	-

Note 35: Fair value hierarchy

The management has assessed that the financial assets and financial liabilities as at period end other than above are reasonable approximations of their fair values.

(Rs. in million)

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2025 and 31 March 2024	Date of valuation	Fair value measurement using		
		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	31 March 2025	-	-	277,170.81
	31 March 2024	-	-	264,785.24
Investments in mutual funds	31 March 2025	-	17,611.78	-
	31 March 2024	-	7,419.05	-
Investment in NCD	31 March 2025	-	-	1,286.43
	31 March 2024	-	-	-

There have been no transfers among Level 1, Level 2 and Level 3.

* Statement of net asset at fair value and statement of total returns at fair value require disclosures regarding fair value of assets (liabilities at considered at book values). Since the fair values of assets other than property, plant and equipment approximate their book values, hence only property, plant and equipment and service concession has been disclosed above.

Note 36: Related party disclosures

I. List of related parties as per the requirements of Ind AS 24 - Related Party Disclosures

(a) Entity with significant influence over the Trust

Esoteric II Pte. Ltd (EPL) - Inducted Sponsor of IndiGrid
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

II. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid

Esoteric II Pte. Ltd - Inducted Sponsor of IndiGrid (EPL)
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid
Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Ltd is Promoter)

(b) Promoters of the parties to IndiGrid specified in (a) above

KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL
KKR Asia Pacific Infrastructure Investors SCSp ("Asia Infra II Main Fund")- Luxembourg
Electron IM Pte. Ltd. - Promoter of IIML (Parent with 100% holding of IIML)
Twin Star Overseas Limited - Promoter of SPTL (SPTL is declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)

Axis Bank Limited - Promoter of ATSL
Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Directors of the parties to IndiGrid specified in (a) above

Directors of SPTL (Till 06 July 2024):

Pravin Agarwal
Pratik Agarwal
A. R. Narayanaswamy
Anoop Seth
Manish Agarwal
Kamaljeet Kaur

Directors of IIML:

Harsh Shah (CEO & Whole-time director)
Tarun Kataria
Ashok Sethi
Hardik Shah
Jayashree Vaidhyanthan
Ami Momaya

Key Managerial Personnel ("KMP") of IIML:

Harsh Shah (Managing Director)
Navin Sharma (CFO) (from 19 April 2023)
Urmil Shah (Company Secretary)

Directors of ATSL:

Deepa Rath
Sumit Bali (from 16 January 2024)
Prashant Joshi (from 16 January 2024)
Rajesh Kumar Dahiya
Ganesh Sankaran
Arun Mehta (from 3 August 2024)
Pramod Kumar Nagpal (from 3 May 2024)

Directors of Esoteric II Pte. Ltd.:

Tang Jin Rong
Madhura Narawane
Goh Ping Hoo (from 25 August 2023)

Relative of directors mentioned above:

Sonakshi Agarwal

Relative of sponsor mentioned above:

Terra Asia Holdings II Pte. Ltd. ("Terra")*

(d) Entities with common directors

Energrid Regrid Infra Private Limited

*In accordance with Regulation 2(1)(zv) of the InvIT Regulations, the seller of the units of VRET being Terra Asia Holdings II Pte. Ltd. ("Terra"), is controlled and/or managed and/or advised, solely by Kohlberg Kravis Roberts & Co. L.P., or by its affiliates (together, the "KKR Group"), along with one of our sponsors, and is a related party of IndiGrid.

Terms and conditions

i) Loans given to related parties
Loans given to SPVs including Holdco are for principal business activities and can be utlized as per the terms and conditions of the loan agreement. Interest is charged at arms length rate and is as per ordinary course of the business. For interest rate charged on the loan given to related parties refer note 7. For the year ended 31 March 2025, the Trust has not recorded any impairment on loans and interest due from related parties (31 March

ii) Trustee fee
Trustee fee is paid to Axis Trustee Services Limited. The amount billed for the service was agreed based on mutual negotiation between parties.

iii) Investment Management Fees
For terms and condition related to Investment Management Fees refer note 28.

iv) Transaction with Axis Bank Limited
The Trust has banking relationships with Axis Bank Limited, which is a related party. All transactions with the bank have been conducted in the ordinary course of business and at arm's length.

v) Sale and Purchase of Investment in Subsidiaries
The Trust has undertaken sale and purchase of subsidiaries with related parties during the year. These transactions were carried out at fair value and in compliance with applicable InvIT regulations.

vi) Investment in Subsidiary
The Trust has made investment in subsidiaries at a fair value in compliance with InVIT regulations. Necessary approvals were obtained as per applicable laws.

vii). Subscription of Non Convertible debentures - Enerica Regrid Infra Private Limited
For terms and condition related to subsription of NCD (refer note 7).

vii). Transfer of shares of RSUPL
For terms and condition related to transfer of RSUPL shares [refer note 47(4)].

There are no acquisition from related party during the year.

For the year ended 31 March 2024:

The Group has acquired VRET and details required are as follows:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	VRET	Virescent IM
Enterprise value agreed for acquisition	38,544.00	184.71
Enterprise value as per Independent valuer	40,322.00	192.00
Method of valuation	Discounted cash flow	Discounted cash flow
Discounting rate (WACC)	7.8% - 8.70%	14.20%

(B) Material conditions or obligations in relation to the transactions:

There are no open material conditions / obligations related to above transaction, other than regulatory approvals obtained by the Group.

(C) Rate of interest for external financing:

The Group has availed external financing at the rate of interest ranging from 7.35% to 7.84% to finance this acquisition.

(D) Any fees or comission paid :

The Group has also paid investment management fee and brokerage of Rs 239.03 million and Rs 13.57 million including taxes respectively for the purpose of this acquisition. (refer note 36 (III))

(All amounts in Rs. million unless otherwise stated)

Note 37: Capital and other Commitments

(a) The Group has entered into transmission services agreement (TSA) with long term transmission customers pursuant to which the Group has to transmit power of contracted capacity and ensure minimum availability of transmission line over the period of the TSA. The TSA contains provision for disincentives and penalties in case of certain defaults.

(b) The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years.

(c) The Group has entered into Power Purchase Agreement ('PPA') with various DISCOM's for solar entities, where the respective solar entity is required to sell power at a pre-fixed tariff rates agreed as per PPA for an agreed period.

(d) The Group has entered into an Implementation and Support Agreement with Andhra Pradesh Solar Power Corporation Private Limited (APSPCL). Annual O&M charges are payable for the period of 25 years from the commercial operation date to APSPCL.

(e) The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited.

(f) KTL was awarded additional contract for augmentation of transformers transformation capacity by 2x500MVA, 400/220Kv ICTs along with 220 Kv bays for RE interconnection in December, 2022. KTL had entered into contract with KEC International for construction of this project. During the current financial year, 2x500MVA, 400/220Kv ICTs have been capitalized in January, 2025 and remaining project for 220 Kv bays for RE interconnection is expected to be completed by March 2026.

(g) The consortium of IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited) (95%) and Amperehour Solar Technology Private Limited (5%), has received the Letter of Intent (LOI) / Letter of Award (LOA) dated October 23, 2023 from BSES Rajdhani Power Limited (BRPL) for 20 MW/ 40 MWh Battery Energy Storage Systems in Delhi on "Build Own Operate and Transfer". Kilokari BESS Private Limited has been incorporated on 06 November 2023 for the same project. Project has achieved Commercial Operation Date (COD) of April 01, 2025.

(h) The consortium of IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited) and IndiGrid 1 Limited has received the Letter(s) of Intent ("LOI") dated 29 December 2023, from REC Power Development and Consultancy Limited for following 2 transmission project(s) - "Transmission scheme for evacuation of power from Dhule 2 GW REZ" and "Western Region Expansion Scheme XXXIII (WRES-XXXIII): Part C". The projects will be constructed over a period of 18 months. Ishanagar Power Transmission Limited and Dhule Power Transmission Limited has been acquired on 09 February 2024 for this project. Projects are under construction and expected to be completed by February 2026.

IndiGrid, IGL 1, IGL 2, IPTL, and DPTL have also signed definitive agreements with Techno Electric and Engineering Company Limited ("Techno") to co-develop the projects by investing for minority equity and undertaking entire execution on Lumpsum Turnkey (LSTK) basis.

(i) IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited), has acquired Kallam Transco Limited ("KTCO") from REC Power Development and Consultancy Limited on 05 April 2024. KTCO was incorporated on 15 September 2023 for the construction of i) LILO of both circuits of Parli(M) Karjat(M)/Lonikand-II (M) 400 kV D/c line (twin moose) at Kallam PS ii) 400 kV line bays (AIS) – 4 Nos. (for Kallam PS end) iii) 63 MVAR, 420 kV switchable line reactor including Switching equipment - 2 Nos. (at Kallam end). The project is currently under construction expected to be completed by September 2025.

(j) IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited), has received the Letter of Intent (LOI) / Letter of Award (LOA) dated 13 March 2024, from Gujarat Urja Vikas Nigam Limited ("GUVNL") for Setting up of 180 MW / 360 MWh Battery Energy Storage Systems in Gujarat for "on Demand" usage under Tariff-based Competitive under Bidding Build Own Operate ("BOO") model. The project is currently under construction expected to be completed by March 2026. Gujarat BESS Private Limited has been incorporated on 24 April 2024 for this project.

(k) IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited), has received the Letter of Intent (LOI) / Letter of Award (LOA) dated 22 November 2024, from NTPC Vidyut Vyapar Nigam Limited ("NVVNL") for Setting up of a 250 MW / 500 MWh Standalone Battery Energy Storage System in Rajasthan for "on Demand" usage under Tariff-based Competitive under Bidding Build Own Operate ("BOO") model. The project is currently under construction expected to be completed by June 2025. Rajasthan BESS Private Limited has been incorporated on 03 December 2024 for this project.

(l) The Trust has partnered with BII and Norfund to create a platform "EnerGrid" which will bid and develop greenfield Transmission and standalone Battery Energy Storage systems (BESS) projects in India. The Trust has committed to invest INR 8,500 Mn (approx.) in the platform.

(m) IndiGrid 2 Private Limited (formerly known as IndiGrid 2 Limited) (wholly owned subsidiary of IndiGrid Infrastructure Trust) has received the Letter of Intent ("LOI") dated February 28, 2025, from REC Power Development and Consultancy Limited to establish Inter-State transmission system for "Transmission scheme for evacuation of power from Ratle HEP (850 MW) & Kiru HEP (624 MW): Part-A" on Build, Own, Operate and Transfer (BOOT) basis. Ratle Kiru Power Transmission Limited has been aquired from REC on 24 March 2025. The project is currently under construction expected to be completed by April 2027.

Note 38: Hedging activities and derivatives

The Group is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are foreign currency risk and interest rate risk.

Derivatives designated as hedging instruments

The Group uses certain types of derivative financial instruments (viz. forwards contracts) to manage / mitigate its exposure to foreign exchange and interest risk. Further, the Group designates such derivative financial instruments (or its components) as hedging instruments for hedging the exchange rate fluctuation and interest risk attributable to either a recognised item or a highly probable forecast transaction ('Cash flow hedge').

The effective portion of changes in the fair value of derivative financial instruments (or its components) that are designated and qualify as cash flow hedges, are recognised in the other comprehensive income and held in hedge reserve - a component of equity. Any gains / (losses) relating to the ineffective portion, are recognised immediately in the statement of profit or loss within other income / other expenses. The amounts accumulated in equity for highly probable forecast transaction are added to carrying value of non-financial asset or non-financial liability as basis adjustment, other amounts accumulated in equity are re-classified to the statement of profit or loss in the years when the hedged item affects profit or loss.

At any point of time, when a forecast transaction is no longer expected to occur, the cumulative gains / (losses) that were reported in equity is immediately transferred to the statement of profit or loss within other income / other expenses.

Cash flow hedges

i. Hedging activities

Foreign Currency Risk & Interest Rate Risk

In line with the Group's Foreign Currency & Interest Rate Risk Management Policy, the Group has taken hedged 100% with respect to foreign currency risk and variable interest outflow on external commercial borrowings and highly probable forecast transactions. All hedges are accounted for as cash flow hedges.

Information about the impact of derivatives used as hedging instruments by the Group and outstanding fair value as at the end of the financial year is provided below:

Particulars	Other Financial Assets	
	31 March 2025	31 March 2024
Derivatives designated as Hedging Instruments:		
Cross Currency Interest Rate Swap (CCIRS)	1,276.22	1,163.09

ii. Hedge Effectiveness

There is an economic relationship between the hedged items and the hedging instruments as the terms of the hedge contracts match the terms of hedge items. The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the foreign exchange and interest rate are identical to the hedged risk components. To test the hedge effectiveness, the Group compares the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks. As a result, no hedge ineffectiveness arises requiring recognition through profit and loss.

iii Hedge reserve movement and the effect of the cash flow hedge in the Other Comprehensive Income is as follows:

Particulars	**Hedging Reserve**	
	31 March 2025	**31 March 2024**
Balance at the beginning	129.43	-
Addition during the year on account of acquisition of subsisiary	-	157.67
Gain/(loss) recognised on cash flow hedges on Derivative asset	113.14	14.06
Gain/(loss) recognised on cash flow hedges on Borrowing	(241.56)	(51.80)
Income tax relating on cash flow hedges	32.32	9.50
Cash flow Hedge Reserve at the end of the year	**33.33**	**129.43**

As there is no hedge ineffectiveness, the entire impact on account of hedge is recognised in other comprehensive income.

iv. The outstanding position of derivative instruments is as under:

Nature of instrument	**Currency**	**Purpose**	**31 March 2025**		**31 March 2024**	
			Foreign Currency in Million (nominal value)	**Rs. In Million**	**Foreign Currency in Million (nominal value)**	**Rs. In Million**
Cross Currency Interest Rate Swap (CCIRS)	USD	Hedging of foreign currency borrowings and Interest accrued there on	128.71	1,276.22	137.46	1,163.09

The expiry dates of cash flow hedge deals is 30 September 2025.

Note 39: Contingent liability

Particulars	**31 March 2025**	**31 March 2024**
Claim against the group not acknowledged as debt		
- Entry tax demand **(Refer Note A)**	432.59	432.59
- VAT/GST Demand **(Refer Note B)**	27.94	20.66
- Income tax demand	7.79	7.72
- Other Demands (including GST demands and ROW Claims) **(Refer Note C)**	323.28	323.28
Total	**791.60**	**784.25**

There are certain litigation cases pertaining to Entry tax, sales tax/ VAT, Income Tax, GST, ROW charges, etc which are being contested at various appellate levels. The Group has reviewed all its pending litigations proceedings and based on the probable / possible / remote risk analysis done, have disclosed open litigation as contingent liability. The Group and its management including its tax advisory believes that its position will likely to be upheld in appellate process and the possibility of any significant outflow or impact on the financial statements/results is remote.

A. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. Out of the total demand Rs. 138.75 million (31 March 2024: Rs. 138.75 million) pertains to Jabalpur Transmission Company Limited ('JTCL'), Rs. 165.80 million (31 March 2024: Rs. 165.80 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') and Rs. 13.30 million (31 March 2024: Rs. 13.30 million) pertains to RAPP Transmission Company Limited ('RTCL') which is pending with High Court, Jabalpur.

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. The total demand Rs. 1.33 million (31 March 2024: Rs. 1.33 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') which is pending with Commissioner (Appeals).

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Chhattisgarh. The total demand Rs. 113.41 million (31 March 2024: Rs. 113.41 million) pertains to Jabalpur Transmission Company Limited ('JTCL') out of which Rs. 51.55 million (31 March 2024: Rs. 51.55 million) is pending with the Chhattisgarh High Court, Rs. 40.50 million (31 March 2024: Rs. 40.50 million) is pending with Chairman Chhattisgarh Commercial tax Tribunal, Raipur (C.G.) and Rs. 21.36 million (31 March 2024: Rs. 21.36 million) the notice for assessment has been received in the month of October 2020 for which the Group has applied for a certified copy of the Assessment Order on 29 October 2020 and is still awaiting a copy of the same.

B. Sales tax demand mainly includes Rs. 17.99 million (31 March 2024: Rs. 17.99 million) for Indigrid Limited (IGL) pertains to demand under Delhi VAT Act, 2004 for non-submission of C Forms, Rs. 17.99 million pertains to demand under Delhi VAT Act, 2004 for non-submission of C Forms for FY 2015-16. The Group has filed an objection against the order with Assistant Commissioner of Delhi VAT Authorities.

C. Other Demands (including GST demands and ROW Claims) includes an amount of Rs. 110.61 million (31 March 2024: Rs. 110.61 million) for claims from farmers for additional Right of Way (RoW) compensation made against one of the subsidiaries. Further it includes an amount of Rs. 212.67 million (31 March 2024: 212.67 million) for claims from one of the erstwhile EPC contract vendor against two of the subsidiaries.

The Group has not provided for disputed liabilities disclosed above arising from entry tax demands which are pending with different authorities mentioned above for its decision. The Group is contesting the demands and the Group management, including its legal advisors, believe that its position will likely be upheld in the appellate process. No liability has been accrued in the consolidated financial statements for the demands raised. The Group management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Group's financial position.

Others
The total contingent liability (except ROW claim of Rs. 110.62 million and GST claim of Rs. 212.66 million against ISPL 1 and ISPL 2) is recoverable as per share purchase agreement from Selling Shareholders. If GST demand of Rs. 212.66 million becomes payable, it would be eligible for additional tariff as per the PPA with regulatory authorities.

(All amounts in Rs. million unless otherwise stated)

Note 40: Segment reporting

The activities of the IndiGrid Group includes owning, operating, and managing power transmission networks, solar assets and battery storage assets. Given the nature of the Group's diversified operations and in accordance with the guidelines set forth in Ind AS - 108 - "Operating Segments," management has identified three distinct reportable business segments as "Power Transmission segment", "Power generation segment" and "Power storage segment". Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. Power transmission segment includes entities in the business of transmitting power through transmission towers. Power storage segment includes entities in the business of storing power in batteries. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM). Board of Directors has been identified as CODM.

Particulars	31 March 2025	31 March 2024
Segment Revenue		
Power Transmission	24,757.89	24,326.15
Power generation	7,744.55	4,313.40

Total Capital Expenditure	**4,047.38**	**40,707.04**

Revenue from one customer amounted to Rs. 24,809.68 million during the year ended 31 March 2025 (31 March 2024 : Rs. 24,326.15 million) arising from power transmission service rendered to various parties and billed to Power Grid Corporation of India Limited (PGCIL) under invoice pooling mechanism.

Geographic information

Non-current operating assets:

Particulars	31 March 2025	31 March 2024
India	220,861.44	227,330.04
Outside India	-	-
Total	**220,861.44**	**227,330.04**

Non-current assets for this purpose consist of property, plant and equipment, right-of-use assets, goodwill, intangible assets and capital work in progress.

For geographical revenue information, refer note 24.

Note 41: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	31 March 2025	31 March 2024
(i) The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro enterprises and small enterprises	21.27	30.40
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2024: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the suppliers / information available with the Group regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 42: Group as a lessee

Indigrid Limited (IGL) (a subsidiary of the Group) has lease contract for 2 office building used in its operations which have lease term of 5-9 years with lock-in-period of 3 years. Further IGL's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.

IndiGrid Solar-I (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

IndiGrid Solar-II (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

ReNew Solar Urja Private Limited (a subsidiary of the Group) has taken multiple leasehold lands which has lease terms of 30 - 35 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

The Group has taken multiple leasehold lands in various solar SPVs which has lease terms of 19 - 30 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

Maturity analysis of lease liabilities - Contractual undiscounted cash flows:

(Rs. in million)

Particulars	Less than 3 months	3 months to 12 months	1 to 5 years	More than 5 years	Total
31 March 2025					
Lease liability	15.27	47.97	313.73	622.14	999.11
Total	**15.27**	**47.97**	**313.73**	**622.14**	**999.11**
31 March 2024					
Lease liability	14.14	37.16	137.83	667.82	856.95
Total	**14.14**	**37.16**	**137.83**	**667.82**	**856.95**

The following are the amounts recognised in profit or loss:

	31 March 2025	31 March 2024
Depreciation expense of right-of-use assets	46.01	23.68
Interest expense on lease liabilities	42.49	13.24
Expense related to short term lease and low value assets (included in other expense)	16.56	23.10
Total amount recognised in profit or loss	**105.06**	**60.02**

The Group has no lease agreement with variable payments.

The effective interest rate of lease liability ranges from 9.00% to 12.25%.

Detail of Right of use assets and lease liabilities along with movements during the year are provided in note 4.

(All amounts in Rs. million unless otherwise stated)

Note 43: Financial risk management objectives and policies

The Group’s principal financial liabilities, other than derivatives, comprise loans and borrowings, trade payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group’s operations and to provide guarantees to support its operations. The Group’s principal financial assets include loans, trade receivables, and cash and cash equivalents that derive directly from its operations. The Group also holds investments in debt and equity instruments and enters into derivative transactions.
The Group is exposed to market risk, credit risk and liquidity risk. The Group’s senior management oversees the management of these risks. The Group’s senior management advises on financial risks and the appropriate financial risk governance framework for the Group. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group’s policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, bank deposits, debt and equity investments and derivative financial instruments and investments.

(i) Price Risk

The Group invests its surplus funds in mutual funds which are linked to debt markets. The Group is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Group diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Group's senior management on a regular basis

Particulars	% change in market value	31 March 2025	31 March 2024
		Effect on loss before tax	Effect on loss before tax
Mutual funds	0.50%	88.06	37.10

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

(ii) Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group’s exposure to the risk of changes in market interest rates relates primarily to the Group’s long-term debt obligations with floating interest rates.The Group has both fixed and fluctuating rate of borrowing. However, the interest rate risk is low since substantial portion of borrowing is at fixed rate i.e. 93.09% (31 March 2024 : 76.77%).

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group’s profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	% change in market value	31 March 2025	31 March 2024
		Effect on loss before tax	Effect on loss before tax
Increase in basis points	0.50%	(106.03)	(223.60)
Decrease in basis points	-0.50%	106.03	223.60

(iii) Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's foreign currency borrowings and payables in foreign currency (if any). The Group hedges its exposure to fluctuations on the translation into INR of its buyer / supplier's credit by using foreign currency swaps and forward contracts.

As at 31 March 2025, The Group did not have any foreign currency risk towards any assets / liabilities in foreign currency since the Group has effectively hedged 100% of the foreign currency exposure.

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions and other financial instruments.

Trade Receivables and contract assets
The Group through its subsidiaries is engaged in transmission business under BOOM (Build, Own, Operate and Maintain) model and currently derive its revenue primarily from BOOM contracts with long term transmission customers ('LTTC'). The Group also holds transmission infrastructure pertaining to Jhajjar KT Transco Private Limited, Ishanagar Private Transmission Limited, Dhule Private Transmission Limited, Ratle Kiru Private Transmission Limited, Kallam Transco Limited and Battery Energy Storage (Kilokari BESS Private Limited) which operates on a Design, build, finance, operate and transfer ("DBFOT") basis. Being transmission licensee, the Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the PoC method, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility ('CTU') from LTTC's are disbursed pro-rata to all Transmission Service Providers ('TSPs') from the pool in proportion of the respective billed amount. Due to this, the TSPs are shielded against any potential default by a particular customer. If a particular customer delays or defaults, the delay or shortfall is prorated amongst all the TSPs. Based on past history of payments, payments due have always been paid and there have been no write-off's for due amounts. Due to the payment mechanism explained above as well as due to no history of any write-off's of payments which were due, the Group has not considered any expected credit loss on the financial assets in the nature of trade receivables. During the various periods presented, there has been no change in the credit risk of trade receivables. However, this assessment may need a review if there is any change in the Pooling Regulations.

Similar mechnism is being followed in solar entities where there is only single customer i.e. various DISCOMs which are generally high rated public sector undertakings.

Financial Instruments and cash deposits
Credit risk from balances deposited/invested with banks and financial institutions as well as investments made in mutual funds, is managed by the Group’s treasury department in accordance with the Group’s policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty. Counterparty limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty’s potential failure to make payments. Based on this policy, the Group does not foresee any risk on account of credit losses, either in the bank deposits which are made with AAA rated banks and also in regard to mutual funds which is primarily debt oriented funds. No loss allowances have been provided for any trade receivables, or other receivables from financing activities like cash and bank deposits, mutual funds and other similar deposits. Also, there have been no modifications in contractual cash flows on financial assets.

The Group’s maximum exposure to credit risk for the components of the balance sheet as at 31 March 2025 is the carrying amounts of trade and other receivables, cash and cash equivalents and other assets as disclosed in Note 7, 8, 9, 12 and 13 respectively. However, the credit risk is low due to reasons mentioned above.

(C) Liquidity risk

Liquidity risk is the risk that the Group may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Group's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Group requires funds both for short term operational needs as well as for long term investment programs mainly in transmission projects. The Group closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Groups's financial liabilities based on contractual undiscounted payments:

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2025					
Borrowings	200,461.26	25,747.21	88,271.70	86,249.69	200,268.60
Interest payable	961.81	14,109.60	40,152.60	29,560.60	83,822.80
Trade payables	706.66	706.66	-	-	706.66
Other financial liabilities	4,056.08	4,056.08	-	-	4,056.08
Total -	**206,185.81**	**44,619.55**	**128,424.30**	**115,810.29**	**288,854.15**

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2024					
Borrowings	192,702.83	11,410.20	79,277.99	101,958.22	192,646.41
Interest payable	996.71	14,534.68	42,865.78	27,872.96	85,273.42
Trade payables	1,075.57	1,075.57	-	-	1,075.57
Other financial liabilities	3,448.16	3,448.16	-	-	3,448.16
Total	**198,223.27**	**30,468.61**	**122,143.77**	**129,831.18**	**282,443.56**

Note 44: Capital management

For the purpose of the Groups's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio optimum. The Group includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	31 March 2025	31 March 2024
Borrowings	200,461.26	192,702.83
Less: Cash and cash equivalents	(1,052.62)	(2,323.75)
Net debt (A)	**199,408.64**	**190,379.08**
Unit capital	83,322.54	76,454.08
Other equity	(31,691.64)	(23,549.28)
Total capital (B)	**51,630.90**	**52,904.80**
Capital and net debt ((C) = (A) + (B))	**251,039.54**	**243,283.88**
Gearing ratio (A)/(C)	**79%**	**78%**

Financial Covenants

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2025 and 31 March 2024

Note 45: Post Employment Benefits Plan

For all SPV's except PrKTCL

The Group has a defined benefit gratuity plan. Such plan is unfunded and and employees working under the above such SPVs are covered in this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.
The employee do not contribute towards this plan and the full cost of providing these benefits are met by the group. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Defined benefit obligation at the beginning of the year	20.01	6.86
Addition on account of acquisition of subsidiaries	-	11.06
Current service cost	7.16	6.22
Interest Cost on defined benefit obligation	1.25	1.31
Past service cost	-	-
Benefit paid directly by the employer	(4.47)	(2.41)
Remeasurements during the period due to:		
Actuarial (gain)/loss due to change in demographic assumptions	-	-
Actuarial (gain)/loss due to change in financial assumptions	0.93	(0.09)
Actuarial (gain)/loss on obligation due to experience	0.66	(2.94)
Present value of defined benefit obligation at the end of the year	**25.54**	**20.01**

Details of defined benefit obligation

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Present value of defined benefit obligation	25.54	20.01
Fair value of plan assets	-	-
Benefit liability	**25.54**	**20.01**

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Current service cost	7.16	6.22
Interest cost on defined benefit obligation	1.25	1.31
Past service cost	-	-
Net actuarial (gain) / loss recognised	-	-
Expected return on plan assets	-	-
Contribution by employer	-	-
Net benefit expense	**8.41**	**7.53**

Net employee benefit expense recognised in the other Comprehensive income:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Actuarial (gain)/loss on obligation for the year	1.59	(3.03)
Net (income)/expense for the year recognised in OCI	**1.59**	**(3.03)**

Amounts for the current and previous year are as follows:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Defined benefit obligation	25.54	20.01
Plan assets	-	-
Surplus / (deficit)	(25.54)	(20.01)

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Discount rate	6.70%	7.20%
Expected rate of return on plan asset	-	-
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	8.00%	8.00%
Actual rate of return on plan assets	-	-
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2025 and 31 March 2024 is as shown below:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Projected benefit obligation on current assumptions	25.54	20.01
Obligation after +1% Change in discount rate	(23.82)	(18.65)
Obligation after -1% Change in discount rate	27.42	21.47
Obligation after +1% Change in salary escalation rate	27.28	21.30
Obligation after -1% Change in salary escalation rate	(23.79)	(18.76)

The following is the expected payment of benefits in the future years:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Within the 1 year	2.37	1.82
Between 2 and 5 years	12.24	8.09
Between 6 and 10 years	9.56	9.97
Total expected payments	**24.17**	**19.88**

The weighted average durations to the payment of these cash flows is 2.82 - 9.32 years at the end of the reporting period.

For PrKTCL

The Company has a defined benefit gratuity plan. Such plan is funded and employees working under Parbati Koldam Transmission Company Limited are covered under this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.

The employee do not contribute towards this plan and the full cost of providing these benefits are met by the Company. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Defined benefit obligation at the beginning of the year	5.32	4.59
Current service cost	0.42	0.40
Interest Cost	0.36	0.32
Past service cost	-	-
Benefit paid directly by the employer	(0.28)	(0.27)
Remeasurements during the period due to:		
Actuarial (gain)/loss due to change in demographic assumptions	-	-
Actuarial (gain)/loss due to change in financial assumptions	0.22	0.38
Actuarial (gain)/loss on obligation due to experience	0.14	(0.10)
Present value of defined benefit obligation at the end of the year	**6.18**	**5.32**

Details of defined benefit obligation

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Present value of defined benefit obligation	6.18	5.32
Fair value of plan assets	(13.76)	(13.03)
Benefit recognized as advance gratuity	**(7.58)**	**(7.71)**

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Current service cost	0.42	0.40
Interest cost on defined benefit obligation	0.36	0.32
Past service cost	-	-
Expected return on plan assets	(0.93)	(0.94)
Contribution by employer	-	-
Net benefit expense	**(0.15)**	**(0.22)**

Net employee benefit expense recognized in the Other Comprehensive Income:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Actuarial (gain)/loss on obligation for the year	0.36	0.28
Return on plan assets , excluding interest income	(0.07)	0.63
Net (income)/expense for the year recognized in OCI	**0.29**	**0.91**

Changes in Fair Value of plan assets:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Opening value of plan assets	**13.03**	12.72
Actuarial (gain)/loss on obligation for the year	-	-
Interest cost/(income) on plan assets	0.93	0.94
Actual return on plan assets less interest/(income) on plan assets	0.07	(0.63)
Closing Balance of Fair Value of Plan Assets	**13.76**	**13.03**

Amounts for the current and previous year are as follows:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Defined benefit obligation	6.18	5.32
Plan assets	(13.76)	(13.03)
Surplus / (deficit)	**7.58**	**7.71**

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Discount rate	6.60%	7.20%
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	8.00%	8.00%
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2025 and 31 March 2024 is as shown below:

Particulars	31 March 2025 (Rs. in million)	31 March 2024 (Rs. in million)
Projected benefit obligation on current assumptions	6.18	5.32
Obligation after +1% Change in discount rate	(4.31)	(4.99)
Obligation after -1% Change in discount rate	4.90	5.67
Obligation after +1% Change in salary escalation rate	4.90	5.67
Obligation after -1% Change in salary escalation rate	(4.31)	(4.99)

The following is the expected payment of benefits in the future years:

Particulars	**31 March 2025 (Rs. in million)**	**31 March 2024 (Rs. in million)**
Within the 1 year	0.97	1.05
Between 2 and 5 years	2.12	2.33
Between 6 and 10 years	1.44	1.93
Total expected payments	**4.53**	**5.31**

The weighted average durations to the payment of these cash flows is 7.16 years at the end of the reporting period.

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

These plans typically expose the Group to actuarial risks such as:

Interest Risk
A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan debt investments.

Salary Risk
The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Note 46: Long Term Incentive Plan

Long Term Incentive Plan 2022, 2023 and 2024

During the year ended 31 March 2023, the Group launched a Long-Term Incentive Plan 2022 ("Scheme"). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 19 May 2022 and approved by the Board at its meeting held on 19 May 2022. The Scheme is established with effect from 01 April 2022 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

During the year ended 31 March 2024, the Group launched a Long-Term Incentive Plan 2023 ("Scheme"). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 11 May 2023 and approved by the Board at its meeting held on 12 May 2023. The Scheme is established with effect from 01 April 2023 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

During the year ended 31 March 2025, the Group launched a Long-Term Incentive Plan 2024 ("Scheme"). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 24 May 2024 and approved by the Board at its meeting held on 24 May 2024. The Scheme is established with effect from 01 April 2024 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

Particulars	**31 March 2025**	**31 March 2024**
Opening balance as at the beginning of the year	17.74	17.52
Transfer in/(out) obligation	-	-
LTIP granted during the year	18.06	14.24
LTIP cancelled during the year	-	(2.34)
Payment towards LTIPs vested	(17.31)	(14.64)
Balance	**18.49**	**14.78**
Provision for distribution	3.85	2.96
Closing balance as at the end of the year	**22.34**	**17.74**
Recognised in Profit and Loss statement	21.91	14.86

During the year, the Group has granted 0.15 million units of the Trust to eligible employees under the Long-Term Incentive Plan 2024 ("Scheme") as approved by the Nomination and Remuneration Committee and by the Board at the meetings held on 24 May 2024.

Vesting of Unit Linked Rights shall be subject to the conditions that the Grantee is:
a. in continuous employment with the Group;
b. is not serving any notice of resignation/ termination on the date of such Vesting (except in the case of (a) death; (b) Permanent Incapacity suffered by the Grantee; or (c) Retirement; and
c. is not subject to any pending disciplinary proceeding.

The Value of the payout would be determined as per following formula:
Value of the vested Unit Linked Rights = Number of Unit Linked Rights Vested * 30 days closing volume weighted average# of IndiGrid market price + (Distribution* earned on the unvested units).

Volume weighted average price of per unit is the 30 days closing average of IndiGrid market price (From 02 March 2025 to 31 March 2025).

Distribution payout is subject to actual declaration accumulated on units and approval for IndiGrid Infrastructure Trust.

(All amounts in Rs. million unless otherwise stated)

1. The Group has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Group has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of the Group.

Refer note 48 for further details.

1A. Further during the previous year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid, in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of investment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TSESPL from GSPPL, TSEPPL from GSPPL, and TSETPL from TSECPL, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

2. The Group has acquired Kilokari BESS Private Limited with effect from 06 November 2023.

3. The Group has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024.

4. In March 2024 quarter, the Trust acquired ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited. Further as part of internal restructuring, the Trust has transferred 100% holding of RSUPL to IGL2 over a period of time to optimize IndiGrid's asset structure. Further, during the March 2025 quarter, the Trust has invested in the NCD's of Enerica Regrid Infra Private Limited (Enrica) and have also entered into an interse agreement to transfer 26% of equity shares of RSUPL to Enrica. In accordance with the terms of the interse agreement, terms of the NCD's subscribed by the Trust and as per Ind AS 115, the Group has concluded that it owns 100% of beneficial and economical interest in RSUPL and accordingly 100% of RSUPL has been consolidated by the Group and no Non controlling ineterst has been accounted for.

5. The Group has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Limited with effect from 24 March 2025.

6. Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) were aquired by IGL w.e.f. 08 September 2023. These entities are now merged with IGL w.e.f. 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024.

* On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Group shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

During the current year, the Group has settled the outstanding amount payable to the erstwhile seller for the acquisition of SPVs. Any resulting gain or loss from this settlement has been adjusted against the goodwill recorded against these SPVs.

Refer note 33 for significant accouting judgements applied relating to consolidation of subsidiaries.

Note 48: Business Combination

The Group has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Group has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid.

The Group has accounted the acquisition of VRET as business acquisition in accordance with Ind 103 "Business Combination" based on valuation done by independent valuer in the consolidated financial statement for year ended 31 March 2024. Detail of net assets acquired, resultant goodwill and customer contract recognized as per below table -

Particulars	VRET	Virescent IM
Assets		
Property, plant and equipments	20,326.36	5.32
Land	2,292.68	-
Customer contracts	14,003.39	-
Other intangibles	-	3.97
Cash & Cash Equivalents	-	170.35
Inventories	154.16	-
Trade receivables	1,315.67	-
Income tax asset	59.82	49.74
Other assets	529.33	31.93
Total assets	**38,681.41**	**261.30**
Liabilities		
Trade Payables	318.85	27.88
Lease Liabilities	2.33	-
Employee benefit obligation	37.70	27.41
Current tax liabilities	37.29	-
Other liabilities	249.73	21.30
Total liabilities	**645.90**	**76.59**
Total identifiable net assets (excluding DTL impact) (A+B+C)	**38,035.52**	**184.71**
Non-controlling interest (D)	(34.26)	-
Goodwill arising on acquisition (E)	542.74	-
Purchase consideration (A+B+C+D+E)*	**38,544.00**	**184.71**
Deferred tax liability (DTL) on revaluation (F)	2,551.60	-
Goodwill (including DTL impact) (E+F)	**3,094.34**	**-**

Analysis of cash flows on acquisition:	VRET SPV's	Virescent IM
Transaction costs of the acquisition (included in cash flows from investing activities)	(40.85)	-
Net cash acquired with the subsidiaries (included in cash flows from investing activities)	2,650.48	170.35
Net cash flow on acquisition	**2,609.63**	**170.35**

* Out of total purchase consideration, Rs. 22,994.40 million has been paid through cash and rest through acquisition of other net assets.

Notes:

(i) The goodwill of Rs. 3,094.34 million comprises the value of expected synergies arising from this acquisition. Whenever there will be impairment of goodwill, the same will be non deductible for tax purpose.
(ii) The deferred tax liability mainly comprises the tax effect of the accelerated depreciation for tax purposes of Property, plant & equipment and intangible assets.
(iii) The fair value of receivables acquired is approximately equal to their book vaue.
(iv) There is no contingent consideration attached to this acquisition.
(v) The fair value of the non-controlling interest in Terralight Solar Energy Sitamau SS Private Limited has been estimated by applying a discounted earnings technique.
(vi) The Group acquired contingent liability of Rs. 98.83 million as a part of acquistion of VRET and the same is recoverable as per share purchase agreement from selling shareholders.
(vii) The above purchase consideration does not include cash and cash equivalents and other bank balance.

From the date of acquisition till 31 March 2024, VRET SPV's has contributed Rs. 3,085.88 million of revenue and Rs. 2,817.57 million to the EBITDA of the Group. If the combination had taken place at the beginning of the previous year, revenue from continuing operations would have been Rs. 30,851.70 million and EBITDA of the Group would have been Rs. 26,468.64 million for the year ended 31 March 2024.

Furthermore, VRET IM and VRET PM were merged with IGL effective 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024.

Note 49: Regulatory Deferral Account Balances

Regulatory Assets / (Liability) with respect to entity Parbati Koldam Transmission Limited:
In accordance with the Guidance Note on Rate Regulated Activities issued by Instiiute of Chartered Accountants of India (ICAI), the reconciliation of the Regulatory Assets / (Liabilities) of PrKTCL (a subsidiary of the Group) is as under:

(Rs. in million)

Particulars	As at 31 March 2025	As at 31 March 2024
Regulatory Asset / (Liability)		
Opening Balance	-	-
Add: Accrued during the period		
For Current Period / Year		
- Return on Equity	-	-
Regulatory Asset / (Liability) on account of Deferred Account balance	(3.19)	(0.19)
Less: Deferred Tax on defferal liability	0.56	0.03
Total	**(2.63)**	**(0.16)**
Less: Payable / (Recoverable) from beneficiaries	2.63	0.16
Closing Balance	**-**	**-**
Deferred Tax Liability		
Opening Balance	648.55	648.74
Add: Deferred Tax Liability during the period / year	(3.19)	(0.19)
Total	**645.36**	**648.55**
Less: Recoverable from beneficiaries	(645.36)	(648.55)
Closing Balance	**-**	**-**

Regulatory deferral account debit/ credit of the company :

(i) Determination of Transmission service charges (TSC) chargeable by PrKTCL to its consumers is governed by CERC Tariff Regulation, 2019, whereby CERC determines the Transmission service charges wherein PrKTCL earns assured return of 15.5% p.a. post tax on CERC approved equity in the business. The rate review on account of grossing up with the actual tax rate or "truing up" process during the tariff period is being conducted as per the principle stated in CERC Regulations to adjust the tariff rates downgrade or upgrade to ensure recovery of actual tax paid and assured return on equity.

(ii) During the truing up process, revenue gaps (i.e. surplus/shortfall in actual returns over returns entitled) are determined by the regulator and are permitted to be carried forward as regulatory assets/ regulatory liabilities which would be recovered / refunded through future billing based on future tariff determination by the regulator. At the end of each accounting period, PrKTCL also determines regulatory assets/regulatory liabilities in respect of each accounting period on self true up basis.

Market Risk
PrKTCL is in the business of developing the Transmission Line for supplying the eletricity to beneficiary, therefore no demand risk anticipated because the License issued by the CERC for 25 years. The Project is constructed under Cost Plus Contract.

Regulatory Risk
(i) PrKTCL is Operating under Regulatory Environment governed by Central Electricity Regulatory Commission (CERC). Tariff is subject to Rate Regulated Activities.

(ii) PrKTCL determine revenue gaps (i.e. surplus / shortfall in actual returns over returns entitled) in respect of their regulated operations as given in the Guidance Note on Rate Regulated Activities and based on the principles laid down under the relevant tariff regulations / tariff orders notified by the CERC and the actual or expected actions of the regulators under the applicable regulatory framework. Appropriate adjustments in respect of such revenue gaps are made in the respective years for the amounts which are reasonably determinable and no significant uncertainty exists in such determination. These adjustments / accruals representing revenue gaps are carried forward as regulatory defferal account debit / credit balances which would be recovered / refunded through future billing based on future tariff determination by the regulators in accordance with the respective electricity regulations.

(iii) The key risks and mitigating actions are also placed before the Audit Committee of PrKTCL. PrKTCL's risk management policies are established to identify and analyze the risks faced by PrKTCL, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and PrKTCL's activities.

(iv) PrKTCL's risk for Regulatory Assets are monitored by the Regulatory Team under policies approved by the Board of Directors. The Team identifies, evaluates and protect risks in close cooperation with PrKTCL's operating units. The board provides principles for overall risk management, as well as policies covering specific areas.

(v) Regulatory Assets recognized in the Books of Accounts of PrKTCL are subject to True up by CERC as per Regulation.

Net tax recoverable from beneficiaries:
1. In accordance with the CERC tariff regulation for determination of tariff, the income-tax paid is considered for tariff determination (truing up). Accordingly, PrKTCL has considered Rs. 645.36 (31 March 2024 Rs. 648.55) deferred tax liability as on 31 March 2025 as Net tax recoverable from beneficiaries.

2. As per the Standard, deferred tax on timing differences which reverse during the tax holiday period should not be recognised. For this purpose, the reversal during the tax holiday period is adjusted against the deferred tax liability created till FY 2024-2025.

Note 50: Code on Social Security

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. Certain sections of the Code came into effect on 3 May 2023. However, the final rules/interpretation have not yet been issued. Based on a preliminary assessment, the Group believes the impact of the change will not be significant.

Note 51: Subsequent event

On 15 May 2025, the Board of directors of the Investment Manager approved a distribution of Rs. 4.10 per unit for the period 01 January 2025 to 31 March 2025 to be paid within 5 working days from the record date.

Note 52: Other Information

(i) The Group does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
(ii) The Group does not have any transactions with struck off Companies.
(iii) The Group have not traded or invested in Cryptocurrency or Virtual Currency during the financial period.
(iv) The Group has not advanced or loaned or invested funds to any other persons or entities, including foreign entities (intermediaries) with the understanding that the intermediary shall:
(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (ultimate beneficiaries) or
(b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries
(v) The Group has not received any fund from any persons or entities, including foreign entities (funding party) with the understanding (whether recorded in writing or otherwise) that the Group shall:

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of India Grid Trust

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of India Grid Trust (hereinafter referred to as "the InvIT"), its subsidiaries (the InvIT and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2024, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Unit Holders' Equity for the year then ended, the consolidated Statement of Net Assets at Fair Value as at March 31, 2024, the consolidated Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCF') of the InvIT, the underlying Holding Companies ("HoldCos") and each of its Subsidiaries for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 , as amended including any guidelines and circulars issued thereunder (together referred as the "InvIT Regulations" in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2024, its consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in unit holder's funds for the year ended March 31, 2024, its consolidated net assets at fair value as at March 31, 2024, its consolidated total returns at fair value and the net distributable cash flows of the InvIT, the underlying HoldCos and each of its subsidiaries for the year ended March 31, 2024.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis Of Matter

We draw attention to Note 13(e) of the Consolidated Financial Statement which describes the presentation/classification of "Unit Capital" as "Equity" instead of the applicable requirements of Ind AS 32 - Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
<u>Non applicability of Appendix D 'Service Concession Arrangements' of Ind AS 115 'Revenue from contracts with customers'</u> *(as described in Note 31 of the consolidated financial statements)*	
The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25/35 years in case of Transmission Assets and acts as a Solar Power Developer in case of Solar Assets. Generally, the subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff-based bidding process to Build, Own, Operate and Maintain ("BOOM")/ Build, Own and Operate ("BOO)" the transmission infrastructure for a period of 25/35 years or have entered into Power Purchase Agreements ("PPA") with various National or Regional Intermediaries which are designated by the Government, for development of solar power project, generation and sale of solar power with a contractual period of 25 years at a fixed tariff. The Management of Investment Manager ("the management") is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee or solar power developer to obtain various approvals under the regulatory framework to conduct its operations both during the period of the license or power purchase agreement as well as at the end of the license period or expiry date of power purchase agreement. In the view of management, generally the grantor's involvement and approvals are to protect public interest and are not intended to control,	Our audit procedures included, among others, the following: • We obtained and read the TSAs/ PPAs to understand roles and responsibilities of the grantor. • We read and evaluated the TSAs/ PPAs to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise. • We discussed with the management regarding the extent of grantor's involvement in the transmission/ solar assets and grantor's intention not to control the significant residual interest through ownership, beneficial entitlement or otherwise. • We assessed the positions taken by other entities in India with similar projects/TSAs/ PPAs as to the extent of involvement of the grantor and the consequent evaluation of the applicability of Appendix D for such entities and confirmed our understanding.

Key audit matters	How our audit addressed the key audit matter
through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission/solar infrastructure at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D is not applicable to the Group for all transmission assets operating under BOOM/ BOO model and for Solar assets. Considering the judgement involved in determining the grantor's involvement and whether the grantor controls, through ownership, beneficial entitlement or otherwise, and any significant residual interest in the transmission/solar infrastructure at the end of the term of the arrangement, this is considered as a key audit matter.	• We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.
<u>Key judgements and estimates used in the application of Appendix D 'Service Concession Arrangements' of Ind AS 115 'Revenue from contracts with customers' in subsidiary of the Group which performs on Design, Build, Finance, Operate and Transfer (DBFOT) / Build Own Operate and Transfer ("BOOT") basis</u> *(as described in Note 31 of the consolidated financial statements)*	
Subsidiaries identified in Note 31 acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 years issued by relevant Regulatory Authority has entered into TSA with through a tariff-based bidding process to Design, Build, Finance, Operate and Transfer ("DBFOT")/ or Build Own Operate and Transfer ("BOOT") the transmission infrastructure for a period of 25 years. The Group constructs Transmission infrastructure and operates and maintains such infrastructure for a specified period of time. The infrastructure constructed by the Group is not recorded as property, plant and equipment of the Group because the TSA does not transfer to the concessionaire the right to control the use of public services infrastructure after the end of the Contract. The group only has the right to operate the infrastructure for the provision of public services on behalf of the grantor, as provided in the contract. And accordingly, under the terms of the TSA, the Group only acts as a service provider. Hence this arrangement is accounted for under Appendix D – 'Service Concession Arrangements' to Ind AS 115 – 'Revenue from contracts with customer'. The Group has classified the concession arrangements under financial asset model since the operator has an unconditional contractual right to receive cash or other financial assets from or at the direction of the grantor for the services.	Our audit procedures included, among others, the following: • We evaluated terms of the TSA to understand roles and responsibilities of the grantor. • We tested, on sample basis, the base data and supporting documents for basis of key assumptions and estimates used by the management. • We read and evaluated the TSA to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise. • We evaluated the management's assessment process for applicability of Appendix D of Ind AS 115 for transmission projects based on the terms of the agreement and tested the judgements/ estimates relating to future cash flows over the concession period, and discounting rate used to discount expected cash flows. • We tested the arithmetical accuracy of the valuation models.

Key audit matters	**How our audit addressed the key audit matter**
Accordingly, the above matter was determined to be a key audit matter in our audit of the consolidated financial statements.	• We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.
<u>Impairment of Property, plant and equipment, Service concession arrangements and Goodwill</u> *(as described in Note 3,4, 7 and 31 of the consolidated financial statements)*	
The Group owns and operates various power transmission and generation assets. The carrying value of the power transmission and solar generation assets as at March 31, 2024 are included under property, plant and equipment and service concession receivable. In the current year the group has recognized goodwill of Rs. 3,094.34 million in a business combination upon acquisition of Virescent Renewable Energy Trust and its subsidiaries. In accordance with Ind AS 36 and Ind AS 109, at each reporting period end, management assesses the existence of impairment indicators of property, plant and equipment and service concession arrangements. In case of existence of impairment indicators, property, plant and equipment and service concession receivable balances are subjected to impairment test. Further, goodwill recognized in a business combination is to be allocated to the acquirer's cash-generating units ("CGU's") expected to benefit from the synergies of the combination and should be tested for impairment annually. The processes and methodologies for assessing and determining the fair value for the purpose of impairment testing is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's transmission license or solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and	Our audit procedures included, among others, the following: • We obtained an understanding of the Group's process on assessment of impairment of property, plant and equipment, service concession receivables and goodwill, the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report of the Group's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in impairment testing and to test the assumptions. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management.

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td>complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.</td><td>We tested completeness, arithmetical accuracy and validity of the data used in the calculations.
Obtained Management Representation Letter as regards to fair valuation of these investments.
We have read and assessed the disclosures included in the notes to the consolidated financial statements.</td></tr>
<tr><td colspan="2">Assessment of control over subsidiary
(as described in Note 31 of the consolidated financial statements)</td></tr>
<tr><td>The Group has entered into a definitive Sale Purchase Agreement (SPA) with the selling shareholders for the acquisition of 100% ownership in the entities outlined in Note 31 of the financial statements. However, due to certain contractual limitations present in the Power Purchase Agreement (“PPA”) and Transmission Service Agreement (“TSA”) established between the regulatory authority and the entities, the complete transfer of share capital to the Group is not effected at the time of executing the SPA.

During the current year, group has acquired Renew Solar Urja Private Limited (“RSUPL”) on February 24, 2024 and has paid the entire purchase consideration for 100% ownership. However only 49% of the equity share capital has been acquired and a definitive agreement is in place to acquire the balance 51% of the equity share at later date.

Based on the contractual terms in the SPA with selling shareholders, the Group has following rights:
Right to receive all distributions and dividends declared, paid or made, such that Group shall receive full legal and beneficial ownership and all rights thereto;
Right to nominate majority of directors on the Board of directors;
Right to direct the Selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;</td><td>Our audit procedures included, among others, the following:

We obtained and read the share purchase agreement with the selling shareholder for acquisition of equity stake.
We obtained understanding of management’s assessment of whether the Group controls the said entity acquired.
We read and understood the Group’s accounting policy for consolidation.
We discussed with management the contractual terms and rights available to the Group pursuant to the agreement.
We read and evaluated the requirements for consolidation of entity under Ind AS 110.
We read and assessed the disclosures included in the consolidated financial statements.</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
• The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake. Considering the requirements under Ind AS 110, the Group has assessed whether it controls the entities based on the above rights under the Agreement. Accordingly, the Group has consolidated the entities identified in Note 31 to the financial statement as a 100% subsidiary from the date of acquisition. Considering the judgment required in assessing whether the Group controls RSUPL and other subsidiaries where control exist is considered as a key audit matter.	
<u>Classification of acquisition of Transmission/ Solar Special Purpose Vehicles (“SPVs”) or group of SPV’s as an Asset Acquisition or Business Combination</u> *(as described in Note 31 of the consolidated financial statements)*	
The Group acquires operational transmission/ solar SPVs or group of SPV’s from the Sponsor or from third parties. In case of single SPV, generally the purchase consideration primarily pertains to the fair value of the transmission assets/ solar assets. All such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements/ Power Purchase Agreements (TSAs/PPAs) for 25/35 years. The only key activity for these SPVs is the maintenance of the transmission assets/ solar assets which is outsourced to third parties. During the year Group has made the following acquisitions: - Virescent Renewable Energy Trust (“VRET”) along with its step down SPV’s engaged in the generation of solar power and one transmission SPV engaged in the transmission of electricity, the investment manager and project manager of the VRET trust through a single Share Purchase Agreement (“SPA") - Renew Solar Urja Private Limited (“RSUPL”) as a single SPV engaged in the business of solar power generation. - Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited through tariff based bidding process to Build, Own Operate and Transfer	Our audit procedures included, among others, the following: • We obtained and evaluated the share purchase agreements to understand the key terms and conditions of the acquisition; • We discussed with the management the key assumption underlying the Group’s assessment and tested the underlying data used for classification made by the Group. • We read the relevant guidance under Ind AS on determining if the acquired SPV’s or group of SPV’s constitutes a business acquisition or asset acquisition. • We assessed the Group’s determination of fair values for assets and liabilities acquired and the methods used to value the underlying net assets by: - Evaluating the competence and objectivity of the valuation expert engaged by the management to determine the fair values of identifiable assets and liabilities; - Involving our internal valuation experts to assist us in evaluating the reasonableness of valuation

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td>Under Ind AS 103- Business Combinations, any acquisition involves evaluation of various parameters such as:

- Whether the said acquisitions meets the definition of business (whether the business has input, process and output) or asset acquisition;

- Allocation of purchase consideration between identifiable assets and liabilities, including intangibles;

- Measurement of fair value of identifiable assets acquired and liabilities assumed, use of key assumptions such as discount rate and valuation methodology adopted;

- Recognition of goodwill/ gain on bargain purchase consequent to acquisition of business.

- Apply optional concentration test to check whether the consideration paid is substantially associated with value of single recognized asset and to account for it accordingly as asset acquisition.

Considering the complexity of the transaction and significant management judgement involved in determining the nature of acquisition (whether asset or business acquisition), it is considered as a key audit matter.</td><td>methodology and appropriateness of key assumptions used such as discount rates, with reference to our understanding of the Group's business and industry, historical trends and underlying business strategies and growth plans;

• We read and assessed the Group's accounting policy for recognition and classification on the acquisition of transmission/ solar SPVs.

• We read and assessed the disclosures in the consolidated financial statements for compliance with the relevant accounting standards requirement.</td></tr>
<tr><td colspan="2"><u>Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations</u>
(as described in Note 31 of the consolidated financial statements)</td></tr>
<tr><td>The Group is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been carried out by the independent valuer appointed by the Group.

For the purpose of the above, fair value is determined by forecasting and discounting future cash flows.

The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's transmission licensce and Solar power</td><td>Our audit procedures included, among others the following:
• We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.
• We discussed with the management and obtained an understating of the Group's policy on the assessment of fair value and the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls.
• We obtained understating of the Group's process for preparation statement of Net Assets at Fair Value and Statement of</td></tr>

Key audit matters	How our audit addressed the key audit matter
purchase agreements, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation reports of the InvIT's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We evaluated independent valuation expert's methodology, assumptions and estimates used in the calculations. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in calculation of fair value of assets including the assumption used in valuation. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs/ PPAs / tariff orders. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • Obtained Management Representation Letter as regards to fair valuation of these investment. • We read and assessed the disclosures included in the notes to the consolidated financial statements.

Other Information

The management of IndiGrid Investment Managers Limited (the "Investment Manager") is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, If we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance.

Responsibilities of Management for the Consolidated Financial Statements

The Management of the Investment Manager ('the Management') is responsible for the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and the consolidated movement of the unit holder's funds for the year ended March 31, 2024, consolidated net assets at fair value as at March 31, 2024, the consolidated total returns at fair value of the InvIT and the net distributable cash flows of the InvIT, the underlying HoldCos and each of its subsidiaries in accordance with the requirements of InvIT Regulations; the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, (as amended) and other accounting principles generally accepted in India,. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the management, as aforesaid.

In preparing the consolidated financial statements, the Board of Directors of the Investment Manager and the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those Management and Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

We communicate with those charged with governance of the InvIT and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries we report, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Consolidated Balance Sheet and the Consolidated Statement of Profit and Loss are in agreement with the books of account;

(c) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards (Ind AS) and/or any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended;

(d) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.

C. Net assets (A-B)	53,842.44	1,05,804.91	50,404.84	92,986.81
D. Non-Controlling Interest	937.73	1,461.85	827.89	827.89
E. Net assets attributable to Indigrid (C-D)	52,904.71	1,04,343.05	49,576.95	92,158.92
F. Number of units	783.67	783.67	700.18	700.18
G. NAV (E/F)	67.51	133.15	70.81	131.62

Fair values of subsidiaries/SPVs are calculated based on their independent fair values done by experts appointed by the Group. The fair value of all these revenue-generating assets is determined using discounted cash flows method. The group holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74% and TSESPL in which it holds 66% and balance is accounted for as non-controlling interest in the consolidated financial statements.

Project wise breakup of fair value of assets as at 31 March 2024

Project	31 March 2024	31 March 2023

Total assets	**3,09,533.93**	**2,44,705.79**

1. The Group has acquired Raichur Sholapur Transmission Company Private Limited with effect from 09 November 2022.
2. The Group has acquired Khargone Transmission Limited with effect from 02 March 2023.
3. The Group has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Group has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of the Group.

Refer note 45 for further details.

3A. Further during the current year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid, in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of inestment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TL Sitamauss from Globus, TL Patlasi from Globus, and TL Tinwari from TL Charanka, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

4. The Group has acquired Kilokari BESS Private Limited with effect from 06 November 2023.

5. The Group has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024.

6. The Group acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 ("SPA"). The Group has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Group has beneficial interest based on the rights available to it under the SPA.

Further as part of internal restructuring, the Trust has transferred 49% holding of RSUPL to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. As a result of this internal restructring, the Trust has the beneficial owner for remaining 51% shares of RSUPL.

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	31 March 2024	31 March 2023
Total comprehensive income (as per the statement of profit and loss)	2,938.77	4,660.53
Add/ (Less): other changes in fair value not recognized in total comprehensive income	9,380.51	5,338.99
Total Return	**12,319.28**	**9,999.52**

Notes:
1. Fair value of assets as at 31 March 2024 and as at 31 March 2023 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 32A.

INDIA GRID TRUST
Notes to Consolidated Financial Statements for the year ended 31 March 2024
(All amounts in Rs. million unless otherwise stated)

Disclosures pursuant to SEBI Circulars
(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023)

A) Statement of Net Distributable Cash Flows (NDCFs) of India Grid Trust

Description	31 March 2024	31 March 2023
Cash flows received from the Portfolio Assets in the form of interest	**23,373.08**	**17,768.08**
Cash flows received from the Portfolio Assets in the form of dividend	803.35	221.90
Any other income accruing at IndiGrid level and not captured above, including but not limited to interest/return on surplus cash invested by IndiGrid	361.42	259.18
Cash flows received from the Portfolio Assets towards the repayment of the debt issued to the Portfolio Assets by IndiGrid	3,847.05	1,665.40
Proceeds from the Portfolio Assets for a capital reduction by way of a buy back or any other means as permitted, subject to applicable law	-	-
Proceeds from sale of assets of the Portfolio Asset not distributed pursuant to an earlier plan to re-invest, or if such proceeds are not intended to be invested subsequently	-	-
Total cash inflow at the IndiGrid level (A)	**28,384.90**	**19,914.56**
Less: Any payment of fees, interest and expense incurred at IndiGrid level, including but not limited to the fees of the Investment Manager and Trustee (refer note i and ii)	(14,062.76)	(10,236.69)
	-	-
Less: Costs/retention associated with sale of assets of the Portfolio Assets:	-	-
-related debts settled or due to be settled from sale proceeds of Portfolio Assets;	-	-
-transaction costs paid on sale of the assets of the Portfolio Assets; and	-	-
-capital gains taxes on sale of assets/ shares in Portfolio Assets/ other investments.	-	-
Less: Proceeds reinvested or planned to be reinvested in accordance with Regulation 18(7)(a) of the InvIT Regulations	-	-
	-	-
Less: Repayment of external debt at the IndiGrid level and at the level of any of the underlying portfolio assets/special purpose vehicles (Excluding refinancing)	-	-
	-	-
Less: Income tax (if applicable) at the standalone IndiGrid level	(32.00)	(31.96)
Less: Amount invested in any of the Portfolio Assets for service of debt or interest	(3,252.80)	(597.79)
Less: Repair work in relation to the projects undertaken by any of the Portfolio Assets	-	-
Total cash outflows / retention at IndiGrid level (B)	**(17,347.56)**	**(10,866.44)**
Net Distributable Cash Flows (C) = (A+B)	**11,037.34**	**9,048.12**

Notes:
1. The Group acquired VRET on 25 August 2023 and as per regulatory approval the Group has filed for the disloution of VRET. The effective date of disolution is 08 September 2023. Accordingly the NDCF with respect to VRET for the period of acquisition till the date of disolution is considered for the purpose of calulation of NDCF for the year ended 31 March 2024.
2. SEBI has announced a revised formula for calculating NDCF (Net Distributable Cash Flow) under the InvIT Regulation, slated to come into effect from 01 April 2024.

B) Statement of Net Distributable Cash Flows (NDCFs) of underlying Holdcos and SPVs

(i) IndiGrid Limited (IGL) (Holdco)

Description	31 March 2024	31 March 2023
Profit/(loss) after tax as per profit and loss account (A)	**(1,166.65)**	**(338.72)**
Add: Depreciation, impairment and amortisation	54.84	36.97
Add/Less: Decrease/(increase) in working capital	(21.02)	(52.72)
Add: Interest accrued on loan/non-convertible debentures issued to IndiGrid	422.01	390.71
Add/less: Loss/gain on sale of infrastructure assets	-	-
Add: Proceeds from sale of infrastructure assets adjusted for the following:	-	-
-related debts settled or due to be settled from sale proceeds;	-	-
-directly attributable transaction costs;	-	-
-proceeds reinvested or planned to be reinvested as per Regulation 18(7)(a) of the InvIT Regulations	-	-
Add: Proceeds from sale of infrastructure assets not distributed pursuant to an earlier plan to re-invest, if such proceeds are not intended to be invested subsequently, net of any profit / (loss) recognised in profit and loss account	-	-
Less: Capital expenditure, if any	(135.42)	-
Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items)	0.47	-
-any decrease/increase in carrying amount of an asset or a liability recognised in profit and loss account on measurement of the asset or the liability at fair value;	(0.05)	-
-interest cost as per effective interest rate method (difference between accrued and actual paid);	-	-
-deferred tax;	(54.16)	(69.51)
-unwinding of Interest cost on Non convertible debentures issued at interest rate lower than market rate of interest	-	-
-portion reserve for major maintenance which has not been accounted for in profit and loss statement;	-	-
-reserve for debenture/ loan redemption (Excluding any reserve required by any law or as per lender's agreement)	-	-
Amortization of Upfront fees	-	-
Less: Repayment of external debt (principal) / redeemable preference shares / debentures, etc. (Excluding refinancing) / net cash set aside to comply with DSRA requirement under loan agreements	-	-
Total Adjustments (B)	**266.68**	**305.45**
Net Distributable Cash Flows (C) = (A+B)	**(899.98)**	**(33.27)**

(This space has been left blank intentionally)

(All amounts in Rs. million unless otherwise stated)

(ii) Bhopal Dhule Transmission Company Limited (BDTCL) (SPV)

Description	31 March 2024	31 March 2023
Profit/(loss) after tax as per profit and loss account (A)	**(1,392.76)**	**(728.48)**
Add: Depreciation, impairment and amortisation	718.80	714.41

(All amounts in Rs. million unless otherwise stated)

(xxxv) Godawari Green Energy Private Limited ("GGEPL") (SPV)

Description	25 August 2023* to 31 March 2024 (Unaudited)
Profit/(loss) after tax as per profit and loss account (A) (pertaining to period post acquisition by IndiGrid)	**(99.12)**
Add: Depreciation, impairment and amortisation	230.99
Add/Less: Decrease/(increase) in working capital	(82.22)
Add: Interest accrued on loan/non-convertible debentures issued to IndiGrid	239.00
Add/less: Loss/gain on sale of infrastructure assets	-
Add: Proceeds from sale of infrastructure assets adjusted for the following:	-
-related debts settled or due to be settled from sale proceeds;	-
-directly attributable transaction costs;	-
-proceeds reinvested or planned to be reinvested as per Regulation 18(7)(a) of the InvIT Regulations	-
Add: Proceeds from sale of infrastructure assets not distributed pursuant to an earlier plan to re-invest, if such proceeds are not intended to be invested subsequently, net of any profit / (loss) recognised in profit and loss account	-
Less: Capital expenditure, if any	1.69
Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items)	
-any decrease/increase in carrying amount of an asset or a liability recognised in profit and loss account on measurement of the asset or the liability at fair value;	(0.05)
-interest cost as per effective interest rate method (difference between accrued and actual paid);	-
-deferred tax;	23.70
-unwinding of Interest cost on Non convertible debentures issued at interest rate lower than market rate of interest	-
-portion reserve for major maintenance which has not been accounted for in profit and loss statement;	-
-reserve for debenture/ loan redemption (Excluding any reserve required by any law or as per lender's agreement)	-
Amortization of Upfront fees	-
Less: Repayment of external debt (principal) / redeemable preference shares / debentures, etc. (Excluding refinancing) / net cash set aside to comply with DSRA requirement under loan agreements	-
Total Adjustments (B)	**413.11**
Net Distributable Cash Flows (C) = (A+B)	**313.99**

* Being the date of acquisition by IndiGrid consortium.
Note: During the period, amount being at least 90% has already been distributed to IndiGrid.

(xxxvi) Terralight Solar Energy Sitamau SS Private Limited ("TSESPL") (SPV)

Description	25 August 2023* to 31 March 2024 (Unaudited)
Profit/(loss) after tax as per profit and loss account (A) (pertaining to period post acquisition by IndiGrid)	**(8.18)**
Add: Depreciation, impairment and amortisation	6.03
Add/Less: Decrease/(increase) in working capital	4.61
Add: Interest accrued on loan/non-convertible debentures issued to IndiGrid	-
Add/less: Loss/gain on sale of infrastructure assets	-
Add: Proceeds from sale of infrastructure assets adjusted for the following:	-
-related debts settled or due to be settled from sale proceeds;	-
-directly attributable transaction costs;	-
-proceeds reinvested or planned to be reinvested as per Regulation 18(7)(a) of the InvIT Regulations	-
Add: Proceeds from sale of infrastructure assets not distributed pursuant to an earlier plan to re-invest, if such proceeds are not intended to be invested subsequently, net of any profit / (loss) recognised in profit and loss account	-
Less: Capital expenditure, if any	0.02
Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items)	-
-any decrease/increase in carrying amount of an asset or a liability recognised in profit and loss account on measurement of the asset or the liability at fair value;	(0.06)
-interest cost as per effective interest rate method (difference between accrued and actual paid);	-
-deferred tax;	-
-unwinding of Interest cost on Non convertible debentures issued at interest rate lower than market rate of interest	-
-portion reserve for major maintenance which has not been accounted for in profit and loss statement;	
-reserve for debenture/ loan redemption (Excluding any reserve required by any law or as per lender's agreement)	-
Amortization of Upfront fees	-
Less: Repayment of external debt (principal) / redeemable preference shares / debentures, etc. (Excluding refinancing) / net cash set aside to comply with DSRA requirement under loan agreements	
Total Adjustments (B)	**10.60**
Net Distributable Cash Flows (C) = (A+B)	**2.42**

* Being the date of acquisition by IndiGrid consortium.
Note: TSESPL has not made any distributions during the period 25 August 2023 to 31 March 2024, as the SPVs has not satisfied the dividend distribution requirements under its distribution policy approved by Board of Directors and in accordance with the relevant legal requirements applicable to the SPV.

(xxxvii) Kilokari BESS Private Limited ("KBPL") (SPV)

Description	06 November 2023* to 31 March 2024 (Unaudited)
Profit/(loss) after tax as per profit and loss account (A) (pertaining to period post acquisition by IndiGrid)	-
Add: Depreciation, impairment and amortisation	-
Add/Less: Decrease/(increase) in working capital	-
Add: Interest accrued on loan/non-convertible debentures issued to IndiGrid	-
Add/less: Loss/gain on sale of infrastructure assets	-
Add: Proceeds from sale of infrastructure assets adjusted for the following:	-
-related debts settled or due to be settled from sale proceeds;	-
-directly attributable transaction costs;	-
-proceeds reinvested or planned to be reinvested as per Regulation 18(7)(a) of the InvIT Regulations	-
Add: Proceeds from sale of infrastructure assets not distributed pursuant to an earlier plan to re-invest, if such proceeds are not intended to be invested subsequently, net of any profit / (loss) recognised in profit and loss account	-
Less: Capital expenditure, if any	-
Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items)	-
-any decrease/increase in carrying amount of an asset or a liability recognised in profit and loss	-
-interest cost as per effective interest rate method (difference between accrued and actual paid);	-
-deferred tax;	-
-unwinding of Interest cost on Non convertible debentures issued at interest rate lower than	-
-reserve for debenture/ loan redemption (Excluding any reserve required by any law or as per	-
Amortization of Upfront fees	-
Less: Repayment of external debt (principal) / redeemable preference shares / debentures, etc. (Excluding refinancing) / net cash set aside to comply with DSRA requirement under loan agreements	-
Total Adjustments (B)	**-**
Net Distributable Cash Flows (C) = (A+B)	**-**

* Being the date of acquisition by IndiGrid consortium.
Kilokari BESS Private Limited is a newly incorporated entity and construction of the project is yet to commence and hence project shall not generate any NDCF. KBPL shall generate NDCF post Commercial operation.

(All amounts in Rs. million unless otherwise stated)

(xxxviii) Dhule Power Transmission Limited ("DPTL") (SPV)

Description	04 February 2024* to 31 March 2024 (Unaudited)
Profit/(loss) after tax as per profit and loss account (A) (pertaining to period post acquisition by IndiGrid)	-
Add: Depreciation, impairment and amortisation	-
Add/Less: Decrease/(increase) in working capital	-
Add: Interest accrued on loan/non-convertible debentures issued to IndiGrid	-
Add/less: Loss/gain on sale of infrastructure assets	-
Add: Proceeds from sale of infrastructure assets adjusted for the following:	-
-related debts settled or due to be settled from sale proceeds;	-
-directly attributable transaction costs;	-

India Grid Trust
Notes to Consolidated Financial Statements for the year ended 31 March 2024

1. Group information

The Consolidated financial statements comprise financial statements of India Grid Trust (“the Trust” or “IndiGrid”) and its subsidiaries (collectively, the Group) for the year ended March 31, 2024. IndiGrid is an irrevocable trust settled by Sterlite Power Transmission Limited (Erstwhile sponsor) on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India (“SEBI”) under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/ renewable energy assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at 31 March, 2024, IndiGrid has special purpose vehicles (“SPVs”) which are transmission infrastructure projects operates either on Build, Own, Operate and Maintain (’BOOM’) or Build, Own and Operate (BOO) or Design, Build, Finance, Operate and Transfer (‘DBFOT’) or on Build, Own, Operate and Transfer (“BOOT”). IndiGrid also has project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain (’BOOM’) basis. It also has a project entity which is in business of developing transmission lines and Switchyards for operations of power projects and generating power.

Nature of Trust’s subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Intermediate Holding Company
2	IndiGrid 1 Limited	IGL1	NA	Intermediate Holding Company
3	IndiGrid 2 Limited	IGL2	NA	Intermediate Holding Company
4	Bhopal Dhule Transmission Company Limited	BDTCL	BOOM	Transmission asset
5	Jabalpur Transmission Company Limited	JTCL	BOOM	Transmission asset
6	RAPP Transmission Company Limited	RTCL	BOOM	Transmission asset
7	Purulia & Kharagpur Transmission Company Limited	PKTCL	BOOM	Transmission asset
8	Maheshwaram Transmission Limited	MTL	BOOM	Transmission asset
9	Patran Transmission Company Limited	PTCL	BOOM	Transmission asset
10	NRSS XXIX Transmission Limited	NRSS	BOOM	Transmission asset
11	Odisha Generation Phase-II Transmission Limited	OGPTL	BOOM	Transmission asset
12	East-North Interconnection Company Limited	ENICL	BOOM	Transmission asset
13	Gurgaon-Palwal Transmission Limited	GPTL	BOOM	Transmission asset
14	Parbati Koldam Transmission Company Limited	PrKTCL	BOOM	Transmission asset
15	NER II Transmission Limited	NER II	BOOM	Transmission asset
16	Kallam Transmission Limited	KTL	BOOM	Transmission asset
17	Raichur Solapur Transmission Company Private Limited	RSTCPL	BOOM	Transmission asset
18	Khargone Transmission Limited	KhTL	BOOM	Transmission asset
19	Jhajjar KT Transco Private Limited	JKTPL	DBFOT	Transmission asset
20	Dhule Power Transmission Limited	DPTL	BOOT	Transmission asset
21	Isha Nagar Power Transmission Limited	IPTL	BOOT	Transmission asset
22	IndiGrid Solar – I (AP) Private Limited	ISPL1	BOOM	Solar asset

23	IndiGrid Solar – II (AP) Private Limited	ISPL2	BOOM	Solar asset
24	TN Solar Power Energy Private Limited	TSPEPL	BOOM	Solar asset
25	Universal Mine Developers and Service Providers Private Limited	UMDSPPL	BOOM	Solar asset
26	Terralight Kanji Solar Private Limited	TKSPL	BOOM	Solar asset
27	Terralight Rajapalayam Solar Private Limited	TRSPL	BOOM	Solar asset
28	Solar Edge Power and Energy Private Limited	SEPEPL	BOOM	Solar asset
29	PLG Photovoltaic Private Limited	PPPL	BOOM	Solar asset
30	Universal Saur Urja Private Limited	USUPL	BOOM	Solar asset
31	Terralight Solar Energy Tinwari Private Limited	TSETPL	BOOM	Solar asset
32	Terralight Solar Energy Charanka Private Limited	TSECPL	BOOM	Solar asset
33	Terralight Solar Energy Nangla Private Limited	TSENPL	BOOM	Solar asset
34	Terralight Solar Energy Patlasi Private Limited	TSEPPL	BOOM	Solar asset
35	Globus Steel and Power Private Limited	GSPPL	BOOM	Solar asset
36	Terralight Solar Energy Gadna Private Limited	TSEGPV	BOOM	Solar asset
37	Godawari Green Energy Private Limited	GGEPL	BOOM	Solar asset
38	Terralight Solar Energy SitamauSS Private Limited	TSESPL	BOOM	Solar asset
39	Renew Solar Urja Private Limited	RSUPL	BOOM	Solar asset
40	Kilokari BESS Private Limited	KBPL	BOOM	Battery energy storage systems

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra- 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 24 May 2024.

2. Material Accounting Policies

2.1 Basis of preparation

The Consolidated financial statements comprise of the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Unit Holders' Equity for the year then ended, the Consolidated Statement of Net Assets at fair value as at March 31, 2024 and the Consolidated Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') of the Trust, the underlying holding company ("HoldCo") and each of its subsidiaries for the year then ended and a summary of material accounting policies and other explanatory notes prepared in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015(as amended), prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") read with SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations").

The Consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments
- Certain financial assets measured at fair value (e.g. Liquid mutual funds)

The Group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

These financial statements for the year ended March 31, 2024 have been prepared in accordance with Ind AS, except presentation/ classification of unit capital which is made in accordance with the InvIT Regulations as more fully described in Note 13(e) to the financial statements.

The Consolidated financial statements are presented in Indian Rupees Millions, except when otherwise indicated.

As at March 31, 2024, current liabilities exceed the current assets of the Group because of current maturity of the long-term borrowings. The Group is exploring the options to refinance the current maturity of the long-term borrowing when they become due for repayment. As per regulation 20 of INVIT regulations 2014, the Group is eligible for a total debt (net of cash and cash equivalents) of 70% to Assets under Management (AUM). As at March 31, 2024, the total debt (net of cash and cash equivalents) to AUM is within the prescribed limits.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Trust and its subsidiaries as at March 31, 2024. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent, i.e., year ended on 31 March.

Consolidation procedure:

(a). Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

(b). Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(c). Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 *Income Taxes* applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the unit holders of the Trust and to the non-controlling interests (if any), even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the equity attributable to shareholders of the Company. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis.

2.3 Summary of material accounting policies

The following is the summary of material accounting policies applied by the Group in preparing its consolidated financial statements:

a) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received, with the exception of the costs of issuing debt or equity securities that are recognised in accordance with Ind AS 32 and Ind AS 109.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs. Generally, when a group of infrastructure (transmission/ solar or renewable) SPVs with varied risks and returns are acquired and the Group is unable to meet the optional concentration test as per Ind AS 103, the Group concludes that the acquisition is a business combination.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

► Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

► Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.

► When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

When the acquisition of an asset or group of assets does not constitute a business, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the individual identified assets and liabilities acquired based upon their relative fair values and no goodwill or deferred tax is recognised.

When the Group acquires operational transmission and Solar Project SPVs, the purchase consideration primarily pertains to the fair value of the transmission and Solar assets and the Group meets the conditions of optional concentration test, the Group generally concludes that the acquisition is not a business and the same is accounted for as an acquisition of group of assets and liabilities . Such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements (TSAs) for 35/ 25 years and fixed tariff rate per unit under power purchase agreement ('PPA') for 25 years. The only key activity for these SPVs is the maintenance of the transmission assets and project assets which is outsourced to third parties and partially done in house. There are few employees in these entities and no other significant processes are performed for earning tariff revenues. Based on evaluation of the above fact pattern vis-a-vis the guidance on definition of business under Ind AS and also keeping in view the relevant guidance on similar fact pattern available under accounting standards applicable in other jurisdictions, the management has classified the acquisition of such transmission/ solar SPVs as asset acquisitions.

b) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group has identified twelve months as its operating cycle.

c) Foreign currencies

The Group's consolidated financial statements are presented in INR, which is its functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group does not have any foreign operation.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

d) Fair value measurement

The Group measures financial instruments such as mutual funds at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

In estimating the fair value of transmission assets/projects, the Group engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be re-measured or reassessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (Note32A & 32B)
- Disclosures for valuation methods, significant estimates and assumptions (Note32A & 32B)
- Financial instruments (including those carried at amortised cost) (Note32A & 32B)

e) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer.

Power transmission services

Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs for periods of 35/25 years. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs. The Group's performance obligation under the TSAs is to provide power transmission services. The performance obligation is satisfied over time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. Accordingly, the revenue from power transmission services is recognised over time based on the transmission asset availabilities and the tariff charges approved under the respective CERC tariff orders and includes unbilled revenues accrued up to the end of the accounting period. The payment is generally due within 60 days upon receipt of monthly invoice by the customer.

Solar Business – Electricity generation

Revenue from contracts with customers comprises of revenue arrangement is based on long term PPA with its customers which includes SECI and other DISCOMs. As per the PPA, the Group's performance obligation is to supply solar power at a rate specified in the PPA. Revenue is recognised over time for each period based on the volume of solar power supplied to the Customer as per the terms stated in the PPA at the metering point of the Customer. Estimates used in the revenue recognition as mentioned above are re-assessed periodically and are adjusted if required.

Regulatory Assets and revenue:

The group determines revenue gap for the period (i.e shortfall in actual returns over assured returns) based on the principles laid down under the CERC regulations and tariff orders issued by CERC. In respect of such revenue gaps, appropriate adjustments, have been made for the respective periods on a conservative basis in accordance with accounting policies and the requirement of Ind AS 114, "regulatory deferral accounts" read with guidance note on Accounting for rate regulated activities issued by Institute of Chartered Accountants of India. ("ICAI").

Service Concession Arrangements:

The group through one of its subsidiaries also has operating and maintaining the power transmission system including sub-station constructed to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor.

Under Appendix D to lnd AS 115, this arrangement is considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets".

Finance Income for Service Concession Arrangements under finance assets model is recognised using effective interest rate method. Revenue from operations and maintenance services are separately recognised in each period as and when services are rendered.

Change in Law

Revenue for change In Law is accounted when legal claims are approved and there is certainty for its realization.

Contract balances

Contract assets

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before payment of the consideration is due). Amounts which have been billed to the customers are disclosed as Trade receivables and amounts which are to be billed to the customers (and not conditional on the group's future performance) are disclosed under Other financial assets. Refer accounting policies for financial assets in Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

f) Interest income/Dividend income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Income from dividend on investments is accrued in the year in which it is declared, whereby the Group’s right of payment has been established.

g) Taxation

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales/value added/goods and service taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/value added/goods and service taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

h) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Refer to significant accounting judgements, estimates and assumptions (Note 31) and provisions (Note 19) for further information about the recorded decommissioning provision..

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the construction costs to the extent the expenditure can be attributable to construction activity or is incidental there to. Income earned during the construction period is deducted from the total of the indirect expenditure.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life (Schedule II#)
Leasehold land	Lease Period*	30
Buildings (substation)	22-25	30
Substations	25-35	40
Transmission lines	25-35	40
Plant and machinery	2-5	15
Solar Power Plants	25	40
Data Processing Equipments	3-5	3-6
Furniture and Fittings	5-7.5	10
Office equipment's	4-5	3
Vehicles	8	8
Roads	10	10

Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies.

*Leasehold improvements are depreciated over the useful life of the asset or the lease period, whichever is lower

The Group, based on technical assessments made by technical experts and management estimates, depreciates buildings (substation), solar panel and certain items of plant and equipment, data processing equipment, furniture and fittings, office equipment and vehicles over estimated useful lives which are different from the useful lives prescribed in Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The Group reviews the estimated residual values wherever estimated and expected useful lives of assets at least annually.

An item of property, plant and equipment and any significant part Initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

i) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years. Customer contracts are amortized on straight line basis over the life of the respective project/ contract.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

The amortisation period and the amortisation method are reviewed at least at each period end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

k) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Office Premises 5-9 years
- Land 25-99 years

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (l) Impairment of non-financial assets.

Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

l) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations, including impairment on inventories are recognised in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at 31 March and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than it's carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill will not reversed in future periods.

The Group assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

m) Inventories

Inventories are valued at the lower of cost and net realisable value.

Cost of stores and spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

n) Provisions and Contingent Liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability

Contingent liability is-

(a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or

(b) a present obligation that arises from past events but is not recognized because

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or

- the amount of the obligation cannot be measured with sufficient reliability.

The Group does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.
The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (d) Revenue from contracts with customers.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the statement of profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method. The Group does not have any financial assets which are subsequently measured at FVTOCI.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

Majority of the financial assets of the Group which are not reflected at fair value pertain to trade and other receivables. Considering the nature of business, the Group does not foresee any credit risk on its trade and other receivables which may cause an impairment. Also, the Group does not have any history of impairment of trade and other receivables.

For the financial assets which are reflected at fair value, no further impairment allowance is necessary as they reflect the fair value of the relevant financial asset itself.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Financial liabilities at amortised cost (Loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised Classification	Accounting Treatment
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to statement of profit or loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, , the hedged item, the nature of the risk being hedged, and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

• There is ‘an economic relationship’ between the hedged item and the hedging instrument.

• The effect of credit risk does not ‘dominate the value changes’ that result from that economic relationship.

• The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

(i) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised in OCI in the Effective portion of cash flow hedges, while any ineffective portion is recognised immediately in the statement of profit and loss. The Effective portion of cash flow hedges is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The Group uses forward currency contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments.

The amounts accumulated in OCI are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognised in OCI for the period. This also applies where the hedged forecast transaction of a non-financial asset or non-financial liability subsequently becomes a firm commitment for which fair value hedge accounting is applied.

For any other cash flow hedges, the amount accumulated in OCI is reclassified to profit or loss as reclassification adjustment in the same period or periods during which the hedged cash flows affect profit or loss.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in OCI must remain in accumulated OCI if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to profit or loss as a reclassification adjustment. After discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated OCI must be accounted for depending on the nature of the underlying transaction as described above.

q) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group’s cash management.

r) Cash distribution to unit holders

The Group recognises a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders’ equity.

s) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

t) Operating segments

An operating segment is a component of the Group that engages in business activities from which it earns revenues and incurs expenses. All operating segments’ operating results are reviewed regularly by the Group’s Chief Operating Decision Maker (‘CODM’), to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Earnings before interest, tax, depreciation and amortisation ('EBITDA') is the key metric reported to the CODM for the purposes of assessment of the segment results.

u) Statement of net assets at fair value

The disclosure of Statement of Net Assets at Fair value comprises of the fair values of the SPV held and the intermediate Holding Company as well as book values of the total liabilities and other assets of the Group. The fair value of the SPVs and intermediate Holding Company are reviewed periodically at each reporting date by the independent property valuer taking into consideration market conditions existing at the reporting date, and other generally accepted market practices. The independent valuer is leading independent appraiser with a recognised and relevant professional qualification and experience.

2.3 New and amended standards

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend the following Ind AS which are effective for annual periods beginning on or after 1 April 2023. The Group applied for the first-time these amendments.

i. Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Group's consolidated financial statements.

ii. Disclosure of Accounting Policies - Amendments to Ind AS 1
The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's financial statements.

iii. Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12
The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases. The Group previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 1 April 2022.

Apart from these, consequential amendments and editorials have been made to other Ind AS like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34. These amendments do not have any impact on the financial statements of the Group.

(ii) Title deeds of all immovable properties are held in the name of Group except title deeds of ISPL-1 and ISPL-2 are held in its erstwhile name.

(iii) The group has not revalued its property, plant and equipment during the year.

INDIA GRID TRUST
Notes to Consolidated Financial Statements for the year ended 31 March 2024
(All amounts in Rs. million unless otherwise stated)

Note 3a: Right of use asset

The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.
The Group has also taken leasehold land which has lease term of 25-99 years from the commercial operation date (COD) in relation to which the Group is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities. The lease liability has been measured by using the incremental borrowing rate.

*The Group has accounted the acquisition of VRET as business acquisition in accordance with Ind AS 103 "Business Combination" based on valuation done by independent valuer in the consolidated financial statement for year ended 31 March 2024. Goodwill and customer contracts has been identified as a result of fair valuation of assets and liabilities on the date of acquisition as per IND AS 103. Refer note 45 for further details.

Impairment of Goodwill

Goodwill arises on business combination of Virescent Renewable Energy Trust (VRET) along with it's 15 SPV's. After acquisition, VRET got dissolved and the following SPV's became part of the group to which goodwill is assigned as a result of such business combination:

TN Solar Power Energy Private Limited (TSPEPL)
Universal Mine Developers And Service Providers Private Limited (UMDSPPL)
Terralight Kanji Solar Private Limited (TKSPL)
Terralight Rajapalayam Solar Private Limited (TRSPL)
Solar Edge Power And Energy Private Limited (SEPEPL)
PLG Photovoltaic Private Limited (PPPL)
Universal Saur Urja Private Limited (USUPL)
Terralight Solar Energy Tinwari Private Limited (TSETPL)
Terralight Solar Energy Charanka Private Limited (TSECPL)
Terralight Solar Energy Nangla Private Limited (TSENPL)
Terralight Solar Energy Patlasi Private Limited (TSEPPL)
Globus Steel And Power Private Limited (GSPPL)
Terralight Solar Energy Gadna Private Limited (TSEGPV)
Godawari Green Energy Private Limited (GGEPL)
Terralight Solar Energy Sitamau Ss Private Limited (TSESPL)

In accordance with INDAS 36 "Impairment of Assets",the Group performed impairmenttesting of Goodwill assigned to each Cash Generating Unit (CGU) as at 31 March 2024 applying value in use approach across all the CGUs i.e. using cash flow projections based on financial budgets covering contracted power sale agreements with procurers (25 years) considering a discount rate mentioned below. The Group has used financial projections for 25 years as the tariff rates are fixed as per the Power Purchase Agreements (PPAs).

Based on the results of the Goodwill impairment test, the estimated value in use in all CGUs were higher than their respective carrying amount and accordingly no provision of impairment of goodwill is warranted. Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the Goodwill.

Key assumptions used for value in use calculations and sensitivity to changes in assumptions.

Weighted Average Cost of Capital % (WACC) Pre tax (discount rate)	7.88% to 8.69%
Plant Load Factor	Plant load factor(PLF) is estimated for each CGU based on past trend of PLF and expected PLF in future years.

Growth rates used to extrapolate cash flows.

The Group has performed sensitivity analysis around the base assumptions and have concluded that no reasonable changes in key assumptions would cause the recoverable amount of the subsidiaries to be less than the carrying value.

(All amounts in Rs. million unless otherwise stated)

Note 5: Capital work-in-progress (CWIP)

	31 March 2024	31 March 2023
Opening balance	782.13	36.42
Additions	2,591.48	1,124.86

There are no project whose completion is overdue or has exceeded its cost compared to its original plan during the current and previous year. Also, there is no project which has been suspended during the current & previous year.

Capitalised borrowing costs
The Group started the construction of new transmission projects. For details, refer 34.

The amount of borrowing costs capitalised during the year ended 31 March 2024 was Rs. 218.29 million (31 March 2023: Rs. 55.84 millions). The rate used to determine the amount of borrowing costs eligible for capitalisation was 7.5% (31 March 2023: 7.5%), which is the effective interest rate of the specific borrowing.

* Unbilled revenue is the transmission charges and sale of solar power for the month of March 2024 amounting to Rs. 3,557.48 million (31 March 2023 : Rs. 2,817.85 million) billed in the month of April 2024.
**Other current assets include employee advances and other miscellaneous receivables.
^The Group was eligible to apply for the Viability Gap Funding (VGF) subject to the compliance of certain conditions of VGF Securitization Agreement, Letter of Intent and Power Purchase Agreement. During the previous year, the Group had, filed an application to the SECI requesting for VGF disbursement, confirming compliance with the terms and conditions attached to Grant, including creation of charge on 23 June 2021. The Group has received the VGF tranches from Solar Energy Corporation of India (SECI) during the current year.

Includes amount of Rs. 571.29 million (31 March 2023: Rs. 79.40 million) is kept in Debt Service Reserve Account ('DSRA') / Interest Service Reserve Account ('ISRA') as per borrowing agreements with lenders.

Derivative instruments at fair value through OCI

Cross currency interest rate swap (CCIRS) at fair value through OCI reflect the positive change in fair value of foreign exchange forward contracts, designated as cash flow hedges to hedge highly probable External Commercial borrowing (ECB) repayments and interest theron in US dollars (USD).

Neither trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person, nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member within the Group.

Trade Receivables includes Rs. 710.61 million (31 March 2023 - Rs 710.61 million) billed on NTPC for the period from the readiness of the Transmission Lines to the date of actual Power Flow. As per the order issued by the CERC, tariff for this is period was to be paid by NTPC. NTPC has filed appeal with the Appellate Tribunal of Electricity against the order of the CERC. NTPC has also filed an stay application against the bill raised by the Group. APTEL has admitted the stay application and asked no coercieve action should be taken place till the hearing of the said application.
Further, the Group has provided amount payable to beneficiaries corresponding to the above recoverable amount and according to the prevailing practice the amount shall be paid as and when the same is realised from NTPC. Interest recoverable/payable on these amounts shall be accounted for on actuality in view of uncertainty involved.

Trade receivables are non-interest bearing and are generally due on invoicing / billing.

Refer note 40 on credit risk of trade receivables, which explains how the Group manages and measures credit quality of trade receivables that are neither past due nor impaired.

Details of lien marked deposits:

1. Rs. 4,116.66 million (31 March 2023: Rs. 2,993.76 million) is kept in interest service reserve account ('ISRA')/debt service reserve account ('DSRA') as per borrowing agreements with lenders.
2. Rs. 21.72 million (31 March 2023: Rs. 17.10 million) held as lien by bank against bank guarantees.
3. Rs. 0.08 million (31 March 2023: Rs. 0.08 million) pledged with Sales Tax Department.

Note 13: Unit Capital

	31 March 2024	31 March 2023
a. Reconciliation of the units outstanding at the beginning and at the end of the reporting period	**Number of units (In million)**	**Amount (Rs. in million)**
Balance as at 01 April 2022	700.18	65,903.15
Units issued during the year	-	-
Balance as at 31 March 2023	**700.18**	**65,903.15**
Issued during the year (refer note i below)	83.49	10,727.05
Issue expenses (refer note ii below)	-	(176.21)
Balance as at 31 March 2024	**783.67**	**76,453.99**

Note:
i) A. On 21 September 2023, the Group issued 30.80 million units to eligible investors on a preferential basis at a unit price of Rs. 131 per unit to raise Rs 4,035.00 million.
B. On 6 December, 2023, the Group issued 52.69 million units to institutional investors at a unit price of Rs. 127 per unit to raise Rs. 6,692.05 million.
ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

b. Terms/rights attached to units
The Group has only one class of units. Each unit represents an undivided beneficial interest in the Group. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Group at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Group declares and pays distribution in Indian Rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to inquire due administration of IndiGrid in accordance with the provisions of the Group Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	**31 March 2024**		**31 March 2023**	
	(Nos. in million)	**% holding**	**(Nos. in million)**	**% holding**
Esoteric II Pte. Limited (Sponsor)	165.90	21.17%	165.90	23.69%
Government of Singapore	140.18	17.89%	140.18	20.02%
Larsen And Toubro Limited	46.04	5.87%	39.02	5.57%

d. The Group has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Group has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

e. Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as “Equity”, which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Group has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders’ Equity when the distributions are approved by the Board of Directors of the Investment Manager.

Closing balance	**129.43**	**-**
Total	**(23,549.28)**	**(16,326.20)**

Nature and purpose of reserve:

(i) Retained earnings are the profits/(loss) that the Group has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders. Retained earnings include re-measurement loss / (gain) on defined benefit plans, net of taxes that will not be reclassified to Consolidated Statement of Profit and Loss.

(ii) The Group uses hedging instruments as part of its management of foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Group uses foreign currency forward contracts and foreign currency option contracts. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amounts recognised in the cash flow hedging reserve is reclassified to the statement of profit or loss when the hedged item affects profit or loss (example: interest payments).

(i) Represents new secured non-convertible debentures that have been issued by the Group during the year ended 31 March 2024.
(ii) During the year ended 31 March 2024, the Group has taken new Indian rupee loan from banks of Rs. 8,500.00 million (31 March 2023: Rs. 22,700.00 million).
(iii) Represents Non-convertible debentures issued to Shapoorji Pallonji Solar Holdings Private Limited by TN Solar Power Energy Private Limited, Universal Mine developers Private Limited and Terralight Kanji Solar Private Limited. The NCDs are redeemable based on realization of disallowance w.r.t Capacity Utilization Factor (CUF) made by the Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO). These NCD's were acquired as part of acquisition of VRET.

(iv) This has been repaid during the current period.
(v) This loan was acquired as part of acquisition of RSUPL

Note (A): Non-convertible debentures referred above are secured to the extent of:
(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledge of 73% over the equity share capital of PrKTCL and 65% over equity share capital of TSESPL.
(iv) first and exclusive charge on the ISRA/DSRA accounts created for the issue.

Note (B): Term loan from banks:
The Indian rupee term loan from bank carries interest at the rate of 7.00% to 8.25% p.a. (EIR 7.00% to 8.85%) Loan amount installments shall be repayable as per the payment schedule over 5 and 15 years from the date of disbursement. The term loan is secured by

(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledge of 73% over the equity share capital of PrKTCL and 65% over equity share capital of TSESPL.
(iv) Exclusive charge on the ISRA/DSRA accounts created for respective facility.

Note (C): Optionally Convertible Debentures:
The face value of OCDs is INR 100 and the coupon rate is 8.00% p.a. from the date of allotment of the OCDs issued to ReNew Solar Power Private Limited as per SPA. The Coupon rate shall accrue on yearly basis and shall be due and payable upon exercise of Redemption Right as mentioned is SPA, as accrued on the Redemption date. The OCDs do not carry any voting rights.

Note (D): Foreign Currency Loan from Financial Institution:
Secured by pari passu first charge on all the present and future immovable properties (through mortgage/assignment), hypothecation of (all the present and future) current assets , movable assets, book debt, operating cashflows, receivables, commissions, revenue of what so ever nature, all bank accounts and all intangibles assets, assignment of all rights, title, interests, benefits, claims etc. of project documents and insurance contracts of RSUPL.

The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 09 February 2024, "ICRA AAA/Stable" from ICRA on 12 February 2024 and "IND AAA/Stable" from India Ratings on 12 February 2024.

Financial covenants

Loans from bank, debt securities contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed on availability of audited accounts periodically by the Banks. For the financial year ended 31 March 2024, the Group has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, where applicable.

The Group has not utilised borrowings taken from banks and financial institutions for purpose other than for which it was taken.
The Group has not defaulted on any loan payable.

(All amounts in Rs. million unless otherwise stated)

Deferred tax (credit) / charge recorded in OCI	(9.57)	
Closing deferred tax liability, net	**3,591.14**	**958.19**

The major components of income tax expense for the years ended 31 March 2024 and 31 March 2023 are:	**31 March 2024**	**31 March 2023**
Profit or Loss Section		
- Current tax	138.83	119.78
- Deferred tax	45.76	(91.25)
- Adjustment of tax relating to earlier periods	0.81	1.26
Income tax expenses reported in the statement of profit and loss	**185.40**	**29.79**
OCI section		
Deferred tax related to items recognised in OCI during in the year:		
Net (gain)/loss on revaluation of Effective portion of Cash Flow Hedges	(9.50)	-
Net loss/(gain) on remeasurements of defined benefit plans	(0.07)	-
Deferred tax charged to OCI	**(9.57)**	**-**

Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate for 31 March 2024 and 31 March 2023:	**31 March 2024**	**31 March 2023**
Accounting profit before income tax	3,150.20	4,687.58
At India's statutory income tax rate of 25.17% (31 March 2023: 25.17%)	792.91	1,179.86
Impact of exemption u/s 10(23FC) of the Income Tax Act, 1961 available to the Trust	(4,073.61)	(4,326.75)
Tax not recognized due to brought forward losses (refer note (ii) below)	3,465.30	3,175.42
Adjustment of tax relating to earlier periods	0.81	1.26
At the effective income tax rate	**185.40**	**29.79**
Income tax expense reported in the statement of profit and loss	**185.40**	**29.79**

(i) As at 31 March 2024, based on the expected future profitability of the SPVs, the management has recognised deferred tax assets on the unabsorbed tax depreciation carried forward only to the extent of deferred tax liability.

(ii) The Group has Rs. 32,782.29 million (31 March 2023 : Rs. 11,120.52 million) of tax losses / unabsorbed depreciation carried forward on which deferred tax asset has not been recognised. If the Group was able to recognise all unrecognised deferred tax assets, profit after tax would have increased and equity would have increased by Rs. 8,250.65 million (31 March 2023: Rs. 2,798.81 million). Majority of these business losses will expire ranging from FY 2024-25 to FY 2032-33. The Group also have unabsorbed depreciation which can be carried forward indefinitely.

Further, for the calculation of deferred tax assets/liabilities, the Group has not considered tax holiday available under the Income Tax Act for some of the project SPVs for the computation of deferred tax assets/liabilities. The management based on estimated cash flow workings for these project, believes that since there will be losses in the initial years of these project, no benefit under the Income tax Act would accrue to these projects in respect of the tax holiday. Management will re-assess this position at each balance sheet date.

(All amounts in Rs. million unless otherwise stated)

Note 22: Revenue from contracts with customers

	31 March 2024	31 March 2023
Note 22.1: Disaggregated revenue information		
Type of service		
Power transmission services (refer note A below)	24,326.15	22,376.64
Revenue from sale of electricitiy (solar) (refer note B below)	4,313.40	941.48
Total	**28,639.55**	**23,318.12**
Location		
India	28,639.55	23,318.12
Outside India	-	-
Total	**28,639.55**	**23,318.12**
Timing of revenue recognition		
Services transferred over time	28,639.55	23,318.12
Total	**28,639.55**	**23,318.12**

(A) Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs. The TSAs are executed for a period of 35 / 25 years and have fixed tariff charges as approved by Central Electricity Regulatory Commission (CERC) (except some escalable portion and some incentives/penalties relating to transmission assets availabilities). Under the TSAs, the Group's performance obligation is to provide power transmission services. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs failing which could result in certain disincentives/penalties. The performance obligation is satisfied over-time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. The payment is generally due within 60 days upon receipt of monthly invoice by the customer. The Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the Point of Connection (PoC) mechanism, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility (i.e. Power Grid Corporation of India Limited) from LTTCs are disbursed pro-rata to all Transmission Service Providers from the pool in proportion of the respective billed amount.

(B) Revenue from sale of solar power generated is recognised on accrual basis (net of deviations as per the Deviation Settlement Mechanism) on the basis of the billings as per the long term Power Purchase Agreement with various DISCOMS and includes unbilled revenues accrued upto the end of the accounting period.

Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures since the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date.

Note 22.2: Reconciliation of the amount of revenue recognised in the statement of profit and loss with the contracted price

	31 March 2024	31 March 2023

a. In the current financial year, The Group has acquired VRET group consisting of 15 SPVs, Kilokari BESS Private Limited, Isha Nagar Power Transmission Limited, Dhule Power Transmission Limited, ReNew Solar Urja Power Limited. The revenue mentioned above relates to post acquisition period only. KBPL, DPTL and IPTL are currently under construction and hence no renvenue has been recognised.

b. In the previous financial year, The Group has acquired Raichur Sholapur Transmission Company Private Limited and Khargone Transmission Limited w.e.f. 09 Novemeber 2022 and 02 March 2023 respectively.

c. Jhajjar KT Transco Private Limited has entered into a transmission agreement with Haryana Vidyut Prasaran Nigam Limited (HVPNL) for obtaining exclusive right to construct, operate and maintain the transmission lines on design, build, finance, operate and transfer (DBFOT) basis for a specified period (concession period) commencing from the date of grant of the Transmission License and receive monthly determinable annuity payments. The agreement provides an option for extension of the concession period. Upon completion of concession period or on termination of agreement, transmission lines will vest with the grantor free and clear of all encumbrances. In terms of para 16 of Appendix D to Ind AS 115, cost of construction of transmission lines has been recognized as a part of financial assets under the head service concession receivable. Annuity payments received under the agreement have been accounted as revenue from contracts with customers.

d. Parbati Koldam Transmission Company Limited had filed tariff petition in FY 2021-22 for truing up of the tariff for period 2014-19 and revised petition of tariff for period 2019-24 with CERC for its approval. However these petition are yet to be disposed off by CERC. Hence, Group has been recognizing the revenue for the year ended 31 March 2024 and 31 March 2023 basis the filed petition order for 2019-24.

(All amounts in Rs. million unless otherwise stated)

Salaries, wages and bonus	1,002.23	299.84
Contribution to provident fund	14.83	11.19
Long term incentive plan (refer note 43)	14.87	6.98
Gratuity expense (refer note 42)	7.93	6.04
Staff welfare expenses	35.72	27.91
Total	**1,075.58**	**351.96**

Note 26: Investment management fees

	31 March 2024	31 March 2023
Investment management fees (refer note 33)	974.39	450.30
Total	**974.39**	**450.30**

Note:

For IGT and all SPV's except Parbati Koldam Company Transmission Limited

Pursuant to the Investment Management Agreement dated 13 June 2023 as amended, Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense. There are no changes in the methodology of computation of fees paid to Investment Manager.

Further, during the current year, on the basis of approvals obtained from the board of directors and audit committee in a meeting dated 12 May 2023 and unitholders in the extraordinary general meeting dated 06 June 2023, the investment management agreement is revised to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly acquisition fee amounting to Rs. 437.55.00 million (31 March 2023 : Nil) has been accounted in the books.

For Parbati Koldam Company Transmission Limited (SPV)

Pursuant to the Investment Management Agreement dated 2 March 2021 as amended, Investment Manager is entitled to fees @ 1.00% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of the Company, per annum. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

Note 27: Other expenses

	31 March 2024	31 March 2023
Power and fuel	64.56	40.27
Rent	23.10	9.01
Rates and taxes	291.87	158.63
Vehicle hire charges	49.27	56.22
Director Sitting Fee	7.80	6.11
Bay Charges	85.60	102.53
Advertisement expenses	-	0.17
Right of way charges	20.40	31.88
Corporate social responsibility	12.24	19.12
Miscellaneous expenses*	201.90	181.43
Total	**756.74**	**605.37**

*Miscellaneous expenses majorly includes consumption of stores and spares, Boarding and travelling expense and other miscellanous expenses.

(This space has been left blank intentionally)

Note 28: Finance Costs

	31 March 2024	31 March 2023
Interest on debts and borrowings measured at amortised cost#	12,981.11	10,100.28
Other bank and finance charges	81.40	4.64
Unwinding of discount on provisions	0.79	-
Interest expense on lease liabilities (refer note 3a)	13.24	3.98
Total	**13,076.54**	**10,108.90**

Includes foreign exchange loss which is considered as adjustment to borrowing cost amounting to Rs. Nil (31 March 2023: Rs. 53.23 million)

Note 29: Depreciation and amortisation expense

	31 March 2024	31 March 2023
Depreciation of property, plant and equipments (refer note 3)	8,813.43	6,991.65
Depreciation on Right of use assets (refer note 3a)	23.68	10.73
Amortisation of intangible assets (refer note 4)	557.61	38.32
Total	**9,394.72**	**7,040.70**

Note 30: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to unit holders of the parent by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to unit holders of the parent by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	**31 March 2024**	**31 March 2023**
A. Including Regulatory deferral income/expense		
Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	2,853.70	4,555.72
Weighted average number of units in calculating basic and diluted EPU (No. in million)*	732.98	700.18
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	3.89	6.51
B. Excluding Regulatory deferral income/expense		
Profit after tax attributable to unit holders of the parent for calculating basic and diluted EPU (Rs. in million)	2,853.85	4,556.39
Weighted average number of units in calculating basic and diluted EPU (Number in million)*	732.98	700.18
Earnings Per Unit:		
Basic and Diluted (Rs./unit)	3.89	6.51

The group doesn't have any outstanding dilutive potential instruments.

*Weighted average number of unit takes into account the effect of change in unit capital arising due to fresh issue of units during the year.

Note 31: Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to Group's exposure to risk and uncertainities includes:
- Capital management note 41
- Financial risk management activities and policies note 40
- Sensitivity analysis note 40

Judgements
In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

i. Applicability of Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers
The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25-35 years. The subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff based bidding process to Build, Own, Operate and Maintain ("BOOM"), Design, build, finance, operate and transfer ("DBFOT") and Build, own, operate and transfer ("BOOT") the transmission infrastructure for a period of 25-35 years. The management of the Group is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee to obtain various approvals under the regulatory framework to conduct its operations both during the period of the license as well as at the end of the license period. However, in the view of management, the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission infrastructure at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D to Ind AS 115 is not applicable to the Group for all transmission infrastructure operating on a BOOM basis. The Group holds transmission infrastructure pertaining to Jhajjar KT Transco Private Limited which operates on a Design, build, finance, operate and transfer ("DBFOT") basis and Isha Nagar Powr Transmission Limited and Dhule Power Tranmission Limited which operates on a Build, own, operate and transfer ("BOOT") basis. The company has operating and maintaining the power transmission system including sub-station constructed to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor. Under Appendix D to Ind AS 115, this arrangement is considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets". Accordingly the Group is of the view that Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers is applicable to this infrastructure asset.

ii. Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to Unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. The Unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the dividend payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

(This space has been left blank intentionally)

iii. Acquisition of SPVs classified as asset acquisitions or business combination
The Group acquires operational transmission SPVs/ Solar SPVs. At the time of acquisition, the Group considers whether each acquisition represents the acquisition of a business or the acquisition of an asset. The Group accounts for an acquisition as a business combination where an integrated set of activities and assets, including property, is acquired. More specifically, consideration is given to the extent to which substantive processes are acquired and, in particular, the extent of services provided by the subsidiary.

In accounting for business combinations, Judgement is required in identifying whether an identifiable intangible asset is to be recorded separately from goodwill. Estimating the acquisition date fair value of the identifiable assets acquired, useful life thereof and liabilities assumed involves management Judgement. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by the management. Changes in these Judgements, estimates and assumptions can materially affect the results of operations.

When the acquisition of an asset or group of assets does not constitute a business, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the individual identified assets and liabilities acquired based upon their relative fair values and no goodwill or deferred tax is recognised.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination. In performing such impairment assessments, management compared the carrying value of each of the identifiable cash generating units ("CGUs") to which goodwill had been allocated with their respective 'value in use' computed based on discounted cash flow method, to determine if any impairment loss should be recognised. The discounted cash flow method involves estimating future cash flows, growth rates and discount rates which require significant management judgement

iv. Assessment of control over subsidiary

On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 49% of the equity share capital of NER, GPTL, KhTL and RSUPL and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Trust shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value (refer note 32A and 32B).
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Group engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of assets other than financial assets
Assets other than financial assets of the Group primarily comprise of property, plant & equipment, goodwill and service concession recievable.

The provision for impairment/(reversal) of impairment of assets other than financial assets is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount has been computed by external independent valuation experts based on value in use calculation for the underlying transmission / solar projects of SPV's (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Group tests impairment on the amounts invested in the respective subsidiaries of company. In case of goodwill, the carrying value of goodwill is compared with the fair value of the CGU to which it pertains. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 32A.

(c) Useful life of Property, plant and equipment and intangibles
The management estimates the useful life and residual value of property, plant and equipment and other intangible assets based on technical estimates. These assumptions are reviewed at each reporting date.

(d) Contingencies
Refer Note 36 - Recognition and measurement of provision and contingencies, key assumptions about the likelihood and magnitude of an outflow of resources

(e) Leases - Estimating the incremental borrowing rate
The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

(f) Taxes
Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(g) Provision for decommissioning
As part of the identification and measurement of assets and liabilities, the Group has recognised a provision for decommissioning obligations associated with solar plant owned by RSUPL. In determining the fair value of the provision, assumptions and estimates are made in relation to discount rates, the expected cost to dismantle and remove the plant from the site in order to remediate the environmental damage caused and the expected timing of those costs. In estimating the expected cost, the Group takes into account changes in environmental legislation and regulations that may impact the process for dismantling and removing the plant. The carrying amount of the provision as at 31 March 2024 was Rs 113.47 million (31 March 2023: Nil). The Group estimates that the costs would be realised in 35 years' time upon the expiration of the project life and calculates the provision using the DCF method based on the following assumptions:

- Estimated cost per MW at the end of Project life – Rs. 38,69,978
- Discount rate – 7.38%

(This space has been left blank intentionally)

Note 32A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
Financial assets at amortized cost				
Trade Receivable	4,676.21	4,180.21	4,676.21	4,180.21
Cash & cash equivalents	2,323.75	3,153.19	2,323.75	3,153.19
Other Bank Balance	5,135.41	3,883.54	5,135.41	3,883.54
Other financial assets	7,810.31	5,987.10	7,810.31	5,987.10
Financial assets at Fair Value through P&L				
Investments in mutual funds	7,419.05	4,462.46	7,419.05	4,462.46
Financial assets at Fair Value through OCI				
Foreign exchange forward contracts	1,163.09	-	1,163.09	-
Total	**28,527.82**	**21,666.50**	**28,527.82**	**21,666.50**
Financial liabilities at amortized cost				
Borrowings	1,92,702.83	1,44,931.31	1,92,702.83	1,44,931.31
Lease Liabilities	334.83	118.33	334.83	118.33
Trade Payables	1,075.57	749.35	1,075.57	749.35
Other financial liabilities	5,176.02	4,519.38	5,176.02	4,519.38
Total	**1,99,289.25**	**1,50,318.37**	**1,99,289.25**	**1,50,318.37**

The management assessed that cash and cash equivalents, other bank balance, trade payables, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Group is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2024 and 31 March 2023 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs in million)

Significant unobservable inputs	Valuation technique	Input for 31 March 2024	Input for 31 March 2023	Sensitivity of input to the fair value	Increase /(decrease) in fair value 31 March 2024	31 March 2023
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.70% to 8.69%	7.70% to 8.53%	+ 0.5%	(12,470.98)	(10,168.42)
				- 0.5%	13,683.44	11,434.87
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(1,203.11)	(520.00)
				- 2%	1,169.59	471.00
Inflation rate		Revenue(Esclable): 5.00%	Revenue(Esclable): 5.00%	+ 1%	(3,346.82)	(3,173.14)
		Expenses: 2.00% to 4.77%	Expenses: 2.14% to 4.75%	- 1%	2,773.85	2,604.90

Note 32B: Fair value hierarchy

The management has assessed that the financial assets and financial liabilities as at period end other than above are reasonable approximations of their fair values.

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2024 and 31 March 2023:	Date of valuation	Fair value measurement using Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	31 March 2024	-	-	2,64,785.24
	31 March 2023	-	-	2,23,315.41
Investments in mutual funds	31 March 2024	-	7,419.05	-
	31 March 2023	-	4,462.46	-

There have been no transfers among Level 1, Level 2 and Level 3.
* Statement of net asset at fair value and statement of total returns at fair value require disclosures regarding fair value of assets (liabilities at considered at book values). Since the fair values of assets other than property, plant and equipment, goodwill and service concession approximate their book values, hence only property, plant and equipment, goodwill and service concession has been disclosed above.

Terms and conditions
The transactions entered into with related parties are taken at arms length rate. For the year ended 31 March 2024, the Group has not recorded any impairment of receivables relating to amounts owed by related parties (31 March 2023: INR Nil). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

V. Details in respect of related party transactions involving acquisition of InvIT assets as required by Para 4.6.6 of chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars") are as follows:

For the year ended 31 March 2024:

In current period the Group has acquired VRET and details required are as follows:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	VRET	Virescent IM
Enterprise value agreed for acquisition	38,544.00	184.71
Enterprise value as per Independent valuer	40,322.00	192.00
Method of valuation	Discounted cash flow	Discounted cash flow
Discounting rate (WACC)	7.8% - 8.70%	14.20%

(B) Material conditions or obligations in relation to the transactions:

There are no open material conditions / obligations related to above transaction, other than regulatory approvals obtained by the Group.

(C) Rate of interest for external financing:

The Group has availed external financing at the rate of interest ranging from 7.35% to 7.84% to finance this acquisition.

(D) Any fees or comission paid :
The Group has also paid investment management fee and brokerage of Rs 239.03 million and Rs 13.57 million including taxes respectively for the purpose of this acquisition. (refer note 33 (iii))

For the year ended 31 March 2023:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	**KhTL**
Enterprise value agreed for acquisition	14,975.00
Enterprise value as per Independent valuer	15,441.00
Method of valuation	Discounted cash flow
Discounting rate (WACC)	8.30%

(B) Material conditions or obligations in relation to the transactions:

Acquisition of Khargone Transmission Ltd (KhTL):

The Group acquired 49% of paid up equity capital of Khargone Transmission Limited ("KhTL") with effect from 02 March 2023 from Sterlite Power Transmission Limited (SPTL)) (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 ("SPA"). The Group has finalised purchase consideration for acquisition of entire stake in KhTL and has entered into a binding agreement with the Seller to acquire remaining 51% paid up equity capital in KhTL from the Seller. The Group has beneficial interest based on the rights available to it under the SPA.
Based on the contractual terms of the agreement, the Group has following rights:

- Right to nominate all directors on the board of directors of the KhTL;
- Right to direct the selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KhTL;
- Non-disposal undertaking from the selling shareholders for the remaining 51% equity stake in KhTL;

Considering the requirements under Ind AS 110, the Group has assessed whether it controls KhTL on the basis the above rights under the agreement and the fact that the Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount). Based on the assessment, management has concluded that the Group controls KhTL in spite of the fact that it has acquired only 49% of the paid up capital of KhTL. Further, based on the legal opinion KhTL is considered as Special Purpose Vehicle as per requirements of Securities Exchange Board of India's Invite Regulations.

(C) Rate of interest for external financing:

The Group has availed external financing at the rate of interest 7.86% to finance this acquisition.

(D) Any fees or comission paid :
The Group has also recorded investment management fee of Rs. 91.10 million including taxes for the purpose of this acquisition.

(This space has been left blank intentionally)

INDIA GRID TRUST
Notes to Consolidated Financial Statements for the year ended 31 March 2024
(All amounts in Rs. million unless otherwise stated)

Note 34: Capital and other Commitments

(a) The Group has entered into transmission services agreement (TSA) with long term transmission customers pursuant to which the Group has to transmit power of contracted capacity and ensure minimum availability of transmission line over the period of the TSA. The TSA contains provision for disincentives and penalties in case of certain defaults.
(b) The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. The Group has also taken leasehold land which has lease term of 25-99 years from the commercial operation date (COD) in relation to which the group is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.
(c) The Group has entered into Power Purchase Agreement ('PPA') with various DISCOM's for solar entities, where the respective solar entity is required to sell power at a pre-fixed tariff rates agreed as per PPA for an agreed period.

(d) The Group has entered into an Implementation and Support Agreement with Andhra Pradesh Solar Power Corporation Private Limited (APSPCL). Annual O&M charges are payable for the period of 25 years from the commercial operation date to APSPCL.
(e) The IndiGrid Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited.
(f) KTL was awarded additional contract to implement 500MVA capacity transformers along with 220KV bays for interconnection in December, 2022. KTL had entered into contract with KEC International for construction of this project for which work has also started in January 2024. The project is scheduled for commissioning in June 2024.
(g) The consortium of IndiGrid 2 Limited (95%) and Amperehour Solar Technology Private Limited (5%), has received the Letter of Intent (LOI) / Letter of Award (LOA) dated October 23, 2023 from BSES Rajdhani Power Limited (BRPL) for "Design, Supply, Testing, Installation, Commissioning, Operation and Maintenance of 20 MW/ 40 MWh Battery Energy Storage Systems in Delhi". Estimated COD will be within 12 months from the date of obtaining relevant approvals required for commissioning.
(h) The consortium of IndiGrid 2 Limited and IndiGrid 1 Limited has received the Letter(s) of Intent ("LOI") dated December 29, 2023, from REC Power Development and Consultancy Limited for following 2 transmission project(s) - "Transmission scheme for evacuation of power from Dhule 2 GW REZ" and "Western Region Expansion Scheme XXXIII (WRES-XXXIII): Part C". The projects will be constructed over a period of 18 months.

(i) IndiGrid 2 Limited (a wholly owned subsidiary of India Grid Trust), has received the Letter of Intent (LOI) / Letter of Award (LOA) dated March 13, 2024, from Gujarat Urja Vikas Nigam Limited ("GUVNL") for Setting up of 180 MW / 360 MWh Battery Energy Storage Systems in Gujarat for "on Demand" usage under Tariff-based Competitive Bidding. The project will be setup under Build Own Operate ("BOO") model.

Note 35: Hedging activities and derivatives

The Group is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are foreign currency risk and interest rate risk.

Derivatives designated as hedging instruments

The Group uses certain types of derivative financial instruments (viz. forwards contracts and call options) to manage / mitigate its exposure to foreign exchange and interest risk. Further, the Group designates such derivative financial instruments (or its components) as hedging instruments for hedging the exchange rate fluctuation and interest risk attributable to either a recognised item or a highly probable forecast transaction ('Cash flow hedge').

The effective portion of changes in the fair value of derivative financial instruments (or its components) that are designated and qualify as cash flow hedges, are recognised in the other comprehensive income and held in hedge reserve - a component of equity. Any gains / (losses) relating to the ineffective portion, are recognised immediately in the statement of profit or loss within other income / other expenses. The amounts accumulated in equity for highly probable forecast transaction are added to carrying value of non-financial asset or non-financial liability as basis adjustment, other amounts accumulated in equity are re-classified to the statement of profit or loss in the years when the hedged item affects profit or loss.

At any point of time, when a forecast transaction is no longer expected to occur, the cumulative gains / (losses) that were reported in equity is immediately transferred to the statement of profit or loss within other income / other expenses.

Cash flow hedges

i. Hedging activities

Foreign Currency Risk & Interest Rate Risk
In line with the Group's Foreign Currency & Interest Rate Risk Management Policy, the Group has taken hedged 100% with respect to foreign currency risk and variable interest outflow on external commercial borrowings buyer's credit, foreign letter of credits and highly probable forecast transactions. All hedges are accounted for as cash flow hedges.

Information about the impact of derivatives used as hedging instruments by the Group and outstanding fair value as at the end of the financial year is provided below:

Particulars	**Other Financial Assets**	
	31 March 2024	**31 March 2023**
Derivatives designated as Hedging Instruments:		
Cross Currency Interest Rate Swap (CCIRS)	1,163.09	-

ii. Hedge Effectiveness

There is an economic relationship between the hedged items and the hedging instruments as the terms of the hedge contracts match the terms of hedge items. The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the foreign exchange and interest rate are identical to the hedged risk components. To test the hedge effectiveness, the Group compares the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks. As a result, no hedge ineffectiveness arises requiring recognition through profit and loss.

iii The effect of the cash flow hedge in the Statement of Profit or Loss and Other Comprehensive Income is as follows:

Particular	**Hedging Reserve**	
	31 March 2024	**31 March 2023**
Balance at the beginning	-	-
Addition during the year on account of acquisition of subsisiary	157.67	
Gain/(loss) recognised on cash flow hedges on Derivative asset	14.06	-
Gain/(loss) recognised on cash flow hedges on Borrowing	(51.80)	-
Income tax relating on cash flow hedges	9.50	-
Cash flow Hedge Reserve at the end of the year	**129.43**	-

iv. The outstanding position of derivative instruments is as under:

Nature of instrument	**Currency**	**Purpose**	**31 March 2024**	**31 March 2024**	**31 March 2023**	**31 March 2023**
			Foreign Currency in Million (nominal value)	**Rs. In Million**	**Foreign Currency in Million (nominal value)**	**Rs. In Million**
Cross Currency Interest Rate Swap (CCIRS)	USD	Hedging of foreign currency borrowings and Interest accrued there on	137.46	1,163.09	-	-

The expiry dates of cash flow hedge deals is 30 September 2025.

Note 36: Contingent liability

Particulars	**31 March 2024**	**31 March 2023**
Claim against the Group not acknowledged as debt		
- Entry tax demand	432.59	432.59
- VAT/CST Demand	20.66	23.69
- income tax demand	7.72	-
- Other Demands (including GST demands and ROW Claims)	323.28	325.93

There are certain litigation cases pertaining to Entry tax, sales tax/ VAT, Income Tax, GST, ROW charges, etc which are being contested at various appellate levels. The Group has reviewed all its pending litigations proceedings and based on the probable / possible / remote risk analysis done, have disclosed open litigation as contingent liability. The Group and its management including its tax advisory believes that its position will likely to be upheld in appellate process and the possibility of any significant outflow or impact on the financial statements/results is remote.

Others
The total contingent liability (except ROW claim of Rs. 110.62 million and GST claim of Rs. 212.66 million against ISPL 1 and ISPL 2) is recoverable as per share purchase agreement from Selling Shareholders. If GST demand of Rs. 212.66 million becomes payable, it would be eligible for additional tariff as per the PPA with regulatory authorities.

(All amounts in Rs. million unless otherwise stated)

Note 37: Segment reporting

The activities of the IndiGrid Group includes owning, operating, and managing power transmission networks and solar assets. Given the nature of the Group's diversified operations and in accordance with the guidelines set forth in Ind AS - 108 - "Operating Segments," management has identified two distinct reportable business segments as "Power Transmission segment" and "Power generation segment". Power transmission segment includes entities in the business of owning and maintaing transmission assets. Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM). Chief executive officer is the CODM of the Group who monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

Following are the details of segment wise revenue, results, segment assets and segment liabilities

Particulars	31 March 2024*
Segment Revenue	
Power Transmission	24,326.15
Power generation	4,313.40
Total	**28,639.55**
Segment Results (EBITDA)	
a. Transmission	22,377.57
b. Solar	3,740.56
c. Unallocable	(1,513.03)
Total	**24,605.10**
Segment Results	
Profit/ (Loss) Before Interest and Tax	
Power Transmission	15,038.70
Power generation	1,684.70
Unallocable	(1,513.03)
Total Profit/ (Loss) Before Interest and Tax	**15,210.37**
Less : Finance cost	(13,076.54)
Add: Finance and other income	1,016.18
Total Profit/ (Loss) Before Tax	**3,150.01**
Regulatory Deferral Expense/(Income)	**0.19**
Total Profit/ (Loss) Before Tax	**3,150.20**
Tax expenses	185.40
Profit for the period	**2,964.80**
Segment Assets	
Power Transmission	1,85,191.62
Power generation	64,055.53
Unallocable	8,324.31
Total assets	**2,57,571.46**
Segment Liabilities	
Power Transmission	6,088.38
Power generation	1,805.97
Unallocable	1,95,834.67
Total Liabilities	**2,03,729.02**
Capital Expenditure	
Power Transmission	2,469.40
Power generation	38,131.45
Unallocable	106.19
Total Capital Expenditure	**40,707.04**
Depreciation / Amortization	
Power Transmission	7,326.44
Power generation	2,055.86
Unallocable	12.42
Total Depreciation / Amortization	**9,394.72**
Infrastructure maintenance charges	
Power Transmission	518.48
Power generation	224.40
Total Infrastructure maintenance charges	**742.88**

*Segment reporting is applicable from current year as per Ind AS-108 - "Operating Segment" due to acquisition of additional power generating assets resulting into a additional reportable segment. Para 18 of Ind AS-108 - "Operating Segment" requires to provide segement data for an operating segement which is identified as a reportable segement for the first time in the current year, unless the necessary information is not available and the cost to develop it would be excessive. Applying the practical expedient, comparative numbers have not been disclosed.

Revenue from one customer amounted to Rs. 24,326.15 million during the year ended 31 March 2024 arising from power transmission service rendered to various parties and billed to Power Grid Corporation of India Limited (PGCIL) under invoice pooling machanism.

Geographic information

Non-current operating assets:

Particulars	31 March 2024	31 March 2023
India	2,27,330.04	1,79,194.08
Outside India	-	-
Total	**2,27,330.04**	**1,79,194.08**

Non-current assets for this purpose consist of property, plant and equipment, right-of-use assets, goodwill, intangible assets and capital work in progress.

For geographical revenue information, refer note 22.

Note 38: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	31 March 2024	31 March 2023
(i) The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro and small enterprises	30.40	8.61
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2023: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the "suppliers" / information available with the Group regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 39: Group as a lessee

Indigrid Limited (IGL) (a subsidiary of the Group) has lease contract for 2 office building used in its operations which have lease term of 5-9 years with lock-in-period of 3 years. Further IGL's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.

IndiGrid Solar-I (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

IndiGrid Solar-II (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

ReNew Solar Urja Private Limited (a subsidiary of the Group) has taken multiple leasehold lands which has lease terms of 30 - 35 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

Maturity analysis of lease liabilities - Contractual undiscounted cash flows:

(Rs. in million)

Particulars	Less than 3 months	3 months to 12 months	1 to 5 years	More than 5 years	Total
31 March 2024					
Lease liability	14.14	37.16	137.83	667.82	856.95
Total	**14.14**	**37.16**	**137.83**	**667.82**	**856.95**
31 March 2023					
Lease liability	3.74	21.27	67.93	71.89	164.83
Total	**3.74**	**21.27**	**67.93**	**71.89**	**164.83**

The following are the amounts recognised in profit or loss:

	31 March 2024	31 March 2023
Depreciation expense of right-of-use assets	23.68	10.73
Interest expense on lease liabilities	13.24	3.98
Expense related to short term lease and low value assets (included in other expense)	23.10	9.01
Total amount recognised in profit or loss	**60.02**	**23.72**

The Group has no lease agreement with variable payments.

The effective interest rate of lease liability ranges from 9.00% to 11.37%.

Detail of Right of use assets and lease liabilities along with movements during the year are provided in note 3a.

Note 40: Financial risk management objectives and policies

The Group's principal financial liabilities (other than derivatives) comprise borrowings, trade and other payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables, cash and short-term deposits, investment in mutual funds and other financial assets that derive directly from its operations. The Group also enters into derivative transaction to hedge the foreign currency exposure and interest rate risk on foreign currency loan.

The Group is exposed to market risk, credit risk and liquidity risk. The Investment Manager oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The management reviews and agrees policies for managing each of these risks, which are summarised below.

The Risk Management policies of the Group are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Groups's activities.

Management has overall responsibility for the establishment and oversight of the Group's risk management framework.

(This space has been left blank intentionally)

(All amounts in Rs. million unless otherwise stated)

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, bank deposits and investments

Price Risk
The Group invests its surplus funds in mutual funds which are linked to debt markets. The Group is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Group diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Group's senior management on a regular basis

Particulars	% change in market value	31 March 2024	31 March 2023
		Effect on loss before tax	Effect on loss before tax
Mutual funds	0.50%	37.10	22.31

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group has both fixed and fluctuating rate of borrowing. However, the interest rate risk is low since substantial portion of borrowing is at fixed rate i.e. 76.77% (31 March 2023 : 100%).

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	% change in basis points	31 March 2024	31 March 2023
		Effect on profit before tax	Effect on profit before tax
Increase in basis points	0.50%	-223.60	-
Decrease in basis points	-0.50%	223.60	-

Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's foreign currency borrowings and payables in foreign currency (if any). The Group hedges its exposure to fluctuations on the translation into INR of its buyer / supplier's credit by using foreign currency swaps and forward contracts. As at 31 March 2024, The Group did not have any foreign currency risk towards any assets / liabilities in foreign currency since the Group has effectively hedged 100% of the foreign currency exposure.

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Group through its subsidiaries is engaged in transmission business under BOOM (Build, Own, Operate and Maintain) model and DBFOT (Design, build, finance, operate and transfer) model and currently derive its revenue primarily from BOOM contracts with long term transmission customers ('LTTC'). Being transmission licensee, the Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the PoC method, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility ('CTU') from LTTC's are disbursed pro-rata to all Transmission Service Providers ('TSPs') from the pool in proportion of the respective billed amount. Due to this, the TSPs are shielded against any potential default by a particular customer. If a particular customer delays or defaults, the delay or shortfall is prorated amongst all the TSPs. Based on past history of payments, payments due have always been paid and there have been no write-off's for due amounts. Due to the payment mechanism explained above as well as due to no history of any write-off's of payments which were due, the Group has not considered any expected credit loss on the financial assets in the nature of trade receivables. During the various periods presented, there has been no change in the credit risk of trade receivables. However, this assessment may need a review if there is any change in the Pooling Regulations.
Similar mechanism is being followed in solar entities acquired by the group where the solar power is sold to customers approved by regulatory authorities such as SECI and other state DISCOMs. Solar Energy Corporation of India (SECI) is a high rated public sector undertaking with credit rating of AA+ as per ICRA Limited. The Group has obtained a Letter of Credit from SECI Limited to secure its credit risk associated with receivables.

Credit risk from balances deposited/invested with banks and financial institutions as well as investments made in mutual funds, is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty. Counterparty limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments. Based on this policy, the Group does not foresee any risk on account of credit losses, either in the bank deposits which are made with AAA rated banks and also in regard to mutual funds which is primarily debt oriented funds. No loss allowances have been provided for any trade receivables, or other receivables from financing activities like cash and bank deposits, mutual funds and other similar deposits. Also, there have been no modifications in contractual cash flows on financial assets.

The Group's maximum exposure to credit risk for the components of the balance sheet as at 31 March 2024 is the carrying amounts of trade and other receivables, cash and cash equivalents and other assets as disclosed in Note 6, 7, 8, 10, 11 and 12 respectively. However, the credit risk is low due to reasons mentioned above.

(C) Liquidity risk
Liquidity risk is the risk that the Group may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Group's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Group requires funds both for short term operational needs as well as for long term investment programs mainly in transmission & Solar projects. The Group closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Groups's financial liabilities based on contractual undiscounted payments. This include interest due on borrowing till maturity.

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2024					
Borrowings	1,92,702.83	11,410.20	79,277.99	1,01,958.22	1,92,646.41
Interest payable	996.71	14,534.68	42,865.78	27,872.96	85,273.42
Trade payables	1,075.57	1,075.57	-	-	1,075.57
Other financial liabilities	4,179.31	4,179.31	-	-	4,179.31
Total	**1,98,954.42**	**31,199.76**	**1,22,143.77**	**1,29,831.18**	**4,82,129.13**

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2023					
Borrowings	1,44,931.31	9,256.73	1,11,751.00	23,923.58	1,44,931.31
Interest payable	984.33	10,776.79	34,487.27	28,522.48	73,786.54
Trade payables	749.35	749.35	-	-	749.35
Other financial liabilities	3,535.05	3,535.05	-	-	3,535.05
Total	**1,50,200.04**	**24,317.92**	**1,46,238.27**	**52,446.06**	**3,73,202.28**

Note 41: Capital management

For the purpose of the Groups's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio optimum. The Group includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	**31 March 2024**	**31 March 2023**
Borrowings	1,92,702.83	1,44,931.31
Less: Cash and cash equivalents	(2,323.75)	(3,153.19)
Net debt (A)	**1,90,379.08**	**1,41,778.12**
Unit capital	76,453.99	65,903.15
Other equity	(23,549.28)	(16,326.20)
Total capital (B)	**52,904.71**	**49,576.95**
Capital and net debt ((C) = (A) + (B))	**2,43,283.79**	**1,91,355.07**
Gearing ratio (A)/(C)	**78%**	**74%**

Financial Covenants

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2024 and 31 March 2023.

Note 42: Post Employment Benefits Plan

For all SPV's except PrKTCL

The Group has a defined benefit gratuity plan. Such plan is unfunded and and employees working under the said SPV's are covered in this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.

The employee do not contribute towards this plan and the full cost of providing these benefits are met by the group. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	**31 March 2024**	**31 March 2023**
Defined benefit obligation at the beginning of the year	6.86	4.54
Transferred from immediate holding company / subsidiary of immediate holding company	-	0.29
Addition on account of acquisition of subsidiaries	11.06	-
Current service cost	6.22	5.76
Interest Cost on defined benefit obligation	1.31	0.31
Past service cost	-	-
Benefit paid directly by the employer	(2.41)	(2.01)
Remeasurements during the period due to:		
Actuarial (gain)/loss due to change in demographic assumptions	-	-
Actuarial (gain)/loss due to change in financial assumptions	(0.09)	(0.11)
Actuarial (gain)/loss on obligation due to experience	(2.94)	(1.92)
Present value of defined benefit obligation at the end of the year	**20.01**	**6.86**

Details of defined benefit obligation

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Present value of defined benefit obligation	20.01	6.86
Fair value of plan assets	-	-
Benefit liability	**20.01**	**6.86**

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Current service cost	6.22	5.76
Interest cost on defined benefit obligation	1.31	0.31
Past service cost	-	-
Net actuarial (gain) / loss recognised	-	-
Expected return on plan assets	-	-
Contribution by employer	-	-
Net benefit expense	**7.53**	**6.07**

Net employee benefit expense recognised in the other Comprehensive income:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Actuarial (gain)/loss on obligation for the year	(3.03)	(2.03)
Net (income)/expense for the year recognised in OCI	**(3.03)**	**(2.03)**

(This space has been left blank intentionally)

Amounts for the current and previous year are as follows:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Defined benefit obligation	20.01	6.86
Plan assets	-	-
Surplus / (deficit)	(20.01)	(6.86)
Experience adjustments on plan liabilities	-	-
Experience adjustments on plan assets	-	-

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Discount rate	7.20%	7.40%
Expected rate of return on plan asset	-	-
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	8.00%	7.00%
Actual rate of return on plan assets	-	-
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2024 and 31 March 2023 is as shown below:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Projected benefit obligation on current assumptions	20.01	6.86
Obligation after +1% Change in discount rate	(18.65)	(6.40)
Obligation after -1% Change in discount rate	21.47	7.38
Obligation after +1% Change in salary escalation rate	21.30	7.38
Obligation after -1% Change in salary escalation rate	(18.76)	(6.39)

The following is the expected payment of benefits in the future years:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Within the 1 year	1.82	0.74
Between 2 and 5 years	8.09	2.70
Between 6 and 10 years	9.97	3.29
Total expected payments	**19.88**	**6.73**

The weighted average durations to the payment of these cash flows is 3.68 - 9.31 years at the end of the reporting period.

For PrKTCL

The Company has a defined benefit gratuity plan. Such plan is funded with Reliance Nippon Life Insurance and employees working under Parbati Koldam Transmission Company Limited are covered under this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.
The employee do not contribute towards this plan and the full cost of providing these benefits are met by the Company. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Defined benefit obligation at the beginning of the year	**4.59**	**5.02**
Transfer in/(out) obligation	-	(0.22)
Current service cost	0.40	0.47
Interest Cost	0.32	0.32
Past service cost	-	-
Benefit paid directly by the employer	(0.27)	(0.29)
Remeasurements during the period due to:		
Actuarial (gain)/loss due to change in demographic assumptions	-	-
Actuarial (gain)/loss due to change in financial assumptions	0.38	(0.15)
Actuarial (gain)/loss on obligation due to experience	(0.10)	(0.56)
Present value of defined benefit obligation at the end of the year	**5.32**	**4.59**

Details of defined benefit obligation

Particulars	**31 March 2024 (Rs. in million)**	**31 March 2023 (Rs. in million)**
Present value of defined benefit obligation	5.32	4.59
Fair value of plan assets	(13.03)	(12.72)
Benefit recognized as advance gratuity	**(7.71)**	**(8.13)**

(This space has been left blank intentionally)

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Current service cost	0.40	0.47
Interest cost on defined benefit obligation	0.32	0.32
Past service cost	-	-
Expected return on plan assets	(0.94)	-
Contribution by employer	-	-
Net benefit expense	**(0.22)**	**0.79**

Net employee benefit expense recognized in the Other Comprehensive Income:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Actuarial (gain)/loss on obligation for the year	0.28	(0.71)
Return on plan assets , excluding interest income	0.63	-
Change in asset ceiling	-	-
Net (income)/expense for the year recognized in OCI	**0.91**	**(0.71)**

Changes in Fair Value of plan assets:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Opening value of plan assets	**12.72**	11.90
Actuarial (gain)/loss on obligation for the year		
Interest (cost) / income on plan assets	0.94	0.82
Actual return on plan assets less interest/(income) on plan assets	(0.63)	0.00
Closing Balance of Fair Value of Plan Assets	**13.03**	**12.72**

Amounts for the current and previous year are as follows:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Defined benefit obligation	5.32	4.59
Plan assets	(13.03)	(12.72)
Surplus / (deficit)	**7.71**	**8.13**

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Discount rate	7.20%	7.40%
Expected rate of return on plan asset	-	-
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	8.00%	7.00%
Actual rate of return on plan assets	-	-
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2024 and 31 March 2023 is as shown below:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Projected benefit obligation on current assumptions	5.32	4.59
Obligation after +1% Change in discount rate	(4.99)	(4.31)
Obligation after -1% Change in discount rate	5.67	4.90
Obligation after +1% Change in salary escalation rate	5.67	4.90
Obligation after -1% Change in salary escalation rate	(4.99)	(4.31)

The following is the expected payment of benefits in the future years:

Particulars	31 March 2024 (Rs. in million)	31 March 2023 (Rs. in million)
Within the 1 year	1.05	0.97
Between 2 and 5 years	2.33	2.12
Between 6 and 10 years	1.93	1.43
Total expected payments	**5.31**	**4.53**

The weighted average durations to the payment of these cash flows is 8.89 years at the end of the reporting period.

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

These plans typically expose the Group to actuarial risks such as:

Interest Risk
A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan debt investments.

Salary Risk
The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan’s liability.

(This space has been left blank intentionally)

(All amounts in Rs. million unless otherwise stated)

Note 43: Long Term Incentive Plan

Long Term Incentive Plan 2023 and 2024

During the year ended 31 March 2022, the Group launched a Long-Term Incentive Plan 2021 (“Scheme”). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 26 May 2021 and approved by the Board at its meeting held on 26 May 2021. The Scheme is established with effect from 01 April 2021 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

During the year ended 31 March 2023, the Group launched a Long-Term Incentive Plan 2022 (“Scheme”). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 19 May 2022 and approved by the Board at its meeting held on 19 May 2022. The Scheme is established with effect from 01 April 2022 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

During the year ended 31 March 2024, the Group launched a Long-Term Incentive Plan 2023 (“Scheme”). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 11 May 2023 and approved by the Board at its meeting held on 12 May 2023. The Scheme is established with effect from 01 April 2023 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

Particulars	**31 March 2024**	**31 March 2023**
Opening balance as at the beginning of the year	17.52	22.36
Transfer in/(out) obligation	-	1.50
LTIP granted during the year	14.24	5.29
LTIP cancelled during the year	(2.34)	-
Payment towards LTIPs vested	(14.64)	(14.43)
Balance	**14.78**	**14.72**
Provision for distribution	2.97	2.80
Closing balance as at the end of the year	**17.74**	**17.52**

During the year, the Group has granted 0.13 million units of India Grid Trust to eligible employees under the Long-Term Incentive Plan 2023 (“Scheme”) as approved by the Nomination and Remuneration Committee and by the Board at the meetings held on 12 May 2023.

Vesting of Unit Linked Rights shall be subject to the conditions that the Grantee is:
a. in continuous employment with the Group;
b. is not serving any notice of resignation/ termination on the date of such Vesting (except in the case of (a) death; (b) Permanent Incapacity suffered by the Grantee; or (c) Retirement; and
c. is not subject to any pending disciplinary proceeding.

The Value of the payout would be determined as per following formula:
Value of the vested Unit Linked Rights = Number of Unit Linked Rights Vested * 30 days closing volume weighted average# of IndiGrid market price + (Distribution* earned on the unvested units).

Volume weighted average price of per unit is the 30 days closing average of IndiGrid market price (From 02 March 2024 to 31 March 2024).

Distribution payout is subject to actual declaration accumulated on units and approval for India Grid Trust.

Note 44: Group information

The consolidated financial statements of the Group include subsidiaries listed in the table below:

Name of subsidiary	**Principal Activity**	**Country of incorporation**	**Ownership/Beneficial ownership %**	
			31 March 2024	**31 March 2023**
Directly held by the Trust:

1. The Group has acquired Raichur Sholapur Transmission Company Private Limited with effect from 09 November 2022.
2. The Group has acquired Khargone Transmission Limited with effect from 02 March 2023.
3. The Group has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Group has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of the Group.

Refer note 45 for further details.
3A. Further during the current year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid, in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of inestment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TL Sitamauss from Globus, TL Patlasi from Globus, and TL Tinwari from TL Charanka, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

4. The Group has acquired Kilokari BESS Private Limited with effect from 06 November 2023.
5. The Group has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024.
6. The Group has acquired ReNew Solar Urja Power Limited with effect from 23 February 2024.
7. Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) were aquired by IGL w.e.f. 08 September 2023. These entities are now merged with IGL w.e.f. 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024.

* On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Group has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Group thereby giving 100% beneficial ownership of these SPV in the hands of the Group.

Additionally the Group has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Group shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Group as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Group has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

Refer note 31 for significant accouting judgements applied relating to consolidation of subsidiaries.

(This space has been left blank intentionally)

Note 45: Business Combination

The Group has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Group has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid.

The Group has accounted the acquisition of VRET as business acquisition in accordance with Ind 103 "Business Combination" based on valuation done by independent valuer in the consolidated financial statement for year ended 31 March 2024. Detail of net assets acquired, resultant goodwill and customer contract recognized as per below table -

Particulars	VRET	Virescent IM
Assets		
Property, plant and equipments	20,326.36	5.32
Land	2,292.68	-
Customer contracts	14,003.39	-
Other intangibles	-	3.97
Cash & Cash Equivalents	-	170.35
Inventories	154.16	-
Trade receivables	1,315.67	-
Income tax asset	59.82	49.74
Other assets	529.33	31.93
Total assets	**38,681.41**	**261.30**
Liabilities		
Trade Payables	318.85	27.88
Lease Liabilities	2.33	-
Employee benefit obligation	37.70	27.41
Current tax liabilities	37.29	-
Other liabilities	249.73	21.30
Total liabilities	**645.89**	**76.59**
Total identifiable net assets (excluding DTL impact) (A+B+C)	**38,035.52**	**184.71**
Non-controlling interest (D)	(34.26)	-
Goodwill arising on acquisition (E)	542.74	-
Purchase consideration (A+B+C+D+E)*	**38,544.00**	**184.71**
Deferred tax liability (DTL) on revaluation (F)	2,551.60	-
Goodwill (including DTL impact) (E+F)	**3,094.34**	**-**

Analysis of cash flows on acquisition:	**VRET SPV's**	**Virescent IM**
Transaction costs of the acquisition (included in cash flows from investing activities)	**(40.85)**	-
Net cash acquired with the subsidiaries (included in cash flows from investing activities)	**2,650.48**	**170.35**
Net cash flow on acquisition	**2,609.63**	**170.35**

* Out of total purchase consideration, Rs. 22,994.40 million has been paid through cash and rest through acquisition of other net assets.

Notes:
(i) The goodwill of Rs. 3,094.34 million comprises the value of expected synergies arising from this acquisition. Whenever there will be impairment of goodwill, the same will be non deductible for tax purpose.
(ii) The deferred tax liability mainly comprises the tax effect of the accelerated depreciation for tax purposes of Property, plant & equipment and intangible assets.
(iii) The fair value of receivables acquired is approximately equal to their book vaue.
(iv) There is no contingent consideration attached to this acquisition.
(v) The fair value of the non-controlling interest in Terralight Solar Energy Sitamau SS Private Limited has been estimated by applying a discounted earnings technique.
(vi) The Group acquired contingent liability of Rs. 98.83 million as a part of acquistion of VRET and the same is recoverable as per share purchase agreement from selling shareholders.
(vii) The above purchase consideration does not include cash and cash equivalents and other bank balance.

From the date of acquisition, VRET SPV's has contributed Rs. 3,085.88 million of revenue and Rs. 2,817.57 million to the EBITDA of the Group. If the combination had taken place at the beginning of the year, revenue from continuing operations would have been Rs. 30,851.70 million and EBITDA of the Group would have been Rs. 26,468.64 million.

Furthermore, VRET IM and VRET PM were merged with IGL effective 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024.

Note 46: Regulatory Deferral Account Balances

Regulatory Assets / (Liability) with respect to entity Parbati Koldam Transmission Limited:
In accordance with the Guidance Note on Rate Regulated Activities issued by Institute of Chartered Accountants of India (ICAI), the reconciliation of the Regulatory Assets / (Liabilities) of PrKTCL (a subsidiary of the Group) as on March 31, 2024 is as under:

(Rs. in million)

Particulars	**As at 31 March 2024**	**As at 31 March 2023**

Total	**647.65**	**647.84**
Less: Recoverable from beneficiaries	(647.65)	(647.84)
Closing Balance	**-**	**-**

(i) Determination of Transmission service charges (TSC) chargeable by PrKTCL to its consumers is governed by CERC Tariff Regulation, 2019, whereby CERC determines the Transmission service charges wherein PrKTCL earns assured return of 15.5% p.a. post tax on CERC approved equity in the business. The rate review on account of grossing up with the actual tax rate or "truing up" process during the tariff period is being conducted as per the principle stated in CERC Regulations to adjust the tariff rates downgrade or upgrade to ensure recovery of actual tax paid and assured return on equity.

(ii) During the truing up process, revenue gaps (i.e. surplus/shortfall in actual returns over returns entitled) are determined by the regulator and are permitted to be carried forward as regulatory assets/ regulatory liabilities which would be recovered / refunded through future billing based on future tariff determination by the regulator. At the end of each accounting period, PrKTCL also determines regulatory assets/regulatory liabilities in respect of each accounting period on self true up basis.

Market Risk

PrKTCL is in the business of developing the Transmission Line for supplying the eletricity to beneficiary, therefore no demand risk anticipated because the License issued by the CERC for 25 years. The Project is constructed under Cost Plus Contract.

(All amounts in Rs. million unless otherwise stated)

Regulatory Risk

(i) PrKTCL is Operating under Regulatory Environment governed by Central Electricity Regulatory Commission (CERC). Tariff is subject to Rate Regulated Activities.

(ii) PrKTCL determine revenue gaps (i.e. surplus / shortfall in actual returns over returns entitled) in respect of their regulated operations as given in the Guidance Note on Rate Regulated Activities and based on the principles laid down under the relevant tariff regulations / tariff orders notified by the CERC and the actual or expected actions of the regulators under the applicable regulatory framework. Appropriate adjustments in respect of such revenue gaps are made in the respective years for the amounts which are reasonably determinable and no significant uncertainty exists in such determination. These adjustments / accruals representing revenue gaps are carried forward as regulatory defferal account debit / credit balances which would be recovered / refunded through future billing based on future tariff determination by the regulators in accordance with the respective electricity regulations.

(iii) The key risks and mitigating actions are also placed before the Audit Committee of PrKTCL. PrKTCL's risk management policies are established to identify and analyze the risks faced by PrKTCL, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and PrKTCL's activities.

(iv) PrKTCL's risk for Regulatory Assets are monitored by the Regulatory Team under policies approved by the Board of Directors. The Team identifies, evaluates and protect risks in close cooperation with PrKTCL's operating units. The board provides principles for overall risk management, as well as policies covering specific areas.

(v) Regulatory Assets recognized in the Books of Accounts of PrKTCL are subject to True up by CERC as per Regulation.

Net tax recoverable from beneficiaries:

1. In accordance with the CERC tariff regulation for determination of tariff, the income-tax paid is considered for tariff determination (truing up). Accordingly, PrKTCL has considered Rs.647.65 (March 2023 : Rs.647.84) of deferred tax liability as on 31 March 2024 as Net tax recoverable from beneficiaries.

2. As per the Standard, deferred tax on timing differences which reverse during the tax holiday period should not be recognised. For this purpose, the reversal during the tax holiday period is adjusted against the deferred tax liability created till FY 2022-2023. Therefore, the reversal of timing difference during the tax holiday period, would be considered to be out of the timing difference as at 31 March 2024 and reversed during the period ended 31 March 2024.

Note 47: Code on Social Security

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective. Based on a preliminary assessment, the Group believes the impact of the change will not be significant.

Note 48: Subsequent event

(i) On 12 May 2024, the Board of directors of the Investment Manager approved a distribution of Rs. 3.55 per unit for the period 01 January 2024 to 31 March 2024 to be paid on or before 15 days from the date of declaration.

(ii) The group has filed scheme of Amalgamation between IGL1 and NRSS with the regulatory authority on 25 Apr 2024, wherein IGL1 will be merged with NRSS. The effect of amalgamation would be given once the regulatory approvals are obtained.

(iii) The Group has completed the acquisition of 100% paid-up capital and management control of Kallam Transco Limited from REC Power Development and Consultancy Limited on April 5, 2024.

Note 49: Other Information

(i) The Group does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
(ii) The Group does not have any transactions with struck off Companies.
(iii) The Group have not traded or invested in Cryptocurrency or Virtual Currency during the financial period.
(iv) The Group has not advanced or loaned or invested funds to any other persons or entities, including foreign entities (intermediaries) with the understanding that the intermediary shall:
   (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (ultimate beneficiaries) or
   (b) provide any guarantee, security or the like to or on behalf of the ultimate beneficiaries
(v) The Group has not received any fund from any persons or entities, including foreign entities (funding party) with the understanding (whether recorded in writing or otherwise) that the Group shall:
   (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or
   (b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries
(v) The Group does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the period in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.
(vi) The Group has not been declared as a wilful defaulter by any bank or financial institution or any other lender.

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of India Grid Trust

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of India Grid Trust (hereinafter referred to as "the InvIT") and its subsidiaries (the InvIT and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31, 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Statement of Changes in Unit Holder's Equity, the consolidated Statement of Cash Flow for the year then ended, the consolidated Statement of Net Assets at fair value as at March 31, 2023, the consolidated Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT, the underlying Holding Companies ("HoldCos") and each of its subsidiaries for the year then ended, and a summary of significant accounting policies and other explanatory notes (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended including any guidelines and circulars issued thereunder (together referred as the "InvIT Regulations") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, to the extent not inconsistent with InvIT regulations, of the consolidated state of affairs of the Group as at March 31, 2023, its consolidated profit including other comprehensive income, its consolidated cash movements and its consolidated movement of the unit holders' funds for the year ended March 31, 2023, its consolidated net assets at fair value as at March 31, 2023, its consolidated total returns at fair value and the net distributable cash flows of the InvIT, the underlying HoldCos and each of its subsidiaries for the year ended March 31, 2023.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the InvIT Regulations and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td colspan="2"><u>Non applicability of Appendix D 'Service Concession Arrangements' of Ind AS 115</u> 'Revenue from contracts with customers' (as described in Note 28 of the consolidated financial statements)</td></tr>
<tr><td>The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25/35 years. Generally, the subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff-based bidding process to Build, Own, Operate and Maintain ("BOOM")/ Build, Own and Operate ("BOO)" the transmission infrastructure for a period of 25/35 years or have entered into Power Purchase Agreements ("PPA") with Solar Energy Corporation of India ("SECI"), a limited liability company owned 100% by the Government of India, for development of solar power project, generation and sale of solar power with a contractual period of 25 years at a fixed tariff.

The Management of Investment Manager ("the management") is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee or solar power developer to obtain various approvals under the regulatory framework to conduct its operations both during the period of the license or power purchase agreement as well as at the end of the license period or expiry date of power purchase agreement. In the view of management, generally the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial</td><td>Our audit procedures included, among others, the following:
We obtained and read the TSAs/ PPAs to understand roles and responsibilities of the grantor.
We read and evaluated the TSAs/ PPAs to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise.
We discussed with the management regarding the extent of grantor's involvement in the transmission/ solar assets and grantor's intention not to control the significant residual interest through ownership, beneficial entitlement or otherwise.
We assessed the positions taken by other entities in India with similar projects/TSAs/ PPAs as to the extent of involvement of the grantor and the consequent evaluation of the applicability of Appendix D for such entities and confirmed our understanding.
We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
entitlement or otherwise, any significant residual interest in the transmission/solar infrastructure at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D is not applicable to the Group for all transmission assets operating under BOOM/ BOO model and for Solar assets. Considering the judgement involved in determining the grantor's involvement and whether the grantor controls, through ownership, beneficial entitlement or otherwise, and any significant residual interest in the transmission/solar infrastructure at the end of the term of the arrangement, this is considered as a key audit matter.	
Key judgements and estimates used in the application of Appendix D 'Service Concession Arrangements' of Ind AS 115 'Revenue from contracts with customers' a subsidiary of the Group - Jhajjar KT Transco Private Limited (JKTPL) *(as described in Note 28 of the consolidated financial statements)*	
JKTPL acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25 years issued by Haryana Electricity Regulation Commission. JKTPL has entered into TSA with Haryana Vidyut Prasaran Nigam Limited through a tariff-based bidding process to Design, Build, Finance, Operate and Transfer ("DBFOT") the transmission infrastructure for a period of 25 years. The Group constructs transmission infrastructure and operates and maintains such infrastructure for a specified period of time. The infrastructure constructed by the Group is not recorded as property, plant and equipment of the Group because the TSA does not transfer to the concessionaire the right to control the use of public services infrastructure. The group only has the right to operate the infrastructure for the provision of public services on behalf of the grantor, as provided in the contract. Thus, under the terms of the TSA, the Group only acts as a service provider. Hence this arrangement is accounted for under Appendix D – 'Service Concession Arrangements' to Ind AS 115 – 'Revenue from contracts with customer'.	Our audit procedures included, among others, the following: • We evaluated terms of the TSA to understand roles and responsibilities of the grantor. • We tested, on sample basis, the base data and supporting documents for basis of key assumptions and estimates used by the management. • We read and evaluated the TSA to understand whether the grantor controls significant residual interest in the infrastructure at the end of the term of the arrangement through ownership, beneficial ownership or otherwise. • We evaluated the management's assessment process for applicability of Appendix D of Ind AS 115 for transmission projects based on the terms of the agreement and tested the judgements/ estimates relating to future cash flows over the concession period, and discounting rate used to discount expected cash flows.

Key audit matters	How our audit addressed the key audit matter
The Group has classified the concession arrangements under financial asset model since the operator has an unconditional contractual right to receive cash or other financial assets from or at the direction of the grantor for the services. Accordingly, the above matter was determined to be a key audit matter in our audit of the consolidated financial statements.	• We tested the arithmetical accuracy of the valuation models. • We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant accounting standards requirements.
<u>Impairment of property, plant and equipment and service concession arrangements</u> *(as described in Note 3,7 and 28 of the consolidated financial statements)*	
The Group owns and operates various power transmission and generation assets. The carrying value of the power transmission and generation assets as at March 31, 2023, included under property, plant and equipment and service concession arrangements is INR 180,623.56 million. In accordance with Ind AS 36 and Ind AS 109, at each reporting period end, management assesses the existence of impairment indicators of property, plant and equipment and service concession arrangements. In case of existence of impairment indicators, property, plant and equipment and service concession arrangements balances are subjected to impairment test. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's transmission license or solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair	Our audit procedures included, among others, the following: • We obtained an understanding of the Group's process on assessment of impairment of property, plant and equipment and service concession arrangements and the assumptions used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report of the Group's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We evaluated the independent valuation expert's methodology, assumptions and estimates used in the calculations. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • In performing the above procedures, we involved valuation specialists to perform an independent review of methodology and key assumptions used in the valuation.

Key audit matters	How our audit addressed the key audit matter
values, this is considered as a key audit matter.	• We read and assessed the disclosures included in the notes to the consolidated financial statements
<u>Classification of unit holders' funds as equity</u> *(as described in Note 28 of the consolidated financial statements)*	
The InvIT is required to distribute to Unitholders not less than ninety percent of its net distributable cash flows for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the InvIT to pay to its Unitholders cash distributions. The Unitholders' funds could therefore have been classified as compound financial instrument which contains both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars No. CIR/IMD/DF/114/2016 dated October 20, 2016 and No. CIR/IMD/DF/127/2016 dated November 28, 2016 ("SEBI Circulars") issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated October 20, 2016 dealing with the minimum disclosures for key financial statements. Considering the judgment required for classification of unit holders' funds as equity, this is considered as a key audit matter.	Our audit procedures included, among others the following: • We obtained and read the requirements for classification of financial liability and equity under Ind AS 32 and evaluated the provisions of SEBI Circulars for classification/presentation of unit holders' funds in the financial statements of an Infrastructure Investment Trust. • We read and assessed the disclosures included in the consolidated financial statements for compliance with the relevant requirements of InvIT regulations.
<u>Acquisition of Transmission/ Solar Special Purpose Vehicles ("SPVs") classified as asset acquisitions</u> *(as described in Note 28 of the consolidated financial statements)*	
The Group acquires operational transmission/ solar SPVs from the Sponsor or from third parties. The purchase consideration primarily pertains to the fair value of the transmission assets/ solar assets. All such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements/ Power Purchase Agreements (TSAs/PPAs) for 25/35 years. The only key activity for these SPVs is the maintenance of the transmission assets/ solar assets which is outsourced to third parties.	Our audit procedures included, among others, the following: • We read the relevant guidance under Ind AS on determining if the acquired SPV constitutes a business. • We assessed the activities of the transmission/ solar SPVs. • We read and assessed the Group's accounting policy for recognition and classification on the acquisition of transmission/ solar SPVs.

Key audit matters	How our audit addressed the key audit matter
Based on evaluation of the above fact pattern vis-a-vis the guidance on definition of business under Ind AS, including evaluation under the optional concentration test, and also keeping in view the relevant guidance on similar fact pattern available under accounting standards applicable in other jurisdictions, the management classified the acquisition of transmission/ solar SPVs as asset acquisition. Considering the management judgement involved in determining if the acquisition of transmission/ solar SPVs constitute business or asset, it is considered as a key audit matter.	• We discussed with the management the key assumption underlying the Group's assessment and tested the underlying data used for classification made by the Group. • We read and assessed the disclosures in the consolidated financial statements for compliance with the relevant accounting standards requirement.
Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations *(as described in Note 28 of the consolidated financial statements)*	
The Group is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been carried out by the independent valuer appointed by the Group. For the purpose of the above, fair value is determined by forecasting and discounting future cash flows. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's transmission license, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair	Our audit procedures included, among others the following: • We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value. • We discussed with the Management and obtained an understating of the Group's policy on the assessment of fair value and the assumptions used by the management, including design and implementation of controls, validation of management review controls. • Obtained understating of the Group's process for preparation statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report by the InvIT's independent valuation expert, and assessed the expert's competence, capability and objectivity.

Key audit matters	How our audit addressed the key audit matter
values, this is considered as a key audit matter.	• We evaluated independent valuation expert's methodology, assumptions and estimates used in the calculations. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs/ PPAs / tariff orders. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • In performing the above procedures, we used our valuation specialists to perform an independent review of methodology and key assumptions used in the valuation. • We read and assessed the disclosures included in the notes to the consolidated financial statements.
<u>Classification of Khargone Transmission Limited ("KgTL") as a subsidiary</u> *<u>(as described in Note 28 of the consolidated financial statements)</u>*	
In the current year, the Group has entered into a share purchase agreement with Sterlite Power Transmission Limited (the "Selling shareholders") for acquisition of equity stake in Khargone Transmission Limited ("KgTL") on January 21, 2023. Pursuant to the Agreement, the Group has finalized purchase consideration for entire equity stake of the Selling shareholders and has paid purchase consideration for acquisition of 49% paid up equity capital in the KgTL. Additionally, the Group has also given a non-refundable, interest free advance to the selling shareholders comprising of 51 % of the purchase consideration which would be adjusted with the actual transfer of 51% equity stake. Based on the contractual terms in the above agreement, the Group has following rights: • Right to nominate majority of directors on the Board of directors of KgTL; • Right to direct the Selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KgTL;	Our audit procedures included, among others, the following: • We obtained and read the share purchase agreement with the selling shareholder for acquisition of equity stake in KgTL. • We obtained understanding of management's assessment of whether the Group controls KgTL. • We read and understood the Group's accounting policy for consolidation. • We discussed with management the contractual terms and rights available to the Group pursuant to the agreement. • We read and evaluated the requirements for consolidation of entity under Ind AS 110. • We read and assessed the disclosures included in the consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
• Non-disposal undertaking from the Selling Shareholders for the remaining 51% equity stake in KgTL; Considering the requirements under Ind AS 110, the Group has assessed whether it controls KgTL on the basis of the above rights under the Agreement. Accordingly, the Group has consolidated KgTL as a 100% subsidiary from the date of acquisition. Considering the judgment required in assessing whether the Group controls KgTL, this is considered as a key audit matter.	

Other Information

The management of IndiGrid Investment Managers Limited (the "Investment Manager") is responsible for the other information. The other information comprises the information included in the Annual report but does not include the consolidated financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management for the Consolidated Financial Statements

The Management of the Investment Manager ('the Management') is responsible for the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash movements and the consolidated movement of the unit holder's funds for the year ended March 31, 2023, the consolidated net assets at fair value as at March 31, 2023, the consolidated total returns at fair value of the InvIT and the net distributable cash flows of the InvIT, the underlying HoldCos and each of its subsidiaries in accordance with the requirements of the InvIT regulations; Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India, to the extent not inconsistent with InvIT Regulations. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the management, as aforesaid.

In preparing the consolidated financial statements, the Board of Directors of the Investment Manager and the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Management and respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the

Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the InvIT and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(This space has been intentionally left blank)

Report on Other Legal and Regulatory Requirements

Based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Consolidated Balance Sheet and the Consolidated Statement of Profit and Loss are in agreement with the books of account;

(c) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards (Ind AS) and/or any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended, to the extent not inconsistent with InvIT Regulations.

(d) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.

Disclosures Pursuant To SEBI Circulars
(SEBI Circular No. CIR/IMD/DF/114/2016 dated 20 October 2016 and No. CIR/IMD/DF/127/2016 dated 29 November 2016 issued under the InvIT Regulations)
(All amounts in Rs. million unless otherwise stated)

A. STATEMENT OF NET ASSETS AT FAIR VALUE AS AT

(Rs. in million)

Particulars	31 March 2023		31 March 2022	
	Book value	Fair value	Book value	Fair value
A. Assets	2,02,123.82	2,44,705.79	1,95,570.35	2,32,813.33
B. Liabilities and Non-Controlling Interest (at book value)	1,52,546.87	1,52,546.87	1,41,388.09	1,41,388.09
C. Net Assets (A-B)	49,576.95	92,158.93	54,182.26	91,425.23
D. Number of units	700.18	700.18	700.18	700.18
E. NAV (C/D)	70.81	131.62	77.38	130.57

Fair values of subsidiaries/SPVs are calculated based on their independent fair value done by experts appointed by the Group. The fair value of all these revenue-generating assets is determined using this method. The Group holds 100% equity/beneficial interest in all SPVs except PrKTCL, in which it holds 74% with the balance 26% held by PGCIL and accounted for as non-controlling interest in the financial statements.

Project wise breakup of fair value of assets as at 31 March 2023 **(Rs. in million)**

-related debts settled or due to be settled from sale proceeds;	-
-directly attributable transaction costs;	-
-proceeds reinvested or planned to be reinvested as per Regulation 18(7)(a) of the InvIT Regulations	-
Add: Proceeds from sale of infrastructure assets not distributed pursuant to an earlier plan to re-invest, if such proceeds are not intended to be invested subsequently, net of any profit / (loss) recognised in profit and loss account	-
Less: Capital expenditure, if any	-
Add/less: Any other item of non-cash expense / non cash income (net of actual cash flows for these items)	-
-any decrease/increase in carrying amount of an asset or a liability recognised in profit and loss account on measurement of the asset or the liability at fair value;	-
-interest cost as per effective interest rate method (difference between accrued and actual paid);	-
-deferred tax;	-
-unwinding of Interest cost on Non convertible debentures issued at interest rate lower than market rate of interest	-
-portion reserve for major maintenance which has not been accounted for in profit and loss statement;	-
-reserve for debenture/ loan redemption (Excluding any reserve required by any law or as per lender's agreement)	-
Amortization of Upfront fees	-
Less: Repayment of external debt (principal) / redeemable preference shares / debentures, etc. (Excluding refinancing) / net cash set aside to comply with DSRA requirement under loan agreements	-
	-
	-
Total Adjustments (B)	**272.22**
Net Distributable Cash Flows (C) = (A+B)	**192.06**

* Being the date of acquisition by IndiGrid consortium.
Note: During the period, amount being at least 90% has already been distributed to IndiGrid.

1. Group information

The Consolidated financial statements comprise financial statements of India Grid Trust ("the Trust" or "IndiGrid") and its subsidiaries (collectively, the Group) for the year ended March 31, 2023. IndiGrid is an irrevocable trust settled by Sterlite Power Transmission Limited (the "Sponsor") on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission/ solar assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at March 31, 2023, Group has following project entities ("Special Purpose Vehicles" or "SPVs") which are transmission infrastructure projects and Solar Projects developed on Build, Own, Operate and Maintain ('BOOM') or Build, Own and Operate ('BOO') basis:

1. Bhopal Dhule Transmission Company Limited ('BDTCL')
2. Jabalpur Transmission Company Limited ('JTCL')
3. RAPP Transmission Company Limited ('RTCL')
4. Purulia & Kharagpur Transmission Company Limited ('PKTCL')
5. Maheshwaram Transmission Limited ('MTL')
6. Patran Transmission Company Limited ('PTCL')
7. NRSS XXIX Transmission Limited ('NTL')
8. Odisha Generation Phase-II Transmission Limited ('OGPTL')
9. East-North Interconnection Company Limited ('ENICL')
10. Gurgaon-Palwal Transmission Limited ('GPTL')
11. Parbati Koldam Transmission Company Limited ('PrKTCL')
12. NER II Transmission Limited ('NER')
13. Kallam Transmission Limited ('KTL')
14. Raichur Solapur Transmission Company Private Limited ('RSTCPL')
15. Khargone Transmission Limited ('KgTL')

As at March 31, 2023, Group has following project entities which are transmission infrastructure projects developed on Design, Build, Finance, Operate and Transfer ('DBFOT') basis:

1. Jhajjar KT Transco Private Limited ('JKTPL')

These SPVs have executed Transmission Services Agreements ("TSAs") with Long term transmission customers under which the SPVs have to maintain the transmission infrastructure for 25 or 35 years post commissioning.

As at March 31, 2023, following project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain ('BOOM') basis:

1. IndiGrid Solar – I (AP) Private Limited ('IndiGrid Solar – I')
2. IndiGrid Solar – II (AP) Private Limited ('IndiGrid Solar – II')

These SPVs have executed Power Purchase Agreements ("PPAs") with Solar Energy Corporation Limited ('SECI') for sale of electricity for 25 years post commissioning.

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra - 400098, India. The financial statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on May 12, 2023.

2. Significant Accounting Policies

2.1 Basis of preparation

The Consolidated financial statements comprise of the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Unit Holders' Equity for the year then ended, the Consolidated Statement of Net Assets at fair value as at March 31, 2023, the Consolidated Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') of the Trust, the underlying holding company ("HoldCo") and each of its subsidiaries for the year then ended and a summary of significant accounting policies and other explanatory notes prepared in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015(as amended), prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") read with SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations").

The Consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments
- Certain financial assets measured at fair value (e.g. Liquid mutual funds)

The Group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

The Consolidated financial statements are presented in Indian Rupees Millions, except when otherwise indicated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Trust and its subsidiaries as at March 31, 2023. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent, i.e., year ended on March 31.

Consolidation procedure:

(a). Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.

(b). Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(c). Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 *Income Taxes* applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the unit holders of the Trust and to the non-controlling interests (if any), even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

2.3 Summary of significant accounting policies

The following is the summary of significant accounting policies applied by the Group in preparing its consolidated financial statements:

a) Acquisition of Transmission and Solar SPVs classified as asset acquisitions

The Group acquires operational transmission and Solar Project SPVs from the Sponsor or from third party. The purchase consideration primarily pertains to the fair value of the transmission and Solar assets. All such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements (TSAs) for 35/ 25 years and fixed tariff rate per unit under power purchase agreement ('PPA') for 25 years. The only key activity for these SPVs is the maintenance of the transmission assets and project assets which is outsourced to third parties and partially done in house. There are few employees in these entities and no other significant processes are performed for earning tariff revenues.

Based on evaluation of the above fact pattern vis-a-vis the guidance on definition of business under Ind AS and also keeping in view the relevant guidance on similar fact pattern available under accounting standards applicable in other jurisdictions, the management has classified the acquisition of transmission SPVs as asset acquisition.

b) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group has identified twelve months as its operating cycle.

c) Foreign currencies

The Group's consolidated financial statements are presented in INR, which is its functional currency. The Group does not have any foreign operation.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

d) Fair value measurement

The Group measures financial instruments such as mutual funds at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

In estimating the fair value of transmission assets/projects, the Group engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be re-measured or reassessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (Note 29B)
- Disclosures for valuation methods, significant estimates and assumptions (Note 28)
- Financial instruments (including those carried at amortised cost) (Note 29A)

e) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer.

Power transmission services

Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs for periods of 35/25 years. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs. The Group's performance obligation under the TSAs is to provide power transmission services. The performance obligation is satisfied over time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. Accordingly, the revenue from power transmission services is recognised over time based on the transmission asset availabilities and the tariff charges approved under the respective CERC tariff orders and includes unbilled revenues accrued up to the end of the accounting period. The payment is generally due within 60 days upon receipt of monthly invoice by the customer.

Solar Business – Electricity generation

Revenue from contracts with customers comprises of revenue arrangement is based on long term PPA with its customer SECI. As per the PPA, the Group's performance obligation is to supply solar power at a rate specified in the PPA. Revenue is recognised over time for each period based on the volume of solar power supplied to the Customer as per the terms stated in the PPA at the metering point of the Customer. Estimates used in the revenue recognition as mentioned above are re-assessed periodically and are adjusted if required.

Regulatory Assets and revenue:

The group determines revenue gap for the period (i.e shortfall in actual returns over assured returns) based on the principles laid down under the CERC regulations and tariff orders issued by CERC. In respect of such revenue gaps, appropriate adjustments, have been made for the respective periods on a conservative basis in accordance with accounting policies and the requirement of Ind AS 114, "regulatory deferral accounts" read with guidance note on Accounting for rate regulated activities issued by Institute of Chartered Accountants of India. ("ICAI").

Service Concession Arrangements:

The group through one of its subsidiaries also has operating and maintaining the power transmission system including sub-station constructed to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor.

Under Appendix D to lnd AS 115, this arrangement is considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets".

Finance Income for Service Concession Arrangements under finance assets model is recognised using effective interest rate method. Revenue from operations and maintenance services are separately recognised in each period as and when services are rendered.

Contract balances

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before payment of the consideration is due). Amounts which have been billed to the customers are disclosed as Trade receivables and amounts which are to be billed to the customers (and not conditional on the group's future performance) are disclosed under Other financial assets. Refer accounting policies for financial assets in Financial instruments – initial recognition and subsequent measurement.

f) Interest income/Dividend income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Income from dividend on investments is accrued in the year in which it is declared, whereby the Group's right to receive is established.

g) Taxation

Current income tax
Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax
Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales/value added/goods and service taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of sales/value added/goods and service taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

h) Property, plant and equipment

Capital work in progress, property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the construction costs to the extent the expenditure can be attributable to construction activity or is incidental there to. Income earned during the construction period is deducted from the total of the indirect expenditure.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered	Useful life (Schedule II#)
Leasehold land	Lease Period*	30
Buildings (substation)	25	30
Substations	25-35	40
Transmission lines	25-35	40
Plant and machinery	2-5	15
Solar power plants	25	40
Data processing equipments	3-5	3-6
Furniture and Fittings	5-7.5	10
Office equipments	4-5	3
Vehicles	8	8
Roads	10	10

Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies.
*Leasehold improvements are depreciated over the useful life of the asset or the lease period, whichever is lower

The Group, based on technical assessments made by technical experts and management estimates, depreciates buildings (substation) and certain items of plant and equipment, data processing equipment, furniture and fittings, office equipment and vehicles over estimated useful lives which are different from the useful lives prescribed in Schedule II to the Companies Act, 2013 which is applicable to the subsidiary companies. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

i) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.
Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.
The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is different from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

k) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets
The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Office Premises 5-10 years

Lease Liabilities
At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is accounted on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

l) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations are recognised in the statement of profit and loss

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

The Group assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

m) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

n) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement
All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.
The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section (d) Revenue from contracts with customers.

Subsequent measurement
For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost
A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss.

Debt instrument at FVTOCI
A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the statement of profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method. The Group does not have any financial assets which are subsequently measured at FVTOCI.

Debt instrument at FVTPL
FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments
All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition
A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets
Majority of the financial assets of the Group which are not reflected at fair value pertain to trade and other receivables. Considering the nature of business, the Group does not foresee any credit risk on its trade and other receivables which may cause an impairment. Also, the Group does not have any history of impairment of trade and other receivables.

For the financial assets which are reflected at fair value, no further impairment allowance is necessary as they reflect the fair value of the relevant financial asset itself.

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.
ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Financial liabilities

Initial recognition and measurement
Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instruments.

Subsequent measurement
The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss
Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the Group does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised Classification	Accounting Treatment
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to statement of profit or loss at the reclassification date.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Since the Group does not meet the strict criteria for hedge accounting, it has not applied hedge accounting in respect of its derivative contracts.

p) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Group's cash management.

q) Cash distribution to unit holders

The Group recognises a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders' equity.

r) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

Changes in accounting policies and disclosures

(i) Amendments to Ind AS 103: Reference to the Conceptual Framework

The amendments replaced the reference to the ICAI's "Framework for the Preparation and Presentation of Financial Statements under Indian Accounting Standards" with the reference to the "Conceptual Framework for Financial Reporting under Indian Accounting Standard" without significantly changing its requirements.

The amendments also added an exception to the recognition principle of Ind AS 103 Business Combinations to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets or Appendix C, Levies, of Ind AS 37, if incurred separately. The exception requires entities to apply the criteria in Ind AS 37 or Appendix C, Levies, of Ind AS 37, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date.

In accordance with the transitional provisions, the Group applies the amendments prospectively, i.e., to business combinations occurring after the beginning of the annual reporting period in which it first applies the amendments (the date of initial application).

These amendments had no impact on the consolidated financial statements of the Group.

Notes :

(i) Property, plant and equipment and capital work in progress are subject to pari passu first charge to lenders for term loans as disclosed in Note 14.

(ii) Title deeds of all immovable properties are held in the name of Group except title deeds of ISPL-1 and ISPL-2 are held in its erstwhile name.

Note 3a: Right of use asset

The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.
The Group has also taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities. The lease liability has been measured by using the incremental borrowing rate.

Neither trade or other receivable are due from directors or other officers of the Group either severally or jointly with any other person, nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member within the Group.

Trade Receivables includes Rs. 710.61 million (March 31, 2022 - Rs 710.61 million) billed on NTPC for the period from the readiness of the Transmission Lines to the date of actual Power Flow. As per the order issued by the CERC, tariff for this is period was to be paid by NTPC. NTPC has filed appeal with the Appellate Tribunal of Electricity against the order of the CERC. NTPC has also filed an stay application against the bill raised by the Group. APTEL has admitted the stay application and asked no coercieve action should be taken place till the hearing of the said application.
Further, the Group has provided amount payable to beneficiaries corresponding to the above recoverable amount and according to the prevailing practice the amount shall be paid as and when the same is realised from NTPC. Interest recoverable/payable on these amounts shall be accounted for on actuality in view of uncertainty involved.

Trade receivables are non-interest bearing and are generally due on invoicing / billing.

See Note 37 on credit risk of trade receivables, which explains how the Group manages and measures credit quality of trade receivables that are neither past due nor impaired.

As at 31 March 2023	**700.18**	**65,903.15**

Note:
(i) During the previous year ended 31 March 2022, the Group had issued 116,695,404 units of India Grid Group ("Indigrid" and such units, the "units"), for cash at a price of Rs. 110.00 per unit (the "issue price"), aggregating to Rs. 12,836.49 million to the eligible unitholders (as defined in the Letter of Offer) on a rights basis in the ratio of one lot for every five lots (each lot comprising 1,701 units) held by them on the record date, being 30 March 2021. The Allotment Committee of the Board of Directors of IndiGrid Investment Managers Limited ('Investment Manager'), considered and approved allotment of 116,695,404 rights units to the eligible unitholders of IndiGrid on 22 April 2021.
(ii) Issue expenses of Rs. 79.03 million was incurred in connection with issue of units which is shown as reduction from Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

b. Terms/rights attached to units
The Group has only one class of units. Each unit represents an undivided beneficial interest in the Group. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Group at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Group declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Group Deed and the Investment Management Agreement.

At India's statutory income tax rate of 25.17% (31 March 2022: 25.17%)	1,179.86	879.12
Impact of exemption u/s 10(23FC) of the Income Tax Act, 1961 available to the Trust	(1,151.33)	(830.12)
Income tax for earlier years	1.26	
Impact on deferred tax due to change in tax rates	-	10.97
At the effective income tax rate	**29.79**	**59.97**
Income tax expense reported in the statement of profit and loss	**29.79**	**59.97**

1. As at 31 March 2023, based on the expected future profitability of the SPVs, the management has recognised deferred tax assets on the unabsorbed tax depreciation carried forward only to the extent of deferred tax liability.

2. The Group has Rs. 11,120.52 million (31 March 2022: Rs. 13,923.31 million) of tax losses / unabsorbed depreciation carried forward on which deferred tax asset has not been recognised. If the Group was able to recognise all unrecognised deferred tax assets, profit after tax would have increased and equity would have increased by Rs. 2,798.81 million (31 March 2022: Rs. 3,504.50 million).

Further, for the calculation of deferred tax assets/liabilities, the Group has not considered tax holiday available under the Income Tax Act for some of the project SPVs for the computation of deferred tax assets/liabilities. The management based on estimated cash flow workings for these project, believes that since there will be losses in the initial years of these project, no benefit under the Income tax Act would accrue to these projects in respect of the tax holiday. Management will re-assess this position at each balance sheet date.

Note 21: Revenue from contracts with customers

	31 March 2023	31 March 2022
Note 21.1: Disaggregated revenue information		
Type of service		
Power transmission services (refer note A below)	22,376.64	21,614.28
Revenue from sale of electricitiy (solar) (refer note B below)	941.48	607.55
Total	**23,318.12**	**22,221.83**

(A) Revenue from contracts with customers comprises of revenue from power transmission services rendered in India to Long Term Transmission Customers (LTTCs) pursuant to the respective Transmission Services Agreements (TSAs) executed by the Group with LTTCs. The TSAs are executed for a period of 35 / 25 years and have fixed tariff charges as approved by Central Electricity Regulatory Commission (CERC) (except some escalable portion and some incentives/penalties relating to transmission assets availabilities). Under the TSAs, the Group's performance obligation is to provide power transmission services. The Group is required to ensure that the transmission assets meet the minimum availability criteria under the respective TSAs failing which could result in certain disincentives/penalties. The performance obligation is satisfied over-time as the customers receive and consume the benefits provided by the Group's performance as the Group performs. The payment is generally due within 60 days upon receipt of monthly invoice by the customer. The Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the Point of Connection (PoC) mechanism, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility (i.e. Power Grid Corporation of India Limited) from LTTCs are disbursed pro-rata to all Transmission Service Providers from the pool in proportion of the respective billed amount.
(B) Revenue from sale of solar power generated is recognised on accrual basis (net of deviations as per the Deviation Settlement Mechanism) on the basis of the billings as per the long term Power Purchase Agreement with Solar Energy Corporation of India (SECI) and includes unbilled revenues accrued upto the end of the accounting period.

Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures since the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date.

(All amounts in Rs. million unless otherwise stated)

Note 21.2: Reconciliation of the amount of revenue recognised in the statement of profit and loss with the contracted price

	31 March 2023	31 March 2022

Total revenue from contracts with customers	**23,318.12**	**22,221.83**

a. In the current financial year, The Trust has acquired Raichur Scholar Transmission Company Private Limited and Khargone Transmission Limited w.e.f. 09 Novemeber 2022 and 02 March 2023 respectively.

b. In the previous year, the Trust has acquired IndiGrid Solar-I (AP) Private Limited and IndiGrid Solar-II (AP) Private Limited with effect from 13 July 2021. Amounts stated above pertain to post acquisition revenue.

c. Jhajjar KT Transco Private Limited has entered into a transmission agreement with Haryana Vidyut Prasaran Nigam Limited (HVPNL) for obtaining exclusive right to construct, operate and maintain the transmission lines on design, build, finance, operate and transfer (DBFOT) basis for a specified period (concession period) commencing from the date of grant of the Transmission License and receive monthly determinable annuity payments. The agreement provides an option for extension of the concession period. Upon completion of concession period or on termination of agreement, transmission lines will vest with the grantor free and clear of all encumbrances. In terms of para 16 of Appendix D to IndAS 115, cost of construction of transmission lines has been recognized as a part of financial assets under the head service concession receivable. Annuity payments received under the agreement have been accounted as revenue from contracts with customers.

d. Parbati Koldam Transmission Company Limited had filed tariff petition in FY 2021-22 for truing up of the tariff for period 2014-19 and revised petition of tariff for period 2019-24 with CERC for its approval. However these petition are yet to be disposed off by CERC. Hence, company has been recognizing the revenue basis the filed petition order for 2019-24 for 2022-23 .

Note 22: Other Income

 # For all SPV's except Parbati Koldam Company Transmission Limited
Pursuant to the Amended and Restated Investment Management Agreement dated 29 March 2022, Investment Manager is entitled to fees @ 1.75% p.a. of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) or 0.25% of AUM of each SPV, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

 # For Parbati Koldam Company Transmission Limited (SPV)
Pursuant to the Investment Management Agreement dated 2 March 2021 as amended, Investment Manager is entitled to fees @ 1.00% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of the Company, per annum. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

Note 25: Finance Cost

	31 March 2023	31 March 2022
Interest on financial liabilities measured at amortised cost#	10,100.28	10,487.34
Other bank and finance charges	4.64	5.85
Discounting on Factoring	-	4.01
Interest expense on lease liabilities (refer note 3a)	3.98	4.28
Total	**10,108.90**	**10,501.48**

Includes foreign exchange loss which is considered as adjustment to borrowing cost amounting to Rs. 53.23 million (31 March 2022: Rs. 126.93 million)

Note 26: Depreciation and amortization expense

	31 March 2023	31 March 2022
Depreciation of tangible assets	6,991.65	6,615.67
Depreciation on Right of use assets	10.73	10.64
Amortisation of intangible assets	38.32	28.55
Total	**7,040.70**	**6,654.86**

Note 27: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	31 March 2023	31 March 2022
Profit after tax for calculating basic and diluted EPU (Rs. in million)	4,555.72	3,484.12
Weighted average number of units in calculating basic and diluted EPU (No. in million)	700.18	693.14
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	6.51	5.03

Note 28: Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Trust's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

i. Applicability of Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers

The Group through its subsidiaries acts as a transmission licensee under the Electricity Act, 2003 holding valid licenses for 25-35 years. The subsidiaries have entered into Transmission Services Agreements ("TSA") with Long Term Transmission Customers ("LTTC") through a tariff based bidding process to Build, Own, Operate and Maintain ("BOOM") the transmission infrastructure for a period of 25-35 years. The management of the Company is of the view that the grantor as defined under Appendix D of Ind AS 115 ("Appendix D") requires transmission licensee to obtain various approvals under the regulatory framework to conduct its operations both during the period of the license as well as at the end of the license period. However, in the view of management, the grantor's involvement and approvals are to protect public interest and are not intended to control, through ownership, beneficial entitlement or otherwise, any significant residual interest in the transmission infrastructure at the end of the term of the arrangement. Accordingly, management is of the view that Appendix D to Ind AS 115 is not applicable to the Group for all transmission infrastructure operating on a BOOM basis. The Group also holds transmission infrastructure pertaining to Jhajjar KT Transco Private Limited which operates on a Design, build, finance, operate and transfer ("DBFOT") basis. The company has operating and maintaining the power transmission system including sub-station constructed to provide services for a specified period of time in accordance with the transmission agreement entered into with the grantor. Under Appendix D to Ind AS 115, this arrangement is considered as Service Concession Arrangement and in accordance with para 16 of the Appendix D to Ind AS 115, rights to receive the consideration from the grantor for providing services has been recognised as "financial assets". Accordingly the Group is of the view that Appendix D - Service Concession Arrangements of Ind AS 115 Revenue from contracts with customers is applicable to this infrastructure asset.

ii. Classification of Unitholders' funds

Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to Unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. The Unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/114/2016 dated 20-Oct-2016 and No. CIR/IMD/DF/127/2016 dated 29-Nov-2016) issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated 20-Oct-2016 dealing with the minimum disclosures for key financial statements. In line with the above, the dividend payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

iii. Acquisition of Transmission SPVs classified as asset acquisitions

The Group acquires operational transmission SPVs/ Solar SPVs from the Sponsor or from third party. The purchase consideration primarily pertains to the fair value of the transmission assets and solar assets. All such assets are operational assets with fixed tariff revenues under the Transmission Services Agreements (TSAs) / Power Purchase Agreements (PPAs) for 35/25 years. The only key activity for these SPVs is the maintenance of the transmission assets which is outsourced to third parties. There are no employees in these entities and no other significant processes are performed for earning tariff revenues.

Based on evaluation of the above fact pattern vis-a-vis the guidance on definition of business under Ind AS and also keeping in view the relevant guidance on similar fact pattern available under accounting standards applicable in other jurisdictions, the management has classified the acquisition of transmission SPVs and solar SPVs as asset acquisition.

iv. Consolidation of Khargone Transmission Limited ('KgTL') as a subsidiary
The Group acquired 49% of paid up equity capital of Khargone Transmission Limited ("KgTL") with effect from 02 March 2023 from Sterlite Power Transmission Limited (SPTL)) (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 ("SPA"). The Group has finalised purchase consideration for acquisition of entire stake in KgTL and has entered into a binding agreement with the Seller to acquire remaining 51% paid up equity capital in KgTL from the Seller. The Group has beneficial interest based on the rights available to it under the SPA.
Based on the contractual terms of the agreement, the Group has following rights:

•Right to nominate all directors on the board of directors of the KgTL;
•Right to direct the selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KgTL;
•Non-disposal undertaking from the selling shareholders for the remaining 51% equity stake in KgTL;

Considering the requirements under Ind AS 110, the Group has assessed whether it controls KgTL on the basis the above rights under the agreement and the fact that the Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount). Based on the assessment, management has concluded that the Group controls KgTL in spite of the fact that it has acquired only 49% of the paid up capital of KgTL.

Accordingly, the Group has consolidated KgTL assuming 100% equity owKgTLship and no non-controlling interest (NCI) has been recognised in the consolidated Ind AS financial statements. Remaining purchase consideration payable to the selling shareholders is recognized as financial liability in the consolidated Ind AS financial statements.

v. Consolidation of NER and GPTL as a subsidiary
The Group had acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount) of NER & GPTL . Based on the assessment, management has concluded that the Group controls both entities in spite of the fact that it has acquired only 49% of the paid up capital of both entities. Further, based on the legal opinion both the entities are considered as Special Purpose Vehicle as per requirements of Securities Exchange Board of India's Invite Regulations.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value (refer note 29A and 29B).
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Group engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of non-current assets
Non-current assets of the Group primarily comprise of property, plant & equipment and service concession recievable.

The provision for impairment/(reversal) of impairment of property, plant & equipment and service concession receivable is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the property, plant & equipment and service concession recievable has been computed by external independent valuation experts based on value in use calculation for the underlying transmission / solar projects of SPV's (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Group tests impairment on the amounts invested in the respective subsidiaries of company. The valuation exercise so carried out considers various factors including cash flow projections, changes in interest rates, discount rates, risk premium for market conditions including the impact of COVID-19, etc.

Based on the valuation exercise so carried out, there is a net impairment reversal of Rs. 120.14 million for the year ended 31 March 2023 (31 March 2022 : net impairment reversal of Rs. 54.97 million), which is primarily on account of maturity of SPV assets. The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 29A.

Note 29A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	31 March 2023	31 March 2022	31 March 2023	31 March 2022
Financial assets at amortized cost				
Trade receivables	4,180.21	3,898.15	4,180.21	3,898.15
Cash & cash equivalent	3,166.23	11,873.37	3,166.23	11,873.37

Total	**1,50,318.37**	**1,39,229.83**	**1,50,318.37**	**1,39,229.83**

The management has assessed that the financial assets and financial liabilities as at year end are reasonable approximations of their fair values.

The Group is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Circular No. CIR/IMD/DF/114/2016 dated 20 October 2016 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2023 and 31 March 2022 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs in million)

Significant unobservable inputs	Input for 31 March 2023	Input for 31 March 2022	Sensitivity of input to the fair value	Increase /(decrease) in fair value 31 March 2023	31 March 2022
WACC	7.70% to 8.53%	7.55% to 9.12%	+ 0.5%	(10,744.00)	(10,168.42)
			- 0.5%	10,446.00	11,434.87
Tax rate (normal tax and MAT)	Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(580.08)	(520.00)
			- 2%	531.80	471.00
Inflation rate	Revenue(Esclable): 5.00%	Revenue(Esclable):5.00%	+ 1%	(3,127.86)	(3,173.14)
	Expenses: 2.14% to 4.75%	Expenses: 2.46% to 4.84%	- 1%	2,574.20	2,604.90

Note 29B: Fair value hierarchy

The management has assessed that the financial assets and financial liabilities as at year end other than above are reasonable approximations of their fair values.

The Group is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Circular No. CIR/IMD/DF/114/2016 dated 20 October 2016 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The Property. plant and equipments / Service concession receivable of the group mainly compose of Transmission/ Solar assets (which are SPV entities/ subsidiary of the group, a fair valuation activity is done by the management as explained above, which is carried out by external valuation expects. On the basis of valuation exercise carried out, the below fair value numbers are determined for PPE and Service concession receivable.

(Rs. in million)

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2023 and 31 March 2022:	Date of valuation	Fair value measurement using: Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Property, plant and equipment and service concession receivable *	31 March 2023	-	-	2,23,315.41
	31 March 2022	-	-	2,08,073.78
Investments in mutual funds	31 March 2023	-	4,462.46	-
	31 March 2022	-	1,451.73	-
Liabilities measured at fair value through profit and loss				
Derivative instruments (Liability)	31 March 2023	-	-	-
	31 March 2022	-	13.23	-

There have been no transfers among Level 1, Level 2 and Level 3.
* Statement of net asset at fair value and statement of total returns at fair value require disclosures regarding fair value of assets (liabilities at considered at book values). Since the fair values of assets other than property, plant and equipment approximate their book values, hence only property, plant and equipment and service concession has been disclosed above.

*The Group has entered into banking transactions in the nature of loans taken, fixed deposits made and interest thereof in the normal course of business with Axis Bank Limited in professional capacity.

Details in respect of related party transactions involving acquisition of InvIT assets as required by Para 4.4(b)(iv) of Section A of Annexure A to SEBI Circular dated 20 October 2016 are as follows:

For the year ended 31 March 2023:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	**KgTL**
Enterprise value	14,975.00
Method of valuation	Discounted cash flow
Discounting rate (WACC)	8.30%

(B) Material conditions or obligations in relation to the transactions:

Acquisition of Khargone Transmission Ltd (KgTL):

The Group acquired 49% of paid up equity capital of Khargone Transmission Limited ("KgTL") with effect from 02 March 2023 from Sterlite Power Transmission Limited (SPTL)) (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 ("SPA"). The Group has finalised purchase consideration for acquisition of entire stake in KgTL and has entered into a binding agreement with the Seller to acquire remaining 51% paid up equity capital in KgTL from the Seller. The Group has beneficial interest based on the rights available to it under the SPA.
Based on the contractual terms of the agreement, the Group has following rights:

•Right to nominate all directors on the board of directors of the KgTL;
•Right to direct the selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KgTL;
•Non-disposal undertaking from the selling shareholders for the remaining 51% equity stake in KgTL;

Considering the requirements under Ind AS 110, the Group has assessed whether it controls KgTL on the basis the above rights under the agreement and the fact that the Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount). Based on the assessment, management has concluded that the Group controls KgTL in spite of the fact that it has acquired only 49% of the paid up capital of KgTL. Further, based on the legal opinion KgTL is considered as Special Purpose Vehicle as per requirements of Securities Exchange Board of India's Invite Regulations.

Note 31: Capital and other Commitments

(a) The Group has entered into a framework agreement with G R Infraprojects Limited ('GRIL') to acquire 100% stake in Rajgarh Transmission Limited.

(b) The Group has entered into transmission services agreement (TSA) with long term transmission customers pursuant to which the Group has to transmit power of contracted capacity and ensure minimum availability of transmission line over the period of the TSA. The TSA contains provision for disincentives and penalties in case of certain defaults.

(c) The Group has taken office building on lease which has lease term of 5-9 years with lock-in-period of 3 years

(d) The Group has capital commitment (net of advances) of Rs. 1,340.03 million (31 March 2022 : Rs. 1,622.86 million) pertaining to ongoing capital work in progress.

(e) The Group has entered into Power Purchase Agreement ('PPA') with Solar Energy Corporation of India Limited ('SECI'), where IndiGrid Solar-I (AP) Private Limited and IndiGrid Solar-II (AP) Private Limited is required to sell power at a pre-fixed tariff of Rs. 4.43/kWh for a period of 25 years from the Commercial operation date to SECI.

(f) The Group has entered into an Implementation and Support Agreement with Andhra Pradesh Solar Power Corporation Private Limited (APSPCL). Annual O&M charges are payable for the period of 25 years from the commercial operation date to APSPCL

(g) The letter of intent for development of Kallam Transmission Limited (KTL) is awarded to consortium of IGL1 and IGL2 (“IndiGrid Consortium”) by the REC Power Development and Consultancy Limited (formerly known as REC Power Distribution Company Limited) on 30 November 2021 for a 35-year period from the scheduled commercial operation date, on a Build, Own, Operate and Maintain model. IndiGrid Consortium acquired the project on 28 December 2021 pursuant to Share Purchase Agreement (“SPA”). The project is currently under development with scheduled commissioning on September 2023.

Note 32: Derivative instruments

Bhopal Dhule Transmission Company Limited (BDTCL) has entered into the following derivative instruments:
(a) The following are the outstanding Forward Exchange Contracts entered into by the Company, for hedge purpose.

Year ended	Currency Type	Foreign Currency (In million)	Amount (Rs. in million)	Buy/Sell	No. of contracts (Quantity)

Amount (USD 'million)	-	1.39
Period of Contract		31 March 2021 to 30 August 2022
Floating rate		USD 6 Month Libor + 2.10% to 3.80%
Fixed rate		7.02% on INR principal

The contract has been closed in the year ended 31 March 2023.

Note 33: Contingent liability

Particulars	31 March 2023	31 March 2022
Claim against the company not acknowledged as debt		
- Entry tax demand (refer note A)	432.59	432.59
- VAT/CST Demand (refer note B)	23.69	23.69
- Other Demands (refer note C)	325.93	406.18
Total	**782.21**	**862.46**

A. Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. Out of the total demand Rs. 138.75 million (31 March 2022: Rs. 138.75 million) pertains to Jabalpur Transmission Company Limited (‘JTCL’), Rs. 165.80 million (31 March 2022: Rs. 165.80 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') and Rs. 13.30 million (31 March 2022: Rs. 13.30 million) pertains to RAPP Transmission Company Limited ('RTCL') which is pending with High Court, Jabalpur.

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Madhya Pradesh. The total demand Rs. 1.33 million (31 March 2022: Rs. 1.33 million) pertains to Bhopal Dhule Transmission Company Limited ('BDTCL') which is pending with Commissioner (Appeals).

Entry tax cases includes disputes pertaining to demand of entry tax on movement of capital goods in the state of Chhattisgarh. The total demand Rs. 113.41 million (31 March 2022: Rs. 113.41 million) pertains to Jabalpur Transmission Company Limited (‘JTCL’ out of which Rs. 51.55 million (31 March 2022: Rs. 51.55 million) is pending with the Chhattisgarh High Court, Rs. 40.50 million (31 March 2022: Rs. 40.50 million) is pending with Chairman Chhattisgarh Commercial tax Tribunal, Raipur (C.G.) and Rs. 21.36 million (31 March 2022: Rs. 21.36 million) the notice for assessment has been received in the month of October 2020 for which the Group has applied for a certified copy of the Assessment Order on 29 October 2020 and is still awaiting a copy of the same.

B. Sales tax demand of Rs. 17.99 million (31 March 2022: Rs. 17.99 million) for Indigrid Limited (IGL) pertains to demand under Delhi VAT Act, 2004 for non-submission of C Forms, Rs. 24.66 million pertains to FY 2014-15 has been settled during the previous year; Rs. 17.99 million pertains to demand under Delhi VAT Act, 2004 for non-submission of C Forms for FY 2015-16. The Group has filed an objection against the order with Assistant Commissioner of Delhi VAT Authorities.

VAT demand notice of Rs. 5.70 million (31 March 2023: Rs. 5.70 million) for Purulia & Kharagpur Transmission Company Limited (PKTCL) pertains to Jharkhand VAT Act, 2005. The Group has received the notice for assessment in the month of January 2020 and various submissions along with the requisite details and documents were made to the officer. The Group further applied for a certified copy of the Assessment Order on 01 October 2020 and is still awaiting a copy of the same.

C. During the financial year 2019-20, land owners have filed a case with the District Court, Jhajjar, Haryana towards compensation and interest thereon for the value of land over which the transmission line is passing. The Group is of the view that required amount of compensation to these landowners have already been paid and no further compensation is payable. Further, these litigations are barred by limitations. Based on the legal advice, the Group does not anticipate any liability against the same and has disclosed a contingent liability of Rs. NIL (31 March 2022: Rs. 20.12 million). It also includes an amount of Rs. 111.27 million (31 March 2022: Rs. 173.39 million) for claims from farmers for additional Right of Way (RoW) compensation made against one of the subsidiaries. Further it includes an amount of Rs. 212.67 million (31 March 2022: 212.67 million) for claims from one of the erstwhile EPC contract vendor against two of the subsidiaries.

The Group has not provided for disputed liabilities disclosed above arising from entry tax demands which are pending with different authorities mentioned above for its decision. The Group is contesting the demands and the Group management, including its legal advisors, believe that its position will likely be upheld in the appellate process. No liability has been accrued in the consolidated financial statements for the demands raised. The Group management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Group's financial position.

Others
The total contingent liability (except ROW and GST claim against ISPL 1 and ISPL 2) is recoverable as per share purchase agreement from Selling Shareholders.

Note 34: Segment reporting

The Groups's activities comprise of owning and investing in transmission SPVs and solar SPVs to generate cash flows for distribution to unitholders. Based on the guiding principles given in Ind AS - 108 "Operating Segments", this activity falls within a single operating segment and accordingly the disclosures of Ind AS -108 have not separately been given.

Under Point of Connection (PoC) mechanism, Power Grid Corporation of India Limited ('PGCIL') is designated as Central Transmission Utility with the responsibility for billing and collecting of usage charges from Inter-State Transmission Services (ISTS) users. Hence the entire amount of trade receivables pertaining to transmission is receivable from PGCIL and solar charges is receivable from SECI.

Note 35: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	**31 March 2023**	**31 March 2022**
(i) The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro and small enterprises	8.61	9.05
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2022: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the "suppliers" / information available with the Group regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 36: Leases

Indigrid Limited (IGL) (a subsidiary of the Group) has lease contract for 2 office building used in its operations which have lease term of 5-9 years with lock-in-period of 3 years. Further IGL's obligations under its leases are secured by the lessor's title to the leased assets. The lease liability has been measured by using the incremental borrowing rate.

IndiGrid Solar-I (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

IndiGrid Solar-II (AP) Private Limited (a subsidiary of the Group) has taken leasehold land which has lease term of 25 years from the commercial operation date (COD) in relation to which the company is required to pay a fixed annual operating and maintenance expenses for using common infrastructure facilities.

Maturity analysis of lease liabilities - Contractual undiscounted cash flows:

(Rs. in million)

Particulars	**Less than 3 months**	**3 months to 12 months**	**1 to 5 years**	**More than 5 years**	**Total**
31 March 2023					
Lease liability	3.74	21.27	67.93	71.89	164.83
Total	**3.74**	**21.27**	**67.93**	**71.89**	**164.83**
31 March 2022					
Lease liability	3.57	11.47	28.57	9.20	52.81
Total	**3.57**	**11.47**	**28.57**	**9.20**	**52.81**

Note 37: Financial risk management objectives and policies

The Group's principal financial liabilities comprise borrowings, trade and other payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables, cash and short-term deposits and other financial assets that derive directly from its operations.

The Group may be exposed to market risk, credit risk and liquidity risk. The Investment Manager oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The management reviews and agrees policies for managing each of these risks, which are summarised below.

The Risk Management policies of the Group are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Groups's activities.

Management has overall responsibility for the establishment and oversight of the Group's risk management framework.

(All amounts in Rs. million unless otherwise stated)

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings, bank deposits and investments

Price Risk
The Group invests its surplus funds in mutual funds which are linked to debt markets. The Group is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Group diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Group's senior management on a regular basis

Particulars	% change in market value	31 March 2023	31 March 2022
		Effect on loss before tax	Effect on loss before tax
Mutual funds	0.50%	22.31	7.26

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

Interest rate risk
Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rate primarily relates to the Group's long term debt obligations with floating interest rates. To manage this, the Group enters into interest rate swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. As at 31 March 2023, there are no borrowings of the Group at floating interest rates.

Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's foreign currency borrowings and payables in foreign currency (if any). As at 31 March 2023, The Group did not have any exposure towards any assets / liabilities in foreign currency.

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Group through its subsidiaries is engaged in transmission business under BOOM (Build, Own, Operate and Maintain) model and currently derive its revenue primarily from BOOM contracts with long term transmission customers ('LTTC'). The Group also holds transmission infrastructure pertaining to Jhajjar KT Transco Private Limited which operates on a Design, build, finance, operate and transfer ("DBFOT") basis. Being transmission licensee, the Group receives payments as per the pooling arrangements specified under the Central Electricity Regulatory Commission (Sharing of Inter State Transmission Charges and Losses) Regulations, 2010 ('Pooling Regulations'). In the PoC method, the transmission charges to be recovered from the entire system are allocated between users based on their location in the grid. Under the PoC mechanism, all the charges collected by the Central Transmission Utility ('CTU') from LTTC's are disbursed pro-rata to all Transmission Service Providers ('TSPs') from the pool in proportion of the respective billed amount. Due to this, the TSPs are shielded against any potential default by a particular customer. If a particular customer delays or defaults, the delay or shortfall is prorated amongst all the TSPs. Based on past history of payments, payments due have always been paid and there have been no write-off's for due amounts. Due to the payment mechanism explained above as well as due to no history of any write-off's of payments which were due, the Group has not considered any expected credit loss on the financial assets in the nature of trade receivables. During the various periods presented, there has been no change in the credit risk of trade receivables. However, this assessment may need a review if there is any change in the Pooling Regulations.
Similar mechnism is being followed in solar entities acquired by the group where there is only single customer i.e. Solar Energy Corporation of India (SECI) which is a high rated public sector undertaking with credit rating of AA+ as per ICRA Limited. The Group has obtained a Letter of Credit from SECI Limited to secure its credit risk associated with receivables.

Credit risk from balances deposited/invested with banks and financial institutions as well as investments made in mutual funds, is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within limits assigned to each counterparty. Counterparty limits are reviewed by the top management on an annual basis, and may be updated throughout the year subject to approval of the Board of Directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through a counterparty's potential failure to make payments. Based on this policy, the Group does not foresee any risk on account of credit losses, either in the bank deposits which are made with AAA rated banks and also in regard to mutual funds which is primarily debt oriented funds. No loss allowances have been provided for any trade receivables, or other receivables from financing activities like cash and bank deposits, mutual funds and other similar deposits. Also, there have been no modifications in contractual cash flows on financial assets.

The Group's maximum exposure to credit risk for the components of the balance sheet as at 31 March 2023 is the carrying amounts of trade and other receivables, cash and cash equivalents and other assets as disclosed in Note 6, 7, 8, 9 and 10 respectively. However, the credit risk is low due to reasons mentioned above.

(C) Liquidity risk
Liquidity risk is the risk that the Group may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Group's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Group requires funds both for short term operational needs as well as for long term investment programs mainly in transmission projects. The Group closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Groups's financial liabilities based on contractual undiscounted payments:

Particulars	Payable on demand	Less than 3 months	3 months to 12 months	1 to 5 years	More than 5 years	Total
31 March 2023						
Borrowings	-	-	9,256.73	1,11,751.00	23,923.58	1,44,931.31
Trade payables	-	749.35	-	-	-	749.35
Other financial liabilities	-	3,200.40	1,318.98	-	-	4,519.38
Total	**-**	**3,949.75**	**10,575.71**	**1,11,751.00**	**23,923.58**	**1,50,200.04**

Particulars	Payable on demand	Less than 3 months	3 months to 12 months	1 to 5 years	More than 5 years	Total
31 March 2022						
Borrowings	-	20,852.58	2,925.95	41,295.83	68,274.10	1,33,348.46
Trade payables	-	486.29	-	-	-	486.29
Other financial liabilities	-	3,767.79	1,559.21	-	-	5,327.00
Derivatives	-	13.23	-	-	-	13.23
Total	**-**	**25,119.89**	**4,485.16**	**41,295.83**	**68,274.10**	**1,39,174.98**

Note 38: Capital management

For the purpose of the Groups's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Group. The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio optimum. The Group includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	31 March 2023	31 March 2022
Borrowings	1,44,931.31	1,33,348.46
Less: Cash and cash equivalents	(3,166.23)	(11,873.37)
Net debt (A)	**1,41,765.08**	**1,21,475.09**
Unit capital	65,903.15	65,903.15
Other equity	(16,326.20)	(11,720.89)
Total capital (B)	**49,576.95**	**54,182.26**
Capital and net debt ((C) = (A) + (B))	**1,91,342.03**	**1,75,657.35**
Gearing ratio (A)/(C)	**74%**	**69%**

Financial Covenants

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2023 and 31 March 2022.

Note 39: Post Employment Benefits Plan

BDTCL, JTCL, MTL, RTCL, PKTCL, PTCL, NRSS, OGPTL, ENICL, GPTL, NER, ISPL1, ISPL2, KTL, IGL

The Group has a defined benefit gratuity plan. Such plan is unfunded and and employees working under the above said companies are covered in this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.
The employee do not contribute towards this plan and the full cost of providing these benefits are met by the group. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	31 March 2023	31 March 2022
Defined benefit obligation at the beginning of the year	4.54	1.96
Transferred from immediate holding company / subsidiary of immediate holding company	0.29	-
Current service cost	5.76	2.57
- Interest Cost on defined benefit obligation	0.31	0.13
- Past service cost	-	-
Benefit paid directly by the employer	(2.01)	(0.15)
Remeasurements during the period due to:		
Actuarial (gain)/loss due to change in demographic assumptions	-	(0.04)
Actuarial (gain)/loss due to change in financial assumptions	(0.11)	(0.03)
Actuarial (gain)/loss on obligation due to experience	(1.92)	0.10
Present value of defined benefit obligation at the end of the year	**6.87**	**4.54**

Details of defined benefit obligation

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Present value of defined benefit obligation	6.87	4.54
Fair value of plan assets	-	-
Benefit liability	**6.87**	**4.54**

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Current service cost	5.76	2.57
Interest cost on defined benefit obligation	0.31	0.14
Past service cost	-	-
Net actuarial (gain) / loss recognised	-	-
Expected return on plan assets	-	-
Contribution by employer	-	-
Net benefit expense	**6.07**	**2.71**

Net employee benefit expense recognised in the other Comprehensive income:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Actuarial (gain)/loss on obligation for the year	(2.02)	0.03
Net (income)/expense for the year recognised in OCI	**(2.02)**	**0.03**

Amounts for the current and previous year are as follows:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Defined benefit obligation	6.87	4.54
Plan assets	-	-
Surplus / (deficit)	(6.87)	(4.54)
Experience adjustments on plan liabilities	-	-
Experience adjustments on plan assets	-	-

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Discount rate	7.40%	6.90%
Expected rate of return on plan asset	-	-
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	7.00%	7.00%
Actual rate of return on plan assets	-	-
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2023 and 31 March 2022 is as shown below:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Projected benefit obligation on current assumptions	6.87	4.54
Obligation after +1% Change in discount rate	(6.40)	(4.22)
Obligation after -1% Change in discount rate	7.38	4.88
Obligation after +1% Change in salary escalation rate	7.38	4.88
Obligation after -1% Change in salary escalation rate	(6.39)	(4.22)

The following is the expected payment of benefits in the future years:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Within the next 2 years	1.44	0.92
Between 3 and 5 years	2.00	1.27
Between 6 and 10 years	3.29	2.29
Total expected payments	**6.73**	**4.48**

Parbati Koldam Transmission Company Limited

The Company has a defined benefit gratuity plan. Such plan is funded and employees working under Parbati Koldam Transmission Company Limited are covered under this plan. The gratuity benefits payable to the employees are based on the employee's service Every employee who has completed five years or more of service gets a gratuity on departure at last drawn salary at the time of leaving.
The employee do not contribute towards this plan and the full cost of providing these benefits are met by the Company. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

Changes in the present value of the defined benefit obligation are as follows:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Defined benefit obligation at the beginning of the year	**5.02**	**6.05**
Transfer in/(out) obligation	(0.22)	-
Current service cost	0.47	0.41
- Interest Cost	0.32	0.41
- Past service cost	-	-
Benefit paid directly by the employer	(0.29)	(0.41)
Remeasurements during the period due to:		-
Actuarial (gain)/loss due to change in demographic assumptions	-	(0.06)
Actuarial (gain)/loss due to change in financial assumptions	(0.15)	(0.04)
Actuarial (gain)/loss on obligation due to experience	(0.56)	(1.34)
Present value of defined benefit obligation at the end of the year	**4.59**	**5.02**

* Pertains to liabilities transferred on acquisition of Parbati Koldam Transmission Company Limited by the Group.

Details of defined benefit obligation

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Present value of defined benefit obligation	4.59	5.02
Fair value of plan assets	(12.72)	(11.90)
Benefit recognized as advance gratuity	**(8.13)**	**(6.88)**

Net employee benefit expense recognised in the statement of profit and loss:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Current service cost	0.47	0.41
Interest cost on defined benefit obligation	0.32	0.41
Past service cost	-	-
Expected return on plan assets	-	-
Contribution by employer	-	-
Net benefit expense	**0.79**	**0.82**

Net employee benefit expense recognized in the Other Comprehensive Income:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Actuarial (gain)/loss on obligation for the year	(0.71)	(1.44)
Return on plan assets , excluding interest income	-	-
Change in asset ceiling	-	-
Net (income)/expense for the year recognized in OCI	**(0.71)**	**(1.44)**

Changes in Fair Value of plan assets:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Opening value of plan assets	**11.90**	11.24
Actuarial (gain)/loss on obligation for the year		0.76
Interest cost/(income) on plan assets	0.82	-
Actual return on plan assets less interest/(income) on plan assets	0.00	(0.11)
Closing Balance of Fair Value of Plan Assets	**12.72**	**11.90**

Amounts for the current and previous year are as follows:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Defined benefit obligation	4.59	5.02
Plan assets	12.72	11.90
Surplus / (deficit)	**8.13**	**6.88**

The principal assumptions used in determining defined benefit obligation are shown below:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Discount rate	7.40%	6.90%
Expected rate of return on plan asset	-	-
Employee turnover	10.00%	10.00%
Salary escalation rate (p.a)	7.00%	7.00%
Actual rate of return on plan assets	-	-
Retirement age (years)	58	58

The estimated future salary increase, considered in actuarial valuation, takes into account the effect of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

A quantative sensitivity analysis for significant assumptions as at 31 March 2023 and 31 March 2022 is as shown below:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Projected benefit obligation on current assumptions	4.59	5.02
Obligation after +1% Change in discount rate	(4.31)	(4.70)
Obligation after -1% Change in discount rate	4.90	5.40
Obligation after +1% Change in salary escalation rate	4.90	5.39
Obligation after -1% Change in salary escalation rate	(4.31)	(4.69)

The following is the expected payment of benefits in the future years:

Particulars	31 March 2023 (Rs. in million)	31 March 2022 (Rs. in million)
Within the next 2 years	0.97	1.03
Between 3 and 5 years	2.12	1.99
Between 6 and 10 years	1.43	1.76
Total expected payments	**4.53**	**4.78**

(All amounts in Rs. million unless otherwise stated)

Note 40: Long Term Incentive Plan

Long Term Incentive Plan 2021 and 2022

During the year ended 31 March 2023, the Group launched a Long-Term Incentive Plan 2022 ("Scheme"). This Scheme has been formulated by the Nomination and Remuneration Committee and approved by it at its meeting held on 20 May 2022 and approved by the Board at its meeting held on 20 May 2022. The Scheme is established with effect from 01 April 2022 and shall continue to be in force until: (i) its termination by the Board, or (ii) the date on which all of the Unit Linked Rights available for issuance under the Scheme have been issued or have lapsed, or have been cancelled by the Nomination and Remuneration Committee, and the Nomination and Remuneration Committee does not intend to re-issue such lapsed or cancelled Unit Linked Rights.

The Board, at its meeting held on May 26, 2021, has resolved to issue to Employees under the Scheme 2021, Unit Linked Rights, in one or more tranches, whereby each such Unit Linked Right confers the right on the Grantee to receive Value in terms of this Scheme 2021.

Particulars	31 March 2023	31 March 2022
Opening balance as at the beginning of the year	22.36	11.29
Transfer in/(out) obligation	1.50	-
LTIP granted during the year	5.29	15.23
LTIP cancelled during the year	-	(0.12)
Payment towards LTIPs vested	(14.43)	(6.93)
Balance	**14.72**	**19.47**
Provision for distribution	2.80	2.89
Closing balance as at the end of the year	**17.52**	**22.36**

During the year, the Group has granted 0.13 million units of India Grid Trust to eligible employees under the Long-Term Incentive Plan 2021 and 2022 ("Scheme") as approved by the Nomination and Remuneration Committee and by the Board at the meetings held on 20 May 2022.

Vesting of Unit Linked Rights shall be subject to the conditions that the Grantee is:
a. in continuous employment with the Company;
b. is not serving any notice of resignation/ termination on the date of such Vesting (except in the case of (a) death; (b) Permanent Incapacity suffered by the Grantee; or (c) Retirement; and
c. is not subject to any pending disciplinary proceeding.

The Value of the payout would be determined as per following formula:
Value of the vested Unit Linked Rights = Number of Unit Linked Rights Vested * 30 days closing volume weighted average# of IndiGrid market price + (Distribution* earned on the unvested units).

Volume weighted average price of per unit is the 30 days closing average of IndiGrid market price (From 02 March 2023 to 31 March 2023).

Distribution payout is subject to actual declaration accumulated on units and approval for India Grid Trust.

Note 41: List of subsidiaries which are included in consolidation and IndiGrid's effective holding therein are as under:

Name of the Entity	Country of incorporation	Effective ownership as on 31 March 2023	Effective ownership as on 31 March 2022
Directly held by the Trust:

1. The Group acquired 49% of paid up equity capital of Gurgaon Palwal Transmission Limited ('GPTL') with effect from 28 August 2020 from Sterlite Power Transmission Limited ("SPTL") , (referred as "the Seller") pursuant to Share Purchase Agreement dated 28 August 2020 (“SPA”). The Group has finalised purchase consideration for acquisition of entire stake in GPTL and has entered into a binding agreement with the Selling Shareholders to acquire remaining 51% paid up equity capital in GPTL from the Selling Shareholders. The Group has beneficial interest based on the rights available to it under the SPA.

2. The Group acquired 74% of paid up equity capital of Parbati Koldam Transmission Company Limited ('PrKTCL') with effect from 08 January 2021 from Reliance Infrastructure Limited (referred as "the Seller") pursuant to Share Purchase Agreement dated 28 November 2020 (“SPA”). The balance 26% share in PrKTCL is held by PowerGrid Corporation of India Limited (“PGCIL”).

3. The Group acquired 49% of paid up equity capital of NER II Transmission Limited ("NER") with effect from 25 March 2021 from Sterlite Power Transmission Limited ("SPTL") , (referred as "the Seller") pursuant to Share Purchase Agreement dated 05 March 2021, as amended on 25 March 2021 (“SPA”). The Group has finalised purchase consideration for acquisition of entire stake in NER and has entered into a binding agreement with the Selling Shareholders to acquire remaining 51% paid up equity capital in NER from the Selling Shareholders. The Group has beneficial interest based on rights available to it under SPA.

4. The letter of intent for development of Kallam Transmission Limited (KTL) was awarded to consortium of IGL1 and IGL2 (“IndiGrid Consortium”) by the REC Power Development and Consultancy Limited (formerly known as REC Power Distribution Company Limited) on 30 November 2021 for a 35-year period from the scheduled commercial operation date, on a Build, Own, Operate and Maintain model. IndiGrid Consortium acquired the project on 28 December 2021 pursuant to Share Purchase Agreement (“SPA”). The project is currently under development with scheduled commissioning on September 2023.

5. The Trust acquired 100% equity capital and management control of Raichur Sholapur Transmission Company Private Limited ('RSTCPL') with effect from 09 November 2022 from Simplex Infrastructure Limited, Patel Engineering Limited and BS Limited dated pursuant to Share Purchase Agreement dated 30 July 2022 (“SPA”)

6. The Trust acquired 49% equity capital and management control of Khargone Transmission Limited ('KgTL') with effect from 02 March 2023 from Sterlite Power Transmission Limited dated pursuant to Share Purchase Agreement dated 21 January 2023 (“SPA”) . The Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount).Considering the rights available to the Trust as per SPA, the Trust has concluded that it controls KgTL, and have considered KgTL as a wholly owned subsidiary from 02 March 2023.

Note 42: Regulatory Deferral Account Balances

Regulatory Assets / (Liability) with respect to entity Parbati Koldam Transmission Limited:
In accordance with the Guidance Note on Rate Regulated Activities issued by ICAI, the reconciliation of the Regulatory Assets / (Liabilities) of PrKTCL (a subsidiary of the Group) as on March 31, 2023 is as under:

(Rs. in million)

Particulars	**As at March 31, 2023**	**As at March 31, 2022**
Regulatory Asset / (Liability)		
Opening Balance	-	-
Add: Accrued during the period		
For Current Period / Year		
- Return on Equity	-	-
Regulatory Asset / (Liability) on account of Deferred Account balance	(0.90)	(6.93)
Less: Deferred Tax on defferal liability	0.16	1.21
Total	**(0.74)**	**(5.72)**
Less: Payable / (Recoverable) from beneficiaries	0.74	5.72
Closing Balance	**-**	**-**
Deferred Tax Liability		
Opening Balance	649.64	656.57
Add: Deferred Tax Liability during the period / year	(0.90)	(6.93)
Total	**648.74**	**649.64**
Less: Recoverable from beneficiaries	(648.74)	(649.64)
Closing Balance	-	-

(i) Determination of Transmission service charges (TSC) chargeable by PrKTCL to its consumers is governed by CERC Tariff Regulation, 2019, whereby CERC determines the Transmission service charges wherein PrKTCL earns assured return of 15.5% p.a. post tax on CERC approved equity in the business. The rate review on account of grossing up with the actual tax rate or “truing up” process during the tariff period is being conducted as per the principle stated in CERC Regulations to adjust the tariff rates downgrade or upgrade to ensure recovery of actual tax paid and assured return on equity.

(ii) During the truing up process, revenue gaps (i.e. surplus/shortfall in actual returns over returns entitled) are determined by the regulator and are permitted to be carried forward as regulatory assets/ regulatory liabilities which would be recovered / refunded through future billing based on future tariff determination by the regulator. At the end of each accounting period, PrKTCL also determines regulatory assets/regulatory liabilities in respect of each accounting period on self true up basis.

Market Risk
PrKTCL is in the business of developing the Transmission Line for supplying the eletricity to beneficiary, therefore no demand risk anticipated because the License issued by the CERC for 25 years. The Project is constructed under Cost Plus Contract.

Regulatory Risk
(i) PrKTCL is Operating under Regulatory Environment governed by Central Electricity Regulatory Commission (CERC). Tariff is subject to Rate Regulated Activities.

(ii) PrKTCL determine revenue gaps (i.e. surplus / shortfall in actual returns over returns entitled) in respect of their regulated operations as given in the Guidance Note on Rate Regulated Activities and based on the principles laid down under the relevant tariff regulations / tariff orders notified by the CERC and the actual or expected actions of the regulators under the applicable regulatory framework. Appropriate adjustments in respect of such revenue gaps are made in the respective years for the amounts which are reasonably determinable and no significant uncertainty exists in such determination. These adjustments / accruals representing revenue gaps are carried forward as regulatory defferal account debit / credit balances which would be recovered / refunded through future billing based on future tariff determination by the regulators in accordance with the respective electricity regulations.
(iii) The key risks and mitigating actions are also placed before the Audit Committee of PrKTCL. PrKTCL's risk management policies are established to identify and analyze the risks faced by PrKTCL, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and PrKTCL's activities.
(iv) PrKTCL’s risk for Regulatory Assets are monitored by the Regulatory Team under policies approved by the Board of Directors. The Team identifies, evaluates and protect risks in close cooperation with PrKTCL’s operating units. The board provides principles for overall risk management, as well as policies covering specific areas.
(v) Regulatory Assets recognized in the Books of Accounts of PrKTCL are subject to True up by CERC as per Regulation.

Net tax recoverable from beneficiaries:
1. In accordance with the CERC tariff regulation for determination of tariff, the income-tax paid is considered for tariff determination (truing up). Accordingly, PrKTCL has considered deferred tax liability as on 31 March 2023 as Net tax recoverable from beneficiaries.

2. As per the Standard, deferred tax on timing differences which reverse during the tax holiday period should not be recognised. For this purpose, the reversal during the tax holiday period is adjusted against the deferred tax liability created till FY 2022-2023. Therefore, the reversal of timing difference during the tax holiday period, would be considered to be out of the timing difference as at 31 March 2023 and reversed during the period ended 31 March 2023.

Note 43: Code on Social Security

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective. Based on a preliminary assessment, the Group believes the impact of the change will not be significant.

Note 44: Subsequent event

On 12 May 2023, the Board of directors of the Investment Manager approved a distribution of Rs. 3.45 per unit for the period 01 January 2023 to 31 March 2023 to be paid on or before 15 days from the date of declaration.

Note 45: Other Information

(i) The Group does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
(ii) The Group does not have any transactions with Companies struck off.
(iii) The Group have not traded or invested in Cryptocurrency or Virtual Currency during the financial year.
(iv) The Group does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.
(v) The Group has not been declared as a wilful defaulter by any bank or financial institution or other lender.

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of IndiGrid Infrastructure Trust (formerly known as India Grid Trust)

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of IndiGrid Infrastructure Trust (formerly known as India Grid Trust) ("the InvIT"), which comprise the Balance sheet as at March 31, 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Statement of Changes in Unit Holders' Equity and the Statement of Cash Flows for the year then ended, the Statement of Net Assets at fair value as at March 31, 2025, the Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT for the year then ended, and summary of material accounting policies and other explanatory notes (hereafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended including any guidelines and circulars issued thereunder (the "InvIT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) including InVIT Regulations, of the state of affairs of the InvIT as at March 31, 2025, its profit including other comprehensive income, its cash movements, its movement of the unit holders' funds for the year ended March 31, 2025, its net assets at fair value as at March 31, 2025, its total returns at fair value and the net distributable cash flows of the InvIT for the year ended March 31, 2025.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the InvIT in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis Of Matter

We draw attention to note 12(e) of the standalone financial statement which describes the presentation/classification of "Unit Capital" as "Equity" instead of the applicable requirements of Ind AS 32 - Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

(This space is left intentionally blank)

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td colspan="2"><u>Impairment of investments in subsidiaries and loans given to subsidiaries</u>
(as described in notes 5,6,7 and 26 of the standalone financial statements)</td></tr>
<tr><td>The InvIT has investments in subsidiaries and has granted loans to its subsidiaries which comprise of significant portion of total assets of the InvIT.

The subsidiaries are in the business of owning and maintaining transmission assets/ generation of solar power/operating battery energy storage systems and have entered into Transmission Services Agreement ("TSA") with Long Term Transmission Customers ("LTTC"), Power Purchase Agreement ("PPA") and Battery Energy Storage Purchase Agreement (BESPA) / Battery Energy Storage System Agreement (BESSA), respectively with various National or Regional Intermediaries which are designated by the Government.

At each reporting period end, management assesses the existence of impairment indicators of investments in subsidiaries and loans given to subsidiaries. In case of existence of impairment indicators, the investment and loan balances are subjected to impairment test, where the fair value of the subsidiary is compared with the value of investments and loans given to such subsidiaries.</td><td>Our audit procedures included, among others, the following:

• We obtained an understanding of the InvIT's process on assessment of impairment of investments in subsidiaries, loans to subsidiaries and the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls.

• We obtained and read the valuation report of the InvIT's independent valuation expert, and assessed the expert's competence, capability, and objectivity.

• We evaluated management independent valuation expert's methodology, assumptions and estimates used in the calculations.

• We have engaged our valuation specialists to evaluate the appropriateness of the valuation methodology applied in valuation of assets and to test the key assumptions around valuation such as growth parameters, beta, cost of debt, discount rates etc.

• We performed test check that the tariff revenues considered in the respective valuation models are in agreement with TSAs / Tariff Orders / PPAs / BESPAs / BESSAs.

• Discussed potential changes in key drivers as compared to previous year / actual performance with</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
The processes and methodologies for assessing and determining the fair value of the subsidiary is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's TSA / PPA / BESPA / BESSA, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • We read and assessed the disclosures included in the notes to the standalone financial statements.
<u>Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations</u> *(as described in Note 26 of the standalone financial statements)*	
The InvIT is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been carried out by the independent valuer appointed by the InvIT. For the purpose of the above, fair value is determined by forecasting and discounting future cash flows. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's TSA / PPA / BESPA / BESSA, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of	Our audit procedures included, among others, the following: • We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value. • We discussed with the management and obtained an understating of the InvIT's policy on the assessment of fair value and the assumptions used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained understating of the InvIT's process for preparation statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation reports of the InvIT's independent valuation expert and assessed the expert's competence, capability, and objectivity.

Key audit matters	How our audit addressed the key audit matter
fair values, this is considered as a key audit matter.	• We evaluated management independent valuation expert's methodology, assumptions and estimates used in the calculations. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in calculation of fair value of assets including the assumption used in valuation. • We performed test check that the tariff revenues considered in the respective valuation models are in agreement with TSAs / Tariff Orders / PPAs / BESPAs / BESSAs. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • We read and assessed the disclosures included in the notes to the standalone financial statements.

Other Information

The Management of Indigrid Investment Managers Limited (the "Investment Manager") is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

(This space is left intentionally blank)

Responsibilities of Management for the Standalone Financial Statements

The Investment Manager is responsible for preparation of these standalone financial statements that give a true and fair view of the financial position as at March 31, 2025, financial performance including other comprehensive income, cash flows and the movement of unit holders' funds for the year ended March 31, 2025, the net assets at fair value as at March 31, 2025, the total returns at fair value of the InvIT and the net distributable cash flows of the InvIT for the year ended March 31, 2025 in accordance with the requirements of the InvIT regulations, Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the InvIT and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal controls, that were operating effectively, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Investment manager is responsible for assessing the ability of InvIT to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless Investment Manager either intends to liquidate the InvIT or to cease operations, or has no realistic alternative but to do so.

The Investment Manager is also responsible for overseeing the InvIT's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the InvIT's internal control.

- Evaluate the appropriateness of accounting policies used, reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the InvIT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the InvIT to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Balance Sheet, and the Statement of Profit and Loss including the Statement of Other Comprehensive Income, are in agreement with the books of account;

(c) In our opinion, the aforesaid standalone financial statements comply with Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

Balance as at 31st March 2025	**4,403.08**	**4,403.08**

Note:
(i) The distribution relates to the distributions made during the financial year along with the distribution related to the last quarter of FY 2022-23 and does not include the distribution relating to the last quarter of FY 2023-24 which will be paid after 31 March 2024.

(ii) The distribution relates to the distributions made during the financial year along with the distribution related to the last quarter of FY 2023-24 and does not include the distribution relating to the last quarter of FY 2024-25 which will be paid after 31 March 2025.

The distributions made by IndiGrid to its unitholders are based on the Net Distributable Cash Flows (NDCF) of IndiGrid under the InvIT Regulations and hence part of the same includes repayment of capital as well.

The accompanying notes form an integral part of standalone financial statements.

INDIGRID INFRASTRUCTURE TRUST (FORMERLY KNOWN AS INDIA GRID TRUST)
Notes to standalone Financial Statements for the year ended 31 March 2025
(All amounts in Rs. million unless otherwise stated)

Disclosures Pursuant To SEBI Circulars
(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 as amended)

A. STATEMENT OF NET ASSETS AT FAIR VALUE AS AT

Rs. in million

Particulars	**31 March 2025**		**31 March 2024**	
	Book value	**Fair value**	**Book value**	**Fair value**
A. Assets	276,461.64	309,004.78	264,023.95	288,335.39
B. Liabilities	188,736.02	188,736.02	183,992.33	183,992.33
C. Net Assets (A-B)	87,725.62	120,268.76	80,031.62	104,343.06
D. Number of units	834.56	834.56	783.67	783.67
E. NAV (C/D)	105.12	144.11	102.12	133.15

Fair values of subsidiaries/SPVs are calculated based on their independent fair values done by experts appointed by the Trust. The fair value of all these revenue-generating assets is determined using discounted cash flows method. The Trust holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74%, TSESPL in which it holds 66% and KBPL in which it holds 95%.

Project wise breakup of fair value of assets **Rs. in million**

Project	**31 March 2025**	**31 March 2024**
Indigrid Limited (IGL)	56,004.11	54,420.03

Subtotal	**291,822.31**	**282,889.48**
Assets (in IndiGrid)	17,182.47	5,445.91
Total assets	**309,004.78**	**288,335.39**

1. IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025 and as a result the same are indirectly held by Trust.
2. In the previous year, the Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution.

Further during the previous year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid (refer note 5), in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of investment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TSESPL from GSPPL, TSEPPL from GSPPL, and TSETPL from TSECPL, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

3. IGL2 has acquired Kilokari BESS Private Limited with effect from 06 November 2023 and as a result the same is indirectly held by Trust.
4. IGL1 and IGL2 has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024 and as a result these are indirectly held by Trust.
5. During the previous year, the Trust acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 ("SPA"). The Trust has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.

Further as part of internal restructuring, the Trust has transferred 49% holding of RSUPL to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. As a result of this internal restructring, the Trust has the beneficial owner for remaining 51% shares of RSUPL.

Further, during the March 2025 quarter, the Trust has transferred the entire shares of RSUPL to IGL2.

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	**31 March 2025**	**31 March 2024**
Total comprehensive income (as per the statement of profit and loss)	12,805.53	10,489.72
Add/ (Less): other changes in fair value not recognized in total comprehensive income	8,231.70	2,339.85
Total Return	**21,037.23**	**12,829.57**

Notes:
1. Fair value of assets as at 31 March 2025 and as at 31 March 2024 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis and other related disclosure with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 27A.

INDIGRID INFRASTRUCTURE TRUST (FORMERLY KNOWN AS INDIA GRID TRUST)
Notes to standalone Financial Statements for the year ended 31 March 2025
(All amounts in Rs. million unless otherwise stated)

Disclosures pursuant to SEBI Circulars

(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024)

A) Statement of Net Distributable Cash Flows (NDCFs) of Indigrid Infrastructure Trust (formerly known as India Grid Trust)

Description	Year ended 31 March 2025 (Audited)
Cash flow from operating activities as per Cash Flow Statement	(700.37)
(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework **(refer note 2)**	24,692.76
(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)	416.78
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/Holdcos or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations **(refer note 3)**	-
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs/ Hold cos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently	-
(-) Finance cost on Borrowings, excluding amortisation of any transaction	(13,941.29)
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt	-
(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or **(refer note 4)**	(694.55)
(-) any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years	(7.98)
NDCF (refer note 5)	**9,765.35**

Notes:

1. In accordance with the SEBI circular no SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, the framework for computation of Net Distributable cash flows ("NDCF") is revised at Trust level for the period from 01 April 2024 to 31 March 2025. Accordingly, NDCF for the period 01 April 2024 to 31 March 2025 has been calculated and presented in accordance with the new framework. NDCF for the comparative period has been calculated and presented as per the earlier framework and has been disclosed / reproduced in Annexure I to the standalone financial statement.

2. This includes INR 185.99 million (net) received from SPV after the 31 March 2025 but before the board meeting date i.e. 15 May 2025.

3. In the current period, the Trust had transferred its remaining 51% of the paid up capital of 'RSUPL' with effect from 17 February 2025 to 'IGL2' at fair value. As the proceeds from this transaction is reinvested / proposed to be reinvested in accordance with InvIT Regulations, no cash inflow is considered as part of NDCF.

4. This represents reserve actually created during the period.

5. As per the master circular SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, details of NDCF distributable is as below -

Particulars	Year ended 31 March 2025 (Audited)
NDCF of Trust (A)	9,765.35
(+) NDCF of Holdco & SPV's (B)	28,927.92
(-) Amount distributed by Holdco & SPV's (C)	(24,692.76)
Amount Of NDCF Distributable D=(A+B-C) *	**14,000.51**

*Trust has ensured that minimum 90% of the above amount will be distributed as NDCF.

1. Trust information

Indigrid Infrastructure Trust (“the Trust” or “IndiGrid”) is an irrevocable trust settled by Sterlite Power Transmission Limited (erstwhile sponsor) on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India (“SEBI”) under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/battery in India with the objective of producing stable and sustainable distributions to unitholders.

As at 31 March, 2025, IndiGrid has special purpose vehicles (“SPVs”) which are into transmission infrastructure, generation of electricity through Solar projects and into storage and delivery of electricity through Battery Energy Storage Systems.

Nature of Trust’s subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Underlying holding company (“HoldCo”)

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra - 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 20 May 2025.

2. Material Accounting Policies

2.1 Basis of preparation

The Standalone financial statements (the "financial statements") are the separate financial statements of the Trust and comprise of the Balance Sheet as at 31 March, 2025, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Statement of Cash Flow and the Statement of Changes in Unit Holders' Equity for the year then ended, the Statement of Net Assets at fair value as at 31 March, 2025, the Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') for the year then ended and a summary of material accounting policies and other explanatory notes in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended), read with Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended including any guidelines and circulars issued thereunder (the "InvIT Regulations").

The financial statements have been prepared on accrual basis and under the historical cost convention except certain financial assets and liabilities measured at amortized cost and fair value (Refer Note no. 2.2(k) for accounting policy regarding financial instruments).

These financial statements for the year ended March 31, 2025 have been prepared in accordance with Ind AS, except presentation/ classification of unit capital which is made in accordance with the InvIT Regulations as more fully described in Note 12(e) to the financial statements.

The financial statements are presented in Indian Rupees Million, except when otherwise indicated.

2.2 Summary of material accounting policies

The following is the summary of material accounting policies applied by the Trust in preparing its financial statements:

a) Investments in subsidiaries

The Trust accounts for its investments in subsidiaries at cost less accumulated impairment losses (if any) in its separate financial statements. Investments accounted for at cost which are held for sale are accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

Impairment of Investment

The Trust reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

b) Current versus non-current classification

The Trust presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.
A liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Trust classifies all other liabilities as non-current.

Operating cycle of the Trust is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Trust has identified twelve months as its operating cycle.

c) Foreign currencies

The Trust's financial statements are presented in INR, which is also the Trust's functional currency. The Trust does not have any foreign operation and transactions.

d) Fair value measurement

The Trust measures financial instruments such as mutual funds at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Trust.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Trust uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Trust determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.
In estimating the fair value of investments in subsidiaries, the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager on a quarterly basis to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be remeasured or reassessed as per the Trust's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Trust has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement and hierarchy (Note 27A & 27B)
- Disclosures for valuation methods, significant estimates and assumptions (Note 27A & 27B)
- Financial instruments (including those carried at amortised cost) (Note 27A & 27B)

e) Revenue Recognition

The Trust operates in the business of owning and maintaining infrastructure assets. Such infrastructure assets are SPVs engaged in the business of providing transmission infrastructure to its customers or generation and sale of solar power or storage and delivery of electricity. The Trust invests in SPVs directly or through intermediate holding companies by providing equity/ preference capital or providing unsecured loans to the SPVs. Principle source of revenue for the Trust at a standalone level interest income earned on loans given to subsidiaries and dividend income. Such income is distributed to its unitholders in accordance with InvIT Regulations.

The specific recognition criteria described below must be met before revenue is recognised.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Trust's right of payment has been established.

f) Taxation

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Trust shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Trust relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

g) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of the plant and equipment are required to be replaced at intervals, the Trust depreciates them separately based on their specific useful lives.

Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered
Data processing equipments	3

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

h) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Trust incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

i) Impairment of non-financial assets

The Trust assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Trust estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Trust bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Trust estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

j) Provisions and Contingent Liabilities

Provisions

Provisions are recognised when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Trust expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities

Contingent liability is:

(a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the entity or

(b) a present obligation that arises from past events but is not recognized because;

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or

- the amount of the obligation cannot be measured with sufficient reliability.

The Trust does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

k) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Trust commits to purchase or sell the asset.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Trust's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient, the Trust initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is most relevant to the Trust. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss. This category generally applies to interest receivable from subsidiaries and loans given to subsidiaries.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Trust may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Trust may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Trust makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Trust decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Trust may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Trust's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Trust has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Trust has transferred substantially all the risks and rewards of the asset, or (b) the Trust has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Trust has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Trust continues to recognise the transferred asset to the extent of the Trust's continuing involvement. In that case, the Trust also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Trust has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Trust could be required to repay.

Impairment of financial assets

The Trust recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Trust expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For the financial assets which are reflected at fair value, no further impairment allowance is necessary as they reflect the fair value of the relevant financial asset itself.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Trust's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instrument.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Trust that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Trust may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Financial liabilities at amortised cost
After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to borrowings. For more information refer Note 14.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The Trust determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Trust's senior management determines change in the business model as a result of external or internal changes which are significant to the Trust's operations. Such changes are evident to external parties. A change in the business model occurs when the Trust either begins or ceases to perform an activity that is significant to its operations. If the Trust reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Trust does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised Classification	Accounting Treatment
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

l) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

m) Cash distribution to unit holders

The Trust recognises a liability to make cash distributions to unit holders when the distribution is authorised, and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders equity.

n) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

o) Segment reporting

The activities of the IndiGrid Trust includes owning, operating, and managing power transmission networks, solar assets and battery storage assets. Given the nature of the Trust's diversified operations and in accordance with the guidelines set forth in Ind AS - 108 - "Operating Segments," management has identified two distinct reportable business segments as "Power Transmission segment" and "Power generation segment". Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM). Chief executive officer is the CODM of the Trust who monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

p) Statement of net assets at fair value

The disclosure of Statement of Net Assets at Fair value comprises of the fair values of the SPV held and the intermediate Holding Company as well as book values of the total liabilities and other assets of the Trust. The fair value of the SPVs and intermediate Holding Company are reviewed periodically at each reporting date by the independent property valuer taking into consideration market conditions existing at the reporting date, and other generally accepted market practices. The independent valuer is leading independent appraiser with a recognised and relevant professional qualification and experience.

2.3 New and amended standards

The Trust applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 April 2024. The Trust has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

i. Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

• A specific adaptation for contracts with direct participation features (the variable fee approach)

• A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Trust's financial statements as the Trust has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

ii. Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The amendment does not have any impact on the Trust's financial statements.

1. The Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution. This acquisition has been treated as a business combination as per Ind AS 103 - "Business Combination".

1A. Further during the previous year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid, in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying calue of investment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TSESPL from GSPPL, TSEPPL from GSPPL, and TSETPL from TSECPL, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

2. IGL2 has incorporated Kilokari BESS Private Limited with effect from 06 November 2023 and as a result the same is indirectly held by Trust.

3. IGL1 and IGL2 has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024 and as a result these are indirectly held by Trust.

4. During the previos year, the Trust acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 ("SPA"). The Trust has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.

Further as part of internal restructuring, the Trust has transferred 49% holding of RSUPL to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. As a result of this internal restructring, the Trust has the beneficial owner for remaining 51% shares of RSUPL.

Further, during the March 2025 quarter, the Trust has invested in the NCD's of Enerica Regrid Infra Private Limited (ERIPL) and have also entered into an interse agreement to transfer 26% of equity shares of RSUPL to Enerica, in order to enable Enerica to utilise credentials of RSUPL for bidding for new projects. In accordance with the terms of the interse agreement, terms of the NCD's subscribed by the Trust and as per Ind AS 115, the Trust has concluded that it owns 100% of beneficial and economical interest in RSUPL.

5. During the previous year, the Trust is allotted 2.80 million equity share of IGL2 on 26 March 2024 at a price of Rs. 142.65 per share aggregating to Rs. 400.00 million. This allotment is made against interest recevable from IGL2.

6. IGL2 has acquired Kallam Transco Private Limited with effect from 05 April 2024, Gujarat BESS Private Limited with effect from 24 April 2024, Rajasthan BESS Private Limited with effect from 03 December 2024 and Ratle Kiru Power Transmission Limited with effect from 24 March 2025 and as a result the same are indirectly held by Trust.

7. During the current year, the trust is alloted 0.453 million shares of GPTL on 27 December 2024 at a price of INR 220.38 per share aggregating to INR 99.94 million. The share were issued at fair value.

8. On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Trust has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Trust thereby giving 100% beneficial ownership of these SPV in the hands of the Trust.

Additionally the Trust has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Trust shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Trust as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Trust has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition.

9. During the current year, the Trust has entered into an settlement agreement with Sterlite Power Transmission Limited (SPTL) and Sterlite Grid 5 Limited (SGL 5) (Sterlite Power Group) to settle outstanding balances related to payables for projects acquired by the Indigrid Group, as part of the acquisition of ENICL, NRSS, NER, BDTCL, GPTL, OGPTL and KhTL. Basis the settlement agreement the Trust have reversed net liability payable towards projects acquired in earlier years of Rs. 742 million in aggregate and the same is reduced from investments in respective subsidiaries/holdco of the Trust.

10. During the current year, favourable "Change in Law" orders were received by GPTL, NER, and KhTL, resulting in an increase in revenue for these entities. As per the terms of the Share Purchase Agreements entered into by IndiGrid for the acquisition of these SPVs, such "Change in Law" benefits are contractually reimbursable to the erstwhile sellers. Accordingly, the Trust has recognised a corresponding liability and adjusted the carrying value of investments in the respective SPVs.

Impairment

The Trust has made assessment of recoverability of the investments in / loans given to various subsidiaries including step down subsidiaries and based on such assessment, an impairment loss has been provided and the same is shown as Impairment of investment in subsidiaries in standalone statement of profit and loss for the year ended 31 March 2024 and year ended 31 March 2025. The impairment loss arose in these investements due to diminishion of cash flow due to age of the asset. Refer note 26 for estimate and assumption used for doing fair valuation of investment in subsidiaries including step down subsidiaries. Following is the list of subsidiaries including step down subsidiaries on which impairment provision is made during the period:

Particulars	Nature	Impairement loss recognized / (Reversed) (Rs In million)	Impairement loss recognized / (Reversed) (Rs In million)

Note 12: Unit Capital

a. Reconciliation of the units outstanding at the beginning and at the end of the reporting period	**Number of units (In million)**	**(Amount in INR Million)**
Balance as at 01 April 2023	700.18	65,903.15
Units issued during the year (refer note (i) below)	83.49	10,727.05
Issue expenses (refer note (ii) below)	-	(176.12)
As at 31 March 2024	**783.67**	**76,454.08**
Units issued during the year (refer note (i) below)	50.88	6,942.21
Issue expenses (refer note (ii) below)	-	(73.75)
As at 31 March 2025	**834.56**	**83,322.54**

Note:

a. Issue of units
i) A. On 21 September 2023, the Trust issued 30.80 million units to eligible investors on a preferential basis at a unit price of Rs. 131 per unit to raise Rs. 4,035.00 million.
B. On 06 December, 2023, the Trust issued 52.69 million units to institutional investors at a unit price of Rs. 127 per unit to raise Rs. 6,692.05 million.
C. On 07 October 2024, the Trust issued 50.88 million units to eligible investors on a preferential basis at a unit price of Rs. 136.43 per unit to raise Rs. 6,942.21 million.

ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

b. Terms/rights attached to units
The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Trust declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	**31 March 2025**		**31 March 2024**	
	(Nos. in million)	**% holding**	**(Nos. in million)**	**% holding**
Esoteric II Pte. Limited (Sponsor)	10.05	1.20%	165.90	21.17%
Government of Singapore	140.18	16.80%	140.18	17.89%
Larsen And Toubro Limited	49.19	5.89%	46.04	5.87%

d. The Trust has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Trust has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

e. Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as "Equity", which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Trust has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

(All amounts in Rs. million unless otherwise stated)

Note 13: Other Equity

	31 March 2025	31 March 2024
Reserves and Surplus		
Retained earnings		
Balance as per last financial statements	3,577.54	3,296.07
Add: Profit for the year	12,805.53	10,489.72
Less: Distribution paid to unitholders	(11,979.99)	(10,208.25)
Closing balance	**4,403.08**	**3,577.54**

Nature and purpose of reserve:
Retained earnings are the profits/(loss) that the Trust has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders.

Note 14: Long term borrowings (carried at amortised cost)

The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 08 April 2025, "ICRA AAA/Stable" from ICRA on 18 March 2025 and "IND AAA/Stable" from India Ratings on 20 January 2025.

(B) Term loan from bank
The Indian rupee term loan from bank carries interest at the rate of 7.03% to 8.25% p.a. (EIR 7.07% to 8.85%) [31 Mar 2024 : 7.00% to 8.25% (EIR 7.00% to 8.85%)]. Loan amount installments are repayable as per the payment schedule ranging over 5 and 15 years from the date of disbursement.
The term loan is secured by
(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledged of 73% over the equity share capital of PrKTCL, 65% over equity share capital of TSESPL, 94% over equity share capital of KBPL.
(iv) Exclusive charge on the ISRA/DSRA accounts created for respective facility.

Financial covenants
Loans from bank and non convertible debentures contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed by banks on availability of audited accounts of the Trust periodically. For the financial year ended 31 March 2025 and 31 March 2024, the Trust has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, where applicable.

The Trust has not utilised borrowings taken from banks and financial institutions for purpose other than for which it was taken.

The Trust has not defaulted in repayment of any loan and interest payable.

(All amounts in Rs. million unless otherwise stated)

Note 16: Other financial liabilities (carried at amortised cost)

	31 March 2025	31 March 2024
Current		
Interest accrued but not due on borrowings	888.16	988.67
Payables for purchase of property, plant and equipment	0.49	0.83
Distribution payable	14.97	14.19
Payable towards project acquired #	66.60	1,052.22
Total	**970.22**	**2,055.91**

Liability is towards acquisition of equity shares of NRSS XXIX Transmission Limited (NRSS), Odisha Generation Phase-II Transmission Limited (OGTPL), East-North Interconnection Company Limited (ENICL), Gurgaon-Palwal Transmission Limited (GPTL), Parbati Koldam Transmission Company Limited (PrKTCL), NER II Transmission Limited (NER), Raichur Sholapur Transmission Company Private Limited (RSTCPL) and Khargone Transmission Limited (KhTL) pursuant to respective share purchase agreements.

During the current year, the Trust has entered into an settlement agreement with Sterlite Power Transmission Limited (SPTL) and Sterlite Grid 5 Limited (SGL 5) (Sterlite Power Group) to settle outstanding balances related to payables for projects acquired by the Indigrid Group, as part of the acquisition of ENICL, NRSS, NER, BDTCL, GPTL, OGPTL and KhTL. Basis the settlement agreement the Trust have reversed net liability payable towards projects acquired in earlier years of Rs. 742 million.

Note 17: Other current liabilities

	31 March 2025	31 March 2024
Current		
Withholding taxes (TDS) payable	19.28	59.22
GST payable	-	1.40
Others	0.24	0.19
Total	**19.52**	**60.81**

(All amounts in Rs. million unless otherwise stated)

Note 18: Tax Expense

The major components of income tax expense for the years ended 31 March 2025 and 31 March 2024 are:	31 March 2025	31 March 2024
- Current tax	13.71	29.86
- Adjustment of tax relating to earlier periods	-	2.14
Income tax expenses reported in the statement of profit and loss	**13.71**	**32.00**

Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate for 31 March 2025 and 31 March 2024:	31 March 2025	31 March 2024
Accounting profit before income tax	**12,819.24**	**10,521.72**
At India's statutory income tax rate of 39.00%* (31 March 2024: 39.00%)	4,999.50	4,103.47
Impact of exemption u/s 10(23FC) of the Income Tax Act, 1961 available to the Trust	(4,882.12)	(4,073.61)
Other Adjustment	(103.67)	-
Adjustment of tax relating to earlier periods	-	2.14
At the effective income tax rate	**13.71**	**32.00**
Income tax expense reported in the statement of profit and loss	**13.71**	**32.00**

* The Trust has opted for the new scheme under section 115BAC of Income Tax Act, 1961.

Note 19: Revenue from operations

	31 March 2025	31 March 2024
Interest income on loans given to subsidiaries (refer note 28)	26,941.88	25,767.90
Finance income on non-convertible debentures issued by subsidiary on EIR basis	258.13	239.46
Total	**27,200.01**	**26,007.36**

Disaggregated revenue information

Location		
India	27,200.01	26,007.36
Total	**27,200.01**	**26,007.36**
Timing of revenue recognition		
Services transferred over time	27,200.01	26,007.36
Total	**27,200.01**	**26,007.36**

Note 20: Other income

	31 March 2025	31 March 2024
Liabilities no longer required written back	13.78	1.44
Miscellaneous income	1.46	-
Total	**15.24**	**1.44**

Note 21: Investment management fees

	31 March 2025	31 March 2024
Investment management fees (refer note 28)	8.05	442.80
Total	**8.05**	**442.80**

Pursuant to the Investment Management Agreement dated 13 June 2023 (as amended), Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

Further, during the year ended 31 March 2024, on the basis of approvals obtained from the board of directors and audit committee in a meeting dated 12 May 2023 and unitholders in the extraordinary general meeting dated 06 June 2023, the investment management agreement is revised to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly acquisition fee amounting to Nil (31 March 2024 : Rs. 437.55 million) has been accounted in the books.

Note 22: Other expenses

	31 March 2025	31 March 2024
Rates and taxes	8.03	70.90
Miscellaneous expenses	22.61	16.61
Total	**30.64**	**87.51**

Note 23: Finance Cost

	31 March 2025	31 March 2024
Interest on debt and borrowings measured at amortised cost	13,966.65	12,999.82
Other bank and finance charges	53.96	73.16
Total	**14,020.61**	**13,072.98**

Note 24: Depreciation and amortization expense

	31 March 2025	31 March 2024
Depreciation of property,plant and equipments(refer note 3)	0.11	0.43
Amortisation of intangible assets (refer note 4)	13.47	11.99
Total	**13.58**	**12.42**

Note 25: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	31 March 2025	31 March 2024
Profit after tax for calculating basic and diluted EPU (Rs. in million)	12,805.53	10,489.72
Weighted average number of units in calculating basic and diluted EPU (No. in million)	808.21	732.98
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	15.84	14.31

The Trust doesn't have any outstanding dilutive potential instruments.

Note 26: Significant accounting judgements, estimates and assumptions

The preparation of the Trust's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements
In the process of applying the Trust's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the standalone financial statements.

(a) Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value.
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets) and investment in non convertible debentures of ERIPL (valued at FVTPL), the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of non-current assets
Non-current assets of the Trust primarily comprise of investments in subsidiaries.

The provision for impairment/(reversal) of impairment of investments in subsidiaries is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Trust tests impairment on the amounts invested in the respective subsidiary companies.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 27A.

(c) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Trust establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Note 27A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Trust's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Rs. in million

Particulars	Carrying value		Fair value	
	31 March 2025	31 March 2024	31 March 2025	31 March 2024
Financial assets at Amortized cost				
Cash & cash equivalent	271.21	54.54	271.21	54.54
Other bank balance	1,454.65	1,161.74	1,454.65	1,161.74
Investment in subsidiaries(including loan to subsidiaries)	248,327.53	250,450.04	280,870.67	274,761.48
Investments in non convertible debentures of ERIPL (Class B)	103.03	-	103.03	-
Other financial assets	13,532.28	11,558.64	13,532.28	11,558.64
Financial assets at Fair Value through profit and loss				
Investments in mutual funds	11,338.56	691.86	11,338.56	691.86
Investments in non convertible debentures of ERIPL (Class A)	1,286.43	-	1,286.43	-
Total	**276,313.69**	**263,916.82**	**308,856.83**	**288,228.26**
Financial liabilities at amortized cost				
Borrowings	187,676.18	181,474.95	187,676.18	181,474.95
Trade payables	70.10	400.66	70.10	400.66
Other financial liabilities	970.22	2,055.91	970.22	2,055.91
Total	**188,716.50**	**183,931.52**	**188,716.50**	**183,931.52**

The management assessed that cash and cash equivalents, other bank balance, trade payables, borrowings ,non-current financial Investment, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Trust has made investment in subsidiaries which are Intermediate Holdcos and Special Purpose Vehicle entities (SPV's) through equity shares, preference shares, compulsory-convertible debentures (CCD's), non-convertible debentures (NCD's) and have also provided unsecured loans to all the Holdcos including subsidiaries. The Trust is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2025 and 31 March 2024 are as shown below

INDIGRID INFRASTRUCTURE TRUST (FORMERLY KNOWN AS INDIA GRID TRUST)
Notes to standalone Financial Statements for the year ended 31 March 2025
(All amounts in Rs. million unless otherwise stated)

Description of significant unobservable inputs to valuation:

Rs. in million

Significant unobservable inputs	Valuation technique	Input for 31 March 2025	Input for 31 March 2024	Sensitivity of input to the fair value	Increase /(decrease) in fair value 31 March 2025	31 March 2024
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.28% to 8.36%	7.70% to 8.69%	+ 0.5%	(13,921.00)	(12,470.98)
				- 0.5%	14,909.00	13,683.44

Ratle Kiru Power Transmission Limited (RKPTL) (from 24 March 2025)

Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) are now merged with IGL w.e.f. 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024. Hence, balance outstanding from these entities and transactions with these entiies are included in balance / transactions of IGL.

(b) Other related parties under Ind AS-24 with whom transactions have taken place during the year

Entities with significant influence over the Trust

Esoteric II Pte. Ltd - Sponsor (EPL)
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

II. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid

Esoteric II Pte. Ltd (EPL) - Inducted Sponsor
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Limited (IGL) - Project Manager of IndiGrid (for all SPV's)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid
Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Ltd is Promoter)

(b) Promoters of the parties to IndiGrid specified in (a) above

KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL
Twin Star Overseas Limited - Promoter of SPTL (SPTL is declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Electron IM Pte. Ltd. - Promoter of IIML (Parent with 100% holding of IIML)
KKR Asia Pacific Infrastructure Investors SCSp ("Asia Infra II Main Fund")-Luxembourg
Axis Bank Limited - Promoter of ATSL
Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Entities with common director

Enerica Regrid Infra Private Limited

(d) Directors of the parties to IndiGrid specified in (a) above

Directors of IIML:

Harsh Shah (CEO & Whole-time director)
Tarun Kataria
Ashok Sethi
Hardik Shah
Jayashree Vaidhyanthan
Ami Momaya

Directors of SPTL (till 06 July 2023):

Pravin Agarwal
Pratik Agarwal
A. R. Narayanaswamy
Anoop Seth
Manish Agarwal
Kamaljeet Kaur

Key Managerial Personnel of IIML:

Harsh Shah (CEO & Whole-time director)
Navin Sharma (CFO) (from 19 April 2023)
Urmil Shah (Company Secretary)

Directors of ATSL:

Deepa Rath
Sumit Bali (from 16 January 2024)
Prashant Joshi (from 16 January 2024)
Rajesh Kumar Dahiya
Ganesh Sankaran
Arun Mehta (from 03 May 2024)
Pramod Kumar Nagpal (from 03 May 2024)

Directors of Esoteric II Pte. Ltd.:

Tang Jin Rong
Madhura Narawane
Goh Ping Hao (Lucas Goh) (from 25 August 2023)

Relative of directors mentioned above:

Sonakshi Agarwal

Relative of sponsor mentioned above:

Terra Asia Holdings II Pte. Ltd. ("Terra")*

*In accordance with Regulation 2(1)(zv) of the InvIT Regulations, the seller of the units of VRET being Terra Asia Holdings II Pte. Ltd. ("Terra"), is controlled and/or managed and/or advised, solely by Kohlberg Kravis Roberts & Co. L.P., or by its affiliates (together, the "KKR Group"), along with one of our sponsors, and is a related party of IndiGrid.

INDIGRID INFRASTRUCTURE TRUST (FORMERLY KNOWN AS INDIA GRID TRUST)
Notes to standalone Financial Statements for the year ended 31 March 2025

*The Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution.

Terms and conditions

i. Loans given to related parties
Loans given to SPVs including Holdco are for principal business activities and can be utlized as per the terms and conditions of the loan agreement. Interest is charged at arms length rate and is as per ordinary course of the business. For interest rate charged on the loan given to related parties refer note 7. For the year ended 31 March 2025, the Trust has not recorded any impairment on loans and interest due from related parties (31 March 2024: Nil).

ii. Trustee fee
Trustee fee is paid to Axis Trustee Services Limited. The amount billed for the service was agreed based on mutual negotiation between parties.

iii. Investment Management Fees
For terms and condition related to Investment Management Fees refer note 21.

iv. Transaction with Axis Bank Limited
The Trust has banking relationships with Axis Bank Limited, which is a related party. All transactions with the bank have been conducted in the ordinary course of business and at arm's length.

v. Sale and Purchase of Investment in Subsidiaries
The Trust has undertaken sale and purchase of subsidiaries with related parties during the year. These transactions were carried out at fair value and in compliance with applicable InvIT regulations.

vi. Investment in Subsidiaries and HoldCo.
The Trust has made investment in subsidiaries at a fair value in compliance with InVIT regulations. Necessary approvals were obtained as per applicable laws.

vii. Subscription of Non Convertible debentures - Enerica Regrid Infra Private Limited
For terms and condition related to subsription of NCD refer note 6.

The transactions entered into with related parties are taken at arms length rate and are in the ordinary course of business. For the year ended 31 March 2025, the Trust has recorded impairment of receivables with respect to Investment in equity shares, preference shares, Compulsory convertible debentures and Non-convertible debentures. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

For impairment details, refer note 5 and 6.

Details in respect of related party transactions involving acquisition of InvIT assets as required by Para 4.6.6 of chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated 15 May 2024 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars") are as follows:

For the year ended 31 March 2025:

No acquisitions during the year ended 31 March 2025.

For the year ended 31 March 2024:

The Trust has acquired VRET and details required are as follows:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	VRET
Enterprise value agreed for acquisition	38,544.00
Enterprise value as per Independent valuer	40,322.00
Method of valuation	Discounted cash flow
Discounting rate (WACC)	7.80% - 8.70%

(B) Material conditions or obligations in relation to the transactions:

There are no open material conditions / obligations related to above transaction, other than regulatory approvals obtained by the Trust.

(C) Rate of interest for external financing:

The Trust has availed external financing at the rate of interest ranging from 7.35% to 7.84% to finance this acquisition.

(D) Any fees or commission paid :
The Trust has also paid investment management fee and brokerage of Rs 239.03 million and Rs 13.57 million including taxes respectively for the purpose of this acquisition. (refer note 28 (iii))

(All amounts in Rs. million unless otherwise stated)

Note 29: Capital and other Commitments

(a) The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited. Cost of the acquisition will be finalized on the date of acquisition.

(b) The Trust has partnered with BII and Norfund to create a platform "EnerGrid" which will bid and develop greenfield Transmission and standalone Battery energy storage systems (BESS) projects in India. Each of the three partners namely BII, Norfund and IGT have committed to invest USD 100 Mn in the platform totalling to USD 300 Mn (approx.)

Note 30: Contingent liability

The Trust has no contingent liability to be reported (31 March 2024: Nil).

Note 31: Segment reporting

The disclosures under Ind AS 108 - Operating Segments have been included in the Consolidated Financial Statements and accordingly, not included in these financial statements.

Revenue from operations consists of interest income amounting to Rs. 10,342.50 (31 March 2024: Rs. 10,768.73 million) which accounts for more than 10% from a single subsidiary.

Geographic information
Non-current operating assets:

Particulars	31 March 2025	31 March 2024
India	52.56	59.01
Outside India	-	-
Total	**52.56**	**59.01**

Non-current assets for this purpose consist of property, plant and equipment and intangible assets.

The below table discloses a breakup of the investments across all sub-sectors i.e. Power Transmission, Power Generation, Power Storage and Unallocable showing investments in fair value and book value for each sub-sector together with the percentage thereof in relation to the total investment.

Sub Sector Investments (Fair Value*)

Particulars	As at 31 March 2025		As at 31 March 2024	
	In Percentage	In Amount*	In Percentage	In Amount*
Power Transmission	82.11%	239,625.31	80.23%	226,965.43
Power Generation	18.02%	52,576.76	19.30%	54,604.58
Power Storage	0.16%	455.64	0.00%	-
Unallocable#	-0.29%	(835.40)	0.47%	1,319.47
Total	**100%**	**291,822.31**	**100%**	**282,889.48**

* The amount in the above table represents the fair values of subsidiaries/SPVs calculated based on their independent fair valuation done by experts appointed by the Trust in accordance with SEBI regulations.
# Unallocable pertains to fair values associated to intermediate holding companies (HoldCos) namely IGL, IGL1 and IGL2.

Sub Sector Investments (Book Value)**

Particulars	As at 31 March 2025		As at 31 March 2024	
	In Percentage	In Amount	In Percentage	In Amount
Power Transmission	69.59%	186,903.76	69%	184,743.20
Power Generation	12.51%	33,608.36	14%	36,772.14
Power Storage	0.18%	490.00	0%	-
Unallocable##	17.72%	47,583.41	17%	45,373.74
Total	**100%**	**268,585.53**	**100%**	**266,889.08**

**Book value is computed excluding the provision for impairment.
Unallocable pertains to book values associated to investments in HoldCos. These HoldCos have further invested in various SPVs operating in transmission, solar and battery sectors. The book values of these intermediate investments have not been further disaggregated by sub-sector.

Note 32: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	31 March 2025	31 March 2024
(i) The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro and small enterprises	1.12	0.24
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2024: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the suppliers / information available with the Company regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 33: Financial risk management objectives and policies

The Trust's principal financial liabilities comprise of borrowings and other financial liabilities. The main purpose of these financial liabilities is to finance the Trust's operations. The Trust's principal financial assets include investments, loans, cash and bank balances and other financial assets that derive directly from its operations.

The Trust may be exposed to market risk, credit risk and liquidity risk. The Investment Manager oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Trust's policy that no trading in derivatives for speculative purposes may be undertaken. The management reviews and agrees policies for managing each of these risks, which are summarised below.

The Risk Management policies of the Trust are established to identify and analyse the risks faced by the Trust, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Trust's activities.

Management has overall responsibility for the establishment and oversight of the Trust's risk management framework.

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings and investments. The sensitivity analysis in following sections relate to the positions as on 31 March 2025 and 31 March 2024.

Price Risk
The Trust invests its surplus funds in mutual funds which are linked to debt markets. The Trust is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Trust diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Trust's senior management on a regular basis

Rs. in million

Particulars	% change in market value	31 March 2025	31 March 2024
		Effect on Profit before tax	Effect on Profit before tax
Mutual funds	0.50%	56.69	3.46

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Trust has both fixed and fluctuating rate of borrowing. However, the interest rate risk is low since substantial portion of borrowing is at fixed rate i.e. 88.75% (31 March 2024 : 75.47%).

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Trust's profit before tax is affected through the impact on floating rate borrowings, as follows:

Rs. in million

Particulars	% change in basis points	31 March 2025	31 March 2024
		Effect on profit before tax	Effect on profit before tax
Increase in basis points	0.50%	106.03	(223.60)
Decrease in basis points	-0.50%	(106.03)	223.60

Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Trust did not have any exposure in foreign currency as at 31 March 2025 and 31 March 2024 Hence , the Trust is not exposed to foreign currency risk.

Equity price risk
The Trust's investments in equity shares of subsidiaries are susceptible to market price risk arising from uncertainties about future values of those investments. Reports on the equity portfolio are submitted to the senior management on a regular basis. The Board of Directors of the Investment Manager reviews and approves all equity investment decisions.
At the reporting date, the exposure to equity investments in subsidiary at carrying value was Rs.65,508.60 million (31 March 2024: Rs.67,391.37 million). Sensitivity analyses of significant unobservable inputs used in the fair value measurement are disclosed in Note 27A.

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Trust is exposed to credit risk from its investing activities including loans to subsidiaries, deposits with banks, investment in mutual funds and other financial instruments. As at 31 March 2025 and 31 March 2024, the credit risk is considered low since substantial transactions of the Trust are with its subsidiaries.

As at the reporting date, there is no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying value of each financial asset on the Standalone Balance Sheet.

(C) Liquidity risk
Liquidity risk is the risk that the Trust may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Trust's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Trust requires funds both for short term operational needs as well as for long term investment programs mainly in transmission projects and solar projects. The Trust closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Trust's financial liabilities based on contractual undiscounted payments. This includes interest due on borrowings till maturity.

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2025					
Borrowings	187,676.18	15,963.13	86,674.17	85,780.95	188,418.25
Interest Payable	888.16	13,717.39	40,129.80	29,547.75	83,394.94
Trade payables	70.10	70.10	-	-	70.10
Other financial liabilities	82.06	82.06	-	-	82.06
Total	**188,716.50**	**29,832.68**	**126,803.97**	**115,328.70**	**271,965.35**

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2024					
Borrowings	181,474.95	10,959.19	69,492.42	101,846.39	182,298.00
Interest Payable	988.67	13,665.49	42,443.67	27,667.19	83,776.35
Trade payables	400.66	400.66	-	-	400.66
Other financial liabilities	1,067.24	1,067.24	-	-	1,067.24
Total	**183,931.52**	**26,092.58**	**111,936.09**	**129,513.58**	**267,542.25**

(All amounts in Rs. million unless otherwise stated)

Note 34: Capital management

For the purpose of the Trust's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Trust. The primary objective of the Trust's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Trust manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Trust may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Trust monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Trust's policy is to keep the gearing ratio optimum. The Trust includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	**31 March 2025**	**31 March 2024**
Borrowings (Refer Note 15)	187,676.18	181,474.95
Less: Cash and cash equivalents (Refer Note 10)	(271.21)	(54.54)
Net debt (A)	**187,404.97**	**181,420.41**
Unit capital (Refer Note 12)	83,322.54	76,454.08
Other equity (Refer Note 13)	4,403.08	3,577.54
Total capital (B)	**87,725.62**	**80,031.62**
Capital and net debt ((C) = (A) + (B))	**275,130.59**	**261,452.03**
Gearing ratio (A)/(C)	**68%**	**69%**

Financial Covenants

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2025 and 31 March 2024

Note 35: Subsequent event

On 15 May 2025, the Board of directors of the Investment Manager approved a distribution of Rs. 4.10 per unit for the period 01 January 2025 to 31 March 2025 to be paid within 5 working days from the record date.

Note 36: Other Information

(i) The Trust does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.
(ii) The Trust does not have any transactions with Companies struck off
(iii) The Trust have not traded or invested in cryptocurrency or Virtual Currency during the financial year
(iv) During the previous year, the Trust has advanced or loaned funds to IGL1 and IGL2, with the understanding that the intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Trust (ultimate beneficiaries)
(v) The Trust has not received any fund from any persons or entities, including foreign entities (funding party) with the understanding (whether recorded in writing or otherwise) that the Trust shall:
(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or
(b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries
(vi) The Trust does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.
(vii) The Trust has not been declared as a wilful defaulter by any bank or financial institution or other lender.
(viii) There is no charge or satisfaction of charge which is yet to be registed with ROC beyond statutory period.

Less: Repair work in relation to the projects undertaken by any of the Portfolio Assets	-
Total cash outflows / retention at IndiGrid level (B)	**(17,347.56)**
Net Distributable Cash Flows (C) = (A+B)	**11,037.34**

1. The Trust acquired VRET on 25 August 2023 and as per regulatory requirements, VRET has been dissolved w.e.f. 08 September 2023. Accordingly the NDCF with respect to VRET for the period of acquisition till the date of disolution is considered for the purpose of calulation of NDCF for the year ended 31 March 2024.

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of India Grid Trust

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of India Grid Trust ("the InvIT"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Statement of Changes in Unit Holders' Equity and the Statement of Cash Flows for the year then ended, the Statement of Net Assets at fair value as at March 31, 2024, the Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT for the year then ended, and summary of material accounting policies and other explanatory notes (hereafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended including any guidelines and circulars issued thereunder (the "InvIT Regulations") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the InvIT as at March 31, 2024, its profit including other comprehensive income its cash movements and its movement of the unit holders' funds for the year ended March 31, 2024, its net assets at fair value as at March 31, 2024, its total returns at fair value and the net distributable cash flows of the InvIT for the year ended March 31, 2024.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the InvIT in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis Of Matter

We draw attention to note 12(e) of the standalone financial statement which describes the presentation/classification of "Unit Capital" as "Equity" instead of the applicable requirements of Ind AS 32 - Financial Instruments: Presentation, in order to comply with the relevant InvIT regulations. Our opinion is not modified in respect of this matter.

(This space is left intentionally blank)

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements

Key audit matters	How our audit addressed the key audit matter
Impairment of investments in subsidiaries and loans given to subsidiaries *(as described in notes 5,6,7 and 26 of the standalone financial statements)*	
The InvIT has investments in subsidiaries and has granted loans to its subsidiaries which comprise of significant portion of total assets of the Trust. The subsidiaries are in the business of owning and maintaining transmission assets/ generation of solar power and have entered into Transmission Services Agreement ("TSA") with Long Term Transmission Customers ("LTTC") and Power Purchase Agreement ("PPA") with various National or Regional Intermediaries which are designated by the Government. At each reporting period end, management assesses the existence of impairment indicators of investments in subsidiaries and loans given to subsidiaries. In case of existence of impairment indicators, the investment and loan balances are subjected to impairment test, where the fair value of the subsidiary is compared with the value of investments and loans given to such subsidiaries. The processes and methodologies for assessing and determining the fair value of the subsidiary is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification	Our audit procedures included, among others, the following: • We obtained an understanding of the InvIT's process on assessment of impairment of investments in subsidiaries and loans to subsidiaries and the assumptions used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report of the InvIT's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in impairment testing and to test the key assumptions around expected long term growth parameters discount rates etc. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management.

Key audit matters	How our audit addressed the key audit matter
of forecast of future cash flows relating to the period covered by the respective subsidiary’s transmission license/ solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.The Company’s significant portion of business is undertaken through long term engineering, procurement and construction contracts. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, revenue recognition involves usage of percentage of completion method which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Company’s rights to receive payments for performance completed till date, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts/ onerous obligations. Accuracy of revenues and onerous obligations, profits may deviate significantly on account of change in judgements and estimates.	• We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • We read and assessed the disclosures included in the notes to the standalone financial statements. • Obtained Management Representation Letter as regards to fair valuation of these investments.
<u>Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations</u> *(as described in Note 26 of the standalone financial statements)*	
The InvIT is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been carried out by the independent valuer appointed by the InvIT.	Our audit procedures included, among others, the following: • We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value. • We discussed with the management and obtained an understating of the InvIT’s policy on the assessment of fair value and the assumptions used by the management, including design and implementation

Key audit matters	How our audit addressed the key audit matter
For the purpose of the above, fair value is determined by forecasting and discounting future cash flows. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management’s judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary’s transmission license/ solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained understating of the InvIT’s process for preparation statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls and validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation reports of the InvIT’s independent valuation expert, and assessed the expert’s competence, capability and objectivity. • We evaluated independent valuation expert’s methodology, assumptions and estimates used in the calculations. • We have engaged our valuation specialists to evaluate the appropriateness of valuation methodology applied in calculation of fair value of assets including the assumption used in valuation. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders. • Discussed potential changes in key drivers as compared to previous year / actual performance with management to evaluate the inputs and assumptions used in the cash flow forecasts and performed key sensitivity analysis around the key assumptions used by the management. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • Obtained Management Representation Letter as regards to fair valuation of these investments. • We read and assessed the disclosures included in the notes to the standalone financial statements.

Other Information

The Management of Indigrid Investment Managers Limited (the "Investment Manager") is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management for the Standalone Financial Statements

The Management of the Investment Manager ('the Management') is responsible for preparation of these standalone financial statements that give a true and fair view of the financial position as at March 31, 2024, financial performance including other comprehensive income, cash flows and the movement of unit holders' funds for the year ended March 31, 2024, the net assets at fair value as at March 31, 2024, the total returns at fair value of the InvIT and the net distributable cash flows of the InvIT for the year ending March 31, 2024 in accordance with the requirements of the InvIT regulations, Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India,. This responsibility also includes the design, implementation and maintenance of adequate controls, for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the ability of InvIT to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the InvIT or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the InvIT's financial reporting process.

(This space is left intentionally blank)

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the InvIT's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the InvIT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the InvIT to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Balance Sheet, and the Statement of Profit and Loss including the Statement of Other Comprehensive Income, are in agreement with the books of account;

(c) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards (Ind AS) and/ or any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended;

(d) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Trust.

E. NAV (C/D)	102.12	133.15	98.83	130.21

Fair values of subsidiaries/SPVs are calculated based on their independent fair values done by experts appointed by the Trust. The fair value of all these revenue-generating assets is determined using discounted cash flows method. The Trust holds 100% equity/beneficial interest in all SPVs except PrKTCL in which it holds 74% and TSESPL in which it holds 66%.

Project wise breakup of fair value of assets as at 31 March 2024 **(Rs. in million)**

Project	31 March 2024	31 March 2023
Indigrid Limited	54,420.03	54,281.67
Indigrid 1 Limited	48,302.90	47,243.47
Indigrid 2 Limited[3]	47,846.89	15,218.70
Patran Transmission Company Limited	2,961.08	2,722.06
East North Interconnection Company Limited	11,651.05	11,803.75
Gurgaon-Palwal Transmission Limited	12,354.46	12,166.19
Jhajjar KT Transco Private Limited	3,261.77	3,334.96
Parbati Koldam Transmission Company Limited	6,320.25	6,539.18
NER II Transmission Limited	53,179.88	53,410.65
IndiGrid Solar-I (AP) Private Limited	3,429.65	3,302.01
IndiGrid Solar-II (AP) Private Limited	3,481.19	3,501.42
Raichur Sholapur Transmission Company Private Limited[1]	2,639.09	2,776.62
Khargone Transmission Limited[2]	17,150.62	16,650.89
PLG Photovoltaic Private Limited[3]	1,208.89	-
Universal Saur Urja Private Limited[3]	4,394.23	-
Terralight Solar Energy Tinwari Private Limited[3]	1,022.80	-
Terralight Solar Energy Patlasi Private Limited[3]	1,515.04	-
Terralight Solar Energy Sitamau SS Private Limited[3]	66.62	-
ReNew Solar Urja Power Limited (RSUPL)[6]	7,683.03	
Subtotal	**2,82,889.48**	**2,32,951.57**
Assets (in IndiGrid)	5,445.91	5,478.37
Total assets	**2,88,335.39**	**2,38,429.94**

1 The Trust has acquired Raichur Sholapur Transmission Company Private Limited with effect from 09 November 2022

2. The Trust has acquired Khargone Transmission Limited with effect from 02 March 2023

3. The Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution.

Further during the current year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid (refer note 5), in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying value of inestment of identified SPV's in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TL Sitamauss from Globus, TL Patlasi from Globus, and TL Tinwari from TL Charanka, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

4. IGL2 has acquired Kilokari BESS Private Limited with effect from 06 November 2023 and as a result the same is indirectly held by Trust.

5. IGL1 and IGL2 has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024 and as a result these are indirectly held by Trust

6. The Trust acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 ("SPA"). The Trust has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.

Further as part of internal restructuring, the Trust has transferred 49% holding of RSUPL to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. As a result of this internal restructring, the Trust has the beneficial owner for remaining 51% shares of RSUPL.

B. STATEMENT OF TOTAL RETURNS AT FAIR VALUE

Particulars	31 March 2024	31 March 2023
Total comprehensive income (as per the statement of profit and loss)	10,489.72	10,166.04
Add/ (Less): other changes in fair value not recognized in total comprehensive income	2,339.85	(2,984.31)
Total Return	**12,829.57**	**7,181.73**

Notes:

1. Fair value of assets as at 31 March 2024 and as at 31 March 2023 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis and other related disclosure with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 27A.

INDIA GRID TRUST
Notes to Standalone Financial Statements for the year ended 31 March 2024
(All amounts in Rs. million unless otherwise stated)

Disclosures pursuant to SEBI Circulars

(Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023)

A) Statement of Net Distributable Cash Flows (NDCFs) of India Grid Trust

Description	31 March 2024	31 March 2023
Cash flows received from the Portfolio Assets in the form of interest	**23,373.08**	**17,768.08**
Cash flows received from the Portfolio Assets in the form of dividend	803.35	221.90
Any other income accruing at IndiGrid level and not captured above, including but not limited to interest/return on surplus cash invested by IndiGrid	361.42	259.18
Cash flows received from the Portfolio Assets towards the repayment of the debt issued to the Portfolio Assets by IndiGrid	3,847.05	1,665.40
Proceeds from the Portfolio Assets for a capital reduction by way of a buy back or any other means as permitted, subject to applicable law	-	-
Proceeds from sale of assets of the Portfolio Asset not distributed pursuant to an earlier plan to re-invest, or if such proceeds are not intended to be invested subsequently	-	-
Total cash inflow at the IndiGrid level (A)	**28,384.90**	**19,914.56**
Less: Any payment of fees, interest and expense incurred at IndiGrid level, including but not limited to the fees of the Investment Manager and Trustee	(14,062.76)	(10,236.69)
Less: Costs/retention associated with sale of assets of the Portfolio Assets:	-	-
-related debts settled or due to be settled from sale proceeds of Portfolio Assets;	-	-
-transaction costs paid on sale of the assets of the Portfolio Assets; and	-	-
-capital gains taxes on sale of assets/ shares in Portfolio Assets/ other investments.	-	-
Less: Proceeds reinvested or planned to be reinvested in accordance with Regulation 18(7)(a) of the InvIT Regulations	-	-
Less: Repayment of external debt at the IndiGrid level and at the level of any of the underlying portfolio assets/special purpose vehicles (Excluding refinancing)	-	-
Less: Income tax (if applicable) at the standalone IndiGrid level	(32.00)	(31.96)
Less: Amount invested in any of the Portfolio Assets for service of debt or interest	(3,252.80)	(597.79)
Less: Repair work in relation to the projects undertaken by any of the Portfolio Assets	-	-
Total cash outflows / retention at IndiGrid level (B)	**(17,347.56)**	**(10,866.44)**
Net Distributable Cash Flows (C) = (A+B)	**11,037.34**	**9,048.12**

1. The Trust acquired VRET on 25 August 2023 and as per regulatory requirements, VRET has been dissolved w.e.f. 08 September 2023. Accordingly the NDCF with respect to VRET for the period of acquisition till the date of dissolution is considered for the purpose of calculation of NDCF.
2. SEBI has announced a revised formula for calculating NDCF (Net Distributable Cash Flow) under the InvIT Regulation, stated to come into effect from 01 April 2024.

(This space has been left blank intentionally)

India Grid Trust
Notes to standalone financial statements for the year ended 31 March 2024

1. Trust information

India Grid Trust ("the Trust" or "IndiGrid") is an irrevocable trust settled by Sterlite Power Transmission Limited (erstwhile sponsor) on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from 20 September, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust and with effect from 6 July, 2023, Sterlite Power Transmission Limited has been declassified as the sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission, solar/ other renewable assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at 31 March, 2024, IndiGrid has special purpose vehicles ("SPVs") which are transmission infrastructure projects operates either on Build, Own, Operate and Maintain ('BOOM') or Build, Own and Operate (BOO) or Design, Build, Finance, Operate and Transfer ('DBFOT') or on Build, Own, Operate and Transfer ("BOOT"). IndiGrid also has project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain ('BOOM') basis. It also has a project entity which is in business of developing transmission lines and Switchyards for operations of power projects and generating power.

Nature of Trust's subsidiaries is summarised below:

Sr. No.	Name of entity	Abbreviation	Operates on	Category
1	IndiGrid Limited	IGL	NA	Intermediate Holding Company
2	IndiGrid 1 Limited	IGL1	NA	Intermediate Holding Company
3	IndiGrid 2 Limited	IGL2	NA	Intermediate Holding Company
4	Bhopal Dhule Transmission Company Limited	BDTCL	BOOM	Transmission asset
5	Jabalpur Transmission Company Limited	JTCL	BOOM	Transmission asset
6	RAPP Transmission Company Limited	RTCL	BOOM	Transmission asset
7	Purulia & Kharagpur Transmission Company Limited	PKTCL	BOOM	Transmission asset
8	Maheshwaram Transmission Limited	MTL	BOOM	Transmission asset
9	Patran Transmission Company Limited	PTCL	BOOM	Transmission asset
10	NRSS XXIX Transmission Limited	NRSS	BOOM	Transmission asset
11	Odisha Generation Phase-II Transmission Limited	OGPTL	BOOM	Transmission asset
12	East-North Interconnection Company Limited	ENICL	BOOM	Transmission asset
13	Gurgaon-Palwal Transmission Limited	GPTL	BOOM	Transmission asset
14	Parbati Koldam Transmission Company Limited	PrKTCL	BOOM	Transmission asset
15	NER II Transmission Limited	NER II	BOOM	Transmission asset
16	Kallam Transmission Limited	KTL	BOOM	Transmission asset
17	Raichur Solapur Transmission Company Private Limited	RSTCPL	BOOM	Transmission asset
18	Khargone Transmission Limited	KhTL	BOOM	Transmission asset
19	Jhajjar KT Transco Private Limited	JKTPL	DBFOT	Transmission asset
20	Dhule Power Transmission Limited	DPTL	BOOT	Transmission asset
21	Isha Nagar Power Transmission Limited	IPTL	BOOT	Transmission asset
22	IndiGrid Solar – I (AP) Private Limited	ISPL1	BOOM	Solar asset
23	IndiGrid Solar – II (AP) Private Limited	ISPL2	BOOM	Solar asset
24	TN Solar Power Energy Private Limited	TSPEPL	BOOM	Solar asset

25	Universal Mine Developers and Service Providers Private Limited	UMDSPPL	BOOM	Solar asset
26	Terralight Kanji Solar Private Limited	TKSPL	BOOM	Solar asset
27	Terralight Rajapalayam Solar Private Limited	TRSPL	BOOM	Solar asset
28	Solar Edge Power and Energy Private Limited	SEPEPL	BOOM	Solar asset
29	PLG Photovoltaic Private Limited	PPPL	BOOM	Solar asset
30	Universal Saur Urja Private Limited	USUPL	BOOM	Solar asset
31	Terralight Solar Energy Tinwari Private Limited	TSETPL	BOOM	Solar asset
32	Terralight Solar Energy Charanka Private Limited	TSECPL	BOOM	Solar asset
33	Terralight Solar Energy Nangla Private Limited	TSENPL	BOOM	Solar asset
34	Terralight Solar Energy Patlasi Private Limited	TSEPPL	BOOM	Solar asset
35	Globus Steel and Power Private Limited	GSPPL	BOOM	Solar asset
36	Terralight Solar Energy Gadna Private Limited	TSEGPV	BOOM	Solar asset
37	Godawari Green Energy Private Limited	GGEPL	BOOM	Solar asset
38	Terralight Solar Energy SitamauSS Private Limited	TSESPL	BOOM	Solar asset
39	Renew Solar Urja Private Limited	RSUPL	BOOM	Solar asset
40	Kilokari BESS Private Limited	KBPL	BOOM	Battery energy storage systems

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra - 400098, India. The financial statements were approved for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 24 May 2024.

2. Material Accounting Policies

2.1 Basis of preparation

The Standalone financial statements (the "financial statements") are the separate financial statements of the Trust and comprise of the Balance Sheet as at 31 March, 2024, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Statement of Cash Flow and the Statement of Changes in Unit Holders' Equity for the year then ended, the Statement of Net Assets at fair value as at 31 March, 2024, the Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') for the year then ended and a summary of material accounting policies and other explanatory notes in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended), prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") read with SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 issued thereunder ("InvIT Regulations").

The financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair value.

These financial statements for the year ended March 31, 2024 have been prepared in accordance with Ind AS, except presentation/ classification of unit capital which is made in accordance with the InvIT Regulations as more fully described in Note 12(e) to the financial statements.

The financial statements are presented in Indian Rupees Million, except when otherwise indicated.

The Trust has prepared the financial statements on the basis that it will continue to operate as a going concern. As at 31 March, 2024 current liabilities exceed the current assets of the Trust because of current maturity of the long-term borrowings. Trust is exploring the options to refinance the current maturity of the long-term borrowing when they become due for repayment. As per regulation 20 of INVIT regulations 2014, the Trust is eligible for a total debt (net of cash and cash equivalents) of 70% to Assets under Management (AUM). As at 31 March, 2024 the total debt (net of cash and cash equivalents) to AUM is within the prescribed limits.

2.2 Summary of material accounting policies

The following is the summary of material accounting policies applied by the Trust in preparing its financial statements:

a) Investments in subsidiaries

The Trust accounts for its investments in subsidiaries at cost less accumulated impairment losses (if any) in its separate financial statements. Investments accounted for at cost which are held for sale are accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

Impairment of Investment

The Trust reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

b) Current versus non-current classification

The Trust presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.
A liability is current when:
- It is expected to be settled in the normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Trust classifies all other liabilities as non-current.

Operating cycle of the Trust is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Trust has identified twelve months as its operating cycle.

c) Foreign currencies

The Trust's financial statements are presented in INR, which is also the Trust's functional currency. The Trust does not have any foreign operation and transactions.

d) Fair value measurement

The Trust measures financial instruments such as mutual funds at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Trust.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Trust uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Trust determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.
In estimating the fair value of investments in subsidiaries, the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager on a quarterly basis to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be remeasured or reassessed as per the Trust's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Trust has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (Note 28A & 28B)
- Disclosures for valuation methods, significant estimates and assumptions (Note 28A & 28B)
- Financial instruments (including those carried at amortised cost) (Note 28A & 28B)

e) Revenue Recognition

The Trust operates in the business of owning and maintaining infrastructure assets. Such infrastructure assets are SPVs engaged in the business of providing transmission infrastructure to its customers or generation and sale of solar power. The Trust invests in SPVs directly or through intermediate holding companies by providing equity/ preference capital or providing unsecured loans to the SPVs. Principle source of revenue for the Trust at a standalone level interest income earned on loans given to subsidiaries and dividend income. Such income is distributed to its unitholders in accordance with InvIT Regulations.

The specific recognition criteria described below must be met before revenue is recognised.

Interest income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Trust estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

For compulsory convertible debentures being equity instrument, the interest income is recognised on the basis of actual interest rate.

For financial assets at fair value through profit or loss which are carried in the balance sheet at fair value, interest income is recognised in the statement of profit and loss when right to receive is established.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Trust's right of payment has been established.

f) Taxation

Current income tax
Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Trust shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Trust relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased costs as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

g) Property, plant and equipment and Capital work in progress

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. Such cost includes the cost of replacing part of the plant and equipment. When significant parts of the plant and equipment are required to be replaced at intervals, the Trust depreciates them separately based on their specific useful lives.

Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Asset Category	Useful Life considered
Data processing equipments	3

The Trust reviews the estimated residual values and expected useful lives of assets at least annually. In particular, the Trust considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and estimated residual values. Furthermore, the Trust considers climate-related matters, including physical and transition risks. Specifically, the Trust determines whether climate-related legislation and regulations might impact either the useful life or residual values.

h) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

i) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Trust incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

j) Impairment of non-financial assets

The Trust assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Trust estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Trust bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Trust estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

The Trust assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

k) Provisions and Contingent Liabilities

Provisions

Provisions are recognised when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Trust expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities

Contingent liability is:

(a) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the entity or

(b) a present obligation that arises from past events but is not recognized because;

- it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or
- the amount of the obligation cannot be measured with sufficient reliability.

The Trust does not recognize a contingent liability but discloses the same as per the requirements of Ind AS 37.

l) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Trust commits to purchase or sell the asset.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Trust's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient, the Trust initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is most relevant to the Trust. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss. This category generally applies to interest receivable and loans given to subsidiaries (Refer Note 7 and 8)

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Trust may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Trust may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Trust makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Trust decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Trust may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Trust's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Trust has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Trust has transferred substantially all the risks and rewards of the asset, or (b) the Trust has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Trust has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Trust continues to recognise the transferred asset to the extent of the Trust's continuing involvement. In that case, the Trust also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Trust has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Trust could be required to repay.

Impairment of financial assets

The Trust recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Trust expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For the financial assets which are reflected at fair value, no further impairment allowance is necessary as they reflect the fair value of the relevant financial asset itself.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Trust's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instrument.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Trust that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Trust may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Financial liabilities at amortised cost
After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to borrowings. For more information refer Note 14.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The Trust determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Trust's senior management determines change in the business model as a result of external or internal changes which are significant to the Trust's operations. Such changes are evident to external parties. A change in the business model occurs when the Trust either begins or ceases to perform an activity that is significant to its operations. If the Trust reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Trust does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	**Revised Classification**	**Accounting Treatment**
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

m) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

n) Cash distribution to unit holders

The Trust recognises a liability to make cash distributions to unit holders when the distribution is authorised, and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders equity.

o) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

p) Segment reporting

The activities of the IndiGrid Trust includes owning, operating, and managing power transmission networks and solar assets. Given the nature of the Trust's diversified operations and in accordance with the guidelines set forth in Ind AS - 108 - "Operating Segments," management has identified two distinct reportable business segments as "Power Transmission segment" and "Power generation segment". Power Generation segment includes entities in the business of generating power through renewable sources such as solar etc. These segments play a crucial role in resource allocation and performance measurement, as they are closely monitored and evaluated by the Chief Operating Decision Maker (CODM). Chief executive officer is the CODM of the Trust who monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

q) Statement of net assets at fair value

The disclosure of Statement of Net Assets at Fair value comprises of the fair values of the SPV held and the intermediate Holding Company as well as book values of the total liabilities and other assets of the Trust. The fair value of the SPVs and intermediate Holding Company are reviewed periodically at each reporting date by the independent property valuer taking into consideration market conditions existing at the reporting date, and other generally accepted market practices. The independent valuer is leading independent appraiser with a recognised and relevant professional qualification and experience.

2.3 New and amended standards

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend the following Ind AS which are effective for annual periods beginning on or after 1 April 2023. The Trust applied for the first-time these amendments.

i. Definition of Accounting Estimates - Amendments to Ind AS 8

   The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

   The amendments had no impact on the Trust's standalone financial statements.

ii. Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Trust's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Trust's financial statements.

iii. Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.
The amendments had no impact on the Trust's standalone financial statements.

Apart from these, consequential amendments and editorials have been made to other Ind AS like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

1. The Trust acquired 100% equity capital and management control of Raichur Sholapur Transmission Company Private Limited ('RSTCPL') with effect from 09 November 2022 from Simplex Infrastructure Limited, Patel Engineering Limited and BS Limited dated pursuant to Share Purchase Agreement dated 30 July 2022 (“SPA”)

2. The Trust acquired 49% of paid up equity capital of Khargone Transmission Limited ('KhTL') with effect from 02 March 2023 from Sterlite Power Transmission Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 (“SPA”). The Trust has finalised purchase consideration for acquisition of entire stake in KhTL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in KhTL from the seller. As on 31 March 2023, the Trust has beneficial interest based on the rights available to it under the SPA.

During the current year, the Trust acquired the balance 51% shares as per the binding agreement with the seller.

3. The Trust has acquired 100% units in Virescent Renewable Energy Trust (‘Unit Acquisition’ in ‘VRET’) with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution. This acquisition has been treated as a business combination as per Ind AS 103 - "Business Combination".

3A. Further during the current year, as part of internal restructuring, IGL 2 acquired identified solar SPVs from IndiGrid, in order to optimizing IndiGrid's asset structure. The consideration for purchase of identified SPV's has been settled by issue of equity shares at fair value by IGL2. Considering the transaction to be in the nature of common control within the Group, the difference between the carrying calue of inestment of identified SPV;s in IGT and the transfer value was considered as additional investment by Trust in IGL2 and is not debited to the Statement of Profit and Loss. The Share Purchase Agreements (SPA) to effect the transactions were executed on 12 January 2024.

Additionally, IndiGrid purchased step-down SPVs, including TL Sitamauss from Globus, TL Patlasi from Globus, and TL Tinwari from TL Charanka, for cash consideration. This strategic decision eliminated the layering of SPVs, leading to improved operational efficiency and a simplified organizational structure.

This restructuring does not have any impact on the unit holders equity.

4. IGL2 has incorporated Kilokari BESS Private Limited with effect from 06 November 2023 and as a result the same is indirectly held by Trust.

5. IGL1 and IGL2 has acquired Isha Nagar Power Transmission Limited and Dhule Power Transmission Limited with effect from 09 February 2024 and as a result these are indirectly held by Trust.

6. The Trust acquired 49% of paid up equity capital of ReNew Solar Urja Private Limited ('RSUPL') with effect from 24 February 2024 from ReNew Solar Power Private Limited (referred as "the seller") pursuant to Share Purchase Agreement dated 08 January 2024 (“SPA”). The Trust has finalised purchase consideration for acquisition of entire stake in RSUPL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in RSUPL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.
Further as part of internal restructuring, the Trust has transferred 49% holding to IGL2, with equity shares issued to the Trust at fair value in order to optimize IndiGrid's asset structure. After this internal restructring, the Trust is the beneficial owner for remaining 51% shares of RSUPL.

7. Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) were aquired by IGL w.e.f. 08 September 2023. These entities are now merged with IGL w.e.f. 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024.

8. The Trust is allotted 2.80 million equity share of IGL2 on 26 March 2024 at a price of Rs. 142.65 per share aggregating to Rs. 400.00 million. This allotment is made against interest recevable from IGL2.

* On the basis of Sale Purchase Agreement (SPA) entered with the selling shareholders, the Trust has acquired 49% of the equity share capital of these SPVs and have entered into a definitive agreement to buy the balance 51% of the equity share at a later date. The consideration for the entire 100% of the value of these SPV has been paid and settled by the Trust thereby giving 100% beneficial ownership of these SPV in the hands of the Trust.

Additionally the Trust has following rights as per the terms and conditions of the SPA:
- Right to receive all distributions and dividends declared, paid or made, such that Trust shall receive full legal and beneficial ownership and all rights thereto.
- Right to nominate majority of directors on the Board of Directors;
- Right to direct the Selling Shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders;
- The Selling Shareholders agree to a non-disposal undertaking for the remaining equity stake.

Based on the rights available to the Trust as per the SPA and considering full consideration has been paid to the Selling Shareholders, the Trust has concluded that it controls these SPVs and have accounted for them as 100% Subsidiaries from the date of acquisition

Impairment

The Trust has made assessment of recoverability of the investments in / loans given to various subsidiaries including step down subsidiaries and based on such assessment, an impairment loss has been provided and the same is shown as Impairment of investment in subsidiaries in standalone statement of profit and loss for the year ended March 31, 2024. The impairment loss arose in these investements due to diminishion of cash flow due to age of the asset. Refer note 26 for estimate and assumption used for doing fair valuation of investment in subsidiaries including step down subsidiaries. Following is the list of subsidiaries including step down subsidiaries on which impairment provision is made during the period:

a. Reconciliation of the units outstanding at the beginning and at the end of the reporting period	**Number of units (In million)**	**Amount (Rs. in million)**
Balance as at 01 April 2022	700.18	65,903.15
Units issued during the year	-	-
As at 31 March 2023	**700.18**	**65,903.15**
Units issued during the year (refer note i below)	83.49	10,727.05
Issue expenses (refer note ii below)	-	(176.12)
As at 31 March 2024	**783.67**	**76,454.08**

Note:

i) A. On 21 September 2023, the Trust issued 30.80 million units to eligible investors on a preferential basis at a unit price of Rs. 131 per unit to raise Rs 4,035.00 million.
B. On 6 December, 2023, the Trust issued 52.69 million units to institutional investors at a unit price of RS. 127 per unit to raise 6,692.05 million.
ii) Expenses incurred in connection with issue of units has been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

b. Terms/rights attached to units

The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Trust declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to inquire due administration of IndiGrid in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	**31 March 2024**		**31 March 2023**	
	(Nos. in million)	**% holding**	**(Nos. in million)**	**% holding**
Esoteric II Pte. Limited (Sponsor)	165.90	21.17%	165.90	23.69%
Government of Singapore	140.18	17.89%	140.18	20.02%
Larsen And Toubro Limited	46.04	5.87%	39.02	5.57%

d. The Trust has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Trust has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

e. Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, Unit Capital contains a contractual obligation to pay cash to the Unitholders. Thus, in accordance with the requirements of Ind AS 32 - Financial Instruments: Presentation, the Unit Capital contains a liability element which should have been classified and treated accordingly. However, the SEBI Circulars (Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023, as amended from time to time) issued under the InVIT Regulations, and Section H of chapter 3 of SEBI Circulars dealing with the minimum presentation and disclosure requirements for key financial statements, require the Unit Capital in entirety to be presented/classified as "Equity", which is at variance from the requirements of Ind AS 32. In order to comply with the aforesaid SEBI requirements, the Trust has presented unit capital as equity in these financial statements. Consistent with Unit Capital being classified as equity, any distributions to Unitholders are also being presented in the Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of the Investment Manager.

Note 13: Other Equity

	31 March 2024	**31 March 2023**
Reserves and Surplus		
Retained earnings		
Balance as per last financial statements	3,296.07	2,293.62
Add: Profit for the year	10,489.72	10,166.04
Less: Distribution paid to unitholders	(10,208.25)	(9,163.59)
Closing balance	**3,577.54**	**3,296.07**

Nature and purpose of reserve:

Retained earnings are the profits/(loss) that the Trust has earned/incurred till date, less any transfers to general reserve, dividends or other distributions paid to unitholders.

The Trust retained its credit ratings of "CRISIL AAA/Stable" from CRISIL on 09 February 2024, "ICRA AAA/Stable" from ICRA on 12 February 2024 and "IND AAA/Stable" from India Ratings on 12 February 2024.

(B) Term loan from bank

The Indian rupee term loan from bank carries interest at the rate of 7.00% to 8.25% p.a. (EIR 7.00% to 8.85%). Loan amount installments are repayable as per the payment schedule ranging over 5 and 15 years from the date of disbursement.
The term loan is secured by

(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledged of 73% over the equity share capital of PrKTCL and 65% over equity share capital of TSESPL.
(iv) Exclusive charge on the ISRA/DSRA accounts created for respective facility.

Financial covenants

Loans from bank and Non-convertible debentures contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed by banks on availability of audited accounts of the Trust periodically. For the financial year ended 31 March 2024, the Trust has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, where applicable.

The Trust has not utilised borrowings taken from banks and financial institutions for purpose other than for which it was taken.
The Trust has not defaulted in repayment of any loan payable.

Location		
India	26,007.36	21,807.67
Outside India	-	-
Total	**26,007.36**	**21,807.67**
Timing of revenue recognition		
Services transferred over time	26,007.36	21,807.67
Total	**26,007.36**	**21,807.67**

Note 20: Other income

	31 March 2024	31 March 2023
Liabilities no longer required written back	1.44	-
Total	**1.44**	**-**

Note 21: Investment management fees

	31 March 2024	31 March 2023
Investment management fees (refer note 28)	442.80	8.50
Total	**442.80**	**8.50**

Pursuant to the Investment Management Agreement dated 13 June 2023 (as amended), Investment Manager is entitled to fees @ 1.75% of difference between revenue from operations and operating expenses (other than fees of the Investment Manager) of each SPV per annum or 0.25% of AUM, whichever is lower. For this purpose, operating expenses would not include depreciation, finance costs and income tax expense.

Further, during the current year, on the basis of approvals obtained from the board of directors and audit committee in a meeting dated 12 May 2023 and unitholders in the extraordinary general meeting dated 06 June 2023, the investment management agreement is revised to include an acquisition fee amounting to 0.5% of Enterprise Value of assets acquired, subject to achieving Distribution Per Unit (DPU) guidance. Accordingly acquisition fee amounting to Rs. 437.55.00 million (31 March 2023 : Nil) has been accounted in the books.

Note 22: Other expenses

	31 March 2024	31 March 2023
Rates and taxes	70.90	16.23
Miscellaneous expenses	16.61	8.53
Total	**87.51**	**24.76**

Note 23: Finance Cost

	31 March 2024	31 March 2023
Interest on financial liabilities measured at amortised cost	12,999.82	10,009.53
Other bank and finance charges	73.16	0.02
Total	**13,072.98**	**10,009.55**

Note 24: Depreciation and amortization expense

	31 March 2024	31 March 2023
Depreciation of property, plant and equipments (refer note 3)	0.43	0.43
Amortization of intangible assets (refer note 4)	11.99	11.88
Total	**12.42**	**12.31**

Note 25: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	31 March 2024	31 March 2023
Profit after tax for calculating basic and diluted EPU (Rs. in million)	10,489.72	10,166.04
Weighted average number of units in calculating basic and diluted EPU (No. in million)	732.98	700.18
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	14.31	14.52

The Trust doesn't have any outstanding dilutive potential instruments.

Note 26: Significant accounting judgements, estimates and assumptions

The preparation of the Trust's standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements
In the process of applying the Trust's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the standalone financial statements.

(a) Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of aforementioned circular dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value.
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of non-current assets
Non-current assets of the Trust primarily comprise of investments in subsidiaries.

The provision for impairment/(reversal) of impairment of investments in subsidiaries is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Trust tests impairment on the amounts invested in the respective subsidiary companies.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 27A.

(c) Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Trust establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

(This space has been left blank intentionally)

Note 27A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Trust's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
Financial assets at Amortized cost				
Cash & cash equivalent	54.54	1,936.29	54.54	1,936.29
Other bank balance	3,834.45	3,123.80	3,834.45	3,123.80
Investment in subsidiaries (including loan to subsidiaries)	2,50,450.04	2,04,908.08	2,74,761.48	2,26,879.67
Other financial assets	8,885.93	6,304.03	8,885.93	6,304.03
Financial assets at Fair Value through profit and loss				
Investments in mutual funds	691.86	69.74	691.86	69.74
Total	**2,63,916.82**	**2,16,341.94**	**2,88,228.26**	**2,38,313.53**
Financial liabilities at amortized cost				
Borrowings	1,81,474.95	1,44,931.31	1,81,474.95	1,44,931.31
Trade payables	400.66	75.41	400.66	75.41
Other financial liabilities	2,055.91	2,238.26	2,055.91	2,238.26
Total	**1,83,931.52**	**1,47,244.98**	**1,83,931.52**	**1,47,244.98**

The management assessed that cash and cash equivalents, other bank balance, trade payables, loan ,non-current financial Investment, loan, other financial asset and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of investments in mutual fund units is based on the net asset value ('NAV')

The Trust is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2024 and 31 March 2023 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs in million)

Significant unobservable inputs	Valuation technique	Input for 31 March 2024	Input for 31 March 2023	Sensitivity of input to the fair value	Increase /(decrease) in fair value 31 March 2024	31 March 2023
Investment in subsidiaries (including loan to subsidiaries)	DCF Method					
WACC		7.70% to 8.69%	7.70% to 8.53%	+ 0.5%	(12,470.98)	(10,744.00)
				- 0.5%	13,683.44	10,446.00
Tax rate (normal tax and MAT)		Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(1,203.11)	(580.08)
				- 2%	1,169.59	531.80
Inflation rate		Revenue(Esclable): 5.00%	Revenue(Esclable): 5.00%	+ 1%	(3,346.82)	(3,127.86)
		Expenses: 2.00% to 4.77%	Expenses: 2.14% to 4.75%	- 1%	2,773.85	2,574.20

Note 27B: Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Trust's assets and liabilities:

(Rs. in million)

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2024 and 31 March 2023:	Date of valuation	Fair value measurement using		
		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	31 March 2024	-	-	2,74,761.48
	31 March 2023	-	-	2,26,879.67
Investments in mutual funds	31 March 2024	-	691.86	-
	31 March 2023	-	69.74	-

There have been no transfers among Level 1, Level 2 and Level 3.

For estimates and judgements, refer note 26.

Globus Steel And Power Private Limited (GSPPL) (from 25 August 2023)
Terralight Solar Energy Gadna Private Limited (TSEGPV) (from 25 August 2023)
Godawari Green Energy Private Limited (GGEPL) (from 25 August 2023)
Terralight Solar Energy Sitamau Ss Private Limited (TSESPL) (from 25 August 2023)
Virescent Infrastructure Investment Manager Private Limited (VIIMPL) (from 08 September 2023)#
Virescent Renewable Energy Project Manager Private Limited (VREPMPL) (from 08 September 2023)#
Virescent Renewable Energy Trust (VRET) (from 25 August 2023 till 08 September 2023) (Dissolved w.e.f. 08 September 2023)
Kilokari BESS Private Limited (KBPL) (from 06 November 2023)
Isha Nagar Power Transmission Limited (IPTL) (from 09 February 2024)
Dhule Power Transmission Limited (DPTL) (from 09 February 2024)
ReNew Solar Urja Power Limited (RSUPL) (from 24 February 2024)

#Virescent Infrastructure Investment Manager Private Limited (Virescent IM) and Virescent Renewable Energy Project Manager Private Limited (Virescent PM) are now merged with IGL w.e.f. 01 April 2023 pursuant to the confirmation on scheme of merger granted by Ministry of Corporate Affairs dated 28 March 2024. Hence, balance outstanding from these entities and transactions with these entiies are included in balance / transactions of IGL.

(b) Other related parties under Ind AS-24 with whom transactions have taken place during the year
Entities with significant influence over the Trust
Esoteric II Pte. Ltd - Inducted Sponsor of IndiGrid (EPL)
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid

II. List of related parties as per Regulation 2(1)(zv) of the InvIT Regulations

(a) Parties to IndiGrid
Esoteric II Pte. Ltd - Inducted Sponsor of IndiGrid (EPL)
Sterlite Power Transmission Limited (SPTL) - Sponsor of IndiGrid (Declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Indigrid Limited (IGL) - Project Manager of IndiGrid (for all SPV's)
Indigrid Investment Managers Limited (IIML) - Investment manager of IndiGrid
Axis Trustee Services Limited (ATSL) - Trustee of IndiGrid (Axis Bank Ltd is Promoter)

(b) Promoters of the parties to IndiGrid specified in (a) above
KKR Ingrid Co-Invest L.P.- Cayman Island - Promoter of EPL
Twin Star Overseas Limited - Promoter of SPTL (SPTL is declassified as sponsor wef 06 July 2023 and accordingly, any transaction / balance after 06 July 2023 has not been reported as related party transaction / balance)
Electron IM Pte. Ltd. - Promoter of IIML (Parent with 100% holding of IIML)
Axis Bank Limited - Promoter of ATSL
Axis Capital Limited - Subsidiary of Promoter of Trustee

(c) Directors of the parties to IndiGrid specified in (a) above
Directors of IIML:
Harsh Shah (CEO & Whole-time director) (till 30 June 2022 and re-joined from 30 August 2022)
Jyoti Kumar Agarwal (CFO) (till 30 June 2022) and (CEO & Whole-time director) (from 01 July 2022 till 30 September 2022)
Tarun Kataria
Rahul Asthana (till 25 December 2022)
Ashok Sethi
Hardik Shah
Jayashree Vaidhyanthan
Ami Momaya

Directors of SPTL (till 06 July 2023):
Pravin Agarwal
Pratik Agarwal
A. R. Narayanaswamy
Anoop Seth
Manish Agarwal
Kamaljeet Kaur (from 29 June 2022)

Key Managerial Personnel of IIML:
Harsh Shah (CEO & Whole-time director) (till 30 June 2022 and re-joined from 30 August 2022)
Navin Sharma (CFO) (from 19 April 2023)
Urmil Shah (Company Secretary) (from 01 August 2022)
Jyoti Kumar Agarwal (CFO) (till 30 June 2022) and (CEO & Whole-time director) (from 01 July 2022 till 30 September 2022)
Divya Bedi Verma (CFO) (from 01 July 2022 till 15 February 2023)
Swapnil Patil (Company Secretary) (till 31 July 2022)

Directors of ATSL:
Deepa Rath
Sumit Bali (from 16 January 2024)
Prashant Joshi (from 16 January 2024)
Rajesh Kumar Dahiya
Ganesh Sankaran

Directors of Esoteric II Pte. Ltd.:
Tang Jin Rong
Madhura Narawane

Relative of directors mentioned above:
Sonakshi Agarwal
Sujata Asthana (till 25 December 2022)

Relative of sponsor mentioned above:
Terra Asia Holdings II Pte. Ltd. ("Terra")*

*In accordance with Regulation 2(1)(zv) of the InvIT Regulations, the seller of the units of VRET being Terra Asia Holdings II Pte. Ltd. ("Terra"), is controlled and/or managed and/or advised, solely by Kohlberg Kravis Roberts & Co. L.P., or by its affiliates (together, the "KKR Group"), along with one of our sponsors, and is a related party of IndiGrid.

*The Trust has acquired 100% units in Virescent Renewable Energy Trust ('Unit Acquisition' in 'VRET') with effect from 25 August 2023. As per the regulatory approvals so obtained, the Trust has dissolved VRET with an effective date of 08 September 2023 and such dissolution has resulted into 15 Special Purpose Vehicles (SPVs) of VRET becoming direct subsidiaries of IndiGrid. Other assets and liabilities of VRET as on the acquisition date are also disclosed as assets and liabilities of IndiGrid, with effect from the date of acquisition. Further, net assets of VRET are adjusted with the investment value upon dissolution.

INDIA GRID TRUST
Notes to Standalone Financial Statements for the year ended 31 March 2024
(All amounts in Rs. million unless otherwise stated)

IV. The outstanding balances of related parties are as follows:- **(Rs in Million)**

Particulars	31 March 2024	31 March 2023
Unsecured loan receivable from subsidiaries (refer note 7)	1,80,882.37	1,56,914.84
Interest receivable from subsidiaries (refer note 8)	8,128.00	6,071.90

Trade payable for Indigrid Investment Managers Limited	294.55	1.92

Terms and conditions

The transactions entered into with related parties are taken at arms length rate. For the year ended 31 March 2024, the Trust has recorded impairment of receivables with respect to Investment in equity shares, preference shares, Compulsory convertible debentures and Non-convertible debentures. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

For impairment details, refer note 5 and 6.

V. Details in respect of related party transactions involving acquisition of InvIT assets as required by Para 4.6.6 of chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated 06 July 2023 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars") are as follows:

For the year ended 31 March 2024:

In current period the Trust has acquired VRET and details required are as follows:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

Rs. In million

Particulars	VRET
Enterprise value agreed for acquisition	38,544.00
Enterprise value as per Independent valuer	40,322.00
Method of valuation	Discounted cash flow
Discounting rate (WACC)	7.80% - 8.70%

(B) Material conditions or obligations in relation to the transactions:

There are no open material conditions / obligations related to above transaction, other than regulatory approvals obtained by the Trust.

(C) Rate of interest for external financing:

The Trust has availed external financing at the rate of interest ranging from 7.35% to 7.84% to finance this acquisition.

(D) Any fees or commission paid :
The Group has also paid investment management fee and brokerage of Rs 239.03 million and Rs 13.57 million including taxes respectively for the purpose of this acquisition. (refer note 33 (iii))

For the year ended 31 March 2023:

(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

(Rs in million)

Particulars	KhTL
Enterprise value agreed for acquisition	14,975.00
Enterprise value as per Independent valuer	15,441.00
Method of valuation	Discounted Cash Flow
Discounting rate (WACC):	8.30%

(B) Material conditions or obligations in relation to the transactions:

Acquisition of Khargone Transmission Ltd (KhTL):

The Trust acquired 49% of paid up equity capital of Khargone Transmission Limited ("KhTL") with effect from 02 March 2023 from Sterlite Power Transmission Limited (SPTL)) (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 ("SPA"). The Trust has finalised purchase consideration for acquisition of entire stake in KhTL and has entered into a binding agreement with the Seller to acquire remaining 51% paid up equity capital in KhTL from the Seller. The Trust has beneficial interest based on the rights available to it under the SPA.
Based on the contractual terms of the agreement, the Trust has following rights:

•Right to nominate all directors on the board of directors of the KhTL;
•Right to direct the selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KhTL;
•Non-disposal undertaking from the selling shareholders for the remaining 51% equity stake in KhTL;

Considering the requirements under Ind AS 110, the Trust has assessed whether it controls KhTL on the basis the above rights under the agreement and the fact that the Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount). Based on the assessment, management has concluded that the Group controls KhTL in spite of the fact that it has acquired only 49% of the paid up capital of KhTL.

(C) Rate of interest for external financing:

The Group has availed external financing at the rate of interest 7.86% to finance this acquisition.

(D) Any fees or commission paid :
The trust has also recorded investment management fee of Rs. 91.10 million including taxes for the purpose of this acquisition.

Note 29: Capital and other Commitments

The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited. Cost of the acquisition will be finalized on the date of acquisition.

Note 30: Contingent liability

The Trust has no contingent liability to be reported (31 March 2023: Nil).

(All amounts in Rs. million unless otherwise stated)

Note 31: Segment reporting

The disclosures under Ind AS 108 - Operating Segments have been included in the Consolidated Financial Statements and accordingly, not included in these financial statements.

Revenue from operations consists of interest income amounting to Rs. 10,768.73 (31 March 2023 : Rs. 13,324.21) which accounts for more than 10% from a single subsidiary.

Geographic information

Non-current operating assets:

Particulars	31 March 2024	31 March 2023
India	59.01	65.15
Outside India	-	-
Total	**59.01**	**65.15**

Non-current assets for this purpose consist of property, plant and equipment and intangible assets.

Note 32: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	31 March 2024	31 March 2023
(i) The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro and small enterprises	0.24	1.58
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2023: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the "suppliers" / information available with the Company regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 33: Financial risk management objectives and policies

The Trust's principal financial liabilities comprise of borrowings and other financial liabilities. The main purpose of these financial liabilities is to finance the Trust's operations. The Trust's principal financial assets include investments, loans, cash and bank balances and other financial assets that derive directly from its operations.

The Trust may be exposed to market risk, credit risk and liquidity risk. The Investment Manager oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Trust's policy that no trading in derivatives for speculative purposes may be undertaken. The management reviews and agrees policies for managing each of these risks, which are summarised below.

The Risk Management policies of the Trust are established to identify and analyse the risks faced by the Trust, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Trust's activities.

Management has overall responsibility for the establishment and oversight of the Trust's risk management framework.

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings and investments. The sensitivity analysis in following sections relate to the positions as on 31 March 2024 and 31 March 2023.

Price Risk
The Trust invests its surplus funds in mutual funds which are linked to debt markets. The Trust is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Trust diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Trust's senior management on a regular basis

Particulars	% change in market value	31 March 2024	31 March 2023
		Effect on profit before tax	Effect on profit before tax
Mutual funds	0.50%	3.46	0.35

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Trust has both fixed and fluctuating rate of borrowing. However, the interest rate risk is low since substantial portion of borrowing is at fixed rate i.e. 75.47% (31 March 2023 : 100%).

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Trust's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	% change in basis points	31 March 2024	31 March 2023
		Effect on profit before tax	Effect on profit before tax
Increase in basis points	0.50%	-223.60	-
Decrease in basis points	-0.50%	223.60	-

Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Trust did not have any exposure in foreign currency as at 31 March 2024 and 31 March 2023. Hence, the Trust is not exposed to foreign currency risk.

Equity price risk
The Trust's investments in equity shares of subsidiaries are susceptible to market price risk arising from uncertainties about future values of those investments. Reports on the equity portfolio are submitted to the senior management on a regular basis. The Board of Directors of the Investment Manager reviews and approves all equity investment decisions.
At the reporting date, the exposure to equity investments in subsidiary at carrying value was Rs. 67,391.37 million (31 March 2023: Rs. 44,921.40 million). Sensitivity analyses of significant unobservable inputs used in the fair value measurement are disclosed in Note 27A.

(All amounts in Rs. million unless otherwise stated)

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Trust is exposed to credit risk from its investing activities including loans to subsidiaries, deposits with banks, investment in mutual funds and other financial instruments. As at 31 March 2024 and 31 March 2023, the credit risk is considered low since substantial transactions of the Trust are with its subsidiaries.

As at the reporting date, there is no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying value of each financial asset on the Standalone Balance Sheet.

(C) Liquidity risk
Liquidity risk is the risk that the Trust may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Trust's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Trust requires funds both for short term operational needs as well as for long term investment programs mainly in transmission and solar projects. The Trust closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Trust's financial liabilities based on contractual undiscounted payments. This include interest due on borrowing till maturity.

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2024					
Borrowings	1,81,474.95	10,959.19	69,492.42	1,01,846.39	1,82,298.00
Interest payable	988.67	13,665.49	42,443.67	27,667.19	83,776.35
Trade payables	400.66	400.66	-	-	400.66
Other financial liabilities	1,067.24	1,067.24	-	-	1,067.24
Total	**1,83,931.52**	**26,092.58**	**1,11,936.09**	**1,29,513.58**	**2,67,542.25**

Particulars	Carrying Value	Contractual Cash Obligation			
		Upto 1 year	1 to 5 years	More than 5 years	Total
31 March 2023					
Borrowings	1,44,931.31	9,256.73	1,11,751.00	23,923.58	1,44,931.31
Interest payable	984.33	1,077.68	3,448.73	2,852.24	7,378.65
Trade payables	75.41	75.41	-	-	75.41
Other financial liabilities	1,253.93	2,238.26	-	-	2,238.26
Total	**1,47,244.98**	**12,648.08**	**1,15,199.73**	**26,775.82**	**1,54,623.63**

Note 34: Capital management
For the purpose of the Trust's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Trust. The primary objective of the Trust's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Trust manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Trust may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Trust monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Trust's policy is to keep the gearing ratio optimum. The Trust includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	31 March 2024	31 March 2023
Borrowings (refer note 14)	1,81,474.95	1,44,931.31
Less: Cash and cash equivalents (refer note 10)	(54.54)	(1,936.29)
Net debt (A)	**1,81,420.41**	**1,42,995.02**
Unit capital (refer note 12)	76,454.08	65,903.15
Other equity (refer note 13)	3,577.54	3,296.07
Total capital (B)	**80,031.62**	**69,199.22**
Capital and net debt ((C) = (A) + (B))	**2,61,452.03**	**2,12,194.24**
Gearing ratio (A)/(C)	**69%**	**67%**

Financial Covenants
In order to achieve this overall objective, the Trust's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2024 and 31 March 2023.

Note 35: Subsequent events

On 12 May 2024, the Board of directors of the Investment Manager approved a distribution of Rs. 3.55 per unit for the period 01 January 2024 to 31 March 2024 to be paid on or before 15 days from the date of declaration.

(This space has been left blank intentionally)

Note 36: Other Information

(i) The Trust does not have any Benami property, where any proceeding has been initiated or pending against the Trust for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(ii) The Trust does not have any transactions with Companies struck off
(iii) The Trust have not traded or invested in cryptocurrency or Virtual Currency during the financial year
(iv) The Trust has advanced or loaned funds to IGL1 and IGL2, with the understanding that the intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Trust (ultimate beneficiaries)
(v) The Trust has not received any fund from any persons or entities, including foreign entities (funding party) with the understanding (whether recorded in writing or otherwise) that the Trust shall:
(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or
(b) provide any guarantee, security or the like on behalf of the ultimate beneficiaries
(vi) The Trust does not have any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961.
(vii) The Trust has not been declared as a wilful defaulter by any bank or financial institution or other lender.
(viii) There is no charge or satisfaction of charge which is yet to be registed with ROC beyond statutory period.

INDEPENDENT AUDITOR'S REPORT

To the Unit holders of India Grid Trust

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of India Grid Trust ("the InvIT"), which comprise the Balance sheet as at March 31, 2023, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Statement of Changes in Unit Holders' Equity and the Statement of Cash Flow for the year then ended, the Statement of Net Assets at fair value as at March 31, 2023, the Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows ('NDCFs') of the InvIT for the year then ended and a summary of significant accounting policies and other explanatory notes (hereafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended including any guidelines and circulars issued thereunder (the "InvIT Regulations") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, to the extent not inconsistent with InvIT regulations, of the state of affairs of the InvIT as at March 31, 2023, its profit including other comprehensive income, its cash movements and its movement of the unit holders' funds for the year ended March 31, 2023, its net assets at fair value as at March 31, 2023, its total returns at fair value and the net distributable cash flows of the InvIT for the year ended March 31, 2023.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the InvIT in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the InvIT Regulations and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2023. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

<table>
<tr><th>Key audit matters</th><th>How our audit addressed the key audit matter</th></tr>
<tr><td colspan="2"><u>Impairment of investments in subsidiaries and loans given to subsidiaries</u>
(as described in notes 6,7,8 and 26 of the standalone financial statements)</td></tr>
<tr><td>The InvIT has significant investments in subsidiaries and has granted loans to its subsidiaries both aggregating to Rs. 2,04,908.08 million as at March 31, 2023. The value of investments and loans in aggregate comprise 94.66% of total assets in the Balance Sheet.

The subsidiaries are in the business of owning and maintaining transmission assets/ generation of solar power and have entered into Transmission Services Agreement ("TSA") with Long Term Transmission Customers ("LTTC") and Power Purchase Agreement (“PPA”) with Solar Energy Corporation of India (“SECI”).

At each reporting period end, management assesses the existence of impairment indicators of investments in subsidiaries and loans given to subsidiaries. In case of existence of impairment indicators, the investment and loan balances are subjected to impairment test, where the fair value of the subsidiary is compared with the value of investments and loans given to such subsidiaries.

The processes and methodologies for assessing and determining the fair value of the subsidiary is based on complex assumptions, that by their nature imply the use of the management’s judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary’s transmission license/ solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc.</td><td>Our audit procedures included, among others, the following:

• We obtained an understanding of the InvIT’s process on assessment of impairment of investments in subsidiaries and loans to subsidiaries and the assumptions used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls.

• We obtained and read the valuation report of the InvIT’s independent valuation expert, and assessed the expert’s competence, capability and objectivity.

• We evaluated the independent valuation expert’s methodology, assumptions and estimates used in the calculations.

• We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders.

• We tested completeness, arithmetical accuracy and validity of the data used in the calculations.

• In performing the above procedures, we involved valuation specialists to perform an independent review of methodology and key assumptions used in the valuation.

• We read and assessed the disclosures included in the notes to the standalone financial statements.</td></tr>
</table>

Key audit matters	How our audit addressed the key audit matter
Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	
<u>Classification of unit holders’ funds as equity</u> *(as described in Note 26 of the standalone financial statements)*	
The InvIT is required to distribute to Unitholders not less than ninety percent of its net distributable cash flows for each financial year. Accordingly, a portion of the unitholders’ funds contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. The Unitholders’ funds could therefore have been classified as compound financial instrument which contains both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars No. CIR/IMD/DF/114/2016 dated October 20, 2016 and No. CIR/IMD/DF/127/2016 dated November 29, 2016 ("SEBI Circulars") issued under the InvIT Regulations, the unitholders’ funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated October 20, 2016 dealing with the minimum disclosures for key financial statements. Considering the judgment required for classification of unit holders’ funds as equity and liability, this is considered as a key audit matter.	Our audit procedures included, among others: • We obtained and read the requirements for classification of financial liability and equity under Ind AS 32 and evaluated the provisions of SEBI Circulars for classification/presentation of unit holders funds in the financial statements of an Infrastructure Investment Trust. • We read and assessed the disclosures included in the standalone financial statements for compliance with the relevant requirements of InvIT regulations.
<u>Computation and disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations</u> *(as described in Note 26 of the standalone financial statements)*	
The InvIT is required to disclose Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value pursuant to SEBI circulars issued under the InvIT regulations which requires fair valuation of the assets. Such fair valuation has been	Our audit procedures included, among others, the following: • We read the requirements of InvIT regulations for disclosures relating to Statement of Net Assets at

Key audit matters	How our audit addressed the key audit matter
carried out by the independent valuer appointed by the InvIT. For the purpose of the above, fair value is determined by forecasting and discounting future cash flows. The processes and methodologies for assessing and determining the fair value is based on complex assumptions, that by their nature imply the use of the management's judgment, in particular with reference to identification of forecast of future cash flows relating to the period covered by the respective subsidiary's transmission license/ solar power purchase agreement, debt equity ratio, cost of debt, cost of equity, residual value, etc. Considering the judgment involved in determination of fair values due to inherent uncertainty and complexity of the assumptions used in determination of fair values, this is considered as a key audit matter.	Fair Value and Statement of Total Returns at Fair Value. • We discussed with the management and obtained an understating of the InvIT's policy on the assessment of fair value and the assumptions used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained understating of the InvIT's process for preparation statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value as per InvIT regulations and the assumption used by the management, including design and implementation of controls, validation of management review controls. We have tested the operating effectiveness of these controls. • We obtained and read the valuation report of the InvIT's independent valuation expert, and assessed the expert's competence, capability and objectivity. • We evaluated independent valuation expert's methodology, assumptions and estimates used in the calculations. • We tested on sample basis that the tariff revenues considered in the respective valuation models are in agreement with TSAs / PPAs/ tariff orders. • We tested completeness, arithmetical accuracy and validity of the data used in the calculations. • In performing the above procedures, we used valuation specialists to perform an independent review of methodology and key assumptions used in the valuation. • We read and assessed the disclosures included in the notes to the standalone financial statements.

Other Information

The Management of Indigrid Investment Managers Limited (the "Investment Manager") is responsible for the other information. The other information comprises the information included in the Annual report but does not include the standalone financial statements and our auditor's report thereon. The

Annual report is expected to be made available to us after the date of auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management for the Standalone Financial Statements

The Management of the Investment Manager ('the Management') is responsible for the preparation of these standalone financial statements that give a true and fair view of the financial position as at March 31, 2023, financial performance including other comprehensive income, cash flows and and the movement of the unit holders' funds for the year ended March 31, 2023, the net assets at fair value as at March 31, 2023, the total returns at fair value of the InvIT and the net distributable cash flows of the InvIT for the year ending March 31, 2023 in accordance with the requirements of the InvIT regulations , Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with InvIT regulations. This responsibility also includes the design, implementation and maintenance of adequate controls for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the ability of InvIT to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the InvIT or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the InvIT's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the InvIT's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the InvIT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the InvIT to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(This space has been intentionally left blank)

Report on Other Legal and Regulatory Requirements

Based on our audit, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

(b) The Balance Sheet and the Statement of Profit and Loss including Other Comprehensive Income are in agreement with the books of account;

(c) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards (Ind AS) and/or any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended, to the extent not inconsistent with InvIT Regulations.

(d) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Trust.

Add/ (Less): other changes in fair value not recognized in total comprehensive income	(2,984.31)	(4,818.90)
Total Return	**7,181.73**	**4,389.70**

Notes:
1. Fair value of assets as at 31 March 2023 and as at 31 March 2022 and other changes in fair value for the year then ended as disclosed in the above tables are based on fair valuation report issued by the independent valuer appointed under the InvIT regulations.

2. Sensitivity analysis with respect to significant unobservable inputs used in the fair value measurement has been disclosed in Note 27A.

INDIA GRID TRUST
Notes to Standalone Financial Statements for the year ended 31 March 2023
(All amounts in Rs. million unless otherwise stated)

Disclosures pursuant to SEBI Circulars

(SEBI Circular No. CIR/IMD/DF/114/2016 dated October 20, 2016 and No. CIR/IMD/DF/127/2016 dated November 29, 2016 issued under the InvIT Regulations)

A) Statement of Net Distributable Cash Flows (NDCFs) of India Grid Trust

Description	**Year ended 31 March 2023 (Audited)**	**Year ended 31 March 2022 (Audited)**
Cash flows received from the Portfolio Assets in the form of interest	**17,768.08**	**16,885.69**
Cash flows received from the Portfolio Assets in the form of dividend	221.90	282.66
Any other income accruing at IndiGrid level and not captured above, including but not limited to interest/return on surplus cash invested by IndiGrid	259.18	161.96
Cash flows received from the Portfolio Assets towards the repayment of the debt issued to the Portfolio Assets by IndiGrid	1,665.40	4,132.52
Proceeds from the Portfolio Assets for a capital reduction by way of a buy back or any other means as permitted, subject to applicable law	-	-
Proceeds from sale of assets of the Portfolio Asset not distributed pursuant to an earlier plan to re-invest, or if such proceeds are not intended to be invested subsequently	-	-
Total cash inflow at the IndiGrid level (A)	**19,914.56**	**21,462.83**
Less: Any payment of fees, interest and expense incurred at IndiGrid level, including but not limited to the fees of the Investment Manager and Trustee	(10,236.69)	(9,371.42)
Less: Costs/retention associated with sale of assets of the Portfolio Assets:	-	-
-related debts settled or due to be settled from sale proceeds of Portfolio Assets;	-	-
-transaction costs paid on sale of the assets of the Portfolio Assets; and	-	-
-capital gains taxes on sale of assets/ shares in Portfolio Assets/ other investments.	-	-
Less: Proceeds reinvested or planned to be reinvested in accordance with Regulation 18(7)(a) of the InvIT Regulations	-	-
Less: Repayment of external debt at the IndiGrid level and at the level of any of the underlying portfolio assets/special purpose vehicles (Excluding refinancing)	-	-
Less: Income tax (if applicable) at the standalone IndiGrid level	(31.96)	(23.62)
Less: Amount invested in any of the Portfolio Assets for service of debt or interest	(597.79)	(2,609.64)
Less: Repair work in relation to the projects undertaken by any of the Portfolio Assets	-	(35.00)
Total cash outflows / retention at IndiGrid level (B)	**(10,866.44)**	**(12,039.68)**
Net Distributable Cash Flows (C) = (A+B)	**9,048.12**	**9,423.15**

(THIS SPACE IS LEFT INTENTIONALLY BLANK)

1. Trust information

India Grid Trust ("the Trust" or "IndiGrid") is an irrevocable trust settled by Sterlite Power Transmission Limited (the "Sponsor") on October 21, 2016 pursuant to the Trust Deed under the provisions of the Indian Trusts Act, 1882 and registered with Securities Exchange Board of India ("SEBI") under the SEBI (Infrastructure Investment Trust) Regulations, 2014 (as amended from time to time) as an Infrastructure Investment Trust on November 28, 2016 having registration number IN/InvIT/16-17/0005. The Trustee of IndiGrid is Axis Trustee Services Limited (the "Trustee"). The Investment manager for IndiGrid is Indigrid Investment Managers Limited (the "Investment Manager" or the "Management").

With effect from September 20, 2020, Esoteric II Pte. Limited has also been nominated as sponsor of the Trust.

The objectives of IndiGrid are to undertake activities as an infrastructure investment trust in accordance with the provisions of the InvIT Regulations and the Trust Deed. The principal activity of IndiGrid is to own and invest in power transmission/ solar assets in India with the objective of producing stable and sustainable distributions to unitholders.

As at March 31, 2023, IndiGrid has following project entities ("Special Purpose Vehicles" or "SPVs") or Transmission infrastructure projects on Build, Own, Operate and Maintain ('BOOM') or Build, Own and Operate (BOO) basis:

1. Bhopal Dhule Transmission Company Limited ('BDTCL')
2. Jabalpur Transmission Company Limited ('JTCL')
3. RAPP Transmission Company Limited ('RTCL')
4. Purulia & Kharagpur Transmission Company Limited ('PKTCL')
5. Maheshwaram Transmission Limited ('MTL')
6. Patran Transmission Company Limited ('PTCL')
7. NRSS XXIX Transmission Limited ('NTL')
8. Odisha Generation Phase-II Transmission Limited ('OGPTL')
9. East-North Interconnection Company Limited ('ENICL')
10. Gurgaon-Palwal Transmission Limited ('GPTL')
11. Parbati Koldam Transmission Company Limited ('PrKTCL')
12. NER II Transmission Limited ('NER')
13. Kallam Transmission Limited ('KTL')
14. Raichur Solapur Transmission Company Private Limited ('RSTCPL')
15. Khargone Transmission Limited ('KgTL')

As at March 31, 2023, IndiGrid has following project entities which are transmission infrastructure projects developed on Design, Build, Finance, Operate and Transfer ('DBFOT') basis:

1. Jhajjar KT Transco Private Limited ('JKTPL')

These SPVs have executed Transmission Services Agreements ("TSAs") with Long term transmission customers under which the SPVs have to maintain the transmission infrastructure for 25 or 35 years post commissioning.

As at March 31, 2023, following project entities which are engaged in generation of electricity through Solar projects developed Build, Own, Operate and Maintain ('BOOM') basis:

1. IndiGrid Solar – I (AP) Private Limited ('IndiGrid Solar – I')
2. IndiGrid Solar – II (AP) Private Limited ('IndiGrid Solar – II')

These SPVs have executed Power Purchase Agreements ("PPAs") with Solar Energy Corporation Limited ('SECI') for sale of electricity for 25 years post commissioning.

The address of the registered office of the Investment Manager is Unit No 101, First Floor, Windsor Village, KoleKalyan Off CST Road, Vidyanagari Marg, Santacruz (East) Mumbai, Maharashtra - 400098, India. The financial statements were authorised for issue in accordance with resolution passed by the Board of Directors of the Investment Manager on 12 May 2023.

2. Significant Accounting Policies

2.1 Basis of preparation

These financial statements are the separate financial statements of the Trust and comprise of the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Statement of Cash Flow and the Statement of Changes in Unit Holders' Equity for the year then ended, the Statement of Net Assets at fair value as at March 31, 2023, the Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows ('NDCFs') for the year then ended and a summary of significant accounting policies and other explanatory notes in accordance with Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended), prescribed under Section 133 of the Companies Act, 2013 ("Ind AS") read with SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations").

The financial statements have been prepared on a historical cost basis, except for certain assets which have been measured at fair value.

The financial statements are presented in Indian Rupees Millions, except when otherwise indicated.

The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.As at March 31, 2023, current liabilities exceed the current assets of the Trust because of current maturity of the long-term borrowings. Trust is exploring the options to refinance the current maturity of the long-term borrowing when they become due for repayment. As per regulation 20 of INVIT regulations 2014, the Trust is eligible for a total debt (net of cash and cash equivalents) of 70% to AUM. As at March 31, 2023, the total debt (net of cash and cash equivalents) to AUM is within the prescribed limits

2.2 Summary of significant accounting policies

The following is the summary of significant accounting policies applied by the Trust in preparing its financial statements:

a) Current versus non-current classification

The Trust presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Trust classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle of the Trust is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Trust has identified twelve months as its operating cycle.

b) Foreign currencies

The Trust's financial statements are presented in INR, which is its functional currency. The Trust does not have any foreign operation.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Trust at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

c) Fair value measurement

The Trust measures financial instruments such as mutual funds at fair value at each balance sheet date.
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Trust.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Trust uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Trust determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

In estimating the fair value of investments in subsidiaries, the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the external valuers to establish the appropriate valuation techniques and inputs to the model. The management in conjunction with the external valuers also compares the change in fair value with relevant external sources to determine whether the change is reasonable. The management reports the valuation report and findings to the Board of the Investment Manager on a quarterly basis to explain the cause of fluctuations in the fair value of the transmission/ solar projects.

At each reporting date, the management analyses the movement in the values of assets and liabilities which are required to be remeasured or reassessed as per the Trust's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Trust has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (Note 27B)
- Disclosures for valuation methods, significant estimates and assumptions (Note 26)
- Financial instruments (including those carried at amortised cost) (Note 27A)

d) Revenue Recognition

The specific recognition criteria described below must be met before revenue is recognised.

Interest income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or

a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Trust estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.
For compulsory convertible debentures being equity instrument, the interest income is recognised on the basis of actual interest rate.
For financial assets at fair value through profit or loss which are carried in the balance sheet at fair value, interest income is recognised in the statement of profit and loss when right to receive is established.

Dividends

Income from dividend on investments is accrued in the year in which it is declared, whereby the Trust's right to receive is established.

e) Taxation

Current income tax
Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Trust relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased costs as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit or loss is recognised outside statement of profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales/value added/goods and service taxes paid on acquisition of assets or on incurring expenses.

Expenses and assets are recognised net of the amount of sales/value added/goods and service taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

f) Property, plant and equipment

Capital work in progress, property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in statement of profit or loss as incurred. No decommissioning liabilities are expected or be incurred on the assets of plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

(Life in number of years)

Asset Category	Useful Life considered	Useful life (Schedule II#)
Data processing equipments	3	3-6

g) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Subsequently, intangible assets are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Intangible assets are amortised over their estimated useful life on a straight-line basis. Software is amortised over the estimated useful life ranging from 5-10 years.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of an intangible asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

h) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Trust incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

i) Leases

The Trust assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Trust as lessee

The Trust applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Trust recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets
The Trust recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease Liabilities

At the commencement date of the lease, the Trust recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the payments of penalties for terminating the lease, if the lease term reflects the Trust exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Trust uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Trust applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

j) Impairment of non-financial assets

The Trust assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Trust estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Trust bases its impairment calculations on detailed budget and forecast calculations. These budgets are prepared for the entire project life.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Trust estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

The Trust assesses where climate risks could have a significant impact, such as the introduction of emission-reduction legislation that may increase costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount, these assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

k) Provisions

Provisions are recognised when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Trust expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

l) Investments in subsidiaries

The Trust accounts for its investments in subsidiaries at cost less accumulated impairment losses (if any) in its separate financial statements. Investments accounted for at cost which are held for sale are accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

m) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement
All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Trust commits to purchase or sell the asset.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Trust's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient, the Trust initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Trust has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

i. Debt instruments at amortised cost
ii. Debt instruments at fair value through other comprehensive income (FVTOCI)
iii. Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
iv. Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is most relevant to the Trust. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss. This category generally applies to interest receivable and loans given to subsidiaries (Refer Note 8 and 9)

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss are recognised in the statement of profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method. The Trust does not have financial assets which are subsequently measured at FVTOCI.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Trust may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Trust may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Trust makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Trust decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit or loss, even on sale of investment. However, the Trust may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Trust's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Trust has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Trust has transferred substantially all the risks and rewards of the asset, or (b) the Trust has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Trust has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Trust continues to recognise the transferred asset to the extent of the Trust's continuing involvement. In that case, the Trust also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Trust has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Trust could be required to repay.

Impairment of financial assets

Majority of the financial assets of the Trust which are not reflected at fair value pertain to investments in/ loans to subsidiaries and other receivables. Considering the nature of business, the Trust does not foresee any credit risk on its investments/ loans given to subsidiaries. However, these subsidiaries are SPV entities having Power Purchase Agreement with Long Term Transmission Customers for a period of 25/35 years. Hence, this needs to be tested for impairment. Majority of the other receivable pertain to receivable from subsidiary companies only. Also, the Trust does not have any history of impairment of other receivables.

For the financial assets which are reflected at fair value, no further impairment allowance is necessary as they reflect the fair value of the relevant financial asset itself.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Trust's financial liabilities include borrowings and related costs, trade and other payables and derivative financial instrument.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Trust that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Trust may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

This category generally applies to borrowings. For more information refer Note 15.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative cause some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the Trust does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value though profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

Reclassification of financial assets

The Trust determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Trust's senior management determines change in the business model as a result of external or internal changes which are significant to the Trust's operations. Such changes are evident to external parties. A change in the business model occurs when the Trust either begins or ceases to perform an activity that is significant to its operations. If the Trust reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Trust does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	**Revised Classification**	**Accounting Treatment**
Amortised Cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in statement of profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to statement of profit or loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

n) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts (if any) as they are considered an integral part of the Trust's cash management.

o) Cash distribution to unit holders

The Trust recognises a liability to make cash distributions to unit holders when the distribution is authorised, and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in unitholders equity.

p) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit or loss attributable to unit holders of the Trust (after deducting preference dividends and attributable taxes if any) by the weighted average number of units outstanding during the period. The weighted average number of units outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, split, and reverse split (consolidation of units) that have changed the number of units outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per unit, the net profit or loss for the period attributable to unit holders of the Trust and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

1. The Trust acquired 49% of paid up equity capital of Gurgaon Palwal Transmission Limited ('GPTL') with effect from 28 August 2020 from Sterlite Power Transmission Limited (referred as "the seller") pursuant to Share purchase Agreement dated August 28, 2020 (“SPA”). The Trust had finalised purchase consideration for acquisition of entire stake in GPTL and had entered into a binding agreement with the Selling Shareholders to acquire remaining 51% paid up equity capital in GPTL from the seller. The Trust had beneficial interest based on the rights available to it under the SPA.

2. The Trust acquired 74% of paid up equity capital of Parbati Koldam Transmission Company Limited ('PrKTCL') with effect from January 08, 2021 from Reliance Infrastructure Limited (referred as "the Selling Shareholder") pursuant to Share purchase Agreement dated November 28, 2020 (“SPA”). The balance 26% share in PrKTCL is held by PowerGrid Corporation of India Limited (“PGCIL”).

3. The Trust acquired 49% of paid up equity capital of NER II Transmission Limited ("NER") with effect from March 25, 2021 from Sterlite Power Transmission Limited (SPTL)) and Sterlite Grid 4 Limited (‘SGL4’), (together referred as "the Selling Shareholders") pursuant to Share purchase Agreement dated March 05, 2021, as amended on March 25, 2021 (“SPA”). The Trust had finalised purchase consideration for acquisition of entire stake in NER and had entered into a binding agreement with the Selling Shareholders to acquire remaining 51% paid up equity capital in NER from the Selling Shareholders. The Trust had beneficial interest based on rights available to it under SPA

4. The Trust acquired 100% of paid up equity capital of IndiGrid Solar-I (AP) Private Limited (('ISPL1') and IndiGrid Solar-II (AP) Private Limited ('ISPL2') with effect from July 13, 2021 from FRV Solar Holdings XI B.V. and Fotowatio Renewable Ventures S.L (together referred as ""the Selling Shareholders"") pursuant to Share Purchase Agreement dated December 18,2020 (“SPA”).

5. The letter of intent for development of Kallam Transmission Limited (KTL) is awarded to consortium of IGL1 and IGL2 (“IndiGrid Consortium”) by the REC Power Development and Consultancy Limited (formerly known as REC Power Distribution Company Limited) on Novmeber 30, 2021 for a 35-year period from the scheduled commercial operation date, on a Build, Own, Operate and Maintain model. IndiGrid Consortium acquired the project on December 28, 2021 pursuant to Share Purchase Agreement (“SPA”). The project is currently under development with scheduled commissioning on September 2023."

6. The Trust acquired 49% of paid up equity capital of Khargone Transmission Limited ('KgTL') with effect from 02 March 2023 from Sterlite Power Transmission Limited (referred as "the seller") pursuant to Share Purchade Agreement dated January 21, 2023 (“SPA”). The Trust has finalised purchase consideration for acquisition of entire stake in KgTL and has entered into a binding agreement with the seller to acquire remaining 51% paid up equity capital in KgTL from the seller. The Trust has beneficial interest based on the rights available to it under the SPA.

Note 13: Unit Capital

	31 March 2023	31 March 2022
a. Reconciliation of the units outstanding at the beginning and at the end of the reporting period	**Number of units (In million)**	**Amount (Rs. in million)**
As at 01 April 2021	583.49	53,145.69
Units issued during the year (refer note below)	116.69	12,836.49
Issue expenses (refer note below)	-	(79.03)
As at 31 March 2022	**700.18**	**65,903.15**
Issued during the year	-	-
As at 31 March 2023	**700.18**	**65,903.15**

Note:

i) The Trust offered an issue of up to 116,695,404 units of India Grid Trust ("Indigrid" and such units, the "units"), for cash at a price of Rs. 110.00 per unit (the "issue price"), aggregating to Rs. 12,836.49 million to the eligible unitholders (as defined in the Letter of Offer) on a rights basis in the ratio of one lot for every five lots (each lot comprising 1,701 units) held by them on the record date, being 30 March 2021 (the "Issue") in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 including the rules, circulars and guidelines issued thereunder, including the SEBI Rights Issue Guidelines (the "InvIT Regulations"). The issue opened on 06 April 2021 and closed on 13 April 2021, which was extended to 16 April 2021. The Allotment Committee of the Board of Directors of IndiGrid Investment Managers Limited ('Investment Manager'), considered and approved allotment of 116,695,404 rights units to the eligible unitholders of IndiGrid on 22 April 2021.

ii) Issue expenses of Rs. 79.03 million incurred in connection with issue of units had been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation.

b. Terms/rights attached to units

The Trust has only one class of units. Each unit represents an undivided beneficial interest in the Trust. Each holder of unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the InvIT Regulations. The Investment Manager approves distributions. The distribution will be in proportion to the number of units held by the unitholders. The Trust declares and pays distribution in Indian rupees.

A unitholder has no equitable or proprietary interest in the projects of IndiGrid and is not entitled to any share in the transfer of the projects (or any part thereof) or any interest in the projects (or any part thereof) of IndiGrid. A unitholder's right is limited to the right to require due administration of IndiGrid in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

c. Unitholders holding more than 5 percent Units in the Trust	**31 March 2023**		**31 March 2022**	
	(Nos. in million)	**% holding**	**(Nos. in million)**	**% holding**
Esoteric II Pte. Limited	165.90	23.69%	165.90	23.69%
Government of Singapore	140.18	20.02%	140.18	20.02%
Larsen And Toubro Limited	39.02	5.57%	38.07	5.44%

d. The Trust has not allotted any fully paid-up units by way of bonus units nor has it bought back any class of units from the date of incorporation till the balance sheet date. Further the Trust has not issued any units for consideration other than cash from the date of incorporation till the balance sheet date.

Note 14: Other Equity

	31 March 2023	31 March 2022
Retained earnings/ (Accumulated deficit)		
Balance as per last financial statements	2,293.62	1,951.03
Add: Profit for the year	10,166.04	9,208.60
Less: Distribution paid to unitholders	(9,163.59)	(8,866.01)
Closing balance	**3,296.07**	**2,293.62**

Retained earnings are the profits earned by the Trust till date, less distribution paid to unitholder

(All amounts in Rs. million unless otherwise stated)

(B) Term loan from bank

The Indian rupee term loan from bank carries interest at the rate of 7.00% to 8.40% payable monthly. Loan amount installments shall be repayable as per the payment schedule over 5 and 15 years from the date of disbursement. The term loan is secured by

(i) first pari passu charge on entire current assets including loans and advances, any receivables accrued/realised from those loans and advances extended by the Trust/Hold cos to its subsidiaries (direct or indirect) including loans to all project SPVs and future SPVs;
(ii) First pari-passu charge on Escrow account of the Trust;
(iii) Pledge of 99% over the equity share capital of all SPVs except pledged of 73% over the equity share capital of PrKTCL.
(iv) Exclusive charge on the ISRA/DSRA accounts created for respective facility.

Financial covenants

Loans from bank, debt securities contain certain debt covenants relating to limitation on interest service coverage ratio, debt service coverage ratio, Net Debt to AUM, Net Debt to EBITDA etc. The financial covenants are reviewed on availability of audited accounts of the respective borrower periodically. For the financial year ended 31 March 2023, the Trust has satisfied all debt covenants prescribed in the terms of loan from bank and financial institutions, where applicable.

Amortisation of intangible assets	11.88	1.38
Total	**12.31**	**1.75**

Note 25: Earnings per unit (EPU)

Basic EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

Diluted EPU amounts are calculated by dividing the profit for the year attributable to unit holders by the weighted average number of units outstanding during the year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

The following reflects in the profit and unit data used in the basic and diluted EPU computation	**31 March 2023**	**31 March 2022**
Profit after tax for calculating basic and diluted EPU (Rs. in million)	10,166.04	9,208.60
Weighted average number of units in calculating basic and diluted EPU (No. in million)	700.18	693.14
Earnings Per Unit:		
Basic and Diluted (Rupees/unit)	14.52	13.29

(THIS SPACE IS LEFT INTENTIONALLY BLANK)

Note 26: Significant accounting judgements, estimates and assumptions

The preparation of the Trust's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements
In the process of applying the Trust's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

(a) Classification of Unitholders' funds
Under the provisions of the InvIT Regulations, IndiGrid is required to distribute to unitholders not less than ninety percent of the net distributable cash flows of IndiGrid for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its unitholders cash distributions. The unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/114/2016 dated 20-Oct-2016 and No. CIR/IMD/DF/127/2016 dated 29 November 2016) issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated 20 October 2016 dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Estimates and assumptions
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities or fair value disclosures within the next financial year, are described below. The Trust based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

(a) Fair valuation and disclosures
SEBI Circulars issued under the InvIT Regulations require disclosures relating to net assets at fair value and total returns at fair value.
In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Trust engages independent qualified external valuers to perform the valuation. The management works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The management reports the valuation report and findings to the Board of the Investment Manager quarterly to explain the cause of fluctuations in the fair value of the transmission / solar projects. The inputs to the valuation models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc. Changes in assumptions about these factors could affect the fair value.

(b) Impairment of non-current assets
Non-current assets of the Trust primarily comprise of investments in subsidiaries.

The provision for impairment/(reversal) of impairment of investments in subsidiaries is made based on the difference between the carrying amounts and the recoverable amounts. The recoverable amount of the investments in subsidiaries has been computed by external independent valuation experts based on value in use calculation for the underlying projects (based on discounted cash flow model). On a periodic basis, according to the recoverable amounts of individual portfolio assets computed by the valuation experts, the Trust tests impairment on the amounts invested in the respective subsidiary companies.

The key assumptions used to determine the recoverable amount for the underlying projects are disclosed and further explained in Note 27A.

(THIS SPACE IS LEFT INTENTIONALLY BLANK)

Note 27A: Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

(Rs. in million)

Particulars	Carrying value		Fair value	
	31 March 2023	31 March 2022	31 March 2023	31 March 2022
Financial assets at Amortized cost				
Cash & cash equivalent	1.949.33	7.846.97	1.949.33	7.846.97
Other bank balance	3.190.16	2.740.58	3.190.16	2.740.58
Investment	3.071.84	6.231.37	3.071.84	6.231.37
Loan	1.56.914.84	1.32.476.19	1.56.914.84	1.32.476.19
Other financial assets	6.229.08	3.300.25	6.229.08	3.300.25
Financial assets at Fair Value				
Investments in mutual funds	69.74	-	69.74	-
Total	**1,71,424.99**	**1,52,595.36**	**1,71,424.99**	**1,52,595.36**
Financial liabilities at amortized cost				
Borrowings	1,44,931.31	1,24,701.95	1,44,931.31	1,24,701.95
Trade payables	75.41	55.87	75.41	55.87
Other financial liabilities	2,238.26	2,483.37	2,238.26	2,483.37
Total	**1,47,244.98**	**1,27,241.19**	**1,47,244.98**	**1,27,241.19**

The management has assessed that the financial assets and financial liabilities as at year end are reasonable approximations of their fair values.

The Trust is required to present the statement of total assets at fair value and statement of total returns at fair value as per SEBI Circular No. CIR/IMD/DF/114/2016 dated 20 October 2016 as a part of these financial statements- Refer Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.

The inputs to the valuation models for computation of fair value of assets for the above mentioned statements are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as WACC, Tax rates, Inflation rates, etc.

The significant unobservable inputs used in the fair value measurement required for disclosures categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2023 and 31 March 2022 are as shown below:

Description of significant unobservable inputs to valuation:

(Rs in million)

Significant unobservable inputs	Input for 31 March 2023	Input for 31 March 2022	Sensitivity of input to the fair value	Increase /(decrease) in fair value	
				31 March 2023	31 March 2022
WACC	7.70% to 8.53%	7.55% to 9.12%	+ 0.5%	(10,744.00)	(10,168.42)
			- 0.5%	10,446.00	11,434.87
Tax rate (normal tax and MAT)	Normal Tax - 25.168%	Normal Tax - 25.168%	+ 2%	(580.08)	(520.00)
			- 2%	531.80	471.00
Inflation rate	Revenue(Esclable): 5.00%	Revenue(Esclable): 5.00%	+ 1%	(3,127.86)	(3,173.14)
	Expenses: 2.14% to 4.75%	Expenses: 2.46% to 4.84%	- 1%	2,574.20	2,604.90

Note 27B: Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Trust's assets and liabilities:

(Rs. in million)

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2023 and 31 March 2022:	Date of valuation	Fair value measurement using		
		Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets for which fair values are disclosed:				
Investment in subsidiaries (including loan to subsidiaries)	31 March 2023	-	-	2,26,879.67
	31 March 2022	-	-	2,06,398.37
Investments in mutual funds	31 March 2023	-	69.74	-
	31 March 2022	-	-	-

There have been no transfers among Level 1, Level 2 and Level 3.

*The Trust has entered into banking transactions in the nature of loans taken, fixed deposits made and interest thereof in the normal course of business with Axis Bank Limited in professional capacity.

Details in respect of related party transactions involving acquisition of InvIT assets as required by Para 4.4(b)(iv) of Section A of Annexure A to SEBI Circular dated 20 October 2016 are as follows:

For the year ended 31 March 2023:
(A) Summary of the valuation reports (issued by the independent valuer appointed under the InvIT Regulations):

(Rs in million)

Particulars	KgTL
Enterprise value	14,975
Method of valuation	Discounted Cash Flow
Discounting rate (WACC):	8.30%

(B) Material conditions or obligations in relation to the transactions:

Acquisition of Khargone Transmission Ltd (KgTL):

The Trust acquired 49% of paid up equity capital of Khargone Transmission Limited ("KgTL") with effect from 02 March 2023 from Sterlite Power Transmission Limited (SPTL)) (referred as "the seller") pursuant to Share Purchase Agreement dated 21 January 2023 ("SPA"). The Trust has finalised purchase consideration for acquisition of entire stake in KgTL and has entered into a binding agreement with the Seller to acquire remaining 51% paid up equity capital in KgTL from the Seller. The Trust has beneficial interest based on the rights available to it under the SPA.
Based on the contractual terms of the agreement, the Trust has following rights:

•Right to nominate all directors on the board of directors of the KgTL;
•Right to direct the selling shareholders to vote according to its instructions in the AGM/EGM or any other meeting of shareholders of KgTL;
•Non-disposal undertaking from the selling shareholders for the remaining 51% equity stake in KgTL;

Considering the requirements under Ind AS 110, the Group has assessed whether it controls KgTL on the basis the above rights under the agreement and the fact that the Group has acquired 49% and have paid for the balance 51% consideration (subject to certain agreed hold back amount). Based on the assessment, management has concluded that the Group controls KgTL in spite of the fact that it has acquired only 49% of the paid up capital of KgTL.

For the year ended 31 March 2022:

- No acquisition from related party for the year ended 31 March 2022.

(All amounts in Rs. million unless otherwise stated)

Note 29: Capital and other Commitments

The Trust and G R Infraprojects Limited ('GRIL') have entered into a framework agreement to acquire 100% stake in Rajgarh Transmission Limited.

Note 30: Contingent liability
The Trust has no contingent liability to be reported.

Note 31: Segment reporting

The Trust's activities comprise of owning and investing in transmission and solar SPVs to generate cash flows for distribution to unitholders. Based on the guiding principles given in Ind AS - 108 "Operating Segments", this activity falls within a single operating segment and accordingly the disclosures of Ind AS -108 have not separately been given.

Note 32: Details of Dues to Micro and Small Enterprises as defined under MSMED Act, 2006

Particulars	31 March 2023	31 March 2022
(i) The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year.		
Principal amount due to micro and small enterprises	1.58	-
Interest due on above	-	-
(ii) The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
(iii) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
(iv) The amount of interest accrued and remaining unpaid at the end of each accounting year.	-	-
(v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the Micro Small and Medium Enterprise Development Act, 2006	-	-

Interest payable as per section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 is Nil (31 March 2020: Nil). Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of intimations received from the "suppliers" / information available with the Company regarding their status under the Micro, Small and Medium Enterprises Act, 2006.

Note 33: Financial risk management objectives and policies

The Trust's principal financial liabilities comprise of borrowings and other financial liabilities. The main purpose of these financial liabilities is to finance the Trust's operations. The Trust's principal financial assets include investments, loans, cash and bank balances and other financial assets that derive directly from its operations.

The Trust may be exposed to market risk, credit risk and liquidity risk. The Investment Manager oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Trust's policy that no trading in derivatives for speculative purposes may be undertaken. The management reviews and agrees policies for managing each of these risks, which are summarised below.

The Risk Management policies of the Trust are established to identify and analyse the risks faced by the Trust, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Trust's activities.

Management has overall responsibility for the establishment and oversight of the Trust's risk management framework.

(A) Market risk
Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk such as equity price risk. Financial instruments affected by market risk include loans and borrowings and investments.

Price Risk
The Company invests its surplus funds in mutual funds which are linked to debt markets. The Company is exposed to price risk for investments in mutual funds that are classified as fair value through profit or loss. To manage its price risk arising from investments in mutual funds, the Company diversifies its portfolio. Diversification and investment in the portfolio is done in accordance with the limits approved by the Board of Directors. Reports on investment portfolio are submitted to the Company's senior management on a regular basis

Particulars	% change in market value	31 March 2023	31 March 2022
		Effect on loss before tax	Effect on loss before tax
Mutual funds	0.50%	0.35	-

Profit for the year would increase / decrease as a result of gains / losses on mutual funds classified as at fair value through profit or loss.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Trust's borrowings are at fixed rate, hence the Trust is not exposed to Interest rate risk.

Foreign currency risk
Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Trust did not have any exposure in foreign currency as at 31 March 2023 and 31 March 2022.

Equity price risk
The Trust's investments in equity shares of subsidiaries are susceptible to market price risk arising from uncertainties about future values of those investments. Reports on the equity portfolio are submitted to the senior management on a regular basis. The Board of Directors of the Investment Manager reviews and approves all equity investment decisions.
At the reporting date, the exposure to equity investments in subsidiary at carrying value was Rs. 42,916.7 million (31 March 2022: Rs. 41,578.06 million). Sensitivity analyses of significant unobservable inputs used in the fair value measurement are disclosed in Note 27A.

(B) Credit risk
Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Trust is exposed to credit risk from its investing activities including loans to subsidiaries, deposits with banks and other financial instruments. As at 31 March 2023 and 31 March 2022, the credit risk is considered low since substantial transactions of the Trust are with its subsidiaries.

(All amounts in Rs. million unless otherwise stated)

(C) Liquidity risk
Liquidity risk is the risk that the Trust may encounter difficulty in meeting its present and future obligations associated with financial liabilities that are required to be settled by delivering cash or another financial asset. The Trust's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral obligations. The Trust requires funds both for short term operational needs as well as for long term investment programs mainly in transmission projects. The Trust closely monitors its liquidity position and deploys a robust cash management system. It aims to minimise these risks by generating sufficient cash flows from its current operations, which in addition to the available cash and cash equivalents and liquid investments will provide liquidity.

The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The other financial liabilities are with short term durations. The table below summarises the maturity profile of the Trust's financial liabilities based on contractual undiscounted payments:

Particulars	Payable on demand	Less than 3 months	3 months to 12 months	1 to 5 years	More than 5 years	Total
31 March 2023						
Borrowings	-	-	9,256.73	1,11,751.00	23,923.58	1,44,931.31

Note 34: Capital management
For the purpose of the Trust's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Trust. The primary objective of the Trust's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Trust manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Trust may adjust the distribution to unitholders (subject to the provisions of InvIT regulations which require distribution of at least 90% of the net distributable cash flows of the Trust to unit holders), return capital to unitholders or issue new units. The Trust monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Trust's policy is to keep the gearing ratio optimum. The Trust includes within net debt, interest bearing loans and borrowings and other payables less cash and cash equivalents, other bank balances and short term investments.

Particulars	31 March 2023	31 March 2022
Borrowings	1,44,931.31	1,24,701.95
Less: Cash and cash equivalents	(1,949.33)	(7,846.97)
Net debt (A)	**1,42,981.98**	**1,16,854.98**
Unit capital	65,903.15	65,903.15
Other equity	3,296.07	2,293.62
Total capital (B)	**69,199.22**	**68,196.77**
Capital and net debt ((C) = (A) + (B))	**2,12,181.20**	**1,85,051.75**
Gearing ratio (A)/(C)	**67%**	**63%**

Financial Covenants
In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2023 and 31 March 2022.

Note 35: Subsequent event

On 12 May 2023, the Board of directors of the Investment Manager approved a distribution of Rs. 3.45 per unit for the period 01 January 2023 to 31 March 2023 to be paid on or before 15 days from the date of declaration.

Note 36: Other Information

(i) The Trust does not have any Benami property, where any proceeding has been initiated or pending against the Group for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder.

(ii) The Trust does not have any transactions with Companies struck off
(iii) The Trust have not traded or invested in cryptocurrency or Virtual Currency during the financial year

ANNEXURE C

AIFMD DISCLOSURES

This disclosure statement ("**Disclosure Statement**") contains either the information required by Article 23(1) of the AIFMD,
and Rule 3.2.2 Investment Funds sourcebook (each such Rule, "FUND") of the United Kingdom's Financial Conduct Authority's Handbook and Regulation 59 UK AIFMR to be made available to Bidders before they invest in IndiGrid or cross-refers to the relevant document that is available and which contains such information. This document refers to, and should be read in conjunction with, this Preliminary Placement Document. Terms used but not defined herein shall have the same meanings given to them in this Preliminary Placement Document.

AIFMD article	FUND	Information to be disclosed	Document and section where disclosed
23(1)(a)	3.2.2(1)	Investment strategy and objectives of the AIF	See "*Overview of IndiGrid – Investment Objectives*" and "*Our Business- Competitive Strengths".*
23(1)(a)	3.2.2(1)	Information on where master AIF is established and where the underlying funds are established	N/A; IndiGrid is neither a "feeder fund" nor a "fund of funds".
23(1)(a)	3.2.2(1)	Types of assets in which AIF may invest and any applicable investment restrictions	See "*Overview of IndiGrid – Investment Objectives*".
23(1)(a)	3.2.2(1)	The techniques the AIF, or the AIFM on its behalf, may employ and all associated risks	See "*Risk Factors*". See "*Our Business - Competitive Strengths".*
23(1)(a)	3.2.2(1)	Circumstances in which the AIF may use leverage, the types and sources of leverage permitted and the associated risks, restrictions on using leverage and any collateral and asset reuse arrangements	See "*Financial Indebtedness and Deferred Payments*". See "*Risk Factors*"
23(1)(a)	3.2.2(1)	Maximum level of leverage which the AIFM is entitled to employ on behalf of the AIF	See "*Financial Indebtedness and Deferred Payments".* The AIFM is entitled to employ a maximum leverage of 70% under the InvIT Regulations.
23(1)(b)	3.2.2(2)	Procedures by which the AIF may change its investment strategy or policy, or both	See "*Rights of Unitholders – Meeting of Unitholders"*
23(1)(c)	3.2.2(3)	Description of the main legal implications of the contractual relationship entered into for the purpose of investment including information on: jurisdiction; applicable law; and the existence or not of any legal instruments providing for the recognition and enforcement of judgments in the territory where the AIF is established.	An investor becomes a Unitholder by subscribing for or acquiring Units in IndiGrid and consequently becomes bound by the Amended and Restated Trust Deed in such investor's capacity as a Unitholder. The Amended and Restated Trust Deed is governed by the laws of India.
23(1)(d)	3.2.2(4)	Identity of the AIFM and description of its duties	The Investment Manager is the AIFM of IndiGrid. See "*Parties to IndiGrid – C. Investment Manager - IndiGrid Investment Managers Limited".*
23(1)(d)	3.2.2(4)	Identity of the AIF's depositary and description of its duties and the investors' rights	As a non-EEA AIF, IndiGrid is not required to have a depositary unless Bidders from certain EEA Member States acquire Units in IndiGrid pursuant to the national private placement regimes in such EEA Member States. The Investment Manager reserves the right to appoint a depositary if necessary. The duties of the depositary will be owed

AIFMD article	FUND	Information to be disclosed	Document and section where disclosed
			contractually to IndiGrid, the Investment Manager and accordingly the Unitholders in IndiGrid will have no direct rights against the depositary. As a non-UK AIFM of a non-UK AIF, the AIFM is not required to appoint a depositary in respect of investors admitted who are domiciled or have their registered office in the UK.
23(1)(d)	3.2.2(4)	Identity of the AIF's auditor and description of its duties and the Bidders' rights	As at the date of the Placement Document, S R B C & CO LLP, Chartered Accountants, will serve as the auditor to IndiGrid. The role of the auditor will be to undertake an annual audit of IndiGrid in accordance with Indian GAAS. The duties of the auditor will be owed contractually to IndiGrid and/or the Investment Manager and accordingly the Bidders in IndiGrid will have no direct rights against the auditor. See "*General Information*".
23(1)(d)	3.2.2(4)	Identity of AIF's other service providers and description of their duties and investors' rights	See "*Parties to IndiGrid* " and "*General Information*".
23(1)(e)	3.2.2(5)	Description of how the AIFM is protected against potential professional liability risks	As a non-EEA AIFM, the AIFM is not subject to Article 9(7) of the AIFMD which requires EEA AIFMs to cover professional liability risks. Nevertheless, the AIFM currently maintains such insurance sufficient to withstand the risks to which its business is subject as required. See "*Our Business - Insurance".*
23(1)(f)	3.2.2(6)	Description of any delegated management functions by the AIFM, identity of the delegate and description of related conflicts of interest	See "*Parties to IndiGrid – C. Investment Manager*"
23(1)(g)	3.2.2(7)	Description of the AIF's valuation procedure and of the pricing methodology for valuing assets, including the methods used in valuing hard-to-value assets in accordance with Article 19	IndiGrid has appointed S. Sundararaman as independent valuer - see "*Annexure A – Valuation Report*".
23(1)(h)	3.2.2(8)	Description of the AIF's liquidity risk management, including redemption rights of investors	Unitholders may only deal in their Units through trading on BSE or NSE. Unitholders will not have the right to redeem Units or require the redemption of Units by the Investment Manager.
23(1)(i)	3.2.2(9)	Description of all fees, charges and expenses and of the maximum amounts thereof which are directly or indirectly borne by investors	See "*Overview of Indigrid – Fees and expenses*"
23(1)(j)	3.2.2(10); 3.2.2(11)	Description of how the AIFM ensures a fair treatment of investors and a description of any	The principles of treating Unitholders fairly include, but are not limited to, acting in the best interest of IndiGrid

AIFMD article	FUND	Information to be disclosed	Document and section where disclosed
		preferential treatment or the right to obtain preferential treatment obtained by any investors	and the Unitholders; managing IndiGrid with regard to its objectives, investment policy and its risk profile; ensuring that fair, correct and transparent valuation models are used; preventing undue costs being charged to IndiGrid and Unitholders; taking all reasonable steps to avoid conflicts of interests and, when they cannot be avoided, identifying, managing, monitoring and, where applicable, disclosing those conflicts of interest to prevent them from adversely affecting the interests of Unitholders; and recognizing and dealing with complaints fairly.
23(1)(k)	3.2.2(14)	Latest annual report	March 31, 2025
23(1)(l)	3.2.2(12)	Procedure and conditions for this issue and sale of Interests	See "*Distribution*".
23(1)(m)	3.2.2(13)	Latest net asset value of the AIF	See "*Annexure A – Valuation Report*"
23(1)(n)	3.2.2(5)	Historical performance of the AIF, where available	See "*Summary of Consolidated Financial Statements*"
23(1)(o)	3.2.2(16)	Identity of the prime broker and a description of any material arrangements of the AIF with its prime brokers and the way the conflicts of interest in relation thereto are managed and information about any transfer of liability to the prime broker that may exist	IndiGrid does not have a prime broker.
23(1)(p)	3.2.2(6)	Description of how any changes to liquidity or leverage provisions of the AIF will be disclosed to Bidders	The information required pursuant to AIFMD Articles 23(4) and 23(5) will be set out in annual reports and notices issued by IndiGrid and notifications issued by the stock exchanges in India and SEBI.
23(2)	3.2.2(1)	Any arrangement made by the depositary to contractually discharge itself of liability and any changes with respect to depositary liability	As a non-EEA AIF, IndiGrid is not required to have a depositary unless Bidders from certain EEA member states acquire interests in IndiGrid pursuant to the national private placement regimes in such Member States. The Investment Manager reserves the right to appoint a depositary if necessary. The duties of the depositary will be owed contractually to IndiGrid and/or the Investment Manager and accordingly the Bidders in IndiGrid will have no direct rights against the depositary. As a non-UK AIFM of a non-UK AIF, the AIFM is not required to appoint a depositary in respect of investors admitted who are domiciled or have their registered office in the UK.
